Emerging Trends in Leather Science and Technology Sreeram Kalarical Janardhanan, Luis A. Zugno, 2024-08-29

Leather and its products are globally traded commodities known for durability, fashion, reuse, repurpose, and resistance to degradation. Despite its benefits, the leather industry faces criticism from Non-Governmental Organizations (NGOs) due to its adverse environmental impact and often unfavourable labor conditions in non-certified tanneries. Efforts to enhance sustainability continue, yet challenges persist, prompting calls for revamping leather processing methods to ensure the industry's future compliance requirements. This monograph, through its 17 chapters, aims to address the multifaceted challenges and opportunities within the leather manufacturing industry, encompassing leather processing, product creation, and policy frameworks. The monograph includes contributions made by researchers, scientists, government officials, industry stakeholders, policymakers, and practitioners from more than 10 countries. It underscores the necessity for developing

nations to grasp, address, and enhance their processing and manufacturing infrastructure including labor practices as well as meet export standards, to attain sustainability and compliance. Moreover, the book delves into formulating robust policies governing the leather processing and product sector, emphasizing the need for stringent regulations to mitigate adverse environmental impacts. By offering insights into smart and sustainable leather and leather product manufacturing practices, the book serves as a valuable resource for leather professionals and other stakeholders

Fashion Marketing Caroline Le Bon, 2014-10-10 Fashion is everywhere! It transcends domains and applies to almost any kind of product (e.g., apparel, cars, digital devices, food, literature, travel, music, house decoration and personal wellness). Fashion greatly influences public interest, media coverage, and product success. The global fashion industry is among the most important in terms of investments, trade, and employment, despite its dependence on unpredictable demand. This book focuses on the fashion apparel and accessories industry in an attempt to help managers answer the following questions: Why and how do fashion products appeal to consumers, despite their constantly varying attributes? What specific elements and benefits of fashion influence consumers, and how can companies exploit them and gain from these? Which marketing strategies and tactics should companies use to increase fashion products' success while communicating and managing customers' image? How can companies maintain customer loyalty and generate higher profits with fashion products? By undertaking deep analyses of manufacturers and retailers' best practices, interviewing customers and companies, and reviewing recent academic research on fashion marketing, this book answers such questions and thus helps managers leverage the value that fashion adds to products while creating loyal customers in truly competitive fashion markets.

The End of Fashion Adam Geczy, Vicki Karaminas, 2018-11-01 Attitudes to fashion have changed radically in the twenty-first century. Dress is increasingly approached as a means of self-expression, rather than as a signifier of status or profession, and designers are increasingly treated as 'artists', as fashion moves towards art and enters the gallery, museum, and retail space. This book is the first to fully explore the causes and implications of this shift, examining the impact of technological innovation, globalization, and the growth of the internet. The End of Fashion focuses on the ways in which our understanding of fashion and the fashion system have transformed as mass mediation and digitization continue to broaden the way that contemporary fashion is perceived and consumed. Exploring everything from the rise of online shopping to the emergence of bloggers as power elites who have revolutionized the terrain of traditional fashion reportage, this volume anatomizes a world in which runway shows now compete with live-streaming, digital fashion films, Instagram, and Pinterest. Bringing together original, cutting-edge contributions from leading international scholars, this book is essential reading for students and scholars of fashion and cultural studies, as well as anyone interested in exploring the dramatic shifts that have shaken the fashion world this century - and what they might say about larger changes within an increasingly global and digital society.

Fashion Accessories Yamini Jhanji Dhir,2024-02-13 This book aims to provide a holistic and enriched learning experience to readers as far as various designing and technical aspects pertaining to fashion accessories are concerned. Accordingly, the construction methods, materials and styles of varied accessory categories are extensively covered in the book. Print edition not for sale in South Asia (Bangladesh, Bhutan, India, Nepal, Pakistan and Sri Lanka)

Fashion and Environmental Sustainability Léo-Paul Dana,Rosy Boardman,Aidin Salamzadeh,Vijay Pereira,Michelle Brandstrup,2023-11-06 The wide range of topics that the book covers are organised into sections reflecting a cradle to grave view of how entrepreneurial, innovative, and tech-savvy approaches can advance environmental sustainability in the fashion sector. These sections include: sustainable materials; innovation in design, range planning and product development; sustainable innovations in fashion supply chains; sustainable innovations in fashion retail and marketing; sustainable alternatives for end-of-life and circular economy initiatives; and more sustainable alternative fashion business models.
