Black Psychiatrists and American Psychiatry Jeanne Spurlock,1999 Presenting a vivid historical account of the contributions that black psychiatrists have made to American psychiatry, this important book documents the growth and influence of the group in tandem with the advancement of the field as a whole. It provides us with a deep appreciation for what these pioneers accomplished and the hurdles they overcame. Spurlock and the book's many distinguished contributors provide an overview of the history spanning generations and various areas of psychiatry. This volume documents early and contemporary pioneers and their contributions to modern psychiatry. Surveys of black psychiatrists in academia, child psychiatry, psychiatric research, forensic psychiatry, and psychoanalysis provide an enlightening view of their experiences. From a collection of descriptive essays, readers can step into the shoes of several pioneers and experience how they lived. These personal reflections provide enormous insight into the history of American psychiatry. Finally, the book addresses current mental health issues affecting African Americans as well as the barriers black psychiatrists face and the coping mechanisms they use. This work should be of particular interest to psychiatry students or residents and to anyone interested in the history of American psychiatry. It discusses the widening opportunities for professional growth for black psychiatrists and the important place black psychiatrists have reached in the present mental health arena.

Sick for Justice Michael Freemark, Leslie A. Falk, Kevin McDonald, Ed McConville, Mimi Conway, Allen Tullos, Peter Wood, Steve Hoffius, Roy Appleton, Hilary Hylton, Richard Couto, Linda Thalman, Bob Broedel, Dan Blumenthal, Joyce Goldstein, Helen M. Lewis, M.H. Ross, Barbara Berney, Matt Witt, Marc Miller, 1978 Three years ago, when I first met Talbert Faircloth and his wife, Dora, I found it very hard to believe the story that they told me. Talbert was sick at the time, and jobless and angry. Two years earlier he had been carried breathless out of the cotton mill on a stretcher, never to return to work again. I found it hard to believe that thousands of workers in the South's largest and oldest industry could have been afflicted by a crippling disease for years and not have known that they had it or even what caused it. In time, I learned that Talbert's story — like that of 35,000 other Southern textile workers — was so wrought with truth and so difficult for the region's most powerful industry to accept, that it had been suppressed and ignored for decades. A year ago, during a conference at Highlander Center in Tennessee, I first heard Les Falk recount his experiences as medical administrator for the United Mine Workers Health and Retirement Fund. The conference brought together doctors, nurses, organizers and health workers from across the South to discuss topics and articles for this health issue of *Southern Exposure* and to share common experiences in the health field. Les Falk's recollections of the UMW Fund's battles with entrenched coal company doctors during the early 1950s gave our gathering of Southern health activists a sense of rootedness in our region's tradition

of struggle and innovation in organizing health care.

Professional Education at Historically Black Colleges and Universities Tiffany Fountaine Boykin,Adriel Hilton,Robert Palmer,2017-08-07 This book focuses on the significant role that professional education programs play at historically Black colleges and universities (HBCUs) and these programs' impact on society. Chapter authors discuss the contexts and experiences of students who have attended these programs, including their relationships with faculty, research opportunities, professional growth, personal enrichment, and institutional support. Taking into account social supports, identity development, and doctoral student socialization patterns, this book sheds light on what development and status of such professional education programs mean for future research and practice, while emphasizing issues of race, oppression, and marginalization.

In the Country of the Old Jon Hendricks,2019-03-29 Aging is a universal experience, and an individual one. But it is also a cultural phenomenon. Our ethnic and social background has a strong influence on how we deal with growing old. This collection draws on research from around the world to explore how cultural context shapes and defines the aging process. Studies examine differing patterns in the lives of the aged in Portugal, Polynesia, Sweden, and Israel, and among ethnic groups in the United States.

Race and Restoration Barclay Key,2020-05-06 From the late nineteenth century to the dawn of the civil rights era, the Churches of Christ operated outside of conventional racial customs. Many of their congregations, even deep in the South, counted whites and blacks among their numbers. As the civil rights movement began to challenge pervasive social views about race, Church of Christ leaders and congregants found themselves in the midst of turmoil. In *Race and Restoration: Churches of Christ and the Black Freedom Struggle*, Barclay Key focuses on how these churches managed race relations during the Jim Crow era and how they adapted to the dramatic changes of the 1960s. Although most religious organizations grappled with changing attitudes toward race, the Churches of Christ had singular struggles. Fundamentally "restorationist," these exclusionary churches perceived themselves as the only authentic expression of Christianity, compelling them to embrace peoples of different races, even as they succumbed to prevailing racial attitudes. The Churches of Christ thus offer a unique perspective for observing how Christian fellowship and human equality intersected during the civil rights era. Key

reveals how racial attitudes and practices within individual congregations elude the simple categorizations often employed by historians. Public forums, designed by churches to bridge racial divides, offered insight into the minds of members while revealing the limited progress made by individual churches. Although the Churches of Christ did have a more racially diverse composition than many other denominations in the Jim Crow era, Key shows that their members were subject to many of the same aversions, prejudices, and fears of other churches of the time. Ironically, the tentative biracial relationships that had formed within and between congregations prior to World War II began to dissolve as leading voices of the civil rights movement prioritized desegregation.
