La cultura indígena en la fotografía mexicana de los 90s Laura M. CORKOVIC, 2012-08-01 Desde sus inicios la fotografía en México ha sido un género artístico dominado por no indígenas y la cultura indígena una constante temática dentro de la misma. No fue hasta los 1990s cuando surgieron los primeros grupos de fotógrafos indígenas profesionales que además de tener gran éxito en México, lograron atención y reconocimiento a nivel internacional. Con sus trabajos enriquecen la visión de los fotógrafos no indígenas conocida hasta entonces y dan nuevo rumbo a la presencia del mundo indígena en la fotografía mexicana. En esta tesis doctoral decidí poner en directa comparación ambos grupos de artistas para así subrayar las similitudes y disparidades en sus trabajos. Para este propósito seleccioné un grupo lo suficientemente representativo dentro de la abundante producción fotográfica no indígena y, en el caso de los indígenas, escogí a los fotógrafos más conocidos del país. Como parte esencial del proceso de investigación, conduje más de cincuenta entrevistas tanto a fotógrafos indígenas como no indígenas, y así también a diversos personajes del medio cultural mexicano. En ello descubrí cuáles son los grupos étnicos más fotografiados a finales del siglo XX y llegué a algunas observaciones respecto al futuro de la fotografía indígena en México.

The Organization of Knowledge Jack Andersen, Laura Skouvig, 2017-08-01 Through different theoretical and analyses glasses, this book critically examines the organization of knowledge as it is involved in matters of digital communication, the social, cultural, and political consequences of classifying, and how particular historical contexts shape ideas of information and what information to classify and record.

Photography in Latin America Gisela Cánepa Koch, Ingrid Kummels, 2016-05-15 Historical photographs taken in Latin America have now become key sites for memory politics, ethnographic imagination, and the negotiation of identity. This volume opens up a set of questions relating to the contemporaneous agency of images as well as their current appropriation via new technologies. Case studies of pictures taken in Mexico, Colombia, Peru and Brazil analyze these processes by tracing how the images have been resignified over time and space. The contributions examine photographs that have been recently rediscovered by such diverse actors as European museums, human rights organizations, anthropologists, shamans, local

historians, and communities of internet users.

Ética, poética y prosaica Ireri de la Peña, 2008 In June 2004, the jury of the VI Bienal de Fotoperiodismo gave a prize to the work *Mexicaltzingo comunidad en rebeldía* by Giorgio Viera. One of the photographs contained in the essay *Alma en la azotea* generated an intense polemic as by many it was considered plagiarism, posed and therefore false. Others considered that its transcendence and expressive force could not be judged as false or true. The debate made evident the urgency to clarify the meaning of truth, credibility or reality when talking about images and their relation with ethics. The catalogue of the biennial integrated a series of texts related to this old problem. This anthology includes some of those articles.

El evangelio según José (PDF) Erlantz Gamboa Villapún, 2019-08-09 Carlo Mastrozzo, un millonario de Venecia, coleccionista de libros antiguos, encarga a un sacerdote español, Sebastián Aranda, buscar un evangelio perdido en algún archivo del Vaticano o de una diócesis. El español lo halla en Sicilia, pero no lo comunica a quien le encargó la pesquisa. En silencio, negocia su venta con unos sacerdotes mejicanos, a la vez que con protestantes de Estados Unidos. Supuestamente se trataría del evangelio según José, hermano de Cristo, en el que revelaría importantes datos sobre éste que pueden poner a temblar a La Iglesia. De inmediato, algunos prelados preparan la defensiva, que es más bien una ofensiva.. Encabeza el grupo Macario Rossino, obispo argentino, que trabaja en el Vaticano. Es un verdadero conspirador que sirve a dos amos, o eso les hace creer a ambos. Carlo Mastrozzo es asesinado, pero, antes, le encarga a su sobrino Paolo velar por su preciada posesión: El Evangelio. Paolo y su novia, la doctora Josephine Mareau, siguen al cura español a México, en donde el religioso renegado es asesinado, y el evangelio, tras una serie de intrigas, llega a manos del obispo Macario, quien, junto a otros jerarcas de La Iglesia, conocidos como La Orden de Burgos, L'Ordre de Bourges, L'Ordine di Borgo, o The Order of Borough, no quieren que se haga público su contenido.

Fotografía en América Latina Gisela Cánepa Koch, Ingrid Kummels, 2022-09-01 Las fotografías históricas tomadas en América Latina han puesto en evidencia su valor como sitios cruciales de la política de la memoria, la imaginación etnográfica y la negociación de la identidad. Este volumen abre un conjunto de preguntas relacionadas con la agencia contemporánea de este tipo de imágenes, así como su apropiación actual a través de nuevas tecnologías.

Juventud y fotografía en revistas juveniles chilenas del siglo XX Óscar Aguilera Ruíz, Nicole Iroumé Awe, 2018-06-05 Se analiza en estas páginas el lugar que las fotografías han tenido en la construcción, significación y resignificación de la juventud como categoría social y de los jóvenes como sujetos que reciben, se apropian o impugnan determinados atributos asignados socioculturalmente. Las fotografías son observadas y estudiadas en relación con la forma material que propició su desarrollo como técnica visual y vehiculizó como canon representacional: las publicaciones periódicas o magazines producidas por la industria cultural de cada época y el propio mundo asociativo juvenil.

La fotografía en el contexto del cambio Héctor Guillermo Alfaro López, Graciela Leticia Raya Alonso, 2019-11-12 La

cotidiana sobreproducción social de fotografías nos remite a la necesidad de que una parte de imágenes de la totalidad que se pierde en la espuma de los días se preserve. Preservación que implícitamente sea un reducto de recuperación de la memoria; que una parte de información fotográfica pueda ser conservada por su relevancia social. Lo que nos conduce directamente a las ciencias documentales, entre las que tiene lugar la bibliotecología, cuyo sentido y objetivo es precisamente la preservación, organización y difusión de la información registrada, entre la que por supuesto se encuentra la información visual. Ahora bien, esto que de primera instancia parece obvio, como es el hecho de que la información visual en cualquiera de sus soportes de imágenes son objetos de suyo connaturales al quehacer de tales ciencias, presenta algunos problemas. Por ejemplo, en el caso específico de la bibliotecología, que por ancestral tradición ha hecho de la información bibliográfica su objeto central de trabajo, se enfrenta en la actualidad a diversas, cambiantes y distintivas expresiones informativas como es el caso de la información visual y, más en particular, a la información fotográfica, por lo que está siendo llevada a reconstruir su visión de la información así como de los parámetros de organización de la misma. La bibliotecología al ser una ciencia, por su propia condición, estructuradora del orden ha buscado desde el principio ofrecer un marco y procedimientos técnicos para organizar la información fotográfica, en algunos casos de manera aproximada, en otros insatisfactoriamente, pero la tarea continúa, como queda de manifiesto en esta obra, cuyo título para esta edición es ya de por sí ilustrativo del momento en que este soporte informativo se encuentra La fotografía en el contexto del cambio: retos y perspectivas.

Plusvalía de la memoria Acosta Sierra, Paola Helena, 2021-12-17 En este libro se desentraña cómo Silencios muestra la continuidad “repetición” de la historia como catástrofe, esto es, la hermandad de las víctimas, entre el judío que sobrevive y el desplazado, o entre el quemado y el ahogado. Lo que está en juego con los trípticos y su compleja economía de las temporalidades es algo fundamental: el silencio mismo como interrupción de la lengua, lengua política que está historicistamente orientada siempre a dar cuenta, a dar razón, a funcionar como principio de razón de la historia. El silencio indagado por Silencios desactiva la relación logocéntrica entre sentido e historia, entre discurso e identidad, entre política y hegemonía, abriendo una fisura en el tiempo homogéneo y vacío del progreso, donde se adivina otro tiempo, otra relación al tiempo.

Fuentes especializadas en Ciencias Sociales y Humanidades Raquel Gómez Díaz,Araceli García Rodríguez,José Antonio Cordon García,2017-09-14 Una de las tareas fundamentales de la investigación científica es la revisión de la literatura especializada para su cotejo, crítica y fundamentación. El investigador se encuentra ante la difícil tarea de buscar, identificar, analizar y ponderar entre miles de contribuciones, con calidades y procedencias muy diferentes. Además, cada disciplina científica posee sus propias fuentes de información con pesos y distribución distintos según las áreas. Para el investigador, pero también para el docente o para el estudioso de cualquier nivel, el conocimiento de las principales fuentes existentes en su campo de conocimiento es imprescindible para poder abordar cualquier estudio con solvencia y seguridad. Estas fuentes, por otra parte, se han ido incrementando y diversificando a medida que las ciencias han ido evolucionando, mejorando en sus prestaciones, cobertura y accesibilidad, gracias sobre todo a la combinación de contenidos y tecnologías de la información. Bases de datos, páginas web, blogs especializados, repertorios, asociaciones profesionales, revistas, etc., constituyen un abanico de recursos a los que hay que prestar atención para estar actualizado en cualquier materia que se estudie. En esta obra se muestra un análisis de las fuentes de información especializadas más importantes que existen en las disciplinas asociadas a las Ciencias Sociales y las Humanidades, mediante una exposición y un examen crítico de ellas. Cada uno de los capítulos ha sido elaborado por especialistas reputados en la materia, con conocimientos adquiridos tras largos años de experiencia e investigación.

Painscapes EJ Gonzalez-Polledo, Jen Tarr, 2017-10-13 This book brings into dialogue approaches from anthropology, sociology, visual art, theatre, and literature to question what kinds of relations, frames and politics constitute pain across disciplines and methodologies. Each chapter offers a unique window onto the notoriously difficult problem of how pain is defined and communicated. The contributors reimagine the value of images and photography, poetry, history, drama, stories and interviews, not as 'better' representations of the pain experience, but as devices to navigate the complexity of pain across different physical, social, and intersubjective domains. This innovative collection provides a new access point to the phenomenon of pain and the materialities, affects, structures and institutions that constitute it. This book will appeal to readers seeking to better understand pain's complexity and the social and affective ecologies through which pain is known, communicated and lived.
