ISIS and the Pornography of Violence Simon Cottee, 2019-05-30 'ISIS and the Pornography of Violence' is a collection of iconoclastic essays on ISIS, spanning the four-year period from its ascendancy in late 2014 to its demise in early 2018. From a trenchant critique of the infantilization of jihadists to a probing examination of the parallels between gonzo porn and ISIS beheading videos, the pieces collected in this volume challenge conventional ways of thinking about ISIS and the roots of its appeal. Simon Cottee's core argument is that Western ISIS recruits, far from being brainwashed or "vulnerable" dupes, actively responded to the group's promise of redemptive violence and self-sacrifice to a total cause.

Youth Crime and Violence in the Caribbean Camille A. Gibson, Lorna E. Grant, Sherill V. C. Morris-Francis, 2024-01-04 This compilation of works highlights the historical, economic, and human dynamics behind youth offending in the nations of the West Indies. Youth Crime and Violence in the Caribbean offers insights into the slow rate of system change yet leaves readers with an optimistic picture of possibilities. Recent events in Haiti and neighboring Venezuela demonstrate how quickly dynamics in the Caribbean area can shift if crime is not addressed and people increasingly disengage from systems in a manner that allows despots to rise to power. When this happens, the impacts are not localized.

The Myth of China's No Strings Attached Development Assistance Theodor Tudoroiu, 2019-11-08 Using a Caribbean case study and a Constructivist theoretical approach, The Myth of China's No Strings Attached Development Assistance shows that the frequently mentioned "no strings attached" nature of China's development assistance to its partners in the Global South is nothing more than a myth. This claim is supported by empirical data from Trinidad and Tobago and by comparisons with similar situations in Africa and Latin America. On their basis, the authors propose a critical re-reading of a reality that many scholars are accustomed to watch through the reassuring but distorting lens of academic routine. Despite contrary claims in the literature, Beijing's development assistance to the Commonwealth Caribbean states is accompanied by clear political, economic, and social conditionalities. Through them, China is constructing a cognitive and normative space conducive to a new regional order that should be politically friendly, economically profitable, and socially open to its government, companies, and citizens.

Independence, Colonial Relics, and Monuments in the Caribbean Allison O. Ramsay, Jerome Teelucksingh, 2024-04-17 Independence, Colonial Relics, and Monuments in the Caribbean is a collection of critical

perspectives on independence and the legacies of colonialism in the post-colonial Caribbean. The contributors examine themes relating to culture, identity, gender, nationhood, heritage and historic preservation in the post-independent Caribbean. In a twenty-first century context where calls for reparatory justice for the people of the Caribbean who have been disadvantaged by the effects of colonialism have intensified, this book is quite relevant as some chapters examine colonialism through relics, laws, statues and monuments, while other chapters explore the implications of African enslavement, the role of Indian indentureship, the Federation of the West Indies and the effect of the American based Black Lives Movement on the Caribbean.

Trinidad and Tobago and Guyana Ann Marie Bissessar, John Gaffar La Guerre, 2013-04-25 In this book an attempt is made to probe more carefully the processes by which social and ethnic problems, as these pertain to Caribbean countries, Trinidad and Tobago and Guyana, are conveyed to the political arena and the mechanisms by which they determine critical outcomes. The authors of this book have accordingly distinguished between predisposing factors and what are described as triggering mechanisms. The factors that trigger dramatic changes will differ between Guyana and Trinidad and Tobago. In short, while in some respects these societies are similar, in others, there are dramatic differences in their respective histories and political developments. This study begins with a survey of the literature on race relations and their connections with politics; it then proceeds to examine the context for the insertion of the two major groups into these societies, the emergence of ethnic groups, and their relationships with political organizations. The nature and politics of the leaders are then analyzed along with the political structures with a view to identifying what factors were responsible for the differing political experiences of both countries.

Gangs in the Caribbean Randy Seepersad, 2013-09-17 The present volume represents the first published book on gangs in the Caribbean. The study of criminal gangs is both timely and of the utmost importance to policy and security in the region. In many countries across the Caribbean, criminal gangs are increasing in number and prominence, and official crime data indicate that they are responsible for an increasing proportion of violent crimes. The Caribbean region experienced a dramatic increase in murder rates from 14.3 murders per 100,000 inhabitants in 2000 to 28.1 murders per 100,000 inhabitants in 2010. In some of the countries with comparatively high murder rates, such as Jamaica and Trinidad and Tobago, the proportion of gang-related murders has reached alarming levels. In the case of Trinidad and Tobago, for example, for the period 2001 to 2012, 29.5% of all murders which occurred were classified as gang-related, with fully 38% being so classified in 2012. The Caribbean represents a diverse region with very different cultures and security issues. Foreign experiences and research on gangs may not generalize to the region, nor may foreign policy be entirely relevant. The present volume represents an attempt to come to terms with the phenomenon of gangs in the Caribbean, and presents a wealth of empirical data, as well as an analysis of the varying issues from a number of disciplinary perspectives. Much of

what is currently known about gangs in the Caribbean is brought together in this volume, with the primary aims of understanding the varying issues and examining relevant strategies for dealing with the proliferation of criminal gangs.

Women's Journey to Empowerment in the 21st Century Kristen Zaleski, Annalisa V. Enrile, Eugenia L. Weiss, 2020 Written through the lens of transnational feminism, *Women's Journey to Empowerment in the 21st Century* offers a global view into the patriarchal attitudes that shape cultural practices that oppress women and continue to take form in the modern era. By examining a range of issues, the book compels readers to utilize a contextual framework in taking a closer look at contemporary violence and oppression against women in our world.

Violence against Women of African Descent Anita Kalunta-Crompton, 2019-10-11 Africa as a continent, which holds strong to its patriarchal cultural principles and practices, is known for its blatant display of violent abuse of women, including state-sanctioned violence, and its lax approach to national legislative policies and international treaties against violence against women. Using data from Africa, the Americas, Australia, and Europe, this edited collection showcases a variety of experiences and perspectives in the international comparative study of violence against women of African ancestry. This approach provides the context for examining the problem of violence against women, including its policy and practice responses (if any), as it impacts women of African origin in different parts of the world. This book is of value to those interested in African studies, criminology, gender studies, sociology, and many more.

Geography of Trafficking Fred M. Shelley, Reagan Metz, 2017-10-27 This important reference work examines trafficking from a geographic perspective and investigates the driving forces behind it and the powers that are trying to curtail the problem. The worldwide crime of trafficking involves countless people, animals and animal parts, and illicit goods such as drugs and weapons being moved and sold illegally. Often, the trafficking occurs with the local government or law enforcement's knowledge and complicity. This one-volume encyclopedia sheds light on a frightening and major issue, investigating the geography of trafficking and examining a range of examples of illegal human, animal, drug, and weapons movement around the world. After a preface and introduction that provides an exact definition of trafficking, the encyclopedia presents thematic essays that explore the various specific kinds of trafficking. Approximately 30 country profiles describe who and what is trafficked in each country, the motivations of those doing the trafficking, where people and things are being moved to, how the trafficking occurs, and what actions are being taken in an effort to prevent it. An appendix of primary documents, interesting sidebars, a bibliography, and a glossary listing key terms and important organizations round out the work.

Commonwealth Caribbean Employment and Labour Law Natalie Corthésy, Carla-Anne Harris-Roper, 2014-07-17 This new edition to the series will provide an up-to-date textbook covering a wide-range of employment and labour law issues which affect the Commonwealth Caribbean. Initially the book will embark on a comparative analysis of employment and labour law

in Jamaica, Trinidad and Barbados, as a reference point for distinguishing the laws of other Commonwealth Caribbean jurisdictions. The book will continue to examine how the law operates within the legal systems of the Caribbean, taking into account the umbilical link to British jurisprudence and the persuasive precedent of other Commonwealth jurisdictions, and the impact this has had on the growth and development of the area. Commonwealth Caribbean Employment and Labour Law will be essential reading for students enrolled on Employment Law, Discrimination and Dismissal Law courses in the Caribbean.

Negotiating Gender, Policy and Politics in the Caribbean Gabrielle Hosein, Jane Parpart, 2016-12-22 Have efforts to advance women's and men's commitments to democratic governance, women's rights and gender equality been successful in the Caribbean? Do they reflect local as well as international concerns and visions of gender equality? This edited collection answers these questions by focusing on women's political leadership, electoral quota systems, national gender policies and transformational leadership as four feminist strategies that aim to engender democracy and citizenship. It offers a rich historical, comparative and ethnographic perspective on the lived experience of these strategies through case studies of Trinidad and Tobago, Guyana, Dominica, Jamaica and St. Lucia. Drawing on national policy debates, election campaigns, state officials' solidarities, men's gender consciousness and women leaders' life histories across these five Caribbean countries, the collection assesses the successes of transnational feminist efforts, the resilience of masculinist resistances, the limits of gender mainstreaming and the possibilities for gender justice in and beyond the Caribbean today.

Enhancing and Capturing More Value from the Caribbean Community's Value Chains Don Charles, 2019-02-21 The organization of production processes into a chain of production stages that could be located in different countries, each of which provide a unique advantage, has become a defining characteristic of international trade. Industrial development, the movement of intermediate products, and the trading of final goods and services are inextricably linked to global value chains. Global value chain analysis is useful in providing a comprehensive overview of an entire industry, identifying an individual firm or country's position in the global value chain, and mapping how the firm or country may upgrade to capture more value along this value chain. This book presents various case studies which analyse some of the prevalent constraints experienced in industries of the Caribbean Community (CARICOM) member states. In addition, it identifies practical policy recommendations which can be used to address such challenges, and allow the member states to capture more value from their industries' global value chains. It addresses issues such as the declining preferences in agriculture value chains, the feasibility of enhancing the economic contribution of the maritime industry, the urgency for climate-resilient strategies in the banana industry, and the need for local content policy to create an appropriate framework to capture a fair share of value from the hydrocarbon industry. Given the persistence of challenges, the lack of upgrading, and the dearth of research conducted on value chains in the CARICOM region, this book can serve as a basis upon which governments and regional

organizations may adopt policy recommendations to address trade and investment-related challenges, and increase the member states' effective participation in international trade.

Corruption Scandals and their Global Impacts Omar E. Hawthorne, Stephen Magu, 2018-05-11 Corruption scandals receive significant press coverage and scrutiny from practitioners of global governance, and bilateral and multilateral donors. Across the globe, the annual publication of TI's CPI and World Bank's Worldwide Governance Indicators elicits spirited denials and accusations of targeting, of neo-colonialism. Poor measures on corruption indices and the ensuing negative publicity can have serious consequences both externally, through a freeze or retraction of donor funding, and internally, through reducing the availability of public funds, and harming the credibility of serving governments and institutions. *Corruption Scandals and their Global Impacts* tracks several major corruption scandals across the world in a comparative analysis to assess the full impact of global corruption. Over the course of the book, the contributors deliberate the exposure and reporting of corruption scandals, demonstrate how corruption inhibits development on different levels and across different countries, the impact it has on the country in question, how citizens and authorities respond to corruption, and some local, regional and global policy and legislative measures to combat corruption. The chapters examine the transnational manifestation of corruption scandals around the world, from developed countries and regions such as the United States and the European Union, to BRIC countries Brazil and Russia, to developing countries such as Belarus, Jamaica, Kenya and Nigeria. In each case, chapters highlight the scandal, its impact, the local, regional and global responses, and the subsequent global perceptions of the country. Concluding with a review of the global impacts of corruption scandals, this book provides an important comparative analysis which will be useful to students and scholars of international development and politics, as well as to development practitioners, donors, politicians and policy makers.

The Palgrave Handbook of Caribbean Criminology Wendell C. Wallace, 2024-07-30 This handbook explores crime, deviance and punishment in the Caribbean with a focus on marginalized perspectives from scholars in the Caribbean. It explores the region's unique cultural context and challenges, particularly the ongoing influence of colonialism. It also covers types of criminal activities and punishment, including contemporary and emerging areas such as cybercrime and white collar crime, as well as discussing victims and victimization, and crime and justice policies. This handbook builds on the growing field of interest in this region to establish a Caribbean Criminology. It speaks to both students and practitioners.

Island Tourism Jack Carlsen, Richard Butler, 2011 Islands are the most vulnerable and fragile of tourism destinations and will experience even more pressure as the combined impacts of economic, social and environmental change accelerate in the future. In order to understand the process of island tourism development, response to change and challenges and their journey to sustainability, this book provides insights and instruction on topics including social, cultural, environmental and economic aspects of island tourism. It contains essential information for policymakers, planners, researchers, managers and

operators within the tourism industry.

Creole in the Archive Roshini Kempadoo, 2016-10-24 The image of the Caribbean figure has been reconfigured by photography from the mid-19th century onwards. Initial images associated with the slave and indentured worker from the locations and legacies associated with plantation economies have been usurped by visual representations emerging from struggles for social, political and cultural autonomy. Contemporary visual artists engaging with the Caribbean as a 21st century globalised space have focused on visually re-imagining historical material and events as memories, histories and dreamscapes. *Creole in the Archive* uses photographic analysis to explore portraits, postcards and social documentation of the colonial worker between 1850 and 1960 and contemporary, often digital, visual art by post-independent, postcolonial Caribbean artists. Drawing on Derridean ideas of the archive, the book reconceptualises the Caribbean visual archive as contiguous and relational. It argues that using a creolising archive practice, the conjuncture of contemporary artworks, historical imagery and associated locations can develop insightful new multimodal representations of Caribbean subjectivities.

Interdisciplinary Perspectives on Covid-19 and the Caribbean, Volume 1 Sherma Roberts, Halimah A. F. DeShong, Wendy C. Grenade, Dwayne Devonish, 2023-08-12 Caribbean countries have had to navigate multiple crises, which have tested their collective resolve through time. In this regard, the region's landscape has been shaped by an interplay of vulnerability and resilience which has brought to the fore possibilities and contradictions. It is within this context that the effects of the COVID-19 pandemic must be considered. *Interdisciplinary Perspectives on Covid-19 and the Caribbean, Volume 1: The State, Economy and Health* provides a comprehensive, multi- and interdisciplinary assessment of the impact of the COVID-19 pandemic, using the Caribbean as the site of enquiry. The edited collection mobilises critical perspectives brought to bear on research produced within and beyond the boundaries and boundedness of conventional academic disciplinary divides, in response to the multi-dimensional crises of our time. The culmination of this collection offers a reimagining of our Caribbean contemporary futures in the hope of finding home-grown solutions, avenues and possibilities. This volume is divided into five (5) parts consisting of twenty-four (24) chapters and weaves together thematic strands that focus on governance, the macro and micro aspects of the economy, tourism and hospitality, business management and public health policy. Together, the chapters in this volume tell the story of the extent and effects of Caribbean governments' response to the pandemic and the ways in which industries and organisations have had to pivot to survive and transform their management and operational practices.

Guns, Gun Violence and Gun Homicides Wendell C. Wallace, 2021-12-11 This book provides in-depth coverage of guns, gun violence and gun homicides from a variety of perspectives, including, but not limited to, gender, suicide, peaceology and

police (in)action. Reflecting changes in contemporary perceptions as well as desires for scholarship emanating from under-researched areas of the globe, this book addresses the pervasive issue of guns, gun violence and gun homicides. Authored by a wide range of Social Science experts, and premised on the notions of epistemological diversity, inclusivity and knowledge production in the Global South, this book provides comprehensive coverage on the nebulous concern of guns and their destructive force using differing approaches to the same problem, with a focus on prevention/reduction of gun violence. Readers may find the chapters contained in this book to be fascinating, provocative, informative, clearly presented and solution oriented. This book is of special interest to students, criminologists, policymakers, criminal justice system officials and laypersons. It is invaluable to policymakers at differing levels of government who provide advice on the social issue of guns and gun violence in their respective jurisdictions.

Global Black Feminisms Andrea N. Baldwin, Tonya Haynes, 2023-08-28 This timely and informative volume centres how global Black feminist narratives of care are important to our contemporary theorizing and highlights the transgressive potential of a critical transnational Black feminist pedagogical praxis. This text not only details how such praxis can be revolutionary for the academy but also provides poignant examples of the student scholarship that can be produced when such pedagogy is applied. Drawing on narratives from Black women around the globe, the book features chapters on pedagogy, mentorship, art, migration, relationships, and how Black women make sense of navigating social and institutional barriers. Readers of the text will benefit from an interdisciplinary, global approach to Black feminisms that centres the narratives and experiences of these women. Readers will also gain knowledge about the historical and contemporary scholarship produced by Black women across the globe. This book is an invaluable resource for scholars and researchers, including graduate students in Caribbean feminisms, Black feminisms, transnational feminism, sociology, political science, the performing arts, cultural studies, and Caribbean studies.
