The Eloquent Blood Manon Hedenborg White, 2020 The Eloquent Blood focuses on the changing construction of femininity and feminine sexuality in interpretations of the goddess Babalon. A central deity in Thelema, the religion founded by the notorious British occultist Aleister Crowley (1875-1947), Babalon is based on Crowley's favorable reinterpretation of the biblical Whore of Babylon, and is associated with liberated female sexuality and the spiritual ideal of passionate union with existence. Combining research on historical and contemporary Western esotericism with feminist and queer theory, the book sheds light on the ways in which esoteric movements and systems of thought have developed over time in relation to political movements.

I'd watch in amazement, as she would literally dance across the messages of the cards, hitting me right between the eyes with their messages of truth and wisdom. Her personal experience and understanding of them is obviously quite vast, based on her own years of working experience. In a rare opportunity, Suzanne shares her incredible insights into how to read each and every card with her book, Integral Tarot. Today, I have a greater insight into myself. I start each day with my own personal readings. Using Suzanne's book as my guide, those cards speak truths directly to me, even more clearly than when I was a passive observer getting read by someone else. Now, I can hear my guardian angel speak right through me, and you will too. I highly recommend this book to you. It will change your life, just as it continues to change mine. Joel Castleberg, Producer and Owner of Panama Pictures said this about the book: I have owned and experimented with a Tarot deck for over 15 years and never really knew how to work with it. Working with Suzanne's Tarot book for only a short time has been extraordinary...in terms of learning about the Tarot, but mostly as a guide in my own personal exploration of consciousness.

The Old Woman's Daughter Claire Douglas, 2006 Also available in an open-access, full-text edition at <http://oaktrust.library.tamu.edu/handle/1969.1/86078> The Old Woman's Daughter offers men and women alike a way to make sense of their lives and find more healing alternatives than offered by our present culture. In gentle, evocative imagery, Jungian analyst Claire Douglas invites readers to reconnect with the ancient tradition of the feminine, the Old Woman, symbolized by her own Celtic grandmother. After considering the dangers to individuals and the society of the masculine-focused dualities of our own culture, Douglas describes an alternative that incorporates the feminine self within each of us, man or woman. Douglas draws on myth and story, her own experiences, poetry, the dreams of some of her patients, and images available from Tibetan Buddhism to find archetypes that help us recognize our inheritance from the Old Woman. She describes a form of therapy that emphasizes cherishment or bonding for the purpose of recovering our ties to the ancient feminine, and she deftly incorporates her search for her own voice in shaping the book into an organic whole. Rising from Douglas's lifelong interest in the psychology of the feminine, this book shows how healing is related naturally to a Motherline of attunement, connection, and cherishment.

With Roots and Wings Jay B. McDaniel,2009-06-26 In With Roots & Wing, Jay McDaniel brings together insights from the natural sciences, Christian theology, and interreligious dialogue, breaking new ground in the search for a wholistic spirituality for our time. Taking this title from the Jewish proverb--that we must give our children both roots and wings--McDaniel shows how this applies to our spiritual lives as well. With Roots and Wings offers an alternative to the contemporary dilemmas of empty consumerism and rigid fundamentalism, consisting of three basic, interrelated approaches to being: to be rooted in the Earth and religious tradition; to be open to the insights of people of other faiths as well as to share our own; and to become centered on God. McDaniel shows where the new universe story of Thomas Berry and Brian Swimme and the Christian story meet and differ, where they complement, and where they supplement one another. With Roots & Wings shows how to experience both green grace that comes from opening one's self to the rhythms of the cosmos, and red grace symbolized in the crucifixion of Christ--both of which are vital to a Christian ecological spirituality and praxis. Most impressive is McDaniel's ability to absorb and reflect important lessons Christians can learn from Native Americans, from Buddhists and Hindus, from Muslims and Jews. The complexity of the issues he addresses and his ability to explain them simply and clearly makes With Roots and Wings must-reading for the general reader as well as ecological activists, clergy, and laity alike. Nothing else comes near it in depth, power, and insight.

Dictionary of Alchemy Mark Haeffner,2004-01-31 Alchemy is a rich and complex esoteric tradition that has flourished world-wide since the beginning of recorded history, if not earlier. There are three main traditions: Western Christian, Indo-tibetan and Chinese Taoist. Within this diversity there are many common features, which are analysed, organized, and brought together in this comprehensive dictionary of terms, symbols, and personalities. This dictionary is the distillation of many years' research into the extensive arcane literature. It is a reference work to guide the readers through the labyrinth of pre-Newtonian science and philosophy. The dictionary covers not only the materialist dimension of the search for the elixir of life and the transmutation of metals, but also the inner search for the gold of mystical illumination. Jung called alchemy 'the projection of a drama both cosmic and spiritual in laboratory terms'. This opus alchymicum goes beyond the bare analysis and interpretation of terms to present a harmonic, integrated vision of man and nature, which may help to heal the fragmented world view of modern science.

Understanding Human Ecology Geetha Devi T. V.,2019-01-15 This book examines the domain of human

agency-environment interaction from a multidimensional point of view. It explores the human-environment interface by analysing its ethical, political and epistemic aspects – the value aspects that humans attribute to their environment, the relations of power in which the actions and their consequences are implicated and the meaning of human actions in relation to the environment. The volume delineates the character of this domain and works out a theoretical framework for the field of human ecology. This book will be a must-read for students, scholars and researchers of environmental studies, human ecology, development studies, environmental history, literature, politics and sociology. It will also be useful to practitioners, government bodies, environmentalists, policy makers and NGOs.

Teaching Jung Kelly Bulkeley, Clodagh Weldon, 2011-09-15 This book offers a collection of original articles presenting several different approaches to Jung's psychology in relation to religion, theology, and contemporary culture. Letters from New-York Lydia Maria Child, 1998 Prominent author and abolitionist Lydia Maria Child began writing her letters from New York in August 1841 as a response to the troubling realities marking her private and public life. In particular, she was preoccupied by her editorial duties at the National Anti-Slavery Standard and dismayed by the growing sectarian spirit of antislavery reform. Collected primarily from the pages of the Standard, her literary essays on women's rights, the preaching of African American minister Julia Pell, the Crosby Street Synagogue, animal magnetism, the engineering miracle of Croton Aqueduct, and countless other people, topics, and events capture the breathless and sometimes unsettling transformation of one representative hub of national life. In his general introduction and annotation of the text, Bruce Mills reconstructs the biographical and cultural context surrounding the book's publication and documents substantive changes between the Standard's version of the letters and the book form. This edition also includes ten letters that Child chose to omit from earlier editions, including essays on the farewell gathering for the Amistad captives at the African Methodist Episcopal Zion Church and the near lynching of British abolitionist George Thompson. Long considered among Child's best writing, *Letters from New-York* still captivates readers with its moving descriptions of enduring cultural realities. It offers readers a telling glimpse of New York as an emerging urban center and is an invaluable addition to the library of American literature.

Nietzsche on Art and Life Daniel Came, 2014-04-24 Nietzsche was not interested in the nature of art as such, or in providing an aesthetic theory of a traditional sort. For he regarded the significance of art to lie not in l'art pour l'art, but in the role that it might play in enabling us positively to 'revalue' the world and human experience. This volume brings together a number of distinguished figures in contemporary Anglo-American Nietzsche scholarship to examine his views on art and the aesthetic in the context of this wider philosophical project. All of the major themes of Nietzsche's aesthetics are

discussed: art and the affirmation of life, the relationship between art and truth, music, tragedy, the nature of aesthetic experience, the role of art in Nietzsche's positive ethics, his critique of romanticism, and his ambivalent attitude towards Richard Wagner.

Using the Greek Goddesses to Create a Well-Lived Life for Women Martha Beck, 2019-01-15 This book brings to life the meaning of the stories of the seven goddesses of Greek mythology. Each goddess represents a "sacred calling," a way of life whose goal is to live for the sake of something greater than oneself. Athena is the goddess of wisdom and justice; Artemis is the woods woman who protects the natural world; Demeter is the goddess of the fertility of the earth and the birth and nurturing of children; Hera is the wife of Zeus, the king, who dedicates her life to creating a high quality of public life through nurturing various community activities; Aphrodite is the goddess of creativity; Persephone is the victim who was raped by Hades and abducted to the underworld where she punishes those who victimized others while alive; and Hestia is the contemplative, she who reflects upon human affairs and "sees" how all the parts fit a larger whole. The book will allow readers to recognize themselves and their own sacred passions in these stories. Once recognized, women can educate themselves and each other. They can use the wisdom represented in Greek mythology to create meaningful and complete lives in the context of a culture that is still dominated by men and their passions. In this way, women will be liberated to do everything they can to leave a better world behind for their children, grandchildren and future generations.
