The Shattered Mirror María Elena de Valdés,2010-07-05 Popular images of women in Mexico—conveyed through literature and, more recently, film and television—were long restricted to either the stereotypically submissive wife and mother or the demonized fallen woman. But new representations of women and their roles in Mexican society have shattered

the ideological mirrors that reflected these images. This book explores this major change in the literary representation of women in Mexico. María Elena de Valdés enters into a selective and hard-hitting examination of literary representation in its social context and a contestatory engagement of both the literary text and its place in the social reality of Mexico. Some of the topics she considers are Carlos Fuentes and the subversion of the social codes for women; the poetic ties between Sor Juana Inés de la Cruz and Octavio Paz; questions of female identity in the writings of Rosario Castellanos, Luisa Josefina Hernández, María Luisa Puga, and Elena Poniatowska; the Chicana writing of Sandra Cisneros; and the postmodern celebration—without reprobation—of being a woman in Laura Esquivel's *Like Water for Chocolate*.

The Shade of the Saguaro / La sombra del saguaro. Essays on the Literary Cultures of the American Southwest / Ensayos sobre las culturas literarias del suroeste norteamericano Annamaria Pinazzi, 2013 This volume springs from that fruitful project of scientific cooperation between the humanities departments of Università di Firenze and University of Arizona which was the Forum for the Study of the Literary Cultures of the Southwest (2000-2007). Tri-cultural, at least (Native, Hispanic and Anglo-American), and multi-lingual, today's Southwest presents a complex coexistence of different cultures, the equal of which would be hard to find elsewhere in the United States. Of this virtually inexhaustible object of study, the essays here collected tackle an ample range of themes. While the majority of them are concerned with the literatures of the Southwest, still a good third falls into the fields of history, art history, ethnography, sociology or cultural studies. They are partitioned in four sections, the first three reflecting the chronology of the stratification of the three major cultures and the fourth highlighting one of the most sensitive topics in and about contemporary Southwest - the borderlands/la frontera

Teaching Late-Twentieth-Century Mexicana and Chicana Writers Elizabeth Coonrod Martínez, 2020-12-15 Mexicana and Chicana authors from the late 1970s to the turn of the century helped overturn the patriarchal literary culture and mores of their time. This landmark volume acquaints readers with the provocative, at times defiant, yet subtle discourses of this important generation of writers and explains the influences and historical contexts that shaped their work. Until now, little criticism has been published about these important works. Addressing this oversight, *Teaching Late-Twentieth-Century Mexicana and Chicana Writers* starts with essays on Mexicana and Chicana authors. It then features essays on specific teaching strategies suitable for literature surveys and courses in cultural studies, Latino studies, interdisciplinary and comparative studies, humanities, and general education that aim to explore the intersectionalities represented in these works. Experienced teachers offer guidance on using these works to introduce students to border studies, transnational

studies, sexuality studies, disability studies, contemporary Mexican history and Latino history in the United States, the history of social movements, and concepts of race and gender.

Spanish/English Codeswitching in a Written Corpus Laura Callahan,2004 Spanish/English codeswitching in published work represents a claim to the right to participate in the marketplace on a bilingual and not just monolingual basis. This book offers a syntactic and sociolinguistic analysis of the codeswitching in a corpus of thirty texts: novels and short stories published in the United States by twenty-four authors between 1970-2000. An application of the Matrix Language Frame model shows that written codeswitching follows for the most part the same syntactic patterns as its spoken counterpart. The reasons why some written codeswitching is considered to be artificial or inauthentic are examined. An overview of written codeswitching research is given, including titles of many texts in addition to the corpus that contain codeswitching between diverse languages. The book concludes with a look at how codeswitching is used by writers to attain their objectives, and what the implications may be for the relative positions of Spanish, English, and Spanish/English codeswitching in the United States.
