A Companion to Spanish-American Literature Stephen M. Hart, 1999 There are also separate sections on the modernistas and postmodernismo, avant-garde poetry in the twentieth century, and the Boom novel. A final chapter is dedicated to an analysis of some recent developments within the Spanish-American literary canon, such as the post-Boom novel, with a separate section on women writers, 'testimonio', Latino literature, the gay/lesbian novel, and Afro-Hispanic literature.--BOOK JACKET.

*Voices in the Kitchen* Meredith E. Abarca, 2006-03-16 "Literally, chilaquiles are a breakfast I grew up eating: fried corn tortillas with tomato-chile sauce. Symbolically, they are the culinary metaphor for how working-class women speak with the seasoning of their food."—from the Introduction Through the ages and across cultures, women have carved out a domain in which their cooking allowed them to express themselves, strengthen family relationships, and create a world of shared meanings with other women. In *Voices in the Kitchen*, Meredith E. Abarca features the voices of her mother and several other family members and friends, seated at their kitchen tables, to share the grassroots world view of these working-class Mexican and Mexican American women. In the kitchen, Abarca demonstrates, women assert their own sazón (seasoning), not only in their cooking but also in their lives. Through a series of oral histories, or charlas culinarias (culinary chats), the women interviewed address issues of space, sensual knowledge, artistic and narrative expression, and cultural and social change. From her mother's breakfast chilaquiles to the most elaborate traditional dinner, these women share their lives as they share their savory, symbolic, and theoretical meanings of food. The charlas culinarias represent spoken personal narratives, testimonial autobiography, and a form of culinary memoir, one created by the cooks-as-writers who speak from their kitchen space. Abarca then looks at writers-as-cooks to add an additional dimension to the understanding of women's power to define themselves. *Voices in the Kitchen* joins the extensive culinary research of the last decade in exploring the importance of the knowledge found in the practical, concrete, and temporal aspects of the ordinary practice of everyday cooking.

**Latin-American Women Writers** Myriam Yvonne Jehenson, 1995-01-01 This book describes how Latin-American women

writers of all classes, from the beginning of the twentieth century to the present, ironize masculinist, classicist, and racist clichés in their narratives.

**What is Eating Latin American Women Writers** Renée Sum Scott, 2009 Latin American publications on weight and eating disorders abound, especially in the fields of psychology and sociology. However, there are only a few articles addressing these themes in the fictional work of Latin American women authors. *What Is Eating Latin American Women Writers* fills a theoretical void because it speaks to an ever-growing interest in Latin American literature about women, food, and the body. This study not only traces for the first time the historical development of the topics of food, eating consumption, and body image but also features well-known authors and others who are yet to be discovered in United States. The book contributes to the ongoing critical dialogue about women and food by offering an analysis of food, weight, and eating disorders in Latin American and Latina literary production.

**Short Fiction by Spanish-American Women** Evelyn Fishburn, 1998 Provides a grouping of Spanish-American short stories written by women, emphasizing their differences as much as their similarities. Bombal's *La historia de Maria Griselda* delves into the family tensions found in a country house in southern Chile. Somers' mordant, black humour is present in *El derrumbiento*, and *Leccion de cocina* is a humorous but pessimistic account of the profound changes that marriage demands from the Mexican middle-class woman.

*Festschrift* Rosario Castellanos, 1980

*Knives and Angels* Susan Bassnett, 1990-06 This book offers insights into a range of major Latin American women writers whose works are only just beginning to be known by English-speaking readers. The majority of Latin American writers now well-known to the English-speaking world are men; this collection of essays from a wide range of nationalities, aims to redress the balance by instead focusing on women's writing. Included are chapters on the impact of critics such as Victoria Ocampo, who changes the face of the Latin American literary scene; on Chilean playwrights, Nicaraguan revolutionary poets, Columbian women's writing; interviews with the novelist Margo Glantz, and with the film director Maria Luisa Bemberg. Also features are studies of such novelists as the starkly realist Elena Poniatowska, and the lyrically surrealist Maria Luisa Bombal; and an essay on Clarice Lispector by her official English language translator. This collection offers a variety of approaches and aims to demonstrate the extraordinary power and vitality of women writers selected from a wide range of Latin American countries- Argentina, Brazil, Chile, Colombia, Cuba, Mexico, among others - whose works are attaining international recognition. This is a book for interested general readers, especially those concerned with women writers, as

well as for literature students.
