The Handbook of Knots Des Pawson, 1998 This practical guide to tying more than 100 different kinds of knots features step-by-step, illustrated instructions for each knot, plus information about the construction, storage, maintenance, and usage of rope. 800 photos & illustrations. Charts.

My First Book of Knots Berndt Sundsten, Jan Jäger, 2009-06-23 Create memories and embark on the journey of knot tying together. Learn how to tie knots you can use in fishing, camping, ranching, farming, and more. What is more memorable than a child first learning to tie his shoes? Or wrapping his first Christmas presents? Knots aren't easy to learn, but they are very helpful—whether you are five years old, ten years old, or even fifty years old. Here is a children's picture book that will help parent and child learn together by simplifying the craft and bringing the reader into the world of knots through beautiful, detailed illustrations. *My First Book of Knots* is a landmark gift that will impact children (and craft-loving adults) with hours of fun and a lifetime of skills. You'll learn how Santa Claus ties up his sack full of presents and how to tie a knot that will make it easy to carry heavy objects. Every step of each knot is drawn out for you and includes clearly written instructions. After you read this book, you can save the day with a square knot and wow your friends with a double figure eight bend.

The Ashley Book of Knots Clifford Warren Ashley, 1960 Knoten.

Pocket Book of Knots Maria Constantino, 2002-01 This small book is jam-packed with information on every kind of practical and decorative loop, coil, wrap, noose, and tie you can make--along with facts on ropes and cordage and groups of color photographs that show in easy-to-follow detail how to do each type. You probably already know some of the basic ones, but not their names or what they're used for: the overhand or thumb knot, which works as a simple stopper; double, triple, or multiple overhands for extra strength; a half hitch, which forms the starting point of more complex knots; and others. Need something more specialized? Try knots for camping (like the perfection loop for securing tents), climbing (the alpine butterfly and tarbuck), angling (a four-stage blood bight or palomar), sailing (a heaving-line bend and bowline, to name two), and household use. Craft knots, primarily for beauty rather than strength, include the very attractive Turk's head--which even

fascinated Leonardo da Vinci. Best of all, this little volume can go with you anywhere, tucked into a pocket, so you'll always have the information you need, whether you're roughing it in the woods for a weekend, heading out for a cruise, or seeing if the fish are jumping
