*Ragazzi di carta* Marco Mazzanti, 2016-08-20 Hanno nomi di colori. Hanno nomi di pianeti, stelle, lune. Hanno i nomi di tutti e di nessuno. Altri non ne posseggono proprio. Sono uomini. Sono donne. Ed è quanto basta. Sono ragazzi di carta. Fuggono. Camminano. Ritornano. Guardano indietro. Si sfiorano. Si voltano e di nuovo fuggono. Corrono. Le loro storie descrivono con esattezza la fragilità della gioventù odierna e la precarietà dei rapporti interpersonali. Ragazzi di carta è un libro dai toni metafisici che, in un mix di poesia e prosa, nel suo insolito fluire, lascia spiazzato il lettore, guidandolo lungo un sentiero di forme narrative che si rivelerà, al termine del viaggio, un'autentica sorpresa.

**Fuochi d'artificio un mattino d'estate** Veronica Orciari, 2020-03-10 Una piccola raccolta di poesie di una giovane

autrice, che attraverso le parole, dà vita ai sentimenti e alle incertezze di un'età complessa, ma anche ricca di splendidi momenti. Una serie di poesie che narrano diverse visioni del mondo, dell'amore, del proprio bellissimo paese, l'Italia, e dell'incomprensibilità della vita.

Le culture e le letterature ispanoamericane nella scuola italiana Adele Villani, Francesco Caracci, 2023-07-31 Il presente volume rappresenta il frutto di un'intensa riflessione, iniziata nell'autunno del 2020, circa la necessità di ampliare e innovare lo studio delle culture e delle letterature ispanoamericane nella scuola italiana. In primo luogo, il lavoro, adottando una prospettiva transnazionale e transculturale, mira a sottolineare l'enorme divario esistente tra la trattazione della letteratura spagnola e quella della letteratura ispanoamericana nei programmi di Lingua Spagnola. In secondo luogo, gli autori provano a delineare dei percorsi educativi alternativi che, tenendo conto dell'impiego di tecnologie digitali nella scuola, propongano di conciliare il raggiungimento degli obiettivi specifici di apprendimento previsti dal Quadro Comune Europeo di Riferimento (QCER) per la conoscenza delle lingue con lo sviluppo di alcune abilità trasversali ritenute di pari importanza.

The Relocation of Culture Simona Bertacco, Nicoletta Vallorani, 2021-04-08 The Relocation of Culture is about accents and borders-about people and cultures that have accents and that cross borders. It is a book that deals with translation and nomadic identities, and with the many ways in which the increasing relevance of forced migrations has affected the practice of languages and the understanding of cultures in our times. Simona Bertacco and Nicoletta Vallorani examine the theoretical and practical nexus of translation and migration, two of the most visible and anxiety-producing keywords of our age, and use translation as the method for a global cultural theory firmly based in the humanities, both as creative output and interdisciplinary scholarship. Positioning their work within the field of translation studies with important borrowings from literary and cultural studies, visual and migration studies, the authors suggest a theory of translation that makes space for complexity, considers different "languages" (words, images, sounds, bodies), and takes into account both our emotional, pre-linguistic and instinctual reaction to the other as an invader and an enemy and the responsibility for the other that lies at the heart of translation. This process necessarily involves a reflection on the location and relocation of cultures in contemporary times.

**Kant and Culture** Tommaso Morawski, 2022-05-25 Kant and Culture. Studies on Kant's Philosophy of Culture is a collective volume focusing on the figure of Kant as Kulturphilosoph. The challenge of this volume, which gathers scholars who differ in language, method, approach and perspective, is to shed light from different angles on the relevance and

complexity of a subject – Kant and culture – that has often been confined to the margins of the Kantforschung and has only recently received the attention it deserves. Yet, on closer inspection, the issues related to the notion of culture in Kant are so varied and at the same time so pervasive and transversal that they allow for important connections between his philosophical reflection's different areas (from aesthetics to theoretical philosophy, from ethics to philosophy of history, from philosophy of law to moral philosophy, from anthropology to religion, from geography to pedagogy), providing a privileged point of view to explore and understand his idea of a Bestimmung des Menschen. Moreover, Kant's contribution to the philosophy of culture offers important insights into its contemporary crisis, its loss of significance and interest. A starting point to try to articulate a notion of culture in a normative sense, that is, elaborated not in reference to a certain class of objects defined as cultural (education, the arts, the sciences), but formally, as a particular relationship we can establish with any object, subject or experience.

*Il complesso di Esaù* Riccardo Capoferro ,Luigi Marinelli ,Barbara Ronchetti,2022-05-15 L'opposizione tra lingue, culture e letterature maggiori e minori sembra riguardare sia il canone europeo che il pantheon della letteratura-mondo: risuona in ambito accademico come all'interno dell'apparato editoriale e mediatico che di fatto custodisce e trasmette le opere letterarie e che, accordando ad alcuni testi e culture maggiore visibilità, finisce col produrre, implicitamente, gerarchie di valore. Essere 'maggiore' o 'minore' è quindi anche un problema di logiche accademiche, a loro volta parte di un più ampio sistema di produzione del valore, che fa tutt'uno con il mondo industriale e post-industriale. In questo libro dieci specialisti di altrettante letterature nazionali europee affrontano alcune importanti declinazioni di questi concetti, nel comune tentativo di mostrare quanto 'maggiore' e 'minore' siano concetti correlativi, commutabili e provvisori, mentre – con Deleuze e Guattari – si dovrebbe forse intendere il minore non come sottosistema o fuorisistema del 'fatto maggioritario', ma come divenire potenziale e creativo del sistema stesso. Con riferimento al racconto biblico su Esaù e Giacobbe, dove il minore diviene maggiore e viceversa, il volume offre quindi anche una riflessione comune sui rapporti fra nazioni e culture europee, indagate nella reciproca dialettica che ne condiziona il posizionamento, la 'visibilità' e la diffusione.

(Post)Colonial Passages Silvia Albertazzi, Francesco Cattani, Rita Monticelli, Federica Zullo, 2019-01-15 While entailing a subversive re-vision of colonial histories, geographies, and subjectivities, the (post)colonial condition has unleashed a chain of movements, relocations, and re-writings that interrogate the globalized and neoliberal society. Ethnic, “racial”, religious, gendered, and sexual identities have been called into question, and requested to (re)define, name, and re-name themselves, to find new ways to tell their stories/histories. The very term “postcolonial” has triggered well-known controversial debates: its adoption is significant of a cultural politics involving the colonial past, controversial crisis in the present, and an open perspective toward alternative futures. Confronting literature and the arts from a postcolonial perspective is a critical and political task involving theories and cultural productions crossing barriers amongst fields of knowledge. The essays gathered here discuss postcolonialism as a transdisciplinary field of passages that negotiate among diverse yet interrelated cultural fields.

The Routledge Handbook of Language and Humor Salvatore Attardo, 2017-02-17 The Routledge Handbook of Language and Humor presents the first ever comprehensive, in-depth treatment of all the sub-fields of the linguistics of humor, broadly conceived as the intersection of the study of language and humor. The reader will find a thorough historical, terminological, and theoretical introduction to the field, as well as detailed treatments of the various approaches to language and humor. Deliberately comprehensive and wide-ranging, the handbook includes chapter-long treatments on the traditional topics covered by language and humor (e.g., teasing, laughter, irony, psycholinguistics, discourse analysis, the major linguistic theories of humor, translation) but also cutting-edge treatments of internet humor, cognitive linguistics, relevance theoretic, and corpus-assisted models of language and humor. Some chapters, such as the variationist sociolinguistics, stylistics, and politeness are the first-ever syntheses of that particular subfield. Clusters of related chapters, such as conversation analysis, discourse analysis and corpus-assisted analysis allow multiple perspectives on complex trans-disciplinary phenomena. This handbook is an indispensable reference work for all researchers interested in the interplay of language and humor, within linguistics, broadly conceived, but also in neighboring disciplines such as literary studies, psychology, sociology, anthropology, etc. The authors are among the most distinguished scholars in their fields.

*Teaching, Research and Academic Careers* Daniele Checchi, Tullio Jappelli, Antonio Uricchio, 2022-08-12 This open access book evaluates research quality, quality of teaching and the relationship between the two through sound statistical methods, and in a comparative perspective with other European countries. In so doing, it covers an increasingly important topic for universities that affects university funding. It discusses whether university evaluation should be limited to a single factor or consider multiple dimensions of research, since academic careers, teaching and awarding degrees are intertwined. The chapters included in the book evaluate teaching and research, also taking the gender dimension into account, in order to understand where and when gender discrimination occurs in assessment. Divided into five sections, the book analyses the

administrative data on the determinants of career completion of university students; increasing precariousness of academic careers, especially of young researchers; methods designed to assess research productivity when co-authorship and team production are becoming the standard practice; and interrelations between students' achievements and teachers' careers driven by research assessment. It brings together contributions from a large group of economists, statisticians and social scientists working under a project sponsored by ANVUR, the Italian agency for the evaluation of teaching and research of academic institutions. From an international perspective, the findings in this book are particularly interesting because despite low tuition costs, tertiary education in Italy has relatively low enrolment rates and even lower completion rates compared to those in other European and American countries. This book is of interest to researchers of the sociology of education, education policy, public administration, economics and statistics of education, and to administrators and policy makers working in the area of higher education.

**La teoria della traduzione nella storia** AA.VV., 2014-11-07 Nell'ambito della teoria della traduzione (Translation Studies) si sta facendo sempre più pressante l'esigenza di conoscere la storia di questa riflessione. Questo libro propone un panorama storico di alcuni dei saggi più importanti dedicati al problema del tradurre. Tutti i testi si occupano della traduzione letterario, o meglio della traduzione del testo artistico. Si va dalle prime affermazioni, espresse nella cultura europea dalla civiltà romana, fino a quelle del Ventesimo secolo, quando le riflessioni sparse si sono trasformate in vere e proprie teorie; si va, cioè, da Cicerone a Walter Benjamin. La lettura di questo testo evidenzia inoltre il ruolo centrale che proprio le traduzioni hanno occupato nella creazione e nell'evoluzione delle letterature.
