Holden Härtl, Katharina Zaychenko

German Grammar A1 to B1 Sarfuddin Ahmed, 2024-02-22 In this book all the grammatical topics from Level A1 to Level B1 are explained in detail. But this book is not just a grammar book. This is a complete program for learning German. With the help of this book, it is possible to learn German language in an effective way, because in addition to explaining the rules of grammar, other important elements of language learning, such as the necessary vocabulary and how to enlarge vocabulary more easily and effectively, have been explained in this book. From this point of view, this book is completely different from others conventional grammar books and is perfectly suited to meet the actual needs of students. About 6000 words from Level A1 to Level B1 are included in German-English and English-German alphabetical order.

Grammatical Categories in Linguistics and Education Holden Härtl, Katharina Zaychenko, 2024-11-04 This volume explores how grammatical categories, as defined by theoretical linguistics, are effectively implemented in language education. Aiming to bridge the gap between linguistic research and language pedagogy, it offers a detailed inquiry that spans theoretical frameworks and empirical data. By presenting a series of insightful studies, this work illustrates how findings from theoretical linguistics can be applied to enhance practical language instruction, demonstrating the reciprocal enrichment of both fields. Essential for linguists, language educators, and researchers interested in the intersections of grammar, cognition, and pedagogy, the volume is organized into four engaging sections. Each section illuminates the nuances of grammar teaching and language acquisition. It begins with a theoretical analysis of linguistic categories across diverse languages, progresses through the links between linguistic research and teaching methodologies, and delves into the role of empirical data in classroom applications. The final section focuses on the practical implementation of linguistic categories in language teaching, promoting a deeper understanding of grammar as a dynamic component of language learning.
