Tesaurus de biblioteconomía y documentación Gonzalo Mochón Bezares,2002 El Tesaurus de Biblioteconomía y Documentación es un lenguaje controlado que nace como instrumento para el análisis de contenido y la recuperación de los documentos incluidos en la Base de Datos sobre Biblioteconomía y Documentación, ISOC-DC, producida por el CINDOC (CSIC) desde el año 1975, y que viene a cubrir la ausencia de léxicos documentales en español que abarquen todos los campos semánticos representados en los textos científico-técnicos publicados en este país, muchos de los cuales están recogidos en la mencionada base de datos. Este lenguaje permitirá una indización más homogénea de los documentos y facilitará su recuperación de una forma fácil y exhaustiva, eliminando ambigüedades y dando una visión de la afinidad semántica entre los distintos términos, enriqueciendo la labor de los documentalistas y ampliando el campo de búsqueda del usuario. Así mismo, este tesaurus pretende proponer a la comunidad científica un conjunto estructurado de términos sobre la base de un sistema de conceptos aptos para la organización del conocimiento biblioteconómico. Este tesaurus consta de tres índices (alfabético, jerárquico y permutado) y dos anexos de equivalencias a otros idiomas (inglés y francés) de todos los términos castellanos aceptados. En total contiene 1153 términos, de los que 914 son preferentes y 239 son no preferentes. En su elaboración se ha seguido la norma UNE 50-106-90, equivalente a la norma ISO 2788-1986 (E), sobre Directrices para el establecimiento y desarrollo de tesaurus monolingües.

Historia de la formación docente para la educación secundaria en Ciencias Económicas Domingo Greco,2024-03-01 Este libro se embarca en la tarea de desentrañar el origen y la evolución de la enseñanza de la economía, la contabilidad y la administración en Argentina. Desde el surgimiento de las primeras instituciones educativas que impartieron estas disciplinas

hasta la consolidación de los actuales profesorados afines a las Ciencias Económicas, la obra busca responder preguntas fundamentales. ¿Desde cuándo se enseña economía en el país? ¿Existió un tiempo en que esta disciplina se enseñaba en el nivel primario? ¿Cómo influyó la aparición de la escuela de comercio y el título de perito mercantil? ¿Cuándo surgió el primer profesorado en Ciencias Económicas y en qué institución emblemática se cursó? ¿Cómo eran los primeros planes de estudios de los profesorados que formaban docentes en Ciencias Económicas y de otras carreras afines? Esta obra no solo es una valiosa contribución al enriquecimiento cultural de quienes se formaron o se forman actualmente en carreras docentes vinculadas a las ciencias económicas, sino también un sentido homenaje a las instituciones educativas que, con visión pionera, forjaron el camino hacia la profesionalización de la enseñanza de estas disciplinas en el nivel secundario. Una apasionante crónica que rescata del olvido la historia de la formación docente para la educación secundaria en ciencias económicas.

**Trabajo social e investigación** Miguel Juárez, 1993-01-01 Esta obra traza las pautas a seguir para llevar a cabo una investigación en el campo del trabajo social. El objetivo es por tanto dotar a los trabajadores sociales de unas habilidades para acercarse de una forma científica a la realidad social. Contiene los siguientes capítulos: 1) el trabajo social ¿una nueva lectura? 2) la investigación y el trabajo social 3) necesidades y temas de investigación en trabajo social 4) diseño de investigación social 5) metodología y técnicas de investigación social 6) información y trabajo social 7) información para la investigación.

**La Ciencia Política en Colombia, la construcción de una comunidad académica** Javier Duque Daza, 2015-01-15

Este libro aborda un escenario como es el presente en el que el pasado juega un papel relevante. También es una evidencia de la consolidación de una disciplina, la Ciencia Política, en Colombia. Siempre se ha dicho, con acierto, que un área del saber alcanza su madurez, o en términos del autor, la institucionalización disciplinar -autonomización y diferenciación-, cuando además tiene capacidad de autorreflexión, de pensarse y evaluarse así misma. Javier Duque lleva a cabo esa laboriosa tarea y plantea un fructífero diálogo entre la disciplina que lentamente va floreciendo en Colombia, al unísono de lo que ocurre en América Latina, con las tradiciones más asentadas de Europa y de Estados Unidos. Su perspectiva ecléctica en la metodología de la historia de la ciencia le lleva a ahondar minuciosamente en los cimientos que con timidez se van asentando a partir de 1968 en la maraña que construye el marxismo y una posición ciertamente reactiva al empirismo y a la cuantificación de lo político.

Ciencia forense y contrainterrogatorio Eliseo Lázaro Ruiz,2022-11-23 La ciencia forense ha recobrado importancia en México a partir de la reforma constitucional del 2008. No obstante, en la literatura de la materia se han generado explicaciones contrapuestas en relación a la conceptualización, metodología y legitimación de la ciencia forense en el procedimiento penal. En esta obra, Eliseo Lázaro Ruiz, investigador titular del INACIPE, analiza los paradigmas académicos actuales sobre ciencia forense y ciencias forenses. Además, aborda los debates más recientes sobre la idoneidad y la evidencia científica en el proceso pericial. A partir de una revisión del estado del arte de los servicios periciales, el autor propone un modelo metodológico para realizar contrainterrogatorios basado en tres elementos: perito, peritaje y perístasis. Esta propuesta hace énfasis en la idoneidad pericial, los estándares científicos internacionales para validar el peritaje y el análisis de la incertidumbre científica.

**Fundamentos de administración y su estrategia** Camacho Mora Martín (Dr.),2025-03-04 Las actividades del alumno será el de analizar, diagnosticar, evaluar y presentar las reco-mendaciones adecuadas que requieran los casos planteados. El alumno será el responsable de actuar como si estuviera desempeñándose profesionalmente, es decir, que él es quien debe apor-tar los elementos para su solución. De esto depende la utilidad del método de casos prácticos.

**Cuidados auxiliares de enfermería** Ana María Fernández Espinosa,1995 Analiza la prestación de estos servicios en atención primaria, comunitaria y/o especializada.

**La terminología en el siglo XXI** Simposio Iberoamericano de Terminología ((9th :),Maria Teresa Cabré,Rosa Estopà,2006 La IX edición del Simposio Iberoamericano de Terminología, que se celebró en la sede del Institut d'Estudis Catalans los días 29 y 30 de noviembre y 1 y 2 de diciembre de 2004, se acogió a las iniciativas del Fòrum de les Cultures Barcelona 2004, primera edición de un nuevo acontecimiento internacional que se proponía -y se sigue proponiendo en su continuación- promover el diálogo entre las diferentes culturas del mundo para articular una cultura de la paz, respetuosa con la diversidad y funcionalmente sostenible, que fuera capaz de impulsar un proceso de globalización basado en criterios éticos, igualitarios y solidarios compartidos. Los principios del Fòrum de les Cultures Barcelona 2004, basados en la Declaración Universal de los Derechos Humanos y en los principios programáticos de las Naciones Unidas, asumen el compromiso de fomentar los valores democráticos, la defensa de las libertades y derechos individuales, el respeto por la diversidad étnica, cultural, lingüística y religiosa, el impulso del diálogo y la creatividad, el respeto por la biodiversidad, el fomento de la responsabilidad social mediante el diálogo y la promoción del desarrollo sostenible. La Red Iberoamericana de Terminología (RITerm) cooperó en estos principios dedicando el IX Simposio al papel que desempeña la terminología en los

tres ejes temáticos del Fòrum: la paz, la diversidad y la sostenibilidad. La terminología puede tener un papel importante en este diálogo, desde una doble vertiente: por un lado, porque puede participar en la delimitación de conceptos fuertemente ideologizados y polisémicos que están en la base de muchos conflictos desencadenados; por otro lado, porque es un elemento clave en la transmisión de ideas y conocimientos en un marco de plurilingüismo y especialización.\n
