*The Art of Peace* Morihei Ueshiba, 2023-12-12 The inspirational teachings in this collection show that the real way of the warrior is based on compassion, wisdom, fearlessness, and love of nature. The teachings are drawn from the talks and writings of Morihei Ueshiba, founder of the popular Japanese martial art of Aikido, a mind-body discipline he called the Art of Peace, which offers a nonviolent way to victory in the face of conflict. Ueshiba believed that Aikido principles could be applied to all the challenges we face in life—in personal and business relationships, and in our interactions with society. This is an expanded version of the original miniature edition that appeared in the Shambhala Pocket Classics series. It features a new introduction by John Stevens, recently translated doka, didactic poems of the Way, and Ueshiba's own calligraphy.

**The Art of Peace** Juliana Geran Pilon, 2017-07-05 Sun Tzu, author of 'The Art of War', believed that the acme of leadership consists in figuring out how to subdue the enemy with the least amount of fighting—a fact that America's Founders also understood, and practiced with astonishing success. For it to work, however, a people must possess both the ability and the willingness to use all available instruments of power in peace as much as in war. US foreign policy has increasingly neglected the instruments of civilian power and become overly dependent on lethal solutions to conflict. The steep rise in unconventional conflict has increased the need for diplomatic and other non-hard power tools of statecraft. The United States can no longer afford to sit on the proverbial three-legged national security stool (military, diplomacy, development), where one leg is a lot longer than either of the other two, almost forgetting altogether the fourth leg—information, especially strategic communication and public diplomacy. The United States isn't so much becoming militarized as DE civilianized. According to Sun Tzu, self-knowledge is as important as knowledge of one's enemy: if you know neither yourself nor the enemy, you will succumb in every battle. Alarming, the United States is deficient on both counts. And though we can stand

to lose a few battles, the stakes of losing the war itself in this age of nuclear proliferation are too high to contemplate.

The Art of War in an Age of Peace Michael O'Hanlon, 2021-05-25 An informed modern plan for post-2020 American foreign policy that avoids the opposing dangers of retrenchment and overextension Russia and China are both believed to have “grand strategies”—detailed sets of national security goals backed by means, and plans, to pursue them. In the United States, policy makers have tried to articulate similar concepts but have failed to reach a widespread consensus since the Cold War ended. While the United States has been the world’s prominent superpower for over a generation, much American thinking has oscillated between the extremes of isolationist agendas versus interventionist and overly assertive ones. Drawing on historical precedents and weighing issues such as Russia’s resurgence, China’s great rise, North Korea’s nuclear machinations, and Middle East turmoil, Michael O’Hanlon presents a well-researched, ethically sound, and politically viable vision for American national security policy. He also proposes complementing the Pentagon’s set of “4+1” pre-existing threats with a new “4+1”: biological, nuclear, digital, climatic, and internal dangers.

The Art of Law Stefan Huygebaert, Georges Martyn, Vanessa Paumen, Eric Bousmar, Xavier Rousseaux, 2018-09-27 The contributions to this volume were written by historians, legal historians and art historians, each using his or her own methods and sources, but all concentrating on topics from the broad subject of historical legal iconography. How have the concepts of law and justice been represented in (public) art from the Late Middle Ages onwards? Justices and rulers had their courtrooms, but also churches, decorated with inspiring images. At first, the religious influence was enormous, but starting with the Early Modern Era, new symbols and allegories began appearing. Throughout history, art has been used to legitimise the act of judging, but artists have also satirised the law and the lawyers; architects and artisans have engaged in juridical and judicial projects and, in some criminal cases, convicts have even been sentenced to produce works of art. The book illustrates and contextualises the various interactions between law and justice on the one hand, and their artistic representations in paintings, statues, drawings, tapestries, prints and books on the other.

**Earthmoving** Eray Çaylı, 2025-11-18 Focuses on contemporary art and media to examine the role of visuals in environmental violence and war in Northern Kurdistan. Extractivism—exploiting the earth for resources—has long driven racial capitalism and colonialism. And yet, how does extractivism operate in a world where ecological and humanitarian sensibilities are unprecedentedly widespread? Eray Çaylı argues it does so by mobilizing these sensibilities in new ways. Extractivism is no longer only about moving the earth—displacing peoples, fossils, minerals, and waters—but also leaving those who witness this violent displacement sentimentally moved. Earthmoving conceptualizes this duality. Derived from Çaylı's years-long work in Northern Kurdistan, home to the world's largest stateless nation—rendered stateless by colonial policies since the nineteenth century—Earthmoving focuses on the 2010s, a decade that began with peace talks between Turkey and the Kurdish liberation movement but ended with war. The decade saw extractivism intensify in the region and images of its harm proliferate across art and media. Together with contemporary artists, Çaylı shows that images challenge extractivism both by making its harm visible and fostering self-reflexive and reciprocal collaboration that breaks with its valuation of the colonized and the racialized only in quantifiable and marketable terms.

The Art of War. The Prince Sun Tzu, Niccolo Machiavelli, 2021-06-24 *The Art of War*, literally *The Laws of War* (military methods) by Master Sun is the most famous ancient Chinese treatise, dedicated to a military strategy and policy, written by Sun Tzu. The treatise by Sun Tzu influenced crucially on a whole military art of the East. Although it is the first treatise on the military art, it includes clearly expressed common principles of strategy as well as tactics. A special place in a military theoretical literature belongs to comments on Sun Tzu, the earliest of which appeared in the Han era (206-220 AD), and the new ones are still being created... *The Prince* is a 16th-century political treatise by the Italian diplomat and political theorist Niccolo Machiavelli. From correspondence a version appears to have been distributed in 1513, using a Latin title, *De Principatibus* (Of Principalities). However, the printed version was not published until 1532, five years after Machiavelli's death. This was done with the permission of the Medici pope Clement VII, but «long before then, in fact since the first

appearance of The Prince in manuscript, controversy had swirled about his writings». The Prince is sometimes claimed to be one of the first works of modern philosophy, especially modern political philosophy, in which the effective truth is taken to be more important than any abstract ideal. It was also in direct conflict with the dominant Catholic and scholastic doctrines of the time concerning politics and ethics.
