pressures and examine some of the  
basic theory of fan design the results of  
combining fans in series and parallel

confusion is the way in which fan  
pressures are defined in section

web in this research paper is attempted  
to design a single stage radial type  
centrifugal blower for used in required  
industrial area in this thesis the bower  
is designed to provide low volume high  
pressure air for cooling ventilating and  
exhaust system that handle dust  
materials or corrosive fumes
