Seth Speaks (A Seth Book) Jane Roberts, 2012-04-01 One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential, and the concept that we all create our own reality according to our individual beliefs. Having withstood the test of time, it is still considered one of the most dynamic and brilliant maps of inner reality available today. "The Seth books present an alternate map of reality with a new diagram of the psyche . . . useful to all explorers of consciousness." — Deepak Chopra "Seth was one of my first metaphysical teachers. He remains a constant source of knowledge and inspiration in my life." — Marianne Williamson "I would like to see the Seth books as required reading for anyone on their spiritual pathway. The amazing in-depth information in the Seth books is as relevant today as it was in the early '70s when Jane Roberts first channeled this material." — Louise Hay

Habla Seth Jane Roberts, 1998 Seth le desveló secretos acerca de la vida y la muerte, del universo más allá de los sentidos, del alma, de la reencarnación, del pensamiento y de la materia. Si creéis firmemente que vuestra conciencia está encerrada en algún lugar de vuestra cabeza y es incapaz de escaparse de ahí... si pensáis que vuestra conciencia termina en los límites de vuestro cuerpo, quiere decir que os valoráis poco y pensaréis que soy una ilusión. Pero yo no lo soy más de lo que podáis serlo vosotros.

The Individual and the Nature of Mass Events Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks Speaking exclusively through Jane Roberts, Seth has repeatedly stressed the concept that we create our own reality according to our individual beliefs. But how do our realities merge and combine to form mass reactions such as the overthrow of governments, the birth of a new religion, wars, epidemics, earthquakes, and new periods of art, architecture, and technology? In this pioneering work, Seth explores the connection between personal beliefs and world events. He pinpoints the unconscious — and often negative — beliefs pervading science and religion, medicine and mythology, and offers thought-provoking reflections on Darwinism, Freudianism, religions, cults, and medical beliefs. With fascinating and inspiring implications, Seth asserts that the personal impulses we are often taught to see as dangerous, chaotic, or contradictory, are instead crucial to the best interests of the species and the natural world, for they lead us to live "not only as loving caretakers but as partners with other species." "Only people who trust their spontaneous impulses can be consciously wise enough to choose from a myriad of probable futures the most promising events...." — Jane Roberts, Speaking for Seth

The Seth Material Jane Roberts, 1970 Seth is the acclaimed non-physical teacher whose collected works are the most dynamic, brilliant and undistorted map of inner reality and human potential available today. His articulation of the furthest reaches of human potential, the eternal validity of the soul, and the concept that we create our own reality according to our beliefs, has been presented in books that have sold over 8 million copies and been translated into over a dozen languages. Seth's empowering voice clearly stands out as one of the major forces which led to the current New Age philosophical movement. This book chronicles Seth's first contact with author and medium Jane Roberts. It is a mixture of great Seth excerpts, selected by topic, and further explained by Jane. Topics covered include: afterdeath & between lives, how to get rid of illness, reincarnation, why people are born into different circumstances, God, All That Is, Dreams, exercises to develop the inner senses, and much more.

The Nature of Personal Reality (A Seth Book) Jane Roberts, 2011-10-01 In this perennial bestseller, Seth challenges our assumptions about the nature of reality, and shows us how we create our personal reality through our conscious beliefs about ourselves, others, and the world. His message is clear: we are not at the mercy of the subconscious, or helpless before forces we cannot understand. "We are Gods couched in creaturehood," Seth says, "We are given the ability to form our experience as our thoughts and feelings become actualized." "Seth was one of my first metaphysical teachers. He remains a constant source of knowledge and inspiration in my life." — Marianne Williamson "I would like to see the Seth books as required reading for anyone on their spiritual pathway. The amazing in-depth information in the Seth books is as relevant today as it was in the early '70s when Jane Roberts first channeled this material." — Louise Hay

QUANTUM HEALING Manhiel Marthin, 2025-02-27 Quantum Healing explores the integration of quantum physics principles with spiritual and holistic practices to promote human well-being. It focuses on understanding the energetic nature of being, universal interconnectedness, and the role of the mind in creating reality, utilizing alternative healing methods such as frequency medicine and vibration techniques. Through practical examples and historical cases, the book invites readers to question limiting beliefs, fostering a multidimensional approach that harmonizes body, mind, and spirit to achieve self-healing. Additionally, it highlights the importance of technology, connection with nature, and personal responsibility in the healing process, empowering readers to make conscious decisions that improve their quality of life and contribute to collective well-being.

The Way Toward Health Jane Roberts, 2011-07-08 From the Bestselling Author of Seth Speaks and The Nature of Personal Reality In September 1984, the voice that had spoken for one of the most profound and prolific metaphysical teachers of the 20th century fell silent. Seth, the entity who described himself as an "energy personality essence no longer focused in physical matter," had spoken exclusively through Jane Roberts since 1963. During the long illness that led to her death, Jane continued to channel Seth from her hospital bed, but this final work was left unfinished. Now, in The Way Toward

Health, Jane's husband, Robert Butts, shares with us the intimate story of Jane's final days, and the exquisite teachings that Seth gave during that time. In an examination of the miracle of life in a human body, Seth speaks about: • Why medicine and therapy often perpetuate illness • How the practice of naming diseases can work against us • The influence of religion in creating disease • How children's health is influenced by parents' beliefs • Humor as an effective factor in healing • Includes 8-page photo gallery "Do not think of the mind as a purely mental entity, and of the body as a purely physical one. Instead, think of both mind and body as continuing, interweaving processes that are mental and physical at once. Your thoughts actually are quite as physical as your body is, and your body is quite as nonphysical as it seems to you your thoughts are. You are actually a vital force, existing as a part of your environment, and yet apart from your environment at the same time."

—Jane Roberts, speaking for Seth in *The Way Toward Health*

Habla Seth Jane Roberts, 1999-09-01 Todo el compendio que forma el material de Seth es la sorprendente historia de la iniciación de Jane Roberts en el mundo de las experiencias psíquicas. La obra que le dictó Seth es una guía para conseguir el despertar interior y una luz que desvela aspectos tan desconocidos como poder recordar vidas anteriores, y sensibilizar los puntos de energía que existen por toda la materia física. También desvela secretos de cómo los esenios codificaron los Manuscritos del Mar Muerto y cómo una hermandad trabaja a lo largo de la historia para salvaguardar los conocimientos esotéricos para la humanidad.

The Magical Approach (A Seth Book) Jane Roberts, 2011-08-01 In *The Magical Approach*, Seth invites us to look at the world through another lens — a magical one. Seth reveals the true, magical nature of our deepest levels of being, and explains how we have allowed ourselves to become inhibited by our own beliefs and conventional thinking. *The Magical Approach* teaches us how to live our lives spontaneously, creatively, and according to our own natural rhythms. It helps us to discover and tune into our natural, instinctive behavior. By applying the principles in this book, readers will learn to trust their impulses and discover the highest expression of their creativity. "We are speaking about an approach to life, a magical or natural approach to life that is man's version of the animal's natural instinctive behavior in the universe." — Jane Roberts, *Speaking for Seth*

Habla Seth III Jane Roberts, 2002-05-02

The Nature of the Psyche Jane Roberts, 2011-07-08 Seth, speaking exclusively through Jane Roberts, reveals a startling new concept of self, answering questions about the secret language of love, human sexuality, the real origins and incredible powers of dreams, and how we choose our physical death — sometimes years in advance. For the first time, Seth explains: • Why love is the basic language from which all others spring • The bisexual nature of humanity and its biological and spiritual importance • The true basis of homosexuality and lesbianism — along with their private and social effects • The benefits of recalling our dreams and consciously participating in them • How dreams can prevent chronic illnesses by providing

important therapeutic information • Simple exercises you can do to expand your awareness of the deeper portions of your psyche and stretch your abilities to their fullest potential. “The psyche is a gestalt of aware energy in which your own identity resides, inviolate, yet ever-changing as you fulfill your potentials. You are your psyche’s living expression, its human manifestation. Yet you allow yourselves often to become blind to brilliant aspects of your own existence.” — Jane Roberts, *Speaking for Seth*

Hablando con alguien, Hablando con Nadie Carlos Arizpe, 2015-09-15

This allows you to relieve your Ego of its current multitude of tasks, and place it in charge of your physical health and well-being, while assigning your Soul to guide you in all other matters.

La reencarnación Vicente Merlo, 2025-01-29 En las últimas décadas, la idea de que no vivimos una sola vida ha tomado cada vez más fuerza. Desde las antiguas civilizaciones hasta las tradiciones espirituales más modernas, conceptos como la reencarnación, la transmigración, la metempsicosis y el renacimiento han sido defendidos como realidades que van más allá de nuestra existencia física. Vicente Merlo, doctor en filosofía y especialista en tradiciones orientales, nos guía en un fascinante viaje a través de las diferentes culturas y épocas donde la reencarnación ha sido aceptada y explorada. Con una combinación única de conocimiento histórico, profundidad filosófica y una mirada contemporánea, el autor reflexiona sobre algunas de las preguntas: ¿Qué pruebas existen de que hemos vivido antes? ¿Cómo influye la reencarnación en nuestra vida actual? Un libro que invita a abrir la mente hacia una perspectiva más amplia de la vida y la muerte, ayudándonos a entender que cada experiencia, cada encuentro y cada desafío tienen un propósito en el eterno ciclo de las almas. «El alma nunca muere, solo cambia de forma para seguir aprendiendo.» PLATÓN

Sanando La Mente David Hoffmeister, 2013-01-15 *Sanando la Mente* es una compilación de correspondencias de las personas que escribieron a David, expresando sus mayores preocupaciones, preguntas más profundas, y los secretos más íntimos. David responde desde una Perspectiva totalmente fuera de lo personal; cada respuesta es indiscutiblemente la Voz de Dios.

La nueva ciudad de Dios Andoni Alonso, Iñaki Arzoz, 2002 Partiendo de la referencia agustiniana de La Ciudad de Dios y haciendo uso de géneros tan intempestivos como el panfleto y el libelo, Andoni Alonso e Iñaki Arzoz consideran que cierto modelo actual de las tecnologías digitales está construyendo una suerte de utopismo religioso, tecnófilo, del «digitalismo», especialmente en la esfera de Internet. Esta apasionante investigación crítica encuentra sus raíces históricas en Pitágoras y Platón, se consolida con el cristianismo (especialmente en el Renacimiento con autores como Giordano Bruno), afecta a científicos como Newton y culmina con autores contemporáneos como Hans Moravec o Frank J. Tipler. Sus efectos se hacen sentir considerablemente en el mundo de las telecomunicaciones, donde proliferan todo tipo de sectas y pseudorreligiones, como ocurre, por ejemplo, con John Firmage o la secta New Heaven, que aspira a convertir el mundo, según el modelo americano actual, en un Ciberimperio. Junto con esta crítica, y a partir de una teoría o hiperfilosofía, se plantea la revisión del papel de los modos y métodos ciberculturales, para construir una verdadera Ciberatenas en contraste con el modelo imperante en el presente.
