The Psychic Immune System Jerry Kroth, 2016-09-09 The Psychic Immune System theorizes the existence of a hidden variable that acts via both unconscious and conscious processes to protect humans individually and collectively from mortal threats. Much like the physical immune system, the psychic immune system scans for danger, protects, heals, and ensures human safety and survival. Kroth argues that it isn't just luck that has enabled people to survive the multitude of epidemics, wars, and environmental disasters that could have resulted in extinction, but rather the work of a complex system that has enabled us to survive. Scrutinizing a variety of past and present threats, Kroth points to traces of a systematic force that has protected humans. Recommended for scholars of psychology, history, and political science.

Ternicode: Law of Three Prashant A U, 2022-07-28 The conceptual framework presented in this book is a first of its kind in the sense that it provides a robust yet simple way of determining the underlying aspect of various matters which have always daunted the human psyche. The novel narrative is captivating and invokes the inquisitiveness of the reader seeking to acquire a formidable understanding of the overall environment. "Ternicode" as the title goes is in itself, a lexical or semantic neologism. This new term strikes an immediate chord resonating the trigeminal relationship of factors associated with any phenomena. It intends to resolve all complexities and conflicts that emerge with the conventional methods of logic and reasoning. The author has taken care not to oversimplify the arguments presented while maintaining a sensible flow of information that provides valuable insight into the inherent nature of things that matter but appear elusive to our general understanding. It would not be an understatement to say that through the careful analysis of prominent personalities across numerous fields, the author indeed makes a powerful impact that shakes the foundations of traditional methods of leadership management. Last but not the least, as they say - Do not judge a book by its cover; this book has hidden jewels served on a platter for those who are starved of food for the mind.
