A critical review and comparative analysis of cost ... It is important to develop a holistic cost management system to capture all the economic, social and environmental aspects of prefabricated construction. The aim of this research is to conduct a critical review and analysis of cost management in prefabricated construction holistically. **Towards methodological adventure in cost overrun research:** ... The findings from the deductive analysis demonstrated the link between poor geotechnical practices and cost overruns reinforcing the study's presupposition that a lack of adequate geo-technical risk management was fundamental to the extreme cost overruns recorded on the highway projects. **Improving construction management with decentralised ...** Introduction Construction projects form complex, networked and dynamic entities (Baccarini 1996, Bertelsen 2003) where success depends on effective production planning and control (henceforth PP&C) (Koskela 2000). PP&C is an essential part of production management that forms a process of deciding what and when to produce (and with which capacity and resources) and ... **Evaluation of the competitiveness of construction company ...** Abstract. The enhancement of the competitiveness of a construction company is one of the most important strategic objectives in construction industry. The company's management system, work organization and employment of available assets are some of the most important factors upon which overhead costs and the bidding price of a construction company depend directly. A ... **Toward predictive modelling of construction cost overruns ...** This research examines the effectiveness of support vector machines in predicting construction project cost overruns using data from archival records. The independent variables, like number of stories, gross floor area, change in scope, contract type, provisional sum, tendering type, and initial contract sum, were extracted from historical records. *Construction Management and Economics: New Directions* We intend to launch a new "management reviews" section, state-of-the art review papers which critically analyse work within a particular sub-field and which provide new perspectives on the basis of careful literature synthesis and analysis. Comparative analysis of managers' perception in overseas ... The cost overruns for infrastructure projects are affected by factors such as political, social, legal, and technical risks (Moghayedi and Windapo 2018). Construction companies can expect to increase their profitability, economic growth, and reputation in the global market owing to the expansion of international projects. Re-analysis, measurement and misperceptions of cost ... It is argued why the statistical analysis and their data reliability are misleading, thus leading to a discovery of six typical misperceptions. In contrast to those authors, this

paper shows cost overruns (Olympics 2000–2014) for direct non-OCOG investments in the range of 13–178%. **The causes of Olympic stadium cost overruns from 2000 to ...** This study aims to identify the causes of cost overruns in Olympic stadium construction over the period 2000–2020 through a qualitative document analysis. These overruns often stem from internal organizational errors. Therefore, we recommend conducting meticulous analyzes and adhering to consistently monitored plans overseen by an independent ... *Predicting project cost overrun levels in bidding stage using ...* The prediction performance for the cost overruns depends on not only valuable data but also model techniques. Specifically, the construction industry requires an analytical method that recognizes and screens projects expected to incur excessive cost overruns using both the data and techniques before contracts are finalized in the bidding stage. Practices and techniques for construction projects cost ... Numerous studies clarified how commonplace the problems of cost performance and overruns where a substantial percentage of projects between 30% and 40%, experience subpar cost performance and encounter cost overruns on a global scale [4], Also, through a comprehensive analysis of international building projects, found that the probability of overruns occurrence for ... **Evaluation of stakeholder impacts in cost-benefit analysis** The scope of the analyses of public and private investment projects is expanded beyond the traditional criteria and economic net present value. If the economic and financial analyses are carried out using a common measure, they can include issues of stakeholder impacts, poverty impacts, and an assessment of the long-term sustainability of project.
