**Clothing and Nudity in the Hebrew Bible** Christoph Berner,Manuel Schäfer,Martin Schott,Sarah Schulz,Martina Weingärtner,2019-06-27 The volume discusses nudity and clothing in the Hebrew Bible, covering anthropological, theological, archaeology and religious-historical aspects. These aspects are addressed in three separate sections, enhanced by over a hundred pictures and illustrations. Part I places nudity and clothing in its ancient Israelite context, with discussions of methodology, the ancient Near Eastern evidence (including material culture and iconography), and an assessment of central aspects of the biblical material such as fabrication and uses of textiles, lexicography, theological and anthropological implications. Part II looks at key themes such as mourning, death, encounters with the divine and issues of power and status. Finally, Part III presents several close studies of key passages from narrative, prophetic and wisdom texts where clothing and nudity play an important role.

Textiles in Ancient Mediterranean Iconography Susanna Harris,Cecilie Brøns,Marta Zuchowska,2022-02-03 This volume provides an ambitious synopsis of the complex, colourful world of textiles in ancient Mediterranean iconography. A wealth of information on ancient textiles is available from depictions such as sculpture, vase painting, figurines, reliefs and mosaics. Commonly represented in clothing, textiles are also present in furnishings and through the processes of textile production. The challenge for anyone analysing ancient iconography is determining how we interpret what we see. As preserved textiles rarely survive in comparable forms, we must consider the extent to which representations of textiles reflect reality, and critically evaluate the sources. Images are not simple replicas or photographs of reality. Instead, iconography draws on select elements from the surrounding world that were recognisable to the ancient audience, and reveal the perceptions, ideologies, and ideas of the society in which they were produced. Through examining the durable evidence, this anthology reveals the ephemeral world of textiles and their integral role in the daily life, cult and economy of the ancient Mediterranean.

**Ariadne's Threads** B. R. Jones,2019-08-21 This book is the first to deal comprehensively with the construction, significance, and function of the full range of garments of Aegean women and related attire of men from the Neolithic to the end of the Bronze Age. As valuable as precious metals, a significant commodity of trade, luxurious in design and decoration, Minoan dress rivaled that of its Near Eastern and Egyptian neighbors. Yet, Aegean costumes and textiles have been among

the least understood of the major artistic achievements of the Minoan civilization. Since ancient Aegean textiles and garments have not survived, the study collects, analyzes and compiles a typology of the corpus of garments represented in sculpture, frescoes and glyptic to glean evidence for construction. It further considers the manufacturing techniques of extant Egyptian clothes, comparable images of ancient Near Eastern garments, textile manufacture on the warp-weighted loom, and dress documented in Mycenaean Linear B, Greek and Near Eastern texts. The combined evidence is buttressed by experiments in replicating Aegean and related Near Eastern garments as well as the weave structures of patterned cloths and bands. The replicated clothes are arranged on live models who assume the various positions of the clothed figures in the frescoes and sculptures they imitate, thereby bringing the ancient figures to life. This all inclusive study not only illuminates every aspect of Aegean costume, but the resultant understanding of dress and the way it drapes on the body has led to new restorations of the missing parts of fragmentary garments on figural sculptures and wall paintings.

*A Cultural History of Dress and Fashion in the Medieval Age* Sarah-Grace Heller,2018-11-01 During the medieval period, people invested heavily in looking good. The finest fashions demanded careful chemistry and compounds imported from great distances and at considerable risk to merchants; the Church became a major consumer of both the richest and humblest varieties of cloth, shoes, and adornment; and vernacular poets began to embroider their stories with hundreds of verses describing a plethora of dress styles, fabrics, and shopping experiences. Drawing on a wealth of pictorial, textual and object sources, the volume examines how dress cultures developed – often to a degree of dazzling sophistication – between the years 800 to 1450. Beautifully illustrated with 100 images, *A Cultural History of Dress and Fashion in the Medieval Age* presents an overview of the period with essays on textiles, production and distribution, the body, belief, gender and sexuality, status, ethnicity, visual representations, and literary representations.

**Considering Creativity: Creativity, Knowledge and Practice in Bronze Age Europe** Joanna Sofaer,2018-01-31 The papers in this volume view Bronze Age objects through the lens of creativity in order to offer fresh insights into the interaction between people and the world, as well as the individual and cultural processes that lie behind creative expression.

Textiles and Cult in the Ancient Mediterranean Cecilie Brøns,Marie-Louise Nosch,2017-07-31 Twenty-four experts from the fields of Ancient History, Semitic philology, Assyriology, Classical Archaeology, and Classical Philology come together in

this volume to explore the role of textiles in ancient religion in Greece, Italy, The Levant and the Near East. Recent scholarship has illustrated how textiles played a large and very important role in the ancient Mediterranean sanctuaries. In Greece, the so-called temple inventories testify to the use of textiles as votive offerings, in particular to female divinities. Furthermore, in several cults, textiles were used to dress the images of different deities. Textiles played an important role in the dress of priests and priestesses, who often wore specific garments designated by particular colours. Clothing regulations in order to enter or participate in certain rituals from several Greek sanctuaries also testify to the importance of dress of ordinary visitors. Textiles were used for the furnishings of the temples, for example in the form of curtains, draperies, wall-hangings, sun-shields, and carpets. This illustrates how the sanctuaries were potential major consumers of textiles; nevertheless, this particular topic has so far not received much attention in modern scholarship. Furthermore, our knowledge of where the textiles consumed in the sanctuaries came from, where they were produced, and by who is extremely limited. Textiles and Cult in the Ancient Mediterranean examines the topics of textile production in sanctuaries, the use of textiles as votive offerings and ritual dress using epigraphy, literary sources, iconography and the archaeological material itself.

North European Symposium for Archaeological Textiles X Eva B. Andersson Strand, Margarita Gleba, Ulla Mannering, Cherine Munkholt, Maj Ringgard, 2009-12-11 The NESAT symposium has grown from the first meeting in 1981 which was attended by 23 scholars, to over 100 at the tenth meeting that took place in Copenhagen in 2008, with virtually all areas of Europe represented. The 50 papers from the conference presented here show the vibrance of the study of archaeological textiles today. Examples studied come from the Bronze Age, Neolithic, the Iron Age, Roman, Viking, the Middle Ages and post-Medieval, and from a wide range of countries including Norway, Czech Republic, Poland, Greece, Germany, Lithuania, Estonia and the Netherlands. Modern techniques of analysis and examination are also discussed.

Aspects of the Design, Production and Use of Textiles and Clothing from the Bronze Age to the Early Modern Era Karina Grömer, Frances Pritchard, 2015 The North European Symposium for Archaeological Textiles (NESAT) was founded in 1981 as a discussion forum between various disciplines: textile archaeologists, historians, art historians, natural scientists, conservators and craftspeople. The NESAT XII symposium was organized by the Natural History Museum Vienna from 21st to 24th May 2014 in Hallstatt, Austria. The venue of the 12th Symposium was chosen on account of the archaeological heritage of Hallstatt as well as the flora and fauna of the whole region, which is designated in the UNESCO World Heritage list. The conference volume contains 35 scientific papers grouped into seven chapters. The first chapters introduce Austrian textile research and prehistoric textile finds from Europe, such as recent analysis of the earliest wool finds and early Scandinavian textile design. The main corpus of articles deals with textiles and clothing covering a time span from early

medieval to the early modern period, their archaeological research, experiments and art historical context. Five papers focus on tools and textile production, object-based research as well as experimental archaeology and investigation of written sources. The chapter Specific analyses embraces interdisciplinary research including dyestuff analysis, isotopic tracing and a drawing system for archaeological textile finds from graves. The book, therefore, provides a wealth of information on recent research being undertaken into archaeological textiles from sites in northern Europe.

Ancient Greek Costume Linda Jones Roccas, 2006-09-28 Costume production distinguishes early civilization from the Paleolithic era as much as architectural production. Costume transcends boundaries, as it first unites and then divides mankind. The mode of dress differentiates friend from foe and peasant from prince. Changes in the appearance and types of garments through the ages are a significant indicator of social, economic and chronological changes. This annotated bibliography of 603 references, taken from monographs, dissertations, festschrifts, periodicals, encyclopedias and handbooks, is the most comprehensive research tool for the subject of ancient Greek costume. This subject is of increasing interest to scholars in many fields, including archaeology and anthropology, art and art history, classics, drama, history, ancient literature, even modern literature. The references in this bibliography range from the encyclopedia entry to the monograph, and show a variety of themes: women's dress, men's dress, foreign dress, accessories, jewelry, headdresses, theater dress, textile production and literary evidence.

Dress for different climates, occupations, recreational activities, religious observances, rites of passages, and other human needs and purposes - from hunting and warfare to sports and space exploration - are examined in depth and detail. Fashion and design trends in diverse historical periods, regions and countries, and social and ethnic groups constitute a major area of coverage, as does the evolution of materials (from animal fur to textiles to synthetic fabrics) and production methods (from sewing and weaving to industrial manufacturing and computer-aided design). Clothing Poverty Andrew Brooks, 2015-02-12 'An interesting and important account.' Daily Telegraph Have you ever stopped and wondered where your jeans came from? Who made them and where? Ever wondered where they end up after you donate them for recycling? Following a pair of jeans, Clothing Poverty takes the reader on a vivid around-the-world tour to reveal how clothes are manufactured and retailed, bringing to light how fast fashion and clothing recycling are interconnected. Andrew Brooks shows how recycled clothes are traded across continents, uncovers how retailers and international charities are embroiled in commodity chains which perpetuate poverty, and exposes the hidden trade networks which transect the globe. Stitching together rich narratives, from Mozambican markets, Nigerian smugglers and Chinese factories to London's vintage clothing scene, TOMS shoes and Vivienne Westwood's ethical fashion lines, Brooks uncovers the many hidden sides of fashion.

**The Ages of Homer** Jane B. Carter, Sarah P. Morris, 2013-12-18 Homer's Iliad and Odyssey have fascinated listeners and readers for over twenty-five centuries. In this volume of original essays, collected to honor the distinguished career of Emily T. Vermeule, thirty-four leading experts in Homeric studies and related fields provide up-to-date, multidisciplinary accounts of the most current issues in the study of Homer. The book is divided into three sections. The first section treats the Bronze Age setting of the poems (around 1200 B.C.), using archaeological evidence to reveal how poetic memory preserves, distorts, and invents the past. The second section explores the early Iron Age, in which the poems were written (c. 800-500 B.C.), using the strategies of comparative philology and mythology, literary theory, historical linguistics, anthropology, and iconography to determine how the poems took shape. The final section traces the use of Homer for literary and artistic inspiration by classical Greece and Rome.
