*Saving Lady Liberty* Claudia Friddell,2020-07-28 Here is the story of how the Statue of Liberty got its pedestal when Joseph Pulitzer, a Jewish immigrant and famous newsman, created one of the first American crowdfunding campaigns to raise money for it. When Joseph Pulitzer first saw the Statue of Liberty's head in Paris, he shared sculptor Auguste Bartholdi's dream of seeing France's gift of friendship stand in the New York harbor. Pulitzer loved words, and the word he loved best was liberty. Frustrated that many, especially wealthy New Yorkers, were not interested in paying for the statue's needed pedestal, Pulitzer used his newspaper, the New York World, to call on all Americans to contribute. Claudia Friddell's text and Stacy Innerst's illustrations capture this inspiring story of how one immigrant brought together young and old, rich

and poor, to raise funds for the completion of a treasured national monument.

**Lady Liberty's Holiday** Jen Arena, 2016-05-10 Hit the road and see America with the Statue of Liberty! The Statue of Liberty is feeling a little blue, despite being green. As much as she loves welcoming people to America, standing still for over a hundred years has left her with a stiff neck, aching arms, and a cramp in her leg. This lady could use a vacation! With some encouragement from her friend Moe the pigeon, Lady Liberty takes off to see the rest of America! She explores the sandy beaches of Cape Cod, the waving wheat fields of Kansas, the breathtaking grandeur of the Grand Canyon, and the cozy sunshine of the California coastline. But will Lady Liberty make it back to New York City for the Fourth of July? And will she even want to? Lady Liberty's journey [is] lighthearted and fun.--Publishers Weekly A fun and fabulous read for a Fourth of July storytime.--School Library Journal

**What Is the Statue of Liberty?** Joan Holub, Who HQ, 2014-05-29 In 1876, France decided to give the United States a very big and very special present--the Statue of Liberty. The gift was to commemorate the 100th birthday of the United States, and just packing it was no small feat--350 pieces in 214 crates shipped across the ocean. The story of how the 111-foot-tall lady took her place in the New York Harbor will fascinate young readers.

Zinc Sculpture in America, 1850-1950 Carol A. Grissom, 2009 Introduced in the United States as a new material for statuary in the mid-nineteenth century, zinc has properties that allowed replication at low cost. It was used to produce modestly priced serial sculpture displayed throughout the nation on fountains, public monuments, and war memorials. Imitative finishes created the illusion of more costly bronze, stone, or polychrome wood. This first comprehensive overview of American zinc sculpture is interdisciplinary, engaging aspects of art history, popular culture, local history, technology, and art conservation. Included is a generously illustrated catalogue presenting more than eight hundred statues organized by type: trade figures and Indians, gods and goddesses, fountain figures, animals, famous men, military figures, firemen, cemetery memorials, and religious subjects. The compilation of data on these statues will be valuable to scholars, filling the current void in research libraries. The author's experience as a conservator will also make the an essential resource for historic preservationists seeking to repair statues now damaged by years of outdoor exposure. This book has 555

illustrations, 354 of which are in color. Carol Grissom is Senior Objects Conservator at the Smithsonian's Museum Conservation Institute.
