Ocean of Love, or Sea of Troubles? Geoffrey Harris, 2016-12-22 The title of Dr. Harris' book suggests that life is like a two-sided coin: it can be an Ocean of Love but can also be a Sea of Troubles. The subtitle clarifies this paradox: first, there are many signs of God's reality and activity in the world, and the first section of the book examines ways in which people are aware of God as both a creative and immanent presence in life. The signs of God are not philosophical proofs but empirical realities accessible to all people. In the second section, the biblical responses to suffering in the world are explored--through both Old and New Testaments. In the third section the writings of two modern apologists, C. S. Lewis and Philip Yancey, are assessed, and then finally there is a chapter of interviews with people who have known suffering in their lives.

All About Black Girl Love in Education Autumn A. Griffin, Yolanda Sealey-Ruiz, 2024-07-25 Drawing from bell hook's 1999 book All About Love, this volume builds on theories of love as they relate to Black Girlhood in education, shedding light on educational practices rooted in love and exploring strategies for centering Black girls and love in Grades K-12. Bringing together voices of scholars, poets, and visual artists who theorize Black Girlhood, the collection pays particular attention to practices, acts, communities, and pedagogies of love. An antidote to the physical, emotional, and psychological violence to which Black girls in the United States are subjected on a daily basis at the hands of those who work in schooling

environments, it shows how teachers, school leaders, community educators, and researchers might use love as a framework for changing the narrative and experiences of Black girls. Crucially, though, in conversation with negative aspects of how Black girls experience school, it argues for a shift in perspective that highlights the myriad of ways Black girls do and can receive love within schooling spaces. Read through one of the most influential Black feminist scholars of all time, it presents a novel alternative to the dearth of research that focuses on the violence, neglect, and exclusion Black girls experience in schools, expands the scholarship on Black girls, (re)centers love in the work that educators do, and connects theoretical orientations that characterize Black girl love to practice both in and outside of classrooms. It will appeal to scholars, researchers, and educators working in the fields on urban education, race and ethnicity in education, gender studies, literacy, multicultural education, and diversity and equity in education.

**The Sufi Path of Love** William C. Chittick, 1984-06-30 This is the most accessible work in English on the greatest mystical poet of Islam, providing a survey of the basic Sufi and Islamic doctrines concerning God and the world, the role of man in the cosmos, the need for religion, man's ultimate becoming, the states and stations of the mystical ascent to God, and the means whereby literature employs symbols to express unseen realities. William Chittick translates into English for the first time certain aspects of Rumi's work. He selects and rearranges Rumi's poetry and prose in order to leave aside unnecessary complications characteristic of other English translations and to present Rumi's ideas in an orderly fashion, yet in his own words. Thorough, nontechnical introductions to each chapter, and selections that gradually present a greater variety of terms and images, make this work easily accessible to those interested in the spirituality of any tradition.

*Love's Knowledge* Martha C. Nussbaum, 1990-11-15 This volume brings together Nussbaum's published papers on the relationship between literature and philosophy, especially moral philosophy. The papers, many of them previously inaccessible to non-specialist readers, deal with such fundamental issues as the relationship between style and content in the exploration of ethical issues; the nature of ethical attention and ethical knowledge and their relationship to written forms and styles; and the role of the emotions in deliberation and self-knowledge. Nussbaum investigates and defends a conception of ethical understanding which involves emotional as well as intellectual activity, and which gives a certain type of priority to the perception of particular people and situations rather than to abstract rules. She argues that this ethical conception cannot be completely and appropriately stated without turning to forms of writing usually considered literary rather than philosophical. It is consequently necessary to broaden our conception of moral philosophy in order to include these forms. Featuring two new essays and revised versions of several previously published essays, this collection attempts to articulate the relationship, within such a broader ethical inquiry, between literary and more abstractly theoretical elements.
