*What I Did Wrong* John Weir, 2022-05-03 Set in a rapidly gentrifying New York City determined to move beyond the decimation of a generation a decade earlier, *What I Did Wrong* is a day in the life of Tom, a forty-two-year-old English professor, haunted by the death of his best friend, Zack, who died theatrically and calamitously of AIDS. Tom himself slouches gingerly and precariously into middle age questioning every certainty he had about himself as a gay man while

negotiating the field of his college classes, populated as they are with guys whose cocky bravado can't quite compensate for their own confused masculinity. Tom tries to balance his awkwardly developing friendships with them. In the process, he begins to find common ground with these proud young men and, surprisingly, a way to claim his own place in the world, and in history. A powerfully moving—and often disarmingly funny—book about loss, character, and sexuality in the wake of AIDS, *What I Did Wrong* is a survivor's tale in an age when all certainties have lost their logic and focus. It is a romance that embraces its objects from the traumas of toxic masculinity to the aftermath of catastrophic loss amidst the enduring allure of New York City in all its manic and heartbreaking grandeur.

**They Died on My Watch** Noel Bailey, 2020-09-03 They Died on my Watch By: Noel Bailey Who was the actress that died just before Christmas - she was the voice of... in...? How many actors died of cancer-related illness in 1996? Did Hitler commit suicide or was he shot by Russian troops? Hey, do you remember what year Princess Diana died in that French car crash? How many husbands did Elizabeth Taylor divorce in her lifetime? What well-known actor died just a few days after David Bowie? Questions you might hear at the next table at your regular eatery. Questions you may not know the answer to. *They Died On My Watch* can answer these and many more. It is a comprehensive reference work that should prove itself to be indispensable to any household. Most certainly a book to sustain interest while cruising at 35,000 feet between London and New York. The ultimate “umpire” you might say, to settle any argument that may arise with regards to discussion involving a deceased celebrity - recent or not.

Stop Falling for the Okeydoke Stephen A. Tillett, 2017-05-22 The United States of America has been plagued by a critical birth defect since its founding: the idea that race matters. Stephen A. Tillett, an Air Force veteran and pastor for the past 27 years, argues that race is a social construct and has no basis in science. But sadly, it has permeated every aspect of American life for hundreds of years. The Bible has been prescient in speaking to this regrettable dynamic: What has been will be again, what has been done will be done again; there is nothing new under the sun. (Ecclesiastes 1:9). Instead of focusing on obstacles that we all face and dreams we all share, race and racism has kept people of common interests artificially divided. As Dr. Martin Luther King Jr. said, We must learn to live together as brothers [and sisters] or perish together as fools. To do what King suggested, we must stop making vigorous assertions about assumptions that are demonstrably untrue. We must stop believing in ideas that have a visceral appeal but lead to immoral outcomes. We must *Stop Falling for the Okeydoke*. Book trailer: <https://www.youtube.com/watch?v=EwK9z81GE9A>

Serpentine Tom Morton, 2011-03-11 A name from the murkiest corners of Britain's secret war in Ireland: *Serpentine*. At first it's just gossip and fearful whispers. But then people begin to die and all hell breaks loose from Palestine to the remote Highlands of Scotland. Fresh from the toughest assignments in the mercenary world comes former SAS officer Murrice. Can he find *Serpentine* before it's too late and before the horrific secrets of the past threaten to cause chaos not just in

Ireland but in the Middle East too? In a trail of mayhem that leads through Scotland, Gaza and Ireland, Murricane battles his own demons, as well as a monstrous former RUC officer, a disgraced policeman and a series of unreliable Land Rovers, until Serpentine plays his final, devastating game . . . Serpentine is an explosive, bitterly funny journey into the darkest heart of the Irish Troubles and the violence that lurks in Scotland's most scenic Highland communities.

Zibaldone Giacomo Leopardi, 2013-07-16 A groundbreaking translation of the epic work of one of the great minds of the nineteenth century Giacomo Leopardi was the greatest Italian poet of the nineteenth century and was recognized by readers from Nietzsche to Beckett as one of the towering literary figures in Italian history. To many, he is the finest Italian poet after Dante. (Jonathan Galassi's translation of Leopardi's *Canti* was published by FSG in 2010.) He was also a prodigious scholar of classical literature and philosophy, and a voracious reader in numerous ancient and modern languages. For most of his writing career, he kept an immense notebook, known as the *Zibaldone*, or hodge-podge, as Harold Bloom has called it, in which Leopardi put down his original, wide-ranging, radically modern responses to his reading. His comments about religion, philosophy, language, history, anthropology, astronomy, literature, poetry, and love are unprecedented in their brilliance and suggestiveness, and the *Zibaldone*, which was only published at the turn of the twentieth century, has been recognized as one of the foundational books of modern culture. Its 4,500-plus pages have never been fully translated into English until now, when a team under the auspices of Michael Caesar and Franco D'Intino of the Leopardi Centre in Birmingham, England, have spent years producing a lively, accurate version. This essential book will change our understanding of nineteenth-century culture. This is an extraordinary, epochal publication.

**Beyond Caring** Daniel F. Chambliss, 2024-05-31 Vividly documenting the real world of the contemporary hospital, its nurses, and their moral and ethical crises, Dan Chambliss offers a sobering revelation of the forces shaping moral decisions in our hospitals. Based on more than ten years' field research, *Beyond Caring* is filled with eyewitness accounts and personal stories demonstrating how nurses turn the awesome into the routine. It shows how patients, many weak and helpless, too often become objects of the bureaucratic machinery of the health care system and how ethics decisions, once the dilemmas of troubled individuals, become the setting for political turf battles between occupational interest groups. The result is a compelling combination of realism and a powerful theoretical argument about moral life in large organizations.

*The Little Book of Humorous Quotes* Malcolm Kushner, 2011-09

**Coming of Age in Films** Mario Garrett, 2019-02-14 The story of films is the story of human development. From the very first story that defined the birth of our civilization—the Sumerian Epic of Gilgamesh, a story of immortality, aging and death—comes a tale of why we age. We are a species of storytellers. The stories we tell to each other define who we are. However, since we are living in a world marked by age apartheid, our interaction with people across different generations is

becoming more limited. As a result, the information we gain about older people comes mostly from secondary sources. For the general public, films remain the most accessible form of information regarding getting older. From the early exposure of cartoons to more elaborate dramas, our knowledge of what it means to become old relies on our exposure to films. This volume provides insight into how accurate these representations are in line with current knowledge that we have about aging and older adults. Arguing that films present a simplified view of aging, this analysis relies on scientific evidence to explore why and how such stereotypes affect us. Stereotypes have the ability of being internalized and becoming prescriptive of our behavior. Numerous studies have attempted different ways of understanding the impact films have on aging. Theories as seemingly disparate as feminism and disability have contributed to our understanding of how stereotypes influence our aging process. This text builds upon this knowledge and provides new insights by applying current gerontological knowledge—the science of aging—to unpack and analyze the images of aging that films are providing. By readdressing this focus on gerontological theories—as diverse as biology and psychology—the book readdresses an overlooked approach.

Trauma, Survival and Resilience in War Zones David Winter, Rachel Brown, Stephanie Goins, Clare Mason, 2015-10-16 This book, based upon a series of psychological research studies, examines Sierra Leone as a case study of a constructivist and narrative perspective on psychological responses to warfare, telling the stories of a range of survivors of the civil war. The authors explore previous research on psychological responses to warfare while providing background information on the Sierra Leone civil war and its context. Chapters consider particular groups of survivors, including former child soldiers, as well as amputee footballers, mental health service users and providers, and refugees. Implications of the themes emerging from this research are considered with respect to how new understandings can inform current models of trauma and work with its survivors. Amongst the issues concerned will be post-traumatic stress and post-traumatic growth; resilience; mental health service provision; perpetration of atrocities; and forgiveness. The book also provides a critical consideration of the appropriateness of the use of Western concepts and methods in an African context. Drawing upon psychological theory and rich narrative research, *Trauma, Survival and Resilience in War Zones* will appeal to researchers and academics in the field of clinical psychology, as well as those studying post-war conflict zones.

**What We Don't Talk About When We Talk About Fat** Aubrey Gordon, 2020-11-17 From the creator of Your Fat Friend and co-host of the Maintenance Phase podcast, an explosive indictment of the systemic and cultural bias facing plus-size people. Anti-fatness is everywhere. In *What We Don't Talk About When We Talk About Fat*, Aubrey Gordon unearths the cultural attitudes and social systems that have led to people being denied basic needs because they are fat and calls for social justice movements to be inclusive of plus-sized people's experiences. Unlike the recent wave of memoirs and quasi self-help books that encourage readers to love and accept themselves, Gordon pushes the discussion further towards authentic fat activism, which includes ending legal weight discrimination, giving equal access to health care for large people, increased access to public spaces, and ending anti-fat violence. As she argues, "I did not come to body positivity for self-esteem. I came to it for social justice." By sharing her experiences as well as those of others—from smaller fat to very fat people—she concludes that to be fat in our society is to be seen as an undeniable failure, unlovable, unforgivable, and morally condemnable. Fatness is an open invitation for others to express disgust, fear, and insidious concern. To be fat is to be denied humanity and empathy. Studies show that fat survivors of sexual assault are less likely to be believed and less likely than their thin counterparts to report various crimes; 27% of very fat women and 13% of very fat men attempt suicide; over 50% of doctors describe their fat patients as "awkward, unattractive, ugly and noncompliant"; and in 48 states, it's

legal—even routine—to deny employment because of an applicant’s size. Advancing fat justice and changing prejudicial structures and attitudes will require work from all people. What We Don’t Talk About When We Talk About Fat is a crucial tool to create a tectonic shift in the way we see, talk about, and treat our bodies, fat and thin alike.

*Jewish Law Annual Volume 20* Berachyahu Lifshitz, 2013-10-01 Volume 20 of The Jewish Law Annual features six detailed studies. The first three articles consider questions which fall under the rubric of halakhic methodology. The final three articles address substantive questions regarding privacy, cohabitation and medical triage. All three ‘methodological’ articles discuss creative interpretation of legal sources. Two (Cohen and Gilat) consider the positive and forward-thinking aspects of such halakhic creativity. The third (Radzyner) examines tendentious invocation of new halakhic arguments to advance an extraneous interest. Cohen explores positive creativity and surveys the innovative midrashic exegeses of R. Meir Simha Hakohen of Dvinsk, demonstrating his willingness to base rulings intended for implementation on such exegesis. Gilat examines exegetical creativity as to the laws of capital offenses. Midrashic argumentation enables the rabbinical authorities to set aside the literal sense of the harsh biblical laws, and implement more suitable penological policies. On the other hand, Radzyner’s article on tendentious innovation focuses on a situation where novel arguments were advanced in the context of a power struggle, namely, Israeli rabbinical court efforts to preserve jurisdiction. Two articles discuss contemporary dilemmas. Spira & Wainberg consider the hypothetical scenario of triage of an HIV vaccine, analyzing both the talmudic sources for

resolving issues related to allocating scarce resources, and recent responsa. Warburg discusses the status of civil marriage and cohabitation vis-à-vis payment of spousal maintenance: can rabbinical courts order such payment? Schreiber's article addresses the question of whether privacy is a core value in talmudic law: does it indeed uphold a 'right to privacy,' as recent scholars have claimed? The volume concludes with a review of Yuval Sinai's *Application of Jewish Law in the Israeli Courts* (Hebrew).

Bad Dust Tom White, 2025-09-09 Though it was banned in the UK in 1999, asbestos still kills more than 5,000 people every year. How did this happen? And what can we do about it? Asbestos was once known as the "magic mineral." Cheap, versatile, and tough, it was used in a wide range of industrial and consumer products, from fireproofing spray on warships, to insulation panels in high-rise towers, to tablecloths and ironing board covers. But from the dawn of the industry in the late 1800s, it was apparent that asbestos dust was particularly harmful to workers' lungs. Later, it became clear that even trivial exposure can cause incurable cancers. *Bad Dust* traces a history of the asbestos disaster and shows how the material became so deeply interwoven with the functions of the British state. The first half of the book examines the mining of the mineral in apartheid South Africa, its manufacturing in the North of England, and its use on the shipyards and building sites of Glasgow. The second half of the book then explores the development of a coherent anti-asbestos movement from the late 1970s. Arrayed against a powerful industry, and against parts of the trade union movement, anti-asbestos groups fought for a ban on the material. Asbestos was used extensively in schools, hospitals, and housing built in the post-war period. The banning of the material twenty-five years ago was not accompanied by a coordinated removal programme—much of it remains in place, slowing degrading and placing us all at risk. Far from a problem solved, *Bad Dust* shows that the asbestos disaster has really only just begun.
