Simone Murray

The Darkening Sunya Mara,2022-07-05 In this thrilling and epic YA fantasy debut, the only hope for a city trapped in the eye of a cursed storm lies with the daughter of failed revolutionaries and a prince terrified of his throne. Vesper Vale is the daughter of revolutionaries. Failed revolutionaries. When her mother was caught by the queen's soldiers, they gave her a choice: death by the hangman's axe, or death by the Storm that surrounds the city and curses anyone it touches. She chose the Storm. And when the queen's soldiers—led by a paranoid prince—catch up to Vesper's father after twelve years on the run, Vesper will do whatever it takes to save him from sharing that fate. Even arm herself with her father's book of dangerous experimental magic. Even infiltrate the prince's elite squad of soldier-sorcerers. Even cheat her way into his cold heart. But when Vesper learns that there's more to the story of her mother's death, she'll have to make a choice if she wants to save her city: trust the devious prince with her family's secrets, or follow her mother's footsteps into the Storm.

*The Digital Future of English* Simone Murray,2025-07-18 More than any other academic discipline, literary studies is the creation of print culture. How then can it thrive in the digital era? Early 1990s predictions of the book's imminent demise presented a simplistic either/or choice between the legacy of moribund print and triumphalist digital technology. Yet we have grown to experience the two media as complexly interdependent and even complementary. Clearly, digital does not kill print. But literary studies in the digital era cannot simply resume business as usual. It is urgently necessary to reconsider the discipline's founding assumptions in light of digital technology. The digital era prompts a rethinking of literary studies' object of study, as well as its methods, theories, audiences and pedagogical practices. What counts as literature necessarily shifts in an age of proliferating born-digital texts and do-it-yourself (DIY) online publication. Where should literary studies sit institutionally, and how might it graft contextually-oriented social sciences methods onto its traditionally humanistic mode of textual analysis? Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect? Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book-loving publics has never been technologically easier? Finally, how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial-age students? Literary studies has been convulsed for decades by debates over electronic literature and, more recently, digitally-aided 'distant reading'. But these discussions still mostly confine themselves to demarcating our proper object of study. We need to think more

expansively about digital technology's impact on the underpinning tenets of the discipline. Literary Media Studies is pitched at fellow literary scholars, book historians, media theorists, cultural sociologists, digital humanists and those working at the interface of these converging disciplines. It models constructive engagement with contemporary digital culture. Most importantly, it brings a burst of sorely needed optimism to the question of literary studies' digital future.

**The Lightstruck** Sunya Mara,2023-08-29 In this epic sequel and conclusion to the Darkening duology, which has been called "enchanting and wildly clever" (Ayana Gray, New York Times bestselling author of Beasts of Prey), Vesper Vale, once savior to a city plagued by cursed storms, finds herself facing an even more sinister threat when an ominous light summoned by the Great King seizes control of the city. Vesper Vale sacrificed everything to save her city from the cursed storm. After becoming a vessel of The Great Queen, Vesper awakes from a slumber three years after her life altering choice. What she finds isn't a home freed from the terror of the storm, but one where its citizens are besieged by the even more sinister force of The Great King and his growing army of the lightstruck—once regular citizens who are now controlled by the ominous light encroaching on the city. And the people are all looking to Vesper, now revered as a goddess after her sacrifice, as their city's only hope. To save the rings from the Great King, Vesper must contend with the obligations of being a deity to her people and the growing chasm between her and Dalca, the prince she swore never to love. Haunted by the guilt of their past choices and faced with the pressures of a city near ruin, Vesper and Dalca find themselves torn between the growing factions within the city and the royal court. But in order to save her city from the light, Vesper must face the power most outside of her control—the goddess within.
