Commentary on the Old Greek and Peshitta of Isaiah 1-25 Ronald L. Troxel, 2022-09-09 The first thorough commentary on the Old Greek and Peshitta of Isaiah Ronald L. Troxel's new textual commentary on Isaiah focuses on the book's Greek and Syriac translations and seeks to recover, as much as possible, the Hebrew texts on which these early translations relied. Troxel treats the Greek and Syriac together in order to present a detailed analysis of their relationship,

devoting particular attention to whether the Syriac was directly or indirectly influenced by the Greek. This comparison sheds light on both the shared and distinct approaches that the translators took in rendering lexemes, phrases, verses, and even passages. In addition Troxel presents observations about the literary structures the translators created that differ from those implicit in their source texts (as we understand them), to produce coherent discourse in the target language. Features: Textual commentary on the life of the text of Isaiah 1–25 Use of the Dead Sea Scrolls to shed light on particular issues Detailed comparison of the Masoretic Text, the Old Greek, and the Peshitta

The Deuteronomist's History Hans Ausloos,2015-10-14 In The Deuteronomist's History, Hans Ausloos provides for the first time a detailed status quaestionis concerning the relationship between the books Genesis-Numbers and the so-called Deuteronom(ist)ic literature. After a presentation of the origins of the 18th and 19th century hypothesis of a Deuteronom(ist)ic redaction, specific attention is paid to the argumentation used during the last century. Particular interest also is paid to the concept of the proto-Deuteronomist and the mostly tentative approaches of the Deuteronom(ist)ic 'redaction' of the Pentateuch during the last decades. The book concludes with a critical review and preview of the Deuteronom(ist)ic problem. Each phase in the Deuteronomist's history is illustrated on the basis of the epilogue of the Book of the Covenant (Exod. 23:20-33).

Printing Spinoza Jeroen M.M. van de Ven,2022-04-04 In *Printing Spinoza* Jeroen van de Ven systematically examines all seventeenth-century printed editions of Spinoza's writings, published between 1663 and 1694, as well as their variant 'issues'. In focus are Spinoza's 1663 adumbration of René Descartes's 'Principles of Philosophy' with his own 'Metaphysical Thoughts', the 'Theological-Political Treatise' (1670), and the posthumous writings (1677), including the famously-known 'Ethics'. Van de Ven's descriptive bibliography studies, contextualizes, and records all aspects of the publication history of Spinoza's writings from manuscript to print and assesses their immediate reception. It discusses the printed books' codicology, philology, typographical and textual relationships, illustration programmes, as well as their dissemination in early Enlightenment Europe, in view of the physical aspects of 1,246 extant copies and their provenance.
