African American Grief Paul C. Rosenblatt, Beverly R. Wallace, 2021-08-11 *African American Grief* is a unique contribution to the field, both as a professional resource for counselors, therapists, social workers, clergy, and nurses, and as a reference volume for thanatologists, academics, and researchers. The classic edition includes a new preface from the authors reflecting on their work and on the changes in society and the field since the book's initial publication. This work considers the potential effects of slavery, racism, and white ignorance and oppression on the African American experience and conception of death and grief in America. Based on interviews with 26 African Americans who have faced the death of a significant person in their lives, the authors document, describe, and analyze key phenomena of the unique African American experience of grief. The book combines moving narratives from the interviewees with sound research, analysis, and theoretical discussion of important issues in thanatology, as well as topics such as the influence of the African American church, gospel music, family grief, medical racism as a cause of death, and discrimination during life and after death.

Family Ties Avery Nightingale, 2024-05-29 In *Family Ties: Strengthening Bonds Across Generations*, Avery Nightingale explores the profound impact of aging on family dynamics and societal structures. As advances in healthcare and lifestyle lead to longer lifespans, the percentage of the global population over 65 is set to triple by 2050. Nightingale delves into the complexities of these demographic shifts, emphasizing the importance of policies that respect the dignity and autonomy of the elderly while fostering intergenerational support systems. This insightful work highlights the need for a holistic understanding of social structures and living arrangements to create communities where knowledge, experiences, and care are shared across generations. *Family Ties* is a compelling call to action for nations to recognize and adapt to the demographic, economic, and cultural dimensions of our aging population, ensuring that families remain strong and

interconnected in an ever-evolving world.

Martin Luther as Comforter: Writings on Death Neil Leroux, 2007-06-30 What was Martin Luther's teaching regarding death, and to what extent did his own fears of and experiences with death manifest themselves in his writings? What influence did the medieval preoccupation with a 'good death' have upon him? How did Luther counsel those facing death—to meet it with acceptance, or resistance, or both? Using meticulous rhetorical analysis of select sermons, pamphlets, and letters of consolation, this book examines how Luther offered comfort to those who were facing their own death or who were coming to terms with the death of loved ones. Thus the book makes an important contribution to existing scholarship on Luther and the formation of an early modern Protestant ethos surrounding death, bereavement, and burial.

Grief, Transition, and Loss Wayne Edward Oates, In his creative pastoral care and counseling series, veteran counselor Wayne Oates shares ideas from a lifetime of ministry. Oates focuses on life situations in addition to death that can cause grief, depression, and a sense of loss, such as divorce, job change, or relocation. More common than ever in today's world, these events offer opportunities for personal caregiving by ministers, friends, and family members.

Grandparents Ursula A. Falk, 2010-12 What image comes to mind when we hear the term grandparents? Too often it is the Norman Rockwell view of innocuous, kindly white-haired folk or, conversely, the negative stereotype of doddering dim-witted burdens confined to nursing homes. Unfortunately, such notions shortchange not only older people but younger generations as well, who may never realize how much grandparents have to offer. This informative, well-researched book aims to add some perspective and depth to the stick-figure images of grandparents promulgated by contemporary culture. Psychotherapist Ursula Falk and sociologist Gerhard Falk provide an illuminating overview of the many facets of being a grandparent in today's society. Among the topics discussed are the history of the grandparent role and its evolution, social forces that have affected the American family including grandparents, the distinctly different roles of grandmother and grandfather, the parental responsibilities that grandparents today are often forced to assume for their grandchildren in the absence of the children's parents, the ways in which other cultures treat grandparents, the usually negative and stereotypical depiction of grandparents in the media and in literature, and finally the supporting role that grandparents play with authentic examples. Also included is an appendix outlining the legal rights of grandparents. The authors stress that grandparents must be seen as individuals with their own lives to lead and that society needs to reassess the value of the elderly. Ursula Adler Falk, Ph.D. (Kenmore, NY), is a psychotherapist in private practice and a nursing home consultant. She is the author of a number of books, including *On Our Own: Independent Living for Older Persons*. Gerhard Falk, Ph.D., is professor of sociology at the State University of New York College in Buffalo, NY, and the author of many books, including *Stigma: How We Treat Outsiders*.

Indian Diaspora Amarjit Singh, 2014-02-07 This book celebrates both the past and present existence of the Indian diasporic grandparents who live their daily lives in different countries – the United Kingdom, the United States, Canada, South Africa, Fiji, Mauritius, Australia, Suriname and Malaysia – and in different economic, social, cultural, religious contexts and specific household and family situations. The achievements of the few rich and the famous Indians living in diaspora have been given the celebratory treatment; similar status is not often given to the achievements of the diasporic Indian grandparents. However, “the vanquished and the victors, the subalterns and the sahibs, have equal claims on our attention ... clearly there are areas where Indian communities have been settled for long periods of time ... without having a significant effect on the countries of their residence ... [but] they, too are integral parts of the diaspora” (Brij Lal, Peter Reeves & Rajesh Rai, 2006, p. 15). This book is about voices of contemporary Indian grandparents and their grand parenting practices. The diasporic Indian grandparents are engaged in keeping diverse “Indian families” and “communities” as strong as possible in the current era of globalization process and social policy initiatives that are dominated by the ideology of neo-liberalism. This book claims that the diasporic Indian grandparents have significant effects on the countries of their residence and too are integral parts of the Indian diaspora who deserve the celebratory treatment and status. The book can be used for courses in the areas of critical social work, family studies, gerontology, nursing, rural development, critical pedagogy, and diaspora studies. “A veritable archive of stories, anecdotes, memories and reminiscences, of love, longing and search for a legacy, by diasporic Indian grandparents across the globe as they transgress boundaries in a socially porous world, negotiate generational differences complicated by the realities of modern living, cross cultures and seek to preserve connections between the past, the present and the future. A necessary contribution to the growing literature in the life of the Indian diaspora.” Brij V. Lal Professor of Pacific and Asian History, The Australian National University & General Editor, Encyclopedia of the Indian Diaspora

[RETRACTED] Voices of Social Justice and Diversity in a Hawai’i Context, 2019-09-24 [RETRACTED] This book offers collective and individual voices of grandparents and grandchildren of diverse backgrounds who live in Hawaii. Its focus is on the significant roles grandparents’ and family members’ legacies play in promoting social justice and the well-being of all.

Reunited Ernesto Castañeda, Daniel Jenks, 2024-05-08 In the second decade of the twenty-first century, an increasing number of children from El Salvador, Honduras, and Guatemala began arriving without parents at the U.S.-Mexico border. In many cases, the parents had left for the United States years earlier to earn money that they could send back home. In Reunited sociologists Ernesto Castañeda and Daniel Jenks explain the reasons for Central American youths’ migration, describe the journey, and document how the young migrants experience separation from and subsequent reunification with their families. In interviews with Central American youth, their sponsors, and social services practitioners in and around

Washington, D.C., Castañeda and Jenks find that Central American minors migrate on their own mainly for three reasons: gang violence, lack of educational and economic opportunity, and a longing for family reunification. The authors note that youth who feel comfortable leaving and have feelings of belonging upon arrival integrate quickly and easily while those who experience trauma in their home countries and on their way to the United States face more challenges. Castañeda and Jenks recount these young migrants' journey from Central America to the U.S. border, detailing the youths' difficulties passing through Mexico, proving to U.S. Customs and Border Protection officials that they have a legitimate fear of returning or are victims of trafficking, and staying in shelters while their sponsorship, placement, and departure are arranged. The authors also describe the tensions the youth face when they reunite with family members they may view as strangers. Despite their biological, emotional, and financial bonds to these relatives, the youth must learn how to relate to new authority figures and decide whether or how to follow their rules. The experience of migrating can have a lasting effect on the mental health of young migrants, Castañeda and Jenks note. Although the authors find that Central American youths' mental health improves after migrating to the United States, the young migrants remain at risk of further problems. They are likely to have lived through traumatizing experiences that inhibit their integration. Difficulty integrating, in turn, creates new stressors that exacerbate PTSD, depression, and anxiety. Consequently, schools and social service organizations are critical, the authors argue, for enhancing youth migrants' sense of belonging and their integration into their new communities. Bilingual programs, Spanish-speaking PTA groups, message boards, mentoring of immigrant children, and after-school programs for members of reunited families are all integral in supporting immigrant youth as they learn English, finish high school, apply to college, and find jobs. Offering a complex exploration of youth migration and family reunification, *Reunited* provides a moving account of how young Central American migrants make the journey north and ultimately reintegrate with their families in the United States.

Calling All Years Good Kathleen A. Cahalan, Bonnie J. Miller-McLemore, 2017-07-05 A uniquely comprehensive discussion of vocation from infancy to old age Do infants have a vocation? Do Alzheimer's patients? In popular culture, vocation is often reduced to adult work or church ministry. Rarely do we consider childhood or old age as crucial times for commencing or culminating a life of faith in response to God's calling. This book addresses that gap by showing how vocation emerges and evolves over the course of an entire lifetime. The authors cover six of life's distinct seasons, weaving together personal narrative, developmental theory, case studies, and spiritual practices. *Calling All Years Good* grounds the discussion of vocation in concrete realities and builds a cohesive framework for understanding calling throughout all of life.

Death in the Classroom Jeffrey Berman, 2009-01-08 Shows how death education can be brought from the healing professions to the literature classroom.

Death and Dying John F. Szabo, 2009-11-02 While it can be traced to the 1700s, the term thanatology has gained traction in recent decades to refer to the study of death. Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs, finding and identifying monographic material on death, dying, grief, and bereavement can be extremely challenging. Although there have been several bibliographical resources published on thanatology, those titles were incomplete, limited in scope, or leaned heavily toward one area of the field. In *Death and Dying: An Annotated Bibliography of the Thanatological Literature*, John F. Szabo provides more than 2,200 citations of monographs on the science and study of death and dying. Among the areas this volume addresses are the psychological, philosophical, and attitudinal aspects; coping and dealing with the burdens of caregiving and working in the helping professions; instructional and educational topics for practitioners, primarily health care providers; cultural differences in bereavement rituals; and grief, mourning, and loss. In addition, notable titles on or relating to death and dying in popular culture, death themes in literature, methods of death, or specific ethical, policy, or public issues are also included when they contribute important information to subject areas on which the book focuses. This book will be helpful to students, researchers, academics, caregivers, health care professionals, psychologists, social workers, and anyone with an interest in death, dying, bereavement, or the care of the terminally ill.

Death, Mourning and Caring Robert L. Marrone, 1997 This text, while strongly academic, comprehensive, practical, and contemporary, offers an exceptionally warm and personalized writing style appropriate to the subject matter. It offers both a multi-disciplinary approach and a cross-cultural perspective. Unique Caring Insight feature supplies practical, helpful, tips for the reader. Chapter 12, Resources, is a comprehensive guide to organizations, periodicals, books, and Web sites.

Children of the Earth Anna Schumacher, 2015-06-02 Plenty of crowd-pleasing death and destruction...Schumacher wraps up her story with a literal bang. --Booklist Seven signs warned them. Now it's time for Carbon County to fight back. In *End Times*, Daphne lost herself in love with Owen, only to discover the dark secret that puts Carbon County at ground zero for the end of days. . . . All thirteen of the Children of Earth have arrived and taken root in town. Together at last, they can perform the series of rituals necessary to awaken their father, a wrathful entity known as the God of the Earth. Daphne protects their identities from Pastor Ted and the God-fearing locals out of love and allegiance to Owen. But when people start disappearing from town and Daphne begins receiving visions from God, her allegiance—and even her love—is brought into question in this astonishing companion novel to *End Times*.

Stranger In My Heart Mary Monro, 2018-06-09 *Stranger In My Heart* is about the search for understanding oneself, answering the question "Who am I?" by seeking to understand the currents that sweep down the generations, eddy through one's own persona and continue on - palpable but often unrecognised. My father fought at the Battle of Hong Kong in December 1941, was taken prisoner by the Japanese and then escaped in February 1942, making his way across 1200 miles

of inhospitable country to reach China's wartime capital at Chongqing. Seventy years later I retraced his steps in an effort to understand a man who had died when I was 18, leaving a lot of unanswered questions behind. My book is the quest that I undertook to explore my father's life, in the context of the Pacific War and our relationship with China. A picture of a man of the greatest generation slowly unfolds, a leader, a 20th Century Great, but a distant father. As I delve into his story and research the unfamiliar territory of China in the Second World War, the mission to get to know the stranger I called 'Dad' resolves into a mission to understand how my own character was formed. As I travel across China, the traits I received from my father gradually emerge from their camouflage. The strands of the story are woven together in a flowing triple helix, with biography, travelogue and memoir punctuated with musings on context and meaning.

The Devil's Children Professor Jean La Fontaine, 2013-06-28 A number of cases of serious child abuse have resulted from beliefs that children may be possessed by evil spirits and may then be given the power to bewitch others. Misfortune, failure, illness and even death may be blamed on them. The 'cure', nowadays called deliverance rather than exorcism, is to expel the spirits, sometimes by violent means. This book draws together contributions on aspects of possession and witchcraft from leading academics and expert practitioners in the field. It has been put together following conferences held by Inform, a charity that provides accurate information on new religions as a public service. There is no comparable information publicly available; this book is the first of its kind. Eileen Barker, founder of Inform, introduces the subject and Inform's Deputy Director goes on to detail the requests the charity has answered in recent years on the subject of children, possession and witchcraft. This book offers an invaluable resource for readers, whether academic or practitioner – particularly those in the fields of the safeguarding of children, and their education, health and general welfare.

Social Work Diagnosis in Contemporary Practice Francis J. Turner, 2005-02-10 The unifying theme of this broad-reaching volume is that responsible, ethical, and effective social work practice rests on the diagnostic skills of the practitioner. Social work diagnosis refers to the conscious formulation of an ongoing set of decisions about the client and his or her situation, which serve as the basis for intervention-decisions for which the practitioner must be prepared to take responsibility. Diagnostic skill development is an ongoing process principally enhanced by a continuous commitment to remain at the cutting edge of the profession's body of knowledge, but one of the challenges for today's practitioner is keeping abreast of the rapidly expanding body of knowledge contained in some 200 important social work periodicals in circulation. Francis J. Turner, a preeminent clinical scholar, brings together in one volume some of the best work published since 2000, each reflecting new insights into understanding psychosocial situations and innovative methods of applying knowledge and skills in an increasingly effective manner. Each of the 78 articles in this volume highlights some of the critical dimensions of contemporary social work practice, guiding clinicians to address four key aspects in order to craft an accurate diagnosis. The first section presents articles covering the developmental spectrum, each of which fully explains various ages and stages of

development. The second section focuses on a range of specific situations, helping practitioners and students enrich their understanding of different types of problems they meet in contemporary practice, whether they are based in mental illness, psychosocial issues, or physical ailments. The third section addresses the crucial component of diversity, demonstrating the complexity and critical importance of truly understanding clients and their lives. The last section of the book discusses innovative approaches to practice, selected to offer practitioners easy access to the latest interventions for a host of contemporary challenges facing clients and their therapists. Broad in scope and tightly focused on the goal of providing the most up-to-date information necessary for accuracy in the diagnostic process, this volume represents some of the best research available to today's social workers.
