However, several gaps still are present in the identification, timeframe, mechanisms, and treatment strategies for the management of long-COVID.

Modelos centrados en el juego para la iniciación comprensiva del deporte Sixto González-Víllora,Javier Fernández-Río,Eva Guijarro,Manuel Jacob Sierra-Díaz,2021-04-13 Bunker y Thorpe (1982) desarrollaron el modelo Teaching Games for Understanding (TGfU), en castellano, Enseñanza Comprensiva del Deporte, en el año 1982 como una nueva aproximación de enseñanza del deporte centrada en el juego y en el estudiante/jugador con el objetivo de superar las limitaciones encontradas en las prácticas tradicionales que utilizaban situaciones descontextualizadas. En las últimas décadas se han publicado numerosos artículos y libros incorporando el gran potencial educativo de los diversos Modelos centrados en el Juego para incrementar la motivación en la práctica, la transferencia táctica, el desarrollo de la toma de decisiones de los jugadores y un desarrollo holístico de la competencia deportiva. Sin embargo, existe un vacío sobre la enseñanza deportiva en entornos extracurriculares. Centrado en esta idea, este libro intenta proporcionar a entrenadores y docentes una herramienta práctica que les guíe en la aplicación de diversos Modelos centrados en el Juego con las distintas categorías deportivas, considerando diversos niveles de complejidad táctica en las sesiones de ejemplo que aquí se proponen, con un intento de desarrollar jugadores alfabetizados motrizmente desde una perspectiva integral, formando jugadores inteligentes y teniendo en cuenta los valores positivos del deporte para promover estilos de vida activos. Este libro presenta siete capítulos, el primero de ellos se encarga de realizar una introducción a los Modelos centrados en el Juego, destacando características en común y beneficios en la práctica. A nivel práctico, se plantean los siguientes seis capítulos. En definitiva, es un libro muy recomendable para mejorar la calidad de la práctica tanto para docentes de Educación Física como para

entrenadores deportivos. Además, los estudiantes afines a carreras de educación o deporte pueden aprender orientaciones metodológicas y otras cuestiones relativas a los deportes para mejorar su formación inicial.

Castilla-La Mancha Felipe Centelles Bolós, 2009 Castilla-La Mancha: la consolidación de un proyecto social. Veinticinco años de autonomía es la aportación de un grupo de profesores e investigadores sociales de la Universidad de Castilla-La Mancha a la conmemoración de los veinticinco años de autonomía de la región. En este trabajo analizan en profundidad diversos fenómenos sociales, políticos y económicos que han acaecido en los últimos años y que han ido conformando y consolidando la autonomía castellano-manchega. Los profesores que han participado en esta obra, la mayoría sociólogos y bajo la coordinación del profesor de sociología, Felipe Centelles Bolós, lo han hecho desde el rigor, la precisión y la meticulosidad que les caracteriza en su quehacer diario, y lo han realizado desde un punto de vista crítico y documentado. han abordado temas como la conformación política de la región, la economía regional, los pilares del estado del bienestar, las comunicaciones y las tecnologías de la información, aportando información inédita. Estas cuestiones, sin lugar a dudas, interesan a toda persona preocupada en conocer la realidad social de Castilla-la Mancha, pero mucho más específicamente a profesionales de diferentes ámbitos: políticos, periodistas, directivos, economistas, sociólogos, sindicalistas, etcétera.

Competencia digital y tratamiento de la información Ana Isabel Callejas Albiñana, José Vicente Salido López, Óscar Jerez García, 2016-04-10 La relevancia de las tecnologías en una sociedad que es cada vez más digital y avanza hacia medios de comunicación basados en soportes informáticos hace que el sistema educativo permanezca en continuo análisis sobre la integración de estas metodologías docentes. La inclusión de la competencia digital en los currículos educativos de la educación obligatoria, en España y otros países, ha supuesto un cambio en la metodología y recursos de aula para el desarrollo de esta competencia. Concretamente esta competencia tiene un tratamiento de integración en otras competencias clave, sobre todo en las primeras etapas educativas, ya que no hay una asignatura específica, llegando a considerar su uso como transversal (Informe Eurydice, 2011) lo que supone un gran esfuerzo de integración en otras materias.

Avances de investigación en la Facultad de Enfermería Olivia Lorena Chaparro Díaz, 2022-11-04 En el marco de la celebración del centenario de su fundación, la Facultad de Enfermería presenta en esta obra los desarrollos de investigación más recientes de nueve de sus grupos. Los capítulos señalan hacia dónde avanza la investigación en cada una de las áreas y ofrecen pistas sobre la forma como se consolida el conocimiento en enfermería en Colombia, a través de las voces de la universidad pública de mayor impacto en la formación de profesionales en este campo desde 1920. Como disciplina, visibilizamos el conocimiento científico que nace de este quehacer y que requiere ser acumulado y sintetizado, por lo que este es el punto de partida del libro. Por ello, se emplean diversos diseños de investigación que con rigor, armonización y en diálogo con el cuidado de enfermería y la salud de colectivos permiten resaltar la necesidad de continuar desarrollando cada

vez más las líneas de investigación fortalecidas. Todos queremos ver los frutos de la trayectoria del centenario, por lo que los indicadores empíricos son necesarios a la hora de hablar de investigación. De acuerdo con Jaqueline Fawcett, estos permiten reflejar la filosofía, el abordaje teórico y el metodológico del pensamiento en enfermería. Así mismo, evidencian la forma como nos ven a los profesionales y permiten construir nuevo conocimiento e invertir la forma de construir la ciencia de enfermería. Los invitamos a conocer estos desarrollos que con mucho esfuerzo, amor, coraje, honor y compromiso han preparado los autores.
