The Adversity Formula Steven Mason, 2024-06-14 Early in the 2020 pandemic, author Steven Mason, seeking inspiration to help cope during the Covid-19 crisis, began to examine the lives of some of the great personalities from history. After considerable research, he discovered that many of these individuals had overcome significant adversity on their path to success. After sharing these stories with others, he was inspired to write this book. *The Adversity Formula: Inspirational Lessons from History* reviews the lives of thirty remarkable characters from history to see how they dealt with adversity. The book goes on to provide a formula that readers can themselves apply to their own lives. Selected mainly from the 20th Century, the fifteen men and fifteen women, include scientists, entrepreneurs, humanitarians, politicians, entertainers, sports stars and war heroes. The list contains well-known names like Stephen Hawking, Steve Jobs and Walt Disney but also features lesser-known profiles of Virginia Hall, Irena Sendler and Victor Frankl, a Holocaust survivor who, after his experiences in the concentration camps, developed a therapy to find meaning and purpose in adversity. The book looks at the adversity these greats faced, what they achieved despite it, but also, how they dealt with adversity, often using it to their advantage. Their coping mechanisms are summarised in five characteristics for each individual and packaged into a general formula for tackling life's problems. The conclusion found within these pages is that it is often how people respond to adversity, that can determine successful outcomes. *The Adversity Formula: Inspirational Lessons from History* will be particularly relevant to those interested in self-development, especially during difficult times, as well as those with a love of history. The book offers hope in the face of life's major challenges.

Their hearts and minds are replete with hope and bravery, and, above all, a spirit that could not be broken—even by the most horrific tragedy the world has ever seen.

Heroes Scott T. Allison, George R. Goethals, 2010-10-29 Abraham Lincoln, Princess Diana, Rick in Casablanca--why do we perceive certain people as heroes? What qualities do we see in them? What must they do to win our admiration? In *Heroes*, Scott T. Allison and George R. Goethals offer a stimulating tour of the psychology of heroism, shedding light on what heroism and villainy mean to most people and why heroes--both real people and fictional characters--are so vital to our lives. The book discusses a broad range of heroes, including Eleanor Roosevelt, Walt Kowalski in *Gran Torino*, Senator Ted Kennedy, and explorer Ernest Shackleton, plus villains such as Shakespeare's Iago. The authors highlight the Great Eight traits of heroes (smart, strong, selfless, caring, charismatic, resilient, reliable, and inspiring) and outline the mental models that we have of how people become heroes, from the underdog who defies great odds (David vs. Goliath) to the heroes who redeem themselves or who overcome adversity. Brimming with psychological insight, *Heroes* provides an illuminating look at heroes--and into our own minds as well.

Even those pages you remove somehow remain. - Elie Wiesel -- The opposite of love is not hate, it's indifference. The opposite of art is not ugliness, it's indifference. The opposite of faith is not heresy, it's indifference. And the opposite of life is not death, it's indifference. - Elie Wiesel
