Japanese Culture Through Videogames Rachael Hutchinson, 2019-05-28 Examining a wide range of Japanese videogames, including arcade fighting games, PC-based strategy games and console JRPGs, this book assesses their cultural significance and shows how gameplay and context can be analyzed together to understand videogames as a dynamic mode of artistic expression. Well-known titles such as Final Fantasy, Metal Gear Solid, Street Fighter and Katamari Damacy are evaluated in detail, showing how ideology and critique are conveyed through game narrative and character design as well as user interface, cabinet art, and peripherals. This book also considers how 'Japan' has been packaged for domestic and overseas consumers, and how Japanese designers have used the medium to express ideas about home and nation, nuclear energy, war and historical memory, social breakdown and bioethics. Placing each title in its historical context, Hutchinson ultimately shows that videogames are a relatively recent but significant site where cultural identity is played out in modern Japan. Comparing Japanese videogames with their American counterparts, as well as other media forms, such as film, manga and anime, *Japanese Culture Through Videogames* will be useful to students and scholars of Japanese culture and society, as well as Game Studies, Media Studies and Japanese Studies more generally.

The Art of Ana Clavel JaneElizabeth Lavery, 2017-07-05 Ana Clavel is a remarkable contemporary Mexican writer whose literary and multimedia oeuvre is marked by its queerness. The queer is evinced in the manner in which she disturbs conceptions of the normal not only by representing outlaw sexualities and dark desires but also by incorporating into her fictive and multimedia worlds that which is at odds with normalcy as evinced in the presence of the fantastical, the shadow, ghosts, cyborgs, golems and even urinals. Clavel's literary trajectory follows a queer path in the sense that she has moved from singular modes of creative expression in the form of literary writing, a traditional print medium, towards other non-literary forms. Some of Clavel's works have formed the basis of wider multimedia projects involving collaboration with various artists, photographers, performers and IT experts. Her works embrace an array of hybrid forms including the audiovisual, internet-enabled technology, art installation, (video) performance and photography. By foregrounding the queer heterogeneous narrative themes, techniques and multimedia dimension of Clavel's oeuvre, the aim of this monograph is to attest to her particular contribution to Hispanic letters, which arguably is as significant as that of more established Spanish American boom *femenino* women writers.

The Strategic Environmental Assessment Directive Gregory Jones KC, Eloise Scotford, 2017-02-23 The Strategic Environmental Assessment Directive (Directive 2001/42/EC) (SEA Directive) has been a lurking legal presence in EU and UK environmental law. Now, just over a decade since its implementation, the impacts of the SEA Directive are beginning to be felt throughout the UK, and more broadly throughout the European Union as a whole. These developments have been driven both by the expansive interpretation of the Directive's scope by the Court of Justice of the European Union and by a slow learning process about how this new type of regulation should be legally interpreted and applied. This edited collection is the first volume to reflect comprehensively on the emerging legal identity of SEA in the EU and UK. With contributions addressing the impact of the SEA Directive on the fields of town and country planning and European environmental law, the book is a comprehensive analysis of all aspects of the Directive, from its history and scope, to its impact on governmental policy and its implications in practice. The volume both reflects on key cases such as Case C-567/10 *Inter-Environnement Bruxelles* and *HS2*, and looks forward, as it considers and projects future legal implications of the SEA Directive. Written by

a blend of distinguished academics and leading practitioners, it provides an in-depth critique and rounded appreciation of both the immediate practical effects of SEA and its wider impact on European and UK environmental law.

International Arbitration and the Rule of Law, 2017-09-22 Volume 19 of the Congress Series contains the proceedings of ICCA's 2016 Mauritius Congress, the first ICCA Congress held in Africa. In this volume, renowned practitioners, scholars and jurists from the region and around the world explore the contribution of arbitration to the rule of law and economic development; the conformity of arbitration with international standards of due process and the rule of law; and the benefits and challenges of arbitration in Africa. Topical issues of interest for practitioners, academics and students of arbitration - in the region and internationally - include: • Due process issues in constituting the arbitral tribunal and challenging its members • Interim measures issued by arbitral tribunals and domestic courts • Burden, standard and types of proof in the corruption defence • What to do (and what to avoid doing) to prepare a persuasive case • Do post-award remedies ensure conformity of the arbitral process with the rule of law? • Do rules and guidelines properly regulate the conduct of arbitration? • The interface between domestic courts and arbitral tribunals • What are appropriate remedies for findings of illegality in investment arbitration? • The effect of foreign national court judgments relating to the arbitral award • What does the future hold for investment arbitration in Africa and beyond?

Comparative Succession Law Kenneth Reid, Marius de Waal, Reinhard Zimmermann, 2015-08-27 Intestate Succession is the second volume in the Comparative Succession Law series which examines the principles of succession law from a comparative and historical perspective. This volume discusses the rules which apply where a person dies either without leaving a valid will, or leaving a will which fails to dispose of all of the person's assets. Among the questions considered are the following: What is the nature of the rules for the disposal of the deceased's assets? Are they mechanical or is there an element of discretion? Are particular types of property dealt with in particular ways? Is there entitlement to individual assets (as opposed to money)? Do the rules operate in a parentelic system or a system of some other kind? Are spouses treated more favourably than children? What provision is made for extra-marital children, for adopted children, for step-children? Does cohabitation give rise to entitlement? How are same-sex couples treated? Broader questions also arise of a historical and comparative nature. Where, for example, do the rules in intestate succession come from in particular legal systems? Have they been influenced by the rules in other countries? How are the rules explained and how are they justified? To what extent have they changed over time? What are the long-term trends? And finally, are the rules satisfactory, and is there pressure for their reform? As in the first volume, this book will focus on Europe and on countries which have been influenced by the European experience such as Australia, New Zealand, South Africa, the United States of America, Quebec, and the countries of Latin America. Further chapters are devoted to Islamic Law and Nordic law. Opening with a discussion on Roman law and

concluding with an assessment of the overall development of the law in the countries surveyed, this book will provide a wider reflection on the nature and purpose of the law of intestate succession.

In the Long Run Jonathan White, 2024-02-01 'Exhilarating' Financial Times 'Highly perceptive, engaging and somewhat startling' Literary Review 'A profound meditation on how and why democracy must keep its faith in the future and the future must keep its faith in democracy' David Runciman Democracy is future-oriented and self-correcting: today's problems can be solved, we are told, in tomorrow's elections. But the biggest issues facing the modern world - from climate collapse and pandemics to recession and world war - each apparently bring us to the edge of the irreversible. What happens to democracy when the future seems no longer open? In this eye-opening history of ideas, Jonathan White investigates how politics has long been directed by shifting visions of the future, from the birth of ideologies in the nineteenth century to Cold War secrecy and the excesses of the neoliberal age. As an inescapable sense of disaster defines our politics, White argues that a political commitment to the long-term may be the best way to safeguard democracy. Wide in scope and sharply observed, *In the Long Run* is a history of the future that urges us to make tomorrow new again.

La forma notarile digitale Riccardo Genghini, 2022-05-17 Gli atti notarili cartacei sono stati paradigmatici della forma scritta giuridica. Nella transizione al digitale si ripresentano le medesime esigenze di certezza che hanno decretato la centralità della funzione notarile per un millennio dal notariato longobardo in poi. Ma il passaggio dalla carta al bit non é solo un cambio di tecnica della documentazione, é una rivoluzione semiotica, un cambio di paradigma. È la richiesta di certezze dinamiche, immediatamente fruibili on-line. L'atto pubblico notarile da monumento al dogma della volontà negoziale dichiarata, a cruscotto di controllo e guida delle relazioni fra le parti.

#mm Net Art—Internet Art in the Virtual and Physical Space of Its Presentation Marie Meixnerová (Ed.), 2019-07-19 Black and white edition /// What is Net art? Does its name refer to the medium it uses? Is it the art of the Netizens, the inhabitants of the internet? Is it an art movement or an art form? This book aims to provide a starting point in the search for answers to these and similar questions concerning the existence of Net art. Edited by Marie Meixnerová, a Czech curator and scholar, #mm Net Art approaches Internet art as a developing art form, through five thematic sections that map the chronological stages of this development. Featured authors include Katarína Rusnáková, Dieter Daniels, Marie Meixnerová, Domenico Quaranta, Natalie Bookchin, Alexei Shulgin, Piotr Czerski, Brad Troemel, Artie Vierkant, Ben Vickers, Jennifer Chan, Gene McHugh, Gunther Reisinger, Matěj Strnad, Lumír Nykl. For those who know little about it, this anthology can serve as an introduction; to the expert reader, it offers new and as yet unpublished information, and hopefully a new perspective.

New Histories of Art in the Global Postwar Era Flavia Frigeri, Kristian Handberg, 2021-03-24 This book maps key moments in the history of postwar art from a global perspective. The reader is introduced to a new globally oriented

approach to art, artists, museums and movements of the postwar era (1945–70). Specifically, this book bridges the gap between historical artistic centers, such as Paris and New York, and peripheral loci. Through case studies, previously unknown networks, circulations, divides and controversies are brought to light. From the development of Ethiopian modernism, to the showcase of Brazilian modernity, this book provides readers with a new set of coordinates and a reassessment of well-trodden art historical narratives around modernism. This book will be of interest to scholars in art historiography, art history, exhibition and curatorial studies, modern art and globalization.

The Agricultural Cooperative in the Framework of the European Cooperative Society Georg Miribung, 2020-04-09 This book assesses the Statute for a European Cooperative Society (SCE) regarding agricultural activities by comparing how specific questions arising in this context must be dealt with under the Italian and Austrian legal systems. In this regard, Council Regulation (EC) No. 1435/2003, of 22 July 2003, on the Statute for a European Cooperative Society (SCE), is used as a tool for the structured analysis of various aspects of agricultural cooperatives. However, a comparison is only meaningful if the results are made comparable on the basis of a previously defined standard. Accordingly, the study uses, on one hand, a cooperative model developed by European legal scholars that defines general guidelines on how cooperatives should function (PECOL). On the other, the results are presented in connection with economic considerations to discuss how efficient rules can be developed.

Environment Conscious Manufacturing Surendra M. Gupta, A.J.D. (Fred) Lambert, 2007-12-19 Hotter temperatures, less arctic ice, loss of habitat—every other day, it seems, global warming and environmental issues make headlines. Consumer-driven environmental awareness combined with stricter recycling regulations have put the pressure on companies to produce

and dispose of products in an environmentally responsible manner. Redefining indus

The Conventions on the Privileges and Immunities of the United Nations and its Specialized Agencies August Reinisch, Peter Bachmayer, 2016-03-24 The Convention on the Privileges and Immunities of the United Nations and the Convention on the Privileges and Immunities of the Specialized Agencies entered into force more than 60 years ago. This Commentary offers for the first time a comprehensive discussion covering both Conventions in their entirety, providing an overview of academic writings and jurisprudence for a legal field of particular practical relevance and gives both the academic researcher as well as the practitioner a unique source to understand the complexity of legal issues that the UN, its Specialized Agencies, their officials, Member States' representatives, and experts face in today's world.

Privacy and Data Protection Law in Italy Paolo Balboni, 2024-10-23 Derived from the renowned multi-volume International Encyclopaedia of Laws, this practical guide to privacy and data protection law in Italy covers every aspect of the subject, including the protection of private life as a fundamental - constitutional - right, the application of international and/or regional conventions protecting the right to privacy, privacy rights in the context of electronic communications or at the workplace, and the protection of individuals regarding the processing of personal data relating to them. Following a general introduction about the country, the monograph assembles its information and guidance in two parts: (1) protection of privacy, including national case law regarding the protection of this fundamental right, specific legislation on the confidentiality of interpersonal communications, and sector-specific rules regarding privacy protection, such as privacy rights of employees, patients, consumers or celebrities; (2) personal data protection, including not only general rules on data quality, legitimate processing, data retention, data subject rights, security and accountability, but also specific provisions regarding the processing of health data or other sensitive personal information, further processing for research purposes, exemptions for law enforcement or national security purposes, and rules regarding liabilities, sanctions and redress.

Color in the Age of Impressionism Laura Anne Kalba, 2017-04-21 This study analyzes the impact of color-making technologies on the visual culture of nineteenth-century France, from the early commercialization of synthetic dyes to the Lumière brothers' perfection of the autochrome color photography process. Focusing on Impressionist art, Laura Anne Kalba examines the importance of dyes produced in the second half of the nineteenth century to the vision of artists such as Edgar Degas, Pierre-Auguste Renoir, and Claude Monet. The proliferation of vibrant new colors in France during this time challenged popular understandings of realism, abstraction, and fantasy in the realms of fine art and popular culture. More than simply adding a touch of spectacle to everyday life, Kalba shows, these bright, varied colors came to define the development of a consumer culture increasingly based on the sensual appeal of color. Impressionism—emerging at a time when inexpensively produced color functioned as one of the principal means by and through which people understood modes of visual perception and signification—mirrored and mediated this change, shaping the ways in which people made sense of

both modern life and modern art. Demonstrating the central importance of color history and technologies to the study of visuality, *Color in the Age of Impressionism* adds a dynamic new layer to our understanding of visual and material culture.
