The Decommodification of Early Childhood Education and Care Michel Vandenbroeck, Joanne Lehrer, Linda Mitchell, 2022-12-30 The Decommodification of Early Childhood Education and Care: Resisting Neoliberalism explores how processes of marketisation and privatisation of ECEC have impacted understandings of children, childcare, parents, and the workforce, providing concrete examples of resistance to commodification from diverse contexts. Through processes of marketisation and privatisation, neoliberal discourses have turned ECEC into a commodity whereby economic principles of competition and choice have replaced the purpose of education. The Decommodification of Early Childhood Education and Care: Resisting Neoliberalism offers new and alternative understandings of policy and practice. Written with co-authors from diverse countries, case studies vividly portray resistance to children as human capital, to the consummentality of parents, and to the alienation of the early childhood workforce. Ending with messages of hope, the authors discuss the demise of neoliberalism and offer new ways forward. As an international book with global messages contributing to theory, policy, and practice regarding alternatives to a neoliberal and commodified vision of ECEC, this book offers inspiration for policy makers and practitioners to develop local resistance solutions. It will also be of interest to post-graduate students, researchers, educators, and pre-service educators with an interest in critical pedagogy, ECEC policy, and ECEC practice.

The Regulation and Policy of Latin American Energy Transitions Lucas Noura Guimarães, 2020-02-18 The Regulation and Policy of Latin American Energy Transitions examines the ongoing revolution within the energy landscape of Latin America. This book includes real-world examples from across the continent to demonstrate the current landscape of energy policy in Latin America. It focuses on distributed energy resources, including distributed generation, energy efficiency and microgrids, but also addresses the role of less common energy sources, such as geothermal and biogas, as well as discusses the changing role of energy actors, where consumers become prosumers or prosumagers, and utilities become service providers. The legal frameworks that are still hampering the transformation of the energy landscape are explored, together with an analysis of the economic, planning-related and social aspects of energy transitions, which can help address the issue of how inequalities are affecting and being affected by energy transitions. The book is suitable for policy makers, lawyers, economists and social science professionals working with energy policy, as well as researchers and industry professionals in the field. It is an ideal source for anyone involved in energy policy and regulation across Latin America. - Reviews key legal and policy features

defining success and failure within the diverse Latin American energy transitions - Provides clear descriptions and comparisons of current and potential future policy frameworks in Latin America across differing social, economic, geopolitical and policy contexts - Analyzes the potential role of new technologies and practices in developing the region's energy economy - Poses key regulatory challenges and possible means to finance the envisioned transitions

**Decolonial Feminism in Abya Yala** Yuderkys Espinosa-Miñoso, María Lugones,, Nelson Maldonado-Torres, 2022-08-01

This is a collection of eleven chapters and an introduction that develop key arguments in decolonial feminism, particularly, the coloniality of gender, the critique of white and Eurocentric feminisms, the imbrication between gender, race, and colonialism, feminicides, and the coloniality of democracy and public institutions. The introduction addresses the path of decolonial feminism: from a new approach to understanding the relationship between gender as a category, race, and colonialism that combined U.S. Third World feminism and scholarship on coloniality and decoloniality to its exponential growth in the hands of activists and engaged scholars from Latin America and the Caribbean. Today, much of the literature on decolonial feminism in Latin America and the Caribbean remains unknown in the U.S. This anthology seeks to start remedying this problem with seven translations of work originally written in Spanish, and three essays originally written in English that address the fundamental concepts of decolonial feminism as well as its contributions to important contemporary political and intellectual debates.

*Handbook of Research on Global Education and the Impact of Institutional Policies on Educational Technologies*

Loureiro, Maria José, Loureiro, Ana, Gerber, Hannah R., 2021-11-12 Emerging technologies in education are dramatically reshaping the way we teach, learn, and create meaning—both formally and informally. The use of emerging technologies within educational contexts requires new methodological approaches to teaching, learning, and educational research. This leads educational technology developers, researchers, and practitioners to engage in the creation of diverse digital learning tools that can be used in a wide range of learning situations and scenarios. Ultimately, the goal of today's digital learning experiences includes situational experiences wherein learners and teachers symbiotically enroll in meaning-making processes. Discussion, critical reflection, and critique of these emerging technologies, tools, environments, processes, and practices require scholars to involve themselves in critical conversation about the challenges and promises afforded by emerging technologies and to engage in deliberate thinking about the critical aspects of these emerging technologies that are drastically reshaping education. The Handbook of Research on Global Education and the Impact of Institutional Policies on Educational Technologies deepens this discussion of emerging technologies in educational contexts and is centered at the intersection of educational technology, learning sciences, and socio-cultural theories. This book engages a critical conversation that will further the discussion about the pedagogical potential of emerging technologies in contemporary classrooms. Covering topics such as communication networks, online learning environments, and preservice teacher

education, this text is an essential resource for educational professionals, preservice teachers, professors, teachers, students, and academicians.

**Rare Earth Frontiers** Julie M. Klinger, 2018-01-15 Rare Earth Frontiers is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics, green energy and medical technologies, and essential telecommunications and defense systems. Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead, and this means the implications of their extraction are global. Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places. Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths. She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power.

These include legally and logistically forbidding locations in the Amazon, Greenland, and Afghanistan, and on the Moon. Drawing on ethnographic, archival, and interview data gathered in local languages and offering possible solutions to the problems it documents, this book examines the production of the rare earth frontier as a place, a concept, and a zone of contestation, sacrifice, and transformation.

*Architectural Research Addressing Societal Challenges* Manuel Jorge Rodrigues Couceiro da Costa, Filipa Roseta, Joana Pestana Lages, Susana Couceiro da Costa, 2019-08-08 The escalating interdependency of nations drives global geopolitics to shift ever more quickly. Societies seem unable to control any change that affects their cities, whether positively or negatively. Challenges are global, but solutions need to be implemented locally. How can architectural research contribute to the future of our changing society? How has it contributed in the past? The theme of the 10th EAAE/ARCC International Conference, “Architectural Research Addressing Societal Challenges”, was set to address these questions. This book, *Architectural Research Addressing Societal Challenges*, includes reviewed papers presented in June 2016, at the 10th EAAE/ARCC International Conference, which was held at the facilities of the Faculty of Architecture of the University of Lisbon. The papers have been further divided into the following five sub-themes: a Changing Society; In Transit – Global Migration; Renaturalization of the City; Emerging Fields of Architectural Practice; and Research on Architectural Education. The EAAE/ARCC International Conference, held under the aegis of the EAAE and of the ARCC, is a conference organized every other year, in collaboration with one of the member schools/ universities of those associations, alternatively in North America or in Europe.

**Youth Crime and Violence in the Caribbean** Camille A. Gibson, Lorna E. Grant, Sherill V. C. Morris-Francis, 2024-01-04 This compilation of works highlights the historical, economic, and human dynamics behind youth offending in the nations of the West Indies. *Youth Crime and Violence in the Caribbean* offers insights into the slow rate of system change yet leaves readers with an optimistic picture of possibilities. Recent events in Haiti and neighboring Venezuela demonstrate how quickly dynamics in the Caribbean area can shift if crime is not addressed and people increasingly disengage from systems in a manner that allows despots to rise to power. When this happens, the impacts are not localized.

**Reshaping the Future** Arduino Paniccia, 2014-01-14 Having a strategy means finding solutions to the complexity of the global world. The task of this manual is pointing out a possible method to transform the future to our advantage and seize also economic and financial opportunities crucial to emerge in the global competition. The book provides an analysis of the evolution of strategic thought and method, from the dawn of nation-states until the civil war in Syria. What happens in this country is emblematic of the change in perspective and power in recent years. With the “preventive war” the West had come to the borders of India, but today we see the Chinese military presence in the Mediterranean. The structure of global power is increasingly oligarchic, Asian and present in a wider area. A triad that bears the names of the US, Russia and China. Europe is witnessing an inert vacuum created in the South, across the Mediterranean and North Africa. The old continent is in decline, and doesn’t have a real strategy. Part One: Introduction Part Two: History of Strategy (From the Sixteenth to the Eighteenth Century, Napoleon, Clausewitz, the Nineteenth Century, The First World War, The Second World War, The “Cold War”, The Unipolar Twenty Years) Part Three: The Current Phase of Transition towards a New Strategy (An oligarchic Future, The Higher Triad, The Lower Triad) Part IV: Conclusions (A New Definition of Strategy, Strategy and Conflict in a “Post-Heroic” Future, The Islamic World, An Eastern and Clausewitzian Conclusion).

Brincando e aprendendo: cultura, arte, tecnologia e desenvolvimento infantil, 2022-10-10 A obra intitulada “Brincando e aprendendo: Cultura, arte, tecnologia e desenvolvimento infantil”, anuncia sobre as discussões sobre o brincar e sua importância para a infância. Essa temática advém da experiência vivenciada no estágio docente, desenvolvido pelas alunas Me. Ana Luiza Barcelos Ribeiro e Me. Priscilla Gonçalves de Azevedo, do Programa de Pós-graduação (Doutorado) em Cognição e Linguagem da Universidade Estadual do Norte Fluminense Darcy Ribeiro – UENF, supervisionado pela professora Dra. Bianka Pires André. Esse livro surgiu a partir do diálogo entre as estagiárias e os alunos do curso de Licenciatura em Pedagogia da UENF, nas aulas da disciplina Infâncias, Brincadeiras e Aprendizagens, no segundo semestre de 2021 de forma remota. Na interação com os alunos nas aulas síncronas, utilizou-se metodologias ativas, sala de aula invertida, com pesquisas, apresentações de seminários, elaboração de artigos científicos sobre diferentes temáticas e confecção de brinquedos pedagógicos apresentados para o público infantil em forma de evento remoto. Como principal resultado, proporcionou-se o entendimento de que a educação é possível mesmo em tempos pandêmicos. A interação na forma remota, que antes era vista como um desafio, agora é tratada como uma possibilidade de aproximação, onde todos tinham voz e algo a acrescentar, favorecendo a utilização dos conteúdos disponibilizados e trabalhados de forma síncrona e assíncrona, obtendo respostas muito positivas por parte de todos. Entre os capítulos, iniciamos com “A relação do lúdico e a aprendizagem infantil: breves reflexões” elaborado por Bruna Rodrigues da Silva Ferreira, Laila Romão Quintanilha, Rosana de Fátima Rocha de Freitas, Thaís Cardoso Rangel e Ana Luiza Barcelos Ribeiro onde relatam como se dá o desenvolvimento

das crianças nos primeiros cinco anos de vida através das brincadeiras ou jogos, além de ser algo prazeroso, o lúdico as possibilitam expressar seus sentimentos e aprender a se relacionar, a partilhar, a conviver em sociedade. O segundo texto que compõe esse livro tem como título “A importância da brincadeira no desenvolvimento infantil” de autoria de Adriana Silva Pinheiro Ferreira, Izabela Miranda de Barros, Ritielle Gonçalves dos Santos e Ana Luiza Barcelos Ribeiro. As autoras sinalizam que o lúdico é um assunto que na atualidade possui um papel importante na educação, principalmente na infância, pois por meio de jogos e brincadeiras, as crianças conseguem assimilar melhor determinados assuntos que precisam ser ensinados. Sinalizam ainda o brincar como um direito que toda criança tem, e que é preciso que a instituição escolar e os educadores dominem esse direito para que possam garantir que as crianças terão momentos de brincar. Na sequência compondo o terceiro capítulo intitulado “O brincar e o aprender a partir da teoria de Jean Piaget: ponderações necessárias” as autoras Ana Paula Jardim Curty de Souza, Esther Almeida Barreto, Letícia Rangel de Azeredo e Ana Luiza Barcelos Ribeiro, relatam sobre a ludicidade e que a criança é vista como um ser em desenvolvimento e capaz de construir o seu conhecimento, trazendo os aspectos legais e ainda as etapas do desenvolvimento de acordo com Jean Piaget, suas principais características e como as brincadeiras podem auxiliar nesse processo desenvolvimentista. As autoras enfatizam que é necessário compreender e disseminar a vital relevância do brincar, enquanto direito assegurado por lei às crianças e adolescentes, respeitando seu desenvolvimento e contribuindo na formação integral de seres humanos. Percorrendo pela arte, fomentando o quarto capítulo “O ensino da arte na Educação Infantil” das autoras Thalita Gomes Tavares Rangel, Melyssa Araujo Cabral da Rocha, Júlia Rodrigues Manhães, Gabriela Mendonça Carvalho e Priscilla Gonçalves de Azevedo, apresentam sobre a importância da arte em todos os momentos da vida cotidiana desde a infância até a vida adulta. Especificamente, como o trabalho com a arte na educação infantil, por meio de atividades lúdicas, pode proporcionar experiências e descobertas incorporadas aos espaços escolares, auxiliando no desenvolvimento e formação integral dos alunos. Ainda nesse campo de conhecimento, ao tratar da importância da música, os autores Lucas dos Santos da Silva, Tainá Pereira dos Santos, Yasmim Siqueira da Silva, Maria Eduarda Ribeiro Guarnieri e Priscilla Gonçalves de Azevedo, trazem no quinto capítulo “A música na Educação Infantil: contribuições para o desenvolvimento da criança”, trata-se da relevância da música no aprendizado da criança, seus benefícios no estímulo ao desenvolvimento do gosto pela arte através da atividade musical, passando pela esfera afetiva, motora e cognitiva, durante a educação infantil. Entre esses trabalhos, o sexto capítulo intitulado “A escola itinerante Cícero Guedes e as crianças sem-terra no enfrentamento à pandemia covid-19” das autoras Aparecida F. Lobato, Zenith S. P. Simão e Priscilla Gonçalves de Azevedo, trazem um relato de experiência sobre a vivência das crianças das famílias assentadas do Movimento sem-terra (MST) chamado Cícero Guedes, nas terras da antiga Usina Cambahyba. Há nesse local, um espaço coletivo, onde as crianças desenvolvem atividades e práticas educativas chamadas de Ciranda Infantil, consideradas pedagogia socialista. O grupo chegou a esse local durante a pandemia COVID-19, ou seja,

enfrentando todos os problemas sanitários que o mundo enfrenta. O uso das tecnologias como ferramentas de ensino e aprendizagem no contexto escolar e suas influências no desenvolvimento infantil de autoria de André Luiz Fernandes Dias, Adriana Gomes de Souza Mata, Elisângela Matos Oliveira de Souza, Luzimara Lima Pereira e Ana Luiza Barcelos Ribeiro. O capítulo sete apresenta que as tecnologias se faz presente porque ocorre um processo contínuo e dinâmico de avanços tecnológicos em nossa sociedade englobando fatores culturais, sociais, econômicos, cognitivos e também políticos. Enfatizando que o impacto da tecnologia na infância e que a mesma pode ser uma ferramenta aliada no processo pedagógico. **Cuadernos de Diseño 6** David Cuartielles, Mara Rossi, Pablo Torres, Luis Soto Walls, Matilde Breña Sánchez, Carlos Magro, Luis A. Rivera Díaz, Teresa Jular Pérez-Alfaro, Julio Frías Peña, Alejandra Mizrahi, 2017-02-08 Vivimos en una sociedad-red, compleja, móvil y global, fruto de un hecho: la comunicación está en el centro de las transformaciones sociales. Este es un sistema cuyas características principales se conforman en torno a la “colaboración”, como nueva estrategia, y a la “red” como modelo de representación y acción. Se abre entonces un interesante campo de experimentación donde realidades locales y globales se encuentran en intersecciones abiertas. Es en este ámbito donde la cultura del proyecto debe pensar las dimensiones sociales y profesionales que forman parte de estos procesos en red y de la cultura participativa que surge en su seno. Ante este panorama, constatamos la necesidad de nuevos mapas del saber y de aquellos conceptos que nos permitan la interpretación de nuestra realidad. Con este fin, el sexto Cuaderno de Diseño propone una reflexión amplia, que considera la irrenunciable dimensión tecnológica, pero teniendo en cuenta también otras cuestiones relacionadas con la misma de cara a plantear los retos para el mundo del diseño. De esta forma, se inicia con varias reflexiones sobre lo que significa hoy estar en un sistema en red, tras lo que se aborda el punto central de este número: la enseñanza del diseño como campo de estudio en un contexto en red, su complejidad, sus prácticas y sus horizontes. En último lugar, también se estudian algunas experiencias actuales de trabajo en red, basadas en el asociacionismo tradicional y en formas de colaboración interpersonal. El conjunto de puntos de vista expuestos en este libro muestra las distintas relaciones que tejen toda red, las tramas que cobran forma y

las ideas que harán posibles nuevos modelos para proyectar desde un mundo ‘descentrado’.

Geografia, cultura e riscos: livro de homenagem ao Prof. Doutor António Pedrosa Luciano Lourenço, 2016-07-01 O segundo volume do Livro de Homenagem ao Professor Doutor António de Sousa Pedrosa trata de aspetos relacionados com Geografia, Cultura e Riscos, três temas a que o homenageado dedicou especial atenção e, por isso, muita da sua investigação. Se o primeiro e o último deles são comuns ao primeiro volume, já a Cultura é tratada especificamente neste tomo, que assim permite distingui-lo claramente do primeiro, cuja abordagem específica versou sobre a Paisagem. O colega António Pedrosa deixou-nos prematuramente, quando ainda desenvolvia vasta atividade, nomeadamente de orientação científica de projetos de investigação e de teses de doutoramento e de mestrado, pelo que não será de admirar que alguma dela seja dada aqui à estampa, em coautoria com os seus colaboradores e orientandos que, desta forma singela, entenderam render-lhe preito pelos muitos ensinamentos que lhes transmitiu. Além disso, deixou textos inéditos, um dos quais se encontrava concluído, razão pela qual entendemos proceder à sua divulgação. Deste modo, aliás como no volume anterior, surgem três trabalhos em que o António Pedrosa é autor ou coautor. Assim, no tema Cultura, é publicado um texto, em colaboração com Rita de Cassia Martins de Souza, sobre De Uberaba a Brasília: comunidades vulneráveis e “territórios em reconversão” no roteiro da missão Cruls. Depois, no tema Riscos, a que nos últimos anos dedicou especial atenção, são dados à estampa dois trabalhos, o primeiro de sua autoria, sobre As inundações fluviais no Brasil: importância do desenvolvimento de unidades dinâmicas de avaliação de riscos (UDAR) para a sua gestão, e o segundo, também sobre inundações, versa sobre Os riscos de inundação urbana: uma proposta de gestão das águas pluviais nos aglomerados urbanos e foi elaborado em coautoria com Carlos Nardin, Jean Roger B. Danelon.

**Os fundamentos do direito terapêutico e as tutelas dos direitos da personalidade nos casos de exposição não consentida da intimidade sexual** Luis Eduardo e Silva Lessa Ferreira, 2024-07-08 Na construção da democracia e da cidadania na realização dos conteúdos essenciais à saúde sexual, há um consenso nos principais diplomas internacionais e nacionais de que a sua efetivação depende de conteúdos jurídicos bem definidos e adequados, que suportem políticas públicas, sociais, económicas, que promovam, dentre outros valores fundamentais, o gozo universal dos Direitos Humanos, pavimentando caminhos mais humanos, sem estigma e preconceito. As recomendações dos especialistas, evidentemente, não encerram um modelo hermético e finalizado, mas servem como orientações – com base nos direitos humanos – para reflexão, adaptação e revisão dos diversos ordenamentos jurídicos, permitindo, inclusive, análises metodológicas comparativas. Nesse sentido, os instrumentos de controle das normas sociais, e em especial das normas jurídicas, devem ser explorados para se reconhecer – no processo de socialização – o real agente catalisador da promoção dos valores democráticos da dignidade da pessoa humana, em todas as suas formas de expressão. A fixação de valores axiológicos-normativos democráticos para a promoção da dignidade sexual é uma condição para o desenvolvimento humano e de diminuição das desigualdades de toda

espécie. Um trabalho contínuo de observância aos fundamentos do cuidado, que se revelam com os esforços de desvelo, solicitude, diligência, zelo, atenção; buscando, de todos os modos, o estímulo ao exercício da sensibilidade do colocar-se no lugar do outro.
