Soul Breathing Carrie L'Esperance, 2016-05-17 An exploration of the multidimensional interplay between body, mind, and spirit • Identifies the frequencies that support life and the dissonant frequencies incompatible with life, such as the imbalances of EMFs • Explains how to cultivate higher consciousness by building a strong light body • Includes techniques and exercises for psychic cleansing, physical and emotional detox, chakra and aura strengthening, and oracular dreaming Civilization has reached a critical threshold in time unlike any other. Whether life continues to evolve or devolve depends upon our ability to reach higher states of consciousness en masse. This requires calling upon the transformative power of the soul--a power not handed to us, but earned. We are living proof that the physical and spiritual realms of existence work together in unity. Yet for many of us our natural soul light and inner spiritual intuition are suppressed due to the distractions of day-to-day living and the electromagnetic pollution of our screen-filled technological world. In this exploration of the multidimensional interplay between the body, mind, and spirit, Carrie L'Esperance reveals how we can restore the flow of spiritual light in everyday living through the art of self-mastery. She explains how technology has severely reduced humanity's natural abilities and spiritual power. She shows how EMFs and wi-fi toast our energetic bodily systems and suppress our immune systems, blocking the ethereal frequencies of light and suppressing our creative intuition and higher powers. Detailing the spiritual bio-geometry of light and the holographic principle, she explores how the cells of our bodies receive light's deeper vibratory frequencies to support conscious evolution and soul development as well as explaining near-death and out-of-body experiences. She identifies the dissonant energies that endanger mind/body health and reveals new advances in brain science that allow us to transcend the malign influences that hamper human evolution. She provides exercises and techniques for spiritual alignment and receptivity, including psychic cleansing, physical and emotional detox,

chakra and aura strengthening, and oracular dreaming. Preparing us for the new cosmology and the greater community of worlds that is being revealed, L'Esperance shows that when we are properly connected with our soul's intelligence and cultivate the reception of higher frequencies of consciousness, then we are able to soul breathe, to absorb more pranic energy, the electromagnetic force and cosmic radiation that is the sustaining element of all life and consciousness.

Visualising far-right environments Bernhard Forchtner,2023-10-17 This volume presents ground-breaking analyses of how the far right represents natural environments and environmentalism around the globe. Images are not simply pervasive in our increasingly visual culture - they are a means of proposing worlds to viewers. Accordingly, the book approaches the visual not as something 'extra' or 'illustrative' but as a key means of producing identities and 'doing politics'. Putting visuality centre stage and covering political parties and non-party actors in Africa, Asia, Australia and New Zealand, Europe and the United States, contributors demonstrate the various ways in which the far right articulates natural environments and the rampant environmental crises of the twenty-first century, providing essential insights into such multifaceted politics.

I Could Have Been One (HB) Donald Wm. Jeffries,2021-09-10 I Could Have Been One (HB) By: Donald Wm. Jeffries I Could Have Been One provides a look into the world Donald Wm. Jeffries was born into, raised, and grew up in through historical and political events of his life. We examine the world starting in the 1940s through our modern day and see how life was and what has changed. The history in which Jeffries has lived through has had a remarkable impact on his life and worldview, and we see this develop and change throughout the course of his journey. As the future comes speeding into view, with his lessons from the past we can start asking ourselves how we got here, what will become of our children's generation and their children's, and where are we headed? By beginning this discussion, we can have a better understanding of our current situation and face our realities, hopefully making better, brighter decisions for the future.

Servitors of Empire Darrell Hamamoto,2014-08-01 Forcing a fundamental rethinking of the Asian American elite, many of whom have attained top positions in business, government, academia, sciences, and the arts, this book will be certain to generate a good deal of controversy and honest discussion regarding the role Asian Americans will play in the new century as China and India loom ever larger in the world economic system. Not since the large-scale infusion of scientists and engineers fleeing Nazi Germany has there been such a mass importation of intellectual labor from U.S. client states in Asia. One of the specialized tasks assigned to this group is to build the technetronic infrastructure for the new world order command and control system. Servitors of Empire is not intended to fan the flames of suspicion and paranoia aimed at Asian Americans, but serves to illuminate the way in which highly trained knowledge workers are being employed to bring sovereign nations such as the United States under centralized rule made possible through advances in bioscience, IT, engineering, and global finance.

Mass Awakening Shoshi Herscu,2018-10-08 The Truth has been hidden from us while a global policy of mass

depopulation and exploitation has been carried out behind the scenes for the past half-century. The author, an independent journalist, became aware of this agenda only in the past few years. She found it hard to believe, but in-depth research and the testimony of whistleblowers worldwide have exposed these strategies. They include geoengineering (chemtrails), fluoridation of water supplies, GMOs, vaccinations, false flag terrorist attacks, and economic warfare by the group David Wilcock calls the Cabal. However, despite this grim reality, a positive shift of mass awakening is occurring worldwide. Tribunals are being established to prosecute elite offenders; revelations of hidden technology like free-energy and new economic models are being put forth. The author shows how humanity is claiming its rightful heritage as spiritual beings and charts the course of our elevation of consciousness. MASS AWAKENING gives us all real hope for an amazing future. Mass Awakening is Shoshi Herscu's well researched and yet profoundly personal handling of intensely shocking material, rarely covered in print. It is both a true inspiration and a much-needed breath of fresh air. —Ada Tourtsakis

STAYING HUMAN K. L. Stubblefield, 2023-11-16 Staying Human Within this writing we discuss America's and particularly Black America's slide into decadence, depravity, and despair and how this will lead to its subjugation to the coming tyranny of Artificial intelligence. If we look with an open mind we can see how technology has already led to the breaking down of morality and open rebellion against Godly principles that while not totally adhered to by this nation, has been a hedge against all out wickedness. Our attempt to at least guide our behavior with the precepts of holiness and godliness has allowed the American nation to receive blessings of wealth and freedom from the Most high. That is now changing and God is slowly removing his protection from our nation.. America's power and influence whether for good or evil was given to us by God. It is He who sets up nations, and it is He who brings about their fall. What is happening to the United States today has happened before with many other kingdoms. There is no new thing under the sun. Nor was there any respect of persons given from The Most High. This nation will and is currently feeling the pains of all the other nations that has fallen before it. And just like all the other kingdoms that fell such as Rome, Greece, Egypt, and Babylon , America's blind adherence to self promotion, and narcissistic hubris has blurred her vision of her plight. America is now a weak nation, a nation that is living on so called past greatness. Militarily America relies on enormous deficit spending on technology and advanced weaponry in order to maintain its power and influence worldwide. Yet when engaged in actual combat with weaker nations America still suffers a bloody nose and a black eye. Vietnam , Somalia, Iraq, and Afghanistan, are modern examples of America's inability to win wars outright. These wars and excursions drain the coffers of this nation and force it into deficit spending in order to maintain the false illusion of wealth and power. The scepter has been removed from America's hand. The royal diadem no longer sits above her brow. Yet she does not perceive its removal. The once so called democratic form of government in America has now morphed into a technocratic corporate oligarchy. The gap between rich and poor is now

wider here than in any industrialized nation in the world. This leads to those in power creating a culture to maintain their wealth and prevent uprising from the masses. This will lead to the use of technological advances, such as A.I. in order to quell any potential rebellions. America, your once proud land has become a nation of fornicators, whiners, complainers, abusers, murderers, and politically corrupt parasites. America's plight can be summed up in one Phrase. ICHABOD : THE GLORY OF THE LORD HAS DEPARTED.

Virtually Lost Garry Robson, 2023-05-16 This book examines the connections between the psycho-social difficulties and challenges faced by children and younger people in their online lives; the structure, character, and motivations of the corporate system 'behind' the screen; and the possibility that the digital technostructure may come to form the backbone of a new post-democratic system of technocratic governance. Much of the originality of this book lies in its blending of subjects that are not often combined, thereby offering a fresh perspective: 'generation studies'; the philosophy of technology; the history of the idea of technocracy; the technologically enhanced merger of corporate-governmental power in the U.S. system; the society-shaping goals and capabilities of the big tax-exempt American foundations over the last hundred years; the elite 'superclass' gaming of formally constituted transnational and global institutions; and the way the United Nations-centred SDG-ESG system is itself developing in the direction of a technocratic system of economic and population management. The book will appeal to readers interested in relationships between our contemporary global power elite, the structures it has created and processes it has set in motion, and how these affect young people whose development is already being over-determined by the activities of the big Silicon Valley entities and their associates.

Satanismo, sectas y gobierno mundial Lucía Fabra, 2025-01-22 Esta obra es una travesía a través de los mitos, realidades y teorías conspirativas que han alimentado el imaginario colectivo en torno al satanismo y las sociedades secretas. A lo largo de sus capítulos, Fabra explora los orígenes históricos del satanismo, su evolución hasta convertirse en una subcultura y un fenómeno filosófico moderno, y la influencia de sectas esotéricas en la política, la religión y la sociedad. Desde los juicios de brujería en la Edad Media hasta la controvertida Iglesia de Satán de Anton LaVey, el libro examina cómo la figura de Satanás ha sido utilizada como símbolo de rebelión, poder y, en algunos casos, manipulación social. El libro también profundiza en la manera en que las sectas han evolucionado en la era moderna, revelando sus técnicas de control mental, sus objetivos ocultos y su expansión gracias a la era digital. Más allá de la fascinación cultural, Fabra investiga cómo estas organizaciones pueden estar relacionadas con las élites globales, planteando interrogantes sobre el papel que podrían tener en la creación de un gobierno mundial.

Wir töten die halbe Menschheit - und es wird schnell gehen Eileen DeRolf, Jan van Helsing, 2020-04-03 Jetzt machen sie Ernst! Corona ist erst der Anfang! China wird eine 'Erkältung' bekommen. Diese Epidemie soll sich dann über die ganze Welt ausbreiten - entweder als Rache der Chinesen oder weil der Virus mutiert ist - und die Menschen generell dezimieren, um

zirka 50 Prozent! Britischer Hochgradfreimaurer im Gespräch mit Bill Ryan (Project Camelot), 2010 Über die Jahrzehnte haben verschiedene Autoren über die kommende Neue Weltordnung geschrieben und darüber, dass eine kleine Elite – hauptsächlich Privatbankiers – die Welt an sich reißen und alles privatisieren will. Die Corona-Epidemie ist ein geschickt genutztes Werkzeug, einen Finanzcrash zu tarnen, Bargeld zu entziehen, Zwangsimpfungen und möglicherweise auch ein Chippen von Menschen zu erwirken – und dabei noch richtig Kohle zu machen. Und es gibt einen Plan: Zum einen gibt es den für die Menschheit der Zukunft, die auf mindestens die Hälfte reduziert werden soll. Manche sind dabei noch drastischer: Die Georgia Guide Stones schlagen eine Reduzierung auf 500 Millionen vor, David Foreman von Earth First sogar auf 100 Millionen. Wie sie das machen werden und wen sie als erstes im Visier haben, erfahren Sie in diesem Buch. Die Neue Weltordnung selbst wird u.a. über die Agenda 21 und Agenda 2030 im links-grünen Gewand eingeführt. Dies schildert die Aktivistin Eileen DeRolf am Beispiel der USA in aller Ausführlichkeit und zeigt auf, wie man still und heimlich die Infrastruktur für ein neues Wirtschaftssystem auf Grundlage von Private Public Partnerships aufbaut, um das freie Unternehmertum zu ersetzen und die Besitzer von Eigenheim sowie Grund und Boden nach und nach zu enteignen. All das geschieht unter dem Deckmantel von Umweltschutz und Nachhaltigkeit. Um diese Privatisierung der Welt und die historischen Hintergründe derselben besser verstehen zu können, hat Jan van Helsing mit dem Insider Hannes Berger und dem Climate-Engineering-Spezialisten Andreas Ungerer im Anhang ein langes Interview geführt, welches folgende Themen beinhaltet: Staaten werden Firmen – Künstlicher Corona-Virus – Handel der Geburtsurkunde an der Börse – Donald Trumps und Putins Rollen in diesem Spiel – 5G-Netz – Wetterkrieg. Und sie behandeln die Frage, ob alles so kommen muss und nicht vielleicht doch noch eine Lösung in Sicht ist.

Verden blir aldri den samme Kari Elisabeth Svare, 2023-04-01 Vanligvis fokuserer romaner på individens indre liv og dilemmaer og mellommenneskelige konflikter. Mitt prosjekt er annerledes. Jeg bruker verden som ramme og belyser virkeligheten vi beveger oss i, lever og dør i. Siste bok, «Den stjernesendte», avsluttes på et bortgjemt og hemmelig sted. Åtte år etter fortsetter fortellingen der. Vi møter en av hovedpersonene på ny. Offisielt er hun erklært død og ikke kan leve synlig. Boka «Verden blir aldri den samme» er min så langt mest politiske. Handlingen foregår i et lite og selvforsynt samfunn der de fleste har interesse i globale affærer og følger med fra sidelinja. Trump har tapt valget, og Kongressen blir stormet. Pandemien herjer, men på flere vis enn med sykdom. Finanseliten har sterk påvirkningskraft og driver verden fram, men i hvilken retning? Og mot hva slags mål? Tidligere utgivelser: «Litt som sola selv» et vitnesbyrd over et vennskap samt en hyllest til nøysomt forbruk utgitt i 2010 på eget initiativ «Den ukjente gravør», diktsamling utgitt på forlaget «Liv» i 2014 «Drømt virkelighet-virkelig drøm», en utviklingsroman utgitt på forlaget «Lyst» i 2016 «Sivilisasjonens ulver» en noe usedvanlig krim utgitt på EBOK.NO i 2021 «Den stjernesendte» en reise jorda rundt for å bygge nettverket «Sammen» utgitt på EBOK.NO i 2022 Mitt prosjekt består fortsatt i å belyse utviklingens skyggesider og komme med innspill i en verden som

kjører i feil fil. I 2022 hadde jeg omtrent 80 sanfunnskritiske innlegg i aviser på nett og papir. Jeg er over gjennomsnittet interessert i det som skjer globalt, og finner mye svært bekymringsfullt. Derfor kan jeg ikke la være å skrive.

Iluzja percepcji, cz. II: Demaskowanie bzdur David Icke, 2020-11-18 David Icke – niestrudzony badacz i propagator idei antyglobalnych, który odsłania kurtynę i pokazuje prawdziwy świat, w którym żyjemy – przedstawia II tom wstrząsającej bestsellerowej książki *Iluzja percepcji*. Wzbożona kolorową wkładką z galerią ezoterycznych obrazów Neila Hague’a, w niezwykle plastyczny i wymowny sposób odsłania szokującą rzeczywistość i przedstawia szeroki wachlarz złowrogich i konspiracyjnych zjawisk. Z książki dowiesz się o zastraszających rozmiarach archontycznych modeli edukacji, nauki, medycyny, polityki, mediów głównego nurtu i alternatywnych, ekonomiki oraz syjonizmu, jakie do dziś funkcjonują w świecie. David Icke wskazuje na zmutowany technologiczny „smart” w masowej toksyczności, który doprowadził do tego, że żyjemy w Orwellovskim państwie globalnym. Zdemaskuj te bzdury! Oto najlepszy opis tego świata, jaki kiedykolwiek stworzono!

Strategies Towards the New Sustainability Paradigm Odile Schwarz-Herion, Abdelnaser Omran, 2015-03-30 On a historical global turning point, this book offers a thorough exploration of the “New Sustainability Paradigm”, originally developed by the Global Scenario Group (GSG) of the Stockholm Environmental Institute (SEI) as a starting point for analyzing real-life transitions and transformations. 11 contributors from 5 continents present detailed analyses of economic and political transitions in Western and Eastern Europe, the USA, the Middle East, and in Asia, discussing the role of different players in the implementation of the New Sustainability Paradigm. Part I offers an overview of the six scenarios developed by the GSG and a short discussion of significant papers published by the Great Transition Initiative (GTI) of the Tellus Institute. Next come examples of dramatic historical and current transitions in Western Europe, the USA, Eastern Europe, the Middle East (Arabian Spring), and Asia, as well as an analysis of the potential of humankind to manage a great transition to the new sustainability paradigm. Subsequent chapters highlight the role of culture and education and review the role of different players for the implementation of the new sustainability paradigm. The focus of Part II is on the ecological pillar of Sustainability. The discussion includes urgent ecological problems including climate engineering, eco-criminality, bioterrorism, biodiversity protection, water, energy, and food security. Part III deals with needed innovations in sustainable waste management and sustainable city architecture, especially big cities in developing and threshold countries, where a significant part of the world population is concentrated. The fourth and final section offers an analysis of insights developed throughout the book, and outlines recommendations for the implementation of the New Sustainability Paradigm by civil society, grass-root movements, scholars, politically neutral NGOs, sincere media players, and by open-minded and enlightened politicians to manage and steer the Great Transition towards sustainable global democracy.

Sustaining our Environment for Better Future Abdelnaser Omran, Odile Schwarz-Herion, 2019-08-05 This book covers a variety of topics regarding environmental practices in our day-to-day lives, as well as topics concerning sustainable

development as a broader concept embracing ecological, social, and economic aspects to improve the quality of life for people around the world. Starting with the traditional controversy between the neoclassical economy and sustainable economy, which may be overcome by scientific progress due to more intensive scientific studies of the sustainability paradigm, the book proceeds to discuss various problems and challenges regarding environmental protection and sustainable development in different countries and on different continents. This includes analyses of recent, sometimes fatal mining disasters in South and North America, challenges and opportunities for rural development in Africa and Australia, an exploration of the role of women for sustainable development in Palestine, water safety and water security issues in Asia and Australia, the environmental exploitation of popular tourism destinations like Acapulco, and deforestation in Malaysia, suggesting innovative approaches to turn challenges into opportunities to effectively tackle these problems. Other topics addressed involve sustainable energy creation for future generations, a research survey among Romanian students on sustainable consumption behavior, validity testing for a heat transfer model in a greenhouse, and a case study on sustainability risk management practices at Malaysia's environmentally sensitive companies. The book closes with an examination of highly digitalized Smart Cities as a potentially valuable complement to conventional urban and rural lifestyles in connection with achieving the UN Sustainable Development Goals (SDGs).
