Information Technology Outsourcing Suzanne Rivard,Benoit A. Aubert,2015-03-26 This new volume in the Advances in Management Information Systems series presents the latest cutting-edge knowledge in IT outsourcing. As part of the growing business trend to outsourcing various operations, IT outsourcing both determines the governance of a vital organizational function and influences the processes of exploitation and exploration in all other functions of an enterprise. In keeping with the mission of the AMIS series, the editors of this volume have framed the domain of research and practice broadly. Information Technology Outsourcing provides leading edge research on both the variety of decisions regarding the outsourcing of IS services and the management of the relationship with service suppliers.

Knowledge-Intensive Economies and Opportunities for Social, Organizational, and Technological Growth Lytras, Miltiadis D.,Daniela, Linda,Visvizi, Anna,2018-10-12 The modern world is developing at a pace where few can thoroughly keep track of its progress. More advancements in technology, evolving standards of education, and ongoing cultural and societal developments are leading to a need for improved pathways of knowledge discovery and dissemination. Knowledge-Intensive Economies and Opportunities for Social, Organizational, and Technological Growth provides emerging research exploring how academic research can represent both a bold response to the problems society faces today and a source of alternative solutions to those problems. This publication is derived from the basic understanding that education plays the role of the key enabler in the process of navigating these contemporary challenges. Featuring coverage on a broad range of topics such as e-service exploration, progressive online learning in urban areas, and advances in multimedia sharing, this book is ideally designed for consultants, academics, industry professionals, policymakers, politicians, and government officials seeking current research on the impact of information technology and the knowledge-based era.

Challenges of Information Technology Education in the 21st Century Cohen, Eli B.,2001-07-01 Challenges of Information Technology Education in the 21st Century strives to address a variety of pertinent questions surrounding the rapidly

Cloud Computing in Medical Imaging Ayman El-Baz, Jasjit S. Suri, 2023-03-14 Today's healthcare organizations must focus on a lot more than just the health of their clients. The infrastructure it takes to support clinical-care delivery continues to expand, with information technology being one of the most significant contributors to that growth. As companies have

become more dependent on technology for their clinical, administrative, and financial functions, their IT departments and expenditures have had to scale quickly to keep up. However, as technology demands have increased, so have the options for reliable infrastructure for IT applications and data storage. The one that has taken center stage over the past few years is cloud computing. Healthcare researchers are moving their efforts to the cloud because they need adequate resources to process, store, exchange, and use large quantities of medical data. Cloud Computing in Medical Imaging covers the state-of-the-art techniques for cloud computing in medical imaging, healthcare technologies, and services. The book focuses on Machine-learning algorithms for health data security Fog computing in IoT-based health care Medical imaging and healthcare applications using fog IoT networks Diagnostic imaging and associated services Image steganography for medical informatics This book aims to help advance scientific research within the broad field of cloud computing in medical imaging, healthcare technologies, and services. It focuses on major trends and challenges in this area and presents work aimed to identify new techniques and their use in biomedical analysis.

Blockchain, Internet of Things, and Artificial Intelligence Naveen Chilamkurti,T. Poongodi,Balamurugan Balusamy,2021-04-01 Blockchain, Internet of Things, and Artificial Intelligence provides an integrated overview and technical description of the fundamental concepts of blockchain, IoT, and AI technologies. State-of-the-art techniques are explored in depth to discuss the challenges in each domain. The convergence of these revolutionized technologies has leveraged several areas that receive attention from academicians and industry professionals, which in turn promotes the book's accessibility more extensively. Discussions about an integrated perspective on the influence of blockchain, IoT, and AI for smart cities, healthcare, and other business sectors illuminate the benefits and opportunities in the ecosystems worldwide. The contributors have focused on real-world examples and applications and highlighted the significance of the strengths of blockchain to transform the readers' thinking toward finding potential solutions. The faster maturity and stability of blockchain is the key differentiator in artificial intelligence and the Internet of Things. This book discusses their potent combination in realizing intelligent systems, services, and environments. The contributors present their technical evaluations and comparisons with existing technologies. Theoretical explanations and experimental case studies related to real-time scenarios are also discussed. FEATURES Discusses the potential of blockchain to significantly increase data while boosting accuracy and integrity in IoT-generated data and AI-processed information Elucidates definitions, concepts, theories, and assumptions involved in smart contracts and distributed ledgers related to IoT systems and AI approaches Offers real-world uses of blockchain technologies in different IoT systems and further studies its influence in supply chains and logistics, the automotive industry, smart homes, the pharmaceutical industry, agriculture, and other areas Presents readers with ways of employing blockchain in IoT and AI, helping them to understand what they can and cannot do with blockchain Provides readers with an awareness of how industry can avoid some of the pitfalls of traditional data-sharing

strategies This book is suitable for graduates, academics, researchers, IT professionals, and industry experts.

Agricultural Science at La Trobe University: 1968- 72 Lindsay Falvey,2018-11-27 Agricultural Science was offered by La Trobe University in the second year of its operation. In a new university without other applied sciences, it was a special course. Designed by Prof Bob Reid, the course began as a demanding intensive four-year degree oriented to sound scientific understanding backed by practical experience during vacation times. The book introduces the history relevant to the creation and early operation of the BAgSc degree and then presents recollections and memoirs of the first agricultural science intake (FASI) students 50 years after they entered the course. It also includes recollections of some staff from the years 1968-72 and various old photographs.

Trade Logistics in Landlocked and Resource Cursed Asian Countries Kankesu Jayanthakumaran,Nagesh Shukla,Charles Harvie,Odbayar Erdenetsogt,2019-05-16 This book focuses on strategies to achieve economic diversification in Asian landlocked countries. It does so by analysing the impact of the Dutch disease, non-resource firm heterogeneity, trade logistics operations, trade facilitation, aid for trade, small and medium-sized enterprises, and foreign direct investment. Offering a wide range of expert views and opinions, research findings, information and data, the book will be of value to

policy makers and students of trade and development economics.

Web Information Systems David Taniar, Johanna Wenny Rahayu, 2004-01-01 The era of web technology has enabled information and application sharing through the Internet. The large amount of information on the Internet, the large number of users, and the complexity of the application and information types have introduced new areas whereby these issues are explored and addressed.

English Medium Instruction in Higher Education in Asia-Pacific Ben Fenton-Smith, Pamela Humphreys, Ian Walkinshaw, 2017-03-19 This volume draws together the viewpoints and research findings of leading scholars and informed local practitioner-researchers throughout Asia-Pacific about the issues and challenges of English as a medium of instruction (EMI) at higher education institutions in that region. Specifically, it addresses four key themes: Macro-level EMI policy and practice; institutional implications for pedagogy; stakeholder perceptions of EMI; and challenges of interpersonal interaction in EMI contexts. The book is among the first to critically examine the emerging global phenomenon of English as a medium of instruction, and the first title to exclusively explore Asia-Pacific tertiary contexts. It will be of particular interest to policy-makers in international education and tertiary educators seeking blueprints for practice, as well as scholars and postgraduate students of English as a lingua franca, English for academic purposes, academic language and learning, and language education in Asia-Pacific.

Transforming Education in the Gulf Region Khalid Alshahrani,Mohamed Ally,2016-07-01 Countries in the Arab Gulf are currently experiencing some of the fastest rates of growth and progress in the world. Transforming Education in the Gulf Region argues that education systems in these countries need to use innovative pedagogies and best practices in teaching and learning to educate all citizens so that they obtain the knowledge and skills to be productive members of society. This book will contribute to the transformation of education in the Gulf countries by suggesting best practices, research outcomes and case studies from experts in the Gulf region. It has become increasingly evident in recent years that Gulf countries need to use emerging learning technologies to cater for the needs of learners and to provide maximum flexibility in learning. There

is also a growing practical need to use electronic technologies, since learning materials are more widely available in electronic formats than in paper-based formats. This book focuses on the role of emerging technologies and innovative pedagogies in transforming education in six Gulf countries in the region (Saudi Arabia, United Arab Emirates, Kuwait, Qatar, Oman and Bahrain). With contributions from experts around the world, the book argues that the time is right for Arab Gulf countries to make the transition to electronic learning and that they need to implement the outcomes of research and adopt best practices to transform and revolutionize education to prepare learners in the Gulf region for the 21st Century. The book should be of interest to academics and students in the areas of higher education, learning technologies, education policy and education reform. It should also be of interest to educators and policymakers in the Gulf region.

Environmental Postcolonialism Shubhanku Kochar, Anjum Khan, 2021-02-08 A 2022 Choice Reviews Outstanding Academic Title *Environmental Postcolonialism: A Literary Response* is an academic investigation of the environmental repercussions of colonial destruction. This volume addresses the complex interplay between postcolonialism and environmental discourse through literature produced in the ex-colonies. This literature is read from the standpoint of ex-colonies within their human and non-human context. The primary objective of this volume is to scrutinize environmental concerns in the light of postcolonial theory, and so it examines works of art from the twin perspective of eco-criticism and postcolonialism which illuminates and underscores how colonizers destroyed and interfered with both nature and culture. Through discussing the intersecting layers of ecocriticism and postcolonial criticism, the volume gestures to new directions and generates a hopeful vision of a decolonized world.
