Also new to this edition: Examples and cases from a wider range of European member states, including Tesla, Airbnb, Ryanair, Belgian AB InBev's acquisition of British SABMiller, and the expansion of Alibaba Group in Europe. Enhanced material on business in EFTA and CEFTA areas. Analysis of the effects digitalisation, business analytics and Artificial Intelligence have on business in Europe. Coverage of the challenges and opportunities stemming from migration and the refugee crisis. A specific focus on the gig and shared economy. An investigation into how sustainability and climate change agreements impact on business. The book is supported by online resources for lecturers and students, including an instructor's manual, PowerPoint Slides, multiple choice questions, class-based role play instruction guides, chapter summaries, and links to relevant videos and podcasts. Suitable reading for students on European business modules at both undergraduate and postgraduate level.

What you need to know about an airline - an aviation business handbook Robin Andrae, Arne Semken, 2021-04-21 The intention of the book is grounded on the unbroken enthusiasm for airlines and the entire travel and transportation industry, as well as our interest in writing a compact handbook with basic knowledge about airlines (from the perspective of two consultants). Especially at the beginning of our career in the consulting industry, we realized that this basic knowledge about airlines is hidden in countless textbooks, websites and experiences of experts and that a compact handbook would certainly be beneficial. From this thought the idea was born to provide graduates, people interested in airlines, airline newcomers and airline experts a book, which makes the entry into the airline industry more enjoyable and easier. We hope that our book will give you interesting insights into this exciting industry and that it will inspire and stimulate you, especially with the organizational and theoretical models (which undoubtedly originate from our core competence as consultants). We hope you enjoy reading this book and wish you many valuable findings. Your Robin Andrae and Arne Semken

Strategic Innovation Allan Afuah,2009-04 Strategic Innovation demonstrates to students how to create and appropriate value using new game strategies to gain competitive advantage. The book shows that innovation is not simply about developing new technologies into new products or services, but often, about finding new models for doing business in the face of change.

Transformations in Mobility Gilles Roucolle,2024-04-03 Transformations in Mobility provides a panoramic overview of the changing mobility business landscape, helping transportation leaders and consultants make sense of the most important trends, challenges and opportunities impacting this sector. Drawing on exclusive interviews from thirty of the most important leaders, experts and financiers in transportation spanning all modes and from around the world, the book delves into the practical lessons learned from a demand, regulatory, strategic, technology and leadership perspective and explores the way mobility might evolve in the future. It looks into pressing issues such as fragmentation of demand in mobility, technological disruptions impacting the sector and how far it is possible to decarbonize transport when it is the world's second biggest source of emissions. Drawing on cutting-edge insights, this book explores mobility's shift from supply-driven to demand-driven growth, the role of regulation and standards, digitalization, the emergence of cross-industry coalitions and the decarbonization agenda and its impact on future transport shares. It offers insightful stories and lessons learned from some of the world's leading industry experts, including some never heard before. It also features exciting case studies such as European Rail Signalling Systems ERTMS and Class 1 Freight Railways in North America.

Air Transport and Regional Development Policies Anne Graham, Nicole Adler, Hans-Martin Niemeier, Ofelia Betancor, António Pais Antunes, Volodymyr Bilotkach, Enrique J. Calderón, Gianmaria Martini, 2020-12-17 Air Transport and Regional Development Policies is one of three interconnected books related to a four-year European Cooperation in Science and Technology (COST) Action established in 2015. The Action, called Air Transport and Regional Development (ATARD), aimed to promote a better understanding of how the air transport-related problems of core regions and remote regions should be addressed in order to enhance both economic competitiveness and social cohesion in Europe. This book focuses on policy implications related to air transport and regional development. It begins with chapters that generally discuss important policy issues related to air transport and regional development in relation to connectivity and accessibility; dependency; airport governance and regulation; and air traffic control frameworks. This is followed by a number of chapters that consider government subsidies and state aid. The final chapters focus on other policy implications (tourism development, airport expansion, passenger taxation and noise control). Currently, no other single source publication covers this topic area in such a comprehensive manner, insofar as it considers so many policies and examples. The book aims at becoming a major reference source on the topic, drawing from experienced researchers in the field, covering the diverse experience and knowledge of the members of the COST Action. The book will appeal to academics, practitioners and government bodies who have a particular interest in acquiring detailed comparative knowledge and understanding of the policy implications of air transport and regional development. Along with the other two books (Air Transport and Regional Development Methodologies and Air Transport and Regional Development Case Studies) it fills a much-needed gap in the literature.

An Introduction to EU Competition Law Moritz Lorenz, 2013-04-25 Succinct and concise, this textbook covers all the procedural and substantive aspects of EU competition law. It explores primary and secondary law through the prism of ECJ case law. Abuse of a dominant position and merger control are discussed and a separate chapter on cartels ensures the student receives the broadest possible perspective on the subject. In addition, the book's consistent structure aids understanding: section summaries underline key principles, questions reinforce learning and essay discussion topics

encourage further exploration. By setting out the economic principles which underpin the subject, the author allows the student to engage with the complexity of competition law with confidence. Integrated examples and an uncluttered writing style make this required reading for all students of the subject.

Airport Marketing Strategies Lázaro Florido-Benítez, 2024-10-24 Strategies: Aviation and Tourism Perspectives offers a contemporary global vision of airport marketing strategies in the context of the aviation and tourism sectors.

Marketing Cases from Emerging Markets Dilip Mutum, Sanjit Kumar Roy, Eva Kipnis, 2013-09-03 Despite the fact that experts acknowledge the importance of the emerging markets, there is a dearth of real case studies specially focussed on marketing issues. This case study book addresses that need. It is also important and timely in providing a framework for instructors and researchers (both academic and industry) to understand the dynamics occurring in emerging markets. This book is composed of long and short real cases with varying complexity in different sectors including airlines, hotel, fashion, etc. These will cover issues which are unique to the emerging markets (including the BRIC countries) to understand the dynamics occurring in these countries. With its case studies, collection of questions, and real-life marketing examples, this book offers unique benefits to marketing students and educators across the world. A must-have for every marketing course module.

International Arbitration and the COVID-19 Revolution Maxi Scherer, Niuscha Bassiri, Mohamed S. Abdel Wahab, 2020-11-17 International Arbitration and the COVID-19 Revolution Edited by Maxi Scherer, Niuscha Bassiri & Mohamed S. Abdel Wahab The impact of the COVID-19 pandemic on all major economic sectors and industries has triggered profound and systemic changes in international arbitration. Moreover, the fact that entire proceedings are now being conducted remotely constitutes so significant a deviation from the norm as to warrant the designation 'revolution'. This timely book is the first to describe and analyse how the COVID-19 crisis has redefined arbitral practice, with critical appraisal from well-known practitioners of the pandemic's effects on substantive and procedural aspects from the commencement of proceedings until the enforcement of the award. With practical guidance from a variety of perspectives - legal, practical, and sector-specific - on the conduct of international arbitration during the COVID-19 pandemic and beyond, the chapters present leading practitioners' insights into the unprecedented and multifaceted issues that arise. They provide expert tips and challenges in such practical matters as the following: preventing and resolving disputes of particular types - construction, energy, aviation, technology, media and telecommunication, finance and insurance; arbitrator appointments; issues of planning, preparation and sample procedural orders; witness preparation and cross-examination; e-signature of arbitral awards; setting aside and enforcement proceedings; and third-party funding. Also included are an empirical survey of users' views and an overview of how the COVID-19 revolution has affected the arbitration rules of leading arbitral seats. With this timely and practical book, arbitration practitioners and scholars will gain up-to-date knowledge of sector-specific challenges brought about by the COVID-19 pandemic and approach arbitration proceedings with an understanding of the most important legal and practical considerations during the crisis and beyond.

The Airline Industry - A Comprehensive Overview John Frankie O'Connell, 2025-09-30 In recent years, airlines have faced unprecedented financial and operational uncertainties, not only in the wake of COVID-19 but across the industry. Their responses provide valuable lessons for the future - for airlines, for related industries, and for all sectors that find unexpected

upheaval suddenly in their path. As a truly global business, the airline industry offers countless lessons in navigating uncertainty and the necessity of continual business transformation. *The Airline Industry - A Comprehensive Overview: Dynamic Trends and Transformations* is an up-to-date 'state of the nation' perspective on the airline industry. Its dedicated and detailed focus on airlines makes the book an invaluable tool in deciphering how airlines have been run and managed to date and provides a roadmap for the future evolution of the industry. The author has interviewed countless airline and related industry professionals in their respective fields of expertise, which adds layers of real-world insight to every chapter. Written in a lively and accessible style that will appeal to readers whether they are in academia or the airline industry, *The Airline Industry - A Comprehensive Overview: Dynamic Trends and Transformations* is essential reading for airline employees and undergraduate and postgraduate students and a vital point of reference for lecturers and researchers, economists, and business analysts looking for a thorough and commercial guide to the airline industry.

The Routledge Companion to Air Transport Management Nigel Halpern, Anne Graham, 2018-01-31 *The Routledge Companion to Air Transport Management* provides a comprehensive, up-to-date review of air transport management research and literature. This exciting new handbook provides a unique repository of current knowledge and critical debate with an international focus, considering both developed and emerging markets, and covering key sectors of the air transport industry. The companion consists of 25 chapters that are written by 39 leading researchers, scholars and industry experts based at universities, research institutes, and air transport companies and organisations in 12 different countries in Africa, Asia-Pacific, Europe and North America to provide a definitive, trustworthy resource. The international team of contributors have proven experience of research and publication in their specialist areas, and contribute to this companion by drawing upon research published mainly in academic, industry and government sources. This seminal companion is a vital resource for researchers, scholars and students of air transport management. It is organised into three parts: current state of the air transport sectors (Part I); application of management disciplines to airlines and airports (Part II); and key selected themes (Part III).

Air Transport in the 21st Century John F. O'Connell, George Williams, 2016-12-05 Airlines are buffeted by fluctuating political and economic landscapes, ever-changing competition, technology developments, globalization, increasing deregulation and evolving customer requirements. As a consequence all sectors of the air transport industry are in a constant state of flux. The principle aim of this book is to review current trends in the airline industry and its related suppliers, thereby providing an insight into the forces that are changing its dynamics. The factors that are reshaping the structure of the industry are examined with a view to identifying the key issues whose impact will be critical in the future. The book features two very distinct sections. The first contains short contributions from industry executives at CEO/VP level from airlines, aircraft/engine manufacturers, safety and navigational provider organisations, who have set out their take of where

the airline industry is heading. This commercial input sets the scene for the book and provides the bridge to the second section, which is composed of 18 chapters written by distinguished academic authors. Each chapter presents a valuable insight into a specific area of the air transport industry, including: airlines, airports, cargo, deregulation, the environment, navigation, strategy, information technology, security and tourism. The shared objective of the authors is to describe and explain the core competencies that are determining the current shape of the industry and to examine the forces that will change its direction going forward. The book is written in a management style and will appeal to all levels of personnel who work for airlines across the world. It is also written for airport authorities, aerospace manufacturers, regulatory and government transportation agencies, researchers and students of aviation management, transport studies, tourism and the wider air transport industry.

Die Wettbewerbssituation im europäischen Luftverkehrsmarkt aufgezeigt anhand einer Branchenanalyse und des Markteintritts von Easyjet in NRW Christofer Gratz, 2004-08-19 Inhaltsangabe: Einleitung: In den letzten Jahren hat der europäische Luftverkehrsmarkt signifikante Veränderungen und Entwicklungen erfahren. Die durch die wachsende Globalisierung entstandene Vernetzung der Märkte und die Prosperität immer größerer Bevölkerungskreise haben zu einem weltweit zunehmenden Bedürfnis nach Flugreisen geführt. Durch die weitgehende Liberalisierung der Luftfahrt innerhalb der EU verloren die staatlichen bzw. nationalen Fluggesellschaften schon einen Großteil ihrer Monopolstellungen und ermöglichte einen weitgehend freien Markt. Die welt- und sozialpolitischen Ereignisse der jüngsten Geschichte- 11. September 2001, Irak-Krieg, SARS- haben diese Entwicklung nicht nachhaltig aufhalten können. Aber nicht nur die traditionellen Airlines stehen heute untereinander im Wettbewerb. Der wachsende Luftverkehrsmarkt führt vielmehr dazu, dass ständig neue Fluggesellschaften auf den Markt treten. Große Aufmerksamkeit ziehen dabei vor allem die so genannten Low-Cost-Carrier auf sich, die mit völlig neuen Konzepten und extrem niedrigen Flugpreisen um Kunden werben und damit teilweise große Erfolge erzielen. Vor diesem Hintergrund stellt sich die Frage, inwieweit die Geschäftssysteme der etablierten Airlines und der neuen Anbieter konkurrieren und welche Auswirkungen sich daraus auf den gesamten Wettbewerb im europäischen Luftverkehrsmarkt ergeben. Die derzeitige Wettbewerbssituation und ihre anhaltende Veränderung sind dabei von besonderem Interesse und werden in der vorliegenden Arbeit analysiert. Diese Arbeit besteht

aus zwei Teilen. Um eine detaillierte Analyse des Wettbewerbs innerhalb des europäischen Luftverkehrsmarktes vornehmen zu können, wird im ersten Teil eine Branchenanalyse nach Porter die Konzepte und Arbeitsweisen der traditionellen Netzwerklinienfluggesellschaften, Low-Cost-Carrier, Charter- sowie Regionalfluggesellschaften detailliert beschreiben, untereinander differenzieren und analysieren. Im Anschluss erfolgt eine ausführliche Bewertung der aktuellen Wettbewerbssituation und -dynamik des europäischen Luftverkehrsmarktes anhand des Fünf-Kräfte Wettbewerbsmodells von Porter. Schließlich werden neue Wege angedacht, wie sich Fluggesellschaften in diesem Wettbewerb von den Konkurrenten abgrenzen können. Abschließend wird ein Ausblick auf die Wachstumsaussichten und die Entwicklung der Branche gegeben. Der zweite Teil analysiert den aktuellen Markteintritt des britischen Billigfliegers Easyjet in Nordrhein-Westfalen. [...]

Zwischen Departure und Arrival Kerstin Schaefer, 2017 Willkommen in der 'Airworld'! Einer Welt mit eigener Architektur, eigener Sprache und eigenen Gesetzen. Inzwischen fliegen scheinbar alle - vom Kleinkind bis zum Terroristen, privat, beruflich, freiwillig oder zwangsweise. Doch inwiefern ist das aeromobile Unterwegssein Teil unseres Alltags geworden und was für Praktiken, Handlungen, Strategien und Vorstellungen haben die Reisenden entwickelt, während sie im Flugzeug unterwegs sind? Etwas mehr als zwanzig Jahre nach dem legendären 'Orte und Nicht-Orte' von Marc Augé, der den fiktiven Passagier Pierre Dupont auf eine Flugreise schickte, untersucht diese Studie die Mikrokosmen zwischen Departure und Arrival und hinterfragt, was auf einer Flugreise eigentlich vor sich geht. Aufgrund der hohen Dichte der Ereignisse funktioniert die Flugzeugkabine wie ein Brennglas für verschiedenste Prozesse. Deshalb liegen Antworten auf Fragen zu Arbeit, Familie, Liebe, Alter, Urbanität, Globalisierung, Weggehen oder Ankommen nicht nur am Boden, sie verbergen sich auch über den Wolken. Zu dieser Dissertation über das Fliegen wird ein Dokumentarfilm produziert. Kerstin Schaefer (Dr. phil.) ist Kulturanthropologin und Filmemacherin. Sie hat Volkskunde / Kulturanthropologie studiert und an der Universität Zürich promoviert. Ihre Magisterarbeit über den Linienbus 'Die Wilde 13 - Durch Raum und Zeit in Hamburg-Wilhelmsburg' erschien als Buch, wurde verfilmt (Filmfest Hamburg / NDR) und für das Thalia Theater Hamburg adaptiert.
