Film Music Mark Russell, James Edward Young, 2000 In *Film Music*, fourteen of the world's best known film composers discuss their craft, revealing the creative process that led to the familiar sound of the most memorable films of our time. Like all titles in the Screencraft Series, *Film Music* is beautifully produced and lavishly illustrated with drawings, scripts, storyboards, models and stills from classic films. A companion CD features a composition from each of the fourteen contributors. Musicians, composers, filmmakers and film enthusiasts will find much to learn and much to enjoy in this unique volume. Includes CD featuring a piece of music from each contributor Part of the Screencraft series, the first books to explore the crafts of filmmaking by tracing the entire creative process

Easy Listening and Film Scoring 1948-78 Jack Curtis Dubowsky, 2021-05-27 Composers, arrangers, conductors, session musicians, and executives worked in easy listening and scoring, complicating an academic focus that lionizes film music while ignoring or deriding easy listening. This book documents easy listening's connections with film music, an aspect overlooked in academic and popular literature. Fueled by the rise of the LP and home entertainment, easy listening became the largest midcentury commercial music market, generating more actual income for the record business than 7-inch singles. Easy listening roped in subgenres including classical, baroque, jazz, Latin, Polynesian, exotica, rock, Broadway, and R&B, appropriated and reinterpreted just as they were for cinema. Easy listening provided opportunities in orchestral music for conservatory-trained composers. Major film composers such as Henry Mancini and Michel Legrand had a prodigious output of easy listening albums. Critics fault easy listening for structural racism, overlooking its evolution and practitioners. Easy listening helped destabilize a tripartite record business that categorized product as race records, old time records, or general popular music. Charlie Parker's with Strings records altered the direction of jazz, profoundly influencing other performers, encouraging bold crosspollinations, and making money. The influence of technology and historical contexts of music for work and leisure are explored. Original interviews and primary sources will fascinate scholars, historians, and students of cinema, television, film scoring, and midcentury popular music.

The Encyclopedia of Film Composers Thomas S. Hischak, 2015-04-16 For more than a century, original music has been composed for the cinema. From the early days when live music accompanied silent films to the present in which a composer can draw upon a full orchestra or a lone synthesizer to embody a composition, music has been an integral element of most

films. By the late 1930s, movie studios had established music departments, and some of the greatest names in film music emerged during Hollywood's Golden Age, including Alfred Newman, Max Steiner, Dimitri Tiomkin, and Bernard Herrmann. Over the decades, other creators of screen music offered additional memorable scores, and some composers—such as Henry Mancini, Randy Newman, and John Williams—have become household names. The Encyclopedia of Film Composers features entries on more than 250 movie composers from around the world. It not only provides facts about these artists but also explains what makes each composer notable and discusses his or her music in detail. Each entry includes Biographical material Important dates Career highlights Analysis of the composer's musical style Complete list of movie credits This book brings recognition to the many men and women who have written music for movies over the past one hundred years. In addition to composers from the United States and Great Britain, artists from dozens of other countries are also represented. A rich resource of movie music history, The Encyclopedia of Film Composers will be of interest to fans of cinema in general as well as those who want to learn more about the many talented individuals who have created memorable scores.

David Bowie and Film Stephen Glynn,2022-10-31 This book constitutes the first monograph dedicated to an academic analysis of David Bowie's appearances in film. Through close textual analysis together with production and reception histories, Bowie's 'silver screen' career is explored in full. The book covers performance documentaries such as Ziggy Stardust and the Spiders from Mars, star vehicles ranging from the eulogised The Man Who Fell to Earth to the excoriated Just a Gigolo, plus roles from the horror chic of The Hunger and cult fantasy of Labyrinth to the valiant high-brow Baal and vainglorious high-budget Absolute Beginners, ending with Bowie as Bowie in Bandslam and others as 'Bowie' in Velvet Goldmine and Stardust. Alongside showing his willingness to experiment (and at times fail) across a variety of genres, this study investigates Bowie's performative style that, while struggling to accommodate the requirements of cinematic realism, fits more harmoniously with alternative production codes and aesthetics. More broadly, by exploring the commercial, socio-cultural and ideological significance of Bowie on film, the book demonstrates how notions of gender, sexuality and identity formation, plus commodity and cultural capital, function and fluctuate in contemporary society.

Give Me a Reason Jayci Lee,2025-07-29 In this modern retelling of Jane Austen's PERSUASION, a K-drama actress gets her second chance at love with the man she left to save her family, if only she can work up the courage to risk her heart on forever...one last time. For ten years, Anne Lee told herself that Frederick Nam was her past. To save her father from bankruptcy, she dropped out of UC San Diego to pursue an acting career in Korea. Anne had to stop Frederick from following her and ruining his future. Breaking up with him was the best way she could love him. After Anne left him, Frederick spent

years loving her, missing her, and hating her until he decided to live his life for himself. He followed his dream and became a firefighter in Culver City. He didn't need romance. He had his work and his friends. When she returns to Los Angeles, Anne and Frederick find themselves in the same wedding—she as her cousin's bridesmaid and he as his friend's groomsman. Even though he is cold and distant with her, Anne can no longer deny that she never got over him. Not even close. As for Frederick, needing to take care of Anne is a habit he can't seem to kick, but that doesn't mean he has to forgive her.

Ocean of Sound David Toop, 2018-08-02 David Toop's extraordinary work of sonic history travels from the rainforests of Amazonas to the megalopolis of Tokyo via the work of artists as diverse as Brian Eno, Sun Ra, Erik Satie, Kate Bush, Kraftwerk and Brian Wilson. Beginning in 1889 at the Paris exposition when Debussy first heard Javanese music performed, *Ocean of Sound* channels the competing instincts of 20th century music into an exhilarating, path-breaking account of ambient sound. 'A meditation on the development of modern music, there's no single term that is adequate to describe what Toop has accomplished here ... mixing interviews, criticism, history, and memory, Toop moves seamlessly between sounds, styles, genres, and eras' Pitchfork's '60 Favourite Music Books'

The Complete David Bowie (Revised and Updated 2016 Edition) Nicholas Pegg, 2016-12-06 The biggest edition yet - expanded and updated with 35,000 words of new material Critically acclaimed in its previous editions, *The Complete David Bowie* is widely recognized as the foremost source of analysis and information on every facet of Bowie's career. The A-Z of songs and the day-by-day dateline are the most complete ever published. From the 11-year-old's skiffle performance at the 18th Bromley Scouts' Summer Camp in 1958, to the emergence of the legendary lost album *Toy* in 2011, to his passing in January 2016, *The Complete David Bowie* discusses and dissects every last development in rock's most fascinating career. * The Albums - detailed production history and analysis of every album from 1967 to the present day. * The Songs - hundreds of individual entries reveal the facts and anecdotes behind not just the famous recordings, but also the most obscure of unreleased rarities - from 'Absolute Beginners' to 'Ziggy Stardust', from 'Abdulmajid' to 'Zion'. * The Tours - set-lists and histories of every live show. * The Actor - a complete guide to Bowie's career on stage and screen. * Plus - the videos, the BBC radio sessions, the paintings, the Internet and much more.

BBC Music Magazine ,2000

Music in Film Pauline Reay, 2004 *Music in Film: Soundtracks and Synergy* discusses a broad range of films - from classical Hollywood through to American independents and European art films - and offers a brief history of the development of music in film from the silent era to the present day. In particular, this book explores how music operates as a narrative device, and also emotionally and culturally. By focusing on the increasing synergy between film and music texts, it includes an extended case study of *Magnolia* as a film script which developed from a pop song. Emphasis is also placed on the divide between the 'high culture' of the orchestral score and the 'low culture' of the pop song.

Extreme Exoticism W. Anthony Sheppard,2019-09-20 To what extent can music be employed to shape one culture's understanding of another? In the American imagination, Japan has represented the most alien nation for over 150 years. This perceived difference has inspired fantasies--of both desire and repulsion--through which Japanese culture has profoundly impacted the arts and industry of the U.S. While the influence of Japan on American and European painting, architecture, design, theater, and literature has been celebrated in numerous books and exhibitions, the role of music has been virtually ignored until now. W. Anthony Sheppard's *Extreme Exoticism* offers a detailed documentation and wide-ranging investigation of music's role in shaping American perceptions of the Japanese, the influence of Japanese music on American composers, and the place of Japanese Americans in American musical life. Presenting numerous American encounters with and representations of Japanese music and Japan, this book reveals how music functions in exotic representation across a variety of genres and media, and how Japanese music has at various times served as a sign of modernist experimentation, a sounding board for defining American music, and a tool for reshaping conceptions of race and gender. From the Tin Pan Alley songs of the Russo-Japanese war period to Weezer's *Pinkerton* album, music has continued to inscribe Japan as the land of extreme exoticism.

Pop Stars on Film Kirsty Fairclough,Jason Wood,2023-02-23 Pop stars have provided audiences with performative moments that have become ingrained in popular consciousness. They are a lens through which deeper understandings about race, gender, politics, history and the artistic process can be understood. When combined with the most affective of mediums – cinema, the combination can be both thrilling and alarming. From the relatively early days of cinema, figures from the world of popular music have made forays into acting and contributed cameo appearances. From Little Richard and Kylie Minogue to Nick Cave and Tom Waits, *Pop Stars On Film: Popular Culture in a Global Market* offers a collection of essays on some of the most influential international performances from a diverse range of cultural icons. The book considers industry shifts, access and diversity, but also the notion of cultural appropriation, audience appeal, marketing and demographics. Perhaps most importantly, the publication will look at what happens when cultures collide and coalesce.

The films of Luc Besson Susan Hayward,Philip Powrie,2019-01-25 This fascinating collection looks at the career and films of Luc Besson, one of the most acclaimed figures in international cinema. Contributions have been assembled from all over the world, and their different approaches reflect this geographical diversity. Films covered range from Besson's first feature, *La Dernier Combat*, to the international blockbusters *The Fifth Element* and *Joan of Arc*. The essays range from looking at costume design to musical scores, and the final chapter offers a transcript of a previously unpublished interview

with the man himself. He is the only French director to have crossed over successfully during the 1990s into the blockbuster spectacular we associate with Hollywood cinema and yet this is only the second book in English on this major international director. The films of Luc Besson will make fascinating reading for anyone interested in the career and films of the 'master of spectacle'.

Rock Star/Movie Star Landon Palmer, 2020-06-30 During the mid-1950s, when Hollywood found itself struggling to compete within an expanding entertainment media landscape, certain producers and studios saw an opportunity in making films that showcased performances by rock 'n' roll stars. Rock stars eventually found cinema to be a useful space to extend their creative practices, and the motion picture and recording industries increasingly saw cinematic rock stardom as a profitable means to connect multiple media properties. Indeed, casting rock stars for film provided a tool for bridging new relationships across media industries and practices. From Elvis Presley to Madonna, this book examines the casting rock stars in films. In so doing, *Rock Star/Movie Star* offers a new perspective on the role of stardom within the convergence of media industries. While hardly the first popular music culture to see its stars making the transition to screen, the timing of rock's emergence and its staying power within popular culture proved fortuitous for a motion picture business searching for its place in the face of continuous technological and cultural change. At the same time, a post-star-system film industry provided a welcoming context for rock stars who have valued authenticity, creative autonomy, and personal expression. This book uses illuminating archival resources to demonstrate how rock stars have often proven themselves to be prominent film workers exploring this terrain of platforms old and new - ideal media laborers whose power lies in the fact that they are rarely recognized as such. Combining star studies with media industry studies, this book proposes an integrated methodology for writing media history that combines the actions of individuals and the practices of industries. It demonstrates how stars have operated as both the gravitational center of media production as well as social actors who have taken on a decisive role in the purposes to which their images are used.

The Gramophone ,2007

Sound Kathryn Kalinak, 2015-05 Sound has always been an integral component of the moviegoing experience. Even during the so-called “silent era,” motion pictures were regularly accompanied by live music, lectures, and sound effects. Today, whether we listen to movies in booming Dolby theaters or on tiny laptop speakers, sonic elements hold our attention and guide our emotional responses. Yet few of us are fully aware of the tremendous collaborative work, involving both artistry and technical wizardry, required to create that cinematic soundscape. Sound, the latest book in the Behind the Silver Screen series, introduces key concepts, seminal moments, and pivotal figures in the development of cinematic sound. Each of the book's six chapters cover a different era in the history of Hollywood, from silent films to the digital age, and each is written by an expert in that period. Together, the book's contributors are able to explore a remarkable range of past and present film industry practices, from the hiring of elocution coaches to the marketing of soundtrack records. Not only does the collection highlight the achievements of renowned sound designers and film composers like Ben Burtt and John Williams,

it also honors the unsung workers whose inventions, artistry, and performances have shaped the soundscapes of many notable movies. After you read *Sound*, you'll never see—or hear—movies in quite the same way. *Sound* is a volume in the *Behind the Silver Screen* series—other titles in the series include *Acting*; *Animation*; *Art Direction and Production Design*; *Cinematography*; *Costume, Makeup, and Hair*; *Directing*; *Editing and Special Visual Effects*; *Producing*; and *Screenwriting*.
