

Giant Of Kandahar Afghanistan

William Dwight Whitney

The History of Antediluvian Giants Martin K. Ettington, Giants have existed on the Earth for most of Earth's history. We are talking about going back hundreds of millions of years. There were also many giants on Earth in historical times when human civilization existed. There are even credible stories of Giants existing on Earth in the present era such as one killed by US soldiers in the mountains of Afghanistan. North America has had many sightings and there are stories of wars with Giants from the American Indians as well stories of cannibalistic giants who were killed by Indians in a cave. Many historical figures such as King Og and Gilgamesh were also purported to be Giants. Goliath from the Bible may also have been from a tribe of giants at the time. Giants are much more involved in our history and the building of ancient megalithic structures than we give them credit for. They probably originated from an Alien race. You should read this book to learn more about this unusual aspect of human and world history.

The Civil War That Destroyed The World's Greatest Ever Civilization Jim Hendleman,2022-01-05 This is the final sequel to the Jaredite's civilization (What the Prophet Ether Couldn't Tell Us) 1 and 2. This book concludes my trilogy of the Jaredite civilization and enumerates some of their many achievements and accomplishments. The Jaredite civilization is first

mentioned within the Book of Mormon in Ether 1:42–44. Ether was later directed by God to remove everything about them save for their earliest beginnings at the Tower of Babel in Iraq and a few brief tales of their spiritual trials and wars up to their final civil war. Book 3 discusses some of the known causes of their civil war and is able to go into some detail about how the war was fought despite a decided lack of historical references. This is primarily because Zirchen wrote about very ancient Sumerian and Mesopotamian epic poems that were likely only partially translated into English from the original Sanskrit. The original authors elaborated to some extent on how our original fourth planet was caused to explode and become our asteroid belt. It seems that the Jaredite physics bordered on magic but only from the twenty-first-century perspective. They had weaponized the various components of weather such as lighting, thunder, wind, rain, etc. and used these components to destroy Tiamat, our original fourth planet, and its total population. The bad guys sought nothing less than total destruction and annihilation of the entirety of the Jaredite civilization and Mormonism. They used nuclear weapons in a manner designed to kill the most people, starve out those they couldn't get to, and rid the world of our religion once and for all. This is obvious from their early morning sneak attack, their nuclear obliteration of the Jaredite capital city in the New York area, and their wanton nuclear destruction of Jaredite people and efforts within and throughout Egypt and in other parts of our planet. Mainstream archaeology refuses to address this civilization because it would reveal their canards about evolution, their false narrative about the origin of man, and their totally inaccurate dateline. The Jaredites settled and colonized South and North America, Lemuria, Antarctica, the British Isles, and most of Western Europe, plus the lands of China and India. For nearly 2,530 years, they maintained a solar system-wide civilization. Their structures and domed cities are on every planet, save Jupiter and Saturn, and all the larger moons, such as Ganymede and our Luna. My research has uncovered many details of Jaredite life and their physical characteristics that the prophet Ether was not allowed to tell us. The Jaredites built all of Egypt, not the Egyptians. Their Hindu colony fought at least two ancient internal nuclear wars. They colonized throughout our entire solar system; most moons and most planets have their cities or outposts mainly covered by seven-mile high glass domes, except Jupiter and Saturn. These two planets each have possible Star War-size moons that easily could be artificial space stations. Mars used to be a moon to its now exploded primary Tiamat, which is now the asteroid belt. Their Martian cities are so immense that New York City and Shanghai combined wouldn't be considered a nickel in a handful of change in comparison to them. Jaredite leftovers are all over Earth if one knows when to look for them. As reflected by the European Space Agency, the Martian northern city covering Mars' North Pole appears to be far larger than Japan. And their final long drawn out death.

I Know What I Saw Linda S Godfrey, 2020-08-04 Which came first--the monster or the myth? Journalist Linda Godfrey investigates present-day encounters with mysterious creatures of old. The monsters of ancient mythology, folklore, and more contemporary urban legend have long captured the popular imagination. While most people in America today relegate

monsters to just that--our imaginations--we continue to be fascinated by the unknown. Linda Godfrey is one of the country's leading authorities on modern-day monsters and has interviewed countless eyewitnesses to strange phenomena. Monsters evolve, taking on both new and familiar forms over time and across cultures. In this well-researched book, Godfrey explores uncanny encounters with werewolves, goatmen, Bigfoot, and more. In more than twenty-five years spent chasing monsters, Godfrey has found that it often remains unclear whether the sightings are simply mistaken animals, hoaxes, or coincidence. When all the speculation is said and done, one question remains for fans and researchers: Are the creatures real, or are they entirely other-world? Godfrey suspects that it isn't an either/or question--our reality operates on a scale from dense matter to realms the human eye cannot see. As Godfrey investigates unexplained phenomena, her search for answers will fascinate casual observers and enthusiasts alike.

What The Prophet Ether Couldn't Tell Us: Book 2 of 3 Jim Hendleman, 2021-04-13 BACK COVER The sequel to the Jaredite's Civilization (What the Prophet Ether couldn't Tell Us) is finally out. Book III to shortly follow. Book II tells of the life and times of the Jaredites, the greatest civilization to have ever lived on Planet Earth. It details their earliest beginnings, and enumerates some of their many achievements and accomplishments. It is first mentioned within the Book of Mormon, in Ether 1:42-44. Ether was later directed by God to remove everything about them save for their earliest beginnings at the Tower of Babel, in Iraq, and a few brief tales of their spiritual trials and wars, up to their final Civil War. Mainstream Archaeology refuses to address this civilization because it would reveal Archaeology's canards about evolution and their false narrative about the Origin of Man. The Jaredites settled and colonized South and North America, Lemuria, Antarctica, The British Isles and most of western Europe, plus the lands of China and India. For nearly 2,530-years, they maintained a world-wide civilization. My research has uncovered many details of Jaredite life and their physical characteristics that the prophet Ether was not allowed to tell us. They built all of Egypt. Their Hindu colony fought at least two internal nuclear wars. They colonized throughout our entire Solar System; most moons and all the planets have their cities, mainly covered by 7-mile high glass domes, except Jupiter and Saturn. These two planets each have possible Star War-size moons that could be artificial space stations. Mars used to be a moon to its now exploded primary, which is now the Asteroid Belt. Their Martian cities are so immense that New York City and Shanghai combined wouldn't be considered a nickel in a handful of change in comparison to them. Jaredite leftovers are all over Earth if one knows when to look for them. Book III details a few of their many wars, as well as their final Civil War, the first year or two which were nuclear. Through their longevity, they were able to develop their physics to the point to where they could control the weather, as well as to weaponize its component parts. And their final, long prophesied death.

Identifying the Antichrist Paul Wild,2020-03-24 “And then shall that Wicked be revealed...” 2 Thessalonians 2:8 In his third book in a series that includes *The Timing of the Rapture* and *Is the United States Mentioned in Bible Prophecy: With a Treatise on the Ezekiel 38 and psalm 83 wars*, Paul Wild addresses the incorrect views regarding the antichrist’s origin and characteristics. Much of the speculation regarding the identity of the pivotal person in end-times prophecy has hinged more on identifying powerful, influential men who are perceived as evil rather than uncovering the subtle details of his persona. Paul will: Identify his country of origin and his religious and cultural background Provide details on his physical and intellectual traits Provide details on the timing of his arrival and speculation on his age at that time Challenge the focus on Rome and Europe as his seat of power and place the focus on the Middle East Settle the argument on who Magog is from the Ezekiel 38-39 war narrative and how that war affects the rise and fall of modern nations leading to his ascension Show that the last three yearly Feasts of Israel set the pattern for the rapture of the Church, the repentance of Israel, the ruination of the antichrist, and the return of Jesus. This book is designed to provide the tools for the Body of Christ to identify the wicked man before he emerges on the world scene in order to prepare for the chaos that follows.

Little America Rajiv Chandrasekaran, 2012-06-26 A New York Times Notable Book The author of the acclaimed bestseller and National Book Award finalist, *Imperial Life in the Emerald City*, tells the startling, behind-the-scenes story of the US’s political and military misadventure in Afghanistan. In this meticulously reported and illuminating book, Rajiv Chandrasekaran focuses on southern Afghanistan in the year of President Obama’s surge, and reveals the epic tug of war that occurred between the president and a military that increasingly went its own way. The profound ramifications this political battle had on the region and the world are laid bare through a cast of fascinating characters—disillusioned and inept diplomats, frustrated soldiers, headstrong officers—who played a part in the process of pumping American money and soldiers into Afghan nation-building. What emerges in *Little America* is a detailed picture of unsavory compromise—warlords who were to be marginalized suddenly embraced, the Karzai family transformed from foe to friend, fighting corruption no longer a top priority—and a venture that became politically, financially, and strategically unsustainable. Afghanistan Jonathan L. Lee, 2022-03-08 A colossal history of Afghanistan from its earliest organization into a coherent state up to its turbulent present. Located at the intersection of Asia and the Middle East, Afghanistan has been strategically important for thousands of years. Its ancient routes and strategic position between India, Inner Asia, China, Persia, and beyond has meant the region has been subject to frequent invasions, both peaceful and military. As a result, modern Afghanistan is a culturally and ethnically diverse country, but one divided by conflict, political instability, and by mass displacements of its people. In this magisterial illustrated history, Jonathan L. Lee tells the story of how a small tribal confederacy in a politically and culturally significant but volatile region became a modern nation-state. Drawing on more than forty years of study, Lee places the current conflict in Afghanistan in its historical context and challenges many of the West’s

preconceived ideas about the country. Focusing particularly on the powerful Durrani monarchy, which united the country in 1747 and ruled for nearly two and a half centuries, Lee chronicles the origins of the dynasty as clients of Safavid Persia and Mughal India: the reign of each ruler and their efforts to balance tribal, ethnic, regional, and religious factions; the struggle for social and constitutional reform; and the rise of Islamic and Communist factions. Along the way, he offers new cultural and political insights from Persian histories, the memoirs of Afghan government officials, British government and India Office archives, and recently released CIA reports and Wikileaks documents. He also sheds new light on the country's foreign relations, its internal power struggles, and the impact of foreign military interventions such as the "War on Terror."

Beyond Esoteric Brad Olsen, 2021-01-14 Nothing in this world works the way you think it does; there is always more to the story. Be aware that there is a war for your mind and your soul. Corporations have taken over governments in a new form of Fascism that now incorporates high technology and artificial intelligence. The survival of the human race may depend on breaking the Embargo of truth, and collectively developing an ÜberMind. But truth always resonates! Beyond Esoteric takes off the kids gloves, and exposes the control grid extending its tentacles across the planet. The word occult means nothing more than to study the realm of the hidden. So much of real knowledge and wisdom is disguised because the people who run the planet feel that true information of how the world works and how to manifest reality is something you do not need to know. Everything we think we know about the world and the universe in which we live, whatever we have been led to believe concerning the course of human history, could very well be completely wrong, distorted and misinformed. The 19th century teachers of the occult could never have imagined The Ultimate Journey of the 21st century we now face, one that extends far Beyond Esoteric.

Historical Dictionary of Afghanistan Thomas H. Johnson, Ludwig W. Adamec, 2021-05-15 Afghanistan is an extremely complex and nuanced country that has been one of the centers of imperial conflict at least for 150 years. From the Czarist Russia's march south in the 19th Century threatening British India, three Anglo-Afghan Wars, the Soviet Invasion and occupation of Afghanistan starting in December 1979 and the resulting anti-Soviet Jihad by the Afghan Mujahideen to Kabul's and their allies' (U.S. and NATO) conflict with the Taliban, Afghanistan has been one of the centers of important international and regional conflicts and events. Historical Dictionary of Afghanistan, Fifth Edition contains a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 1,000 cross-referenced entries on important personalities as well as aspects of the country's politics, economy, foreign relations, religion, and culture. This book is an excellent resource for students, researchers, and anyone wanting to know more about Afghanistan.

The Afghanistan Papers Craig Whitlock, The Washington Post, 2022-08-30 A Washington Post Best Book of 2021 The #1 New York Times bestselling investigative story of how three successive presidents and their military commanders deceived the public year after year about America’s longest war, foreshadowing the Taliban’s recapture of Afghanistan, by Washington Post reporter and three-time Pulitzer Prize finalist Craig Whitlock. Unlike the wars in Vietnam and Iraq, the US invasion of Afghanistan in 2001 had near-unanimous public support. At first, the goals were straightforward and clear: defeat al-Qaeda and prevent a repeat of 9/11. Yet soon after the United States and its allies removed the Taliban from power, the mission veered off course and US officials lost sight of their original objectives. Distracted by the war in Iraq, the US military become mired in an unwinnable guerrilla conflict in a country it did not understand. But no president wanted to admit failure, especially in a war that began as a just cause. Instead, the Bush, Obama, and Trump administrations sent more and more troops to Afghanistan and repeatedly said they were making progress, even though they knew there was no realistic prospect for an outright victory. Just as the Pentagon Papers changed the public’s understanding of Vietnam, The Afghanistan Papers contains “fast-paced and vivid” (The New York Times Book Review) revelation after revelation from people who played a direct role in the war from leaders in the White House and the Pentagon to soldiers and aid workers on the front lines. In unvarnished language, they admit that the US government’s strategies were a mess, that the nation-building project was a colossal failure, and that drugs and corruption gained a stranglehold over their allies in the Afghan government. All told, the account is based on interviews with more than 1,000 people who knew that the US government was presenting a distorted, and sometimes entirely fabricated, version of the facts on the ground. Documents unearthed by The Washington Post reveal that President Bush didn’t know the name of his Afghanistan war commander—and didn’t want to meet with him. Secretary of Defense Donald Rumsfeld admitted that he had “no visibility into who the bad guys are.” His successor, Robert Gates, said: “We didn’t know jack shit about al-Qaeda.” The Afghanistan Papers is a “searing indictment of the deceit, blunders, and hubris of senior military and civilian officials” (Tom Bowman, NRP Pentagon Correspondent) that will supercharge a long-overdue reckoning over what went wrong and forever change the way the conflict is remembered.

Rungs of Disclosure, 2024-10-15 Is this the coming Great Deception? By the end of this book, you will reveal the truth about extraterrestrial presences on earth--that they are real, burgeoning, and not going away. You also will understand what the Biblical perspective on this phenomenon is and is not. They've been here for thousands of years, making their presence known in the shadows. They might be seen by a lonely motorist on a deserted road late at night or by a frightened and confused husband in the bedroom he is sharing with his wife. Perhaps the most disconcerting part of this phenomenon boils

down to this question: Has the government been aware of their presence all along and is covertly working with them toward some secret end? In *Rungs of Disclosure*, what once was fringe is now reality! While reading, you'll meet regular people--just like you--who have encountered something beyond their ability to explain. You'll also hear from people of great faith and deep religious belief who continue to have these strange and deeply unsettling encounters. L. A. Marzulli explores these ongoing incidents to discover the answers to these questions: Who are they? What do they want? And why are they here? Can you handle the truth? Read this book--if you dare.

On Monsters Stephen T. Asma, 2009-10-14 Hailed as a feast (Washington Post) and a modern-day bestiary (The New Yorker), Stephen Asma's *On Monsters* is a wide-ranging cultural and conceptual history of monsters--how they have evolved over time, what functions they have served for us, and what shapes they are likely to take in the future. Beginning at the time of Alexander the Great, the monsters come fast and furious--Behemoth and Leviathan, Gog and Magog, Satan and his demons, Grendel and Frankenstein, circus freaks and headless children, right up to the serial killers and terrorists of today and the post-human cyborgs of tomorrow. Monsters embody our deepest anxieties and vulnerabilities, Asma argues, but they also symbolize the mysterious and incoherent territory beyond the safe enclosures of rational thought. Exploring sources as diverse as philosophical treatises, scientific notebooks, and novels, Asma unravels traditional monster stories for the clues they offer about the inner logic of an era's fears and fascinations. In doing so, he illuminates the many ways monsters have become repositories for those human qualities that must be repudiated, externalized, and defeated.

The Shadow Patrol Alex Berenson, 2012-02-21 John Wells returns to Afghanistan—the country where his career began—in this gripping thriller from #1 New York Times bestselling author Alex Berenson. In late 2009, CIA officers in Afghanistan's Kabul station allowed a Jordanian doctor into their closest confidence. In truth, the doctor was an al-Qaeda double agent—and when he blew himself up, the station's most senior officers died with him. Years later, the station still hasn't recovered. Recruiting has dried up and the agency's best Afghani sources are being eliminated. At Langley, the CIA's chiefs begin to suspect the worst: somehow, the Taliban has infiltrated the station. When they ask John Wells to investigate, he reluctantly agrees. One thing is certain: Americans are dying, and an American is responsible. Wells is the only one who can unearth the truth—if it doesn't bury him first...
