Melanesian Mainstream Sebastian T. Ellerich, 2024-01-05 Citizens of Vanuatu (ni-Vanuatu) perceive stringband music as a marker of national identity, an indicator of their cultural, stylistic, and musical heritage. Through extensive field and ethnographic research, *Melanesian Mainstream* offers a detailed historical record of the roots, context, evolution, and impact of stringband music. Beyond chronicling the genre's history and cultural significance, this thorough monograph positions the genre's musical hybridity, communal lyrics, and unique organizational structures as key factors in the anthropological understanding of ni-Vanuatu socio-cultural history.

Class and the Canon K. Blair, M. Gorji, 2012-11-13 Examining how labouring-class poets constructed themselves and were constructed by critics as part of a canon, and how they situated their work in relation to contemporaries and poets from earlier periods, this book highlights the complexities of labouring-class poetic identities in the period from Burns to mid-late century Victorian dialect poets.

Krsna and Christ Steven Tsoukalas, 2011-09-01 This work compares the Krsnavatara (Krsna in his avatara doctrines of Sankara and Ramanuja and the incarnation of Christ as represented by classical Christian orthodoxy, and draws out comparative theological and soteriological implications. It does so first by examining the epistemologies, theologies and world views of Sankara and Ramanuja, and the theology and world view of classical Christian orthodoxy, so that, second, an adequate foundation and subsequent thorough representation of avatara and incarnation might be accomplished, in order that, third, accurate comparisons may be drawn between avatara and incarnation. The result of this study is a demonstration that many of the popularly held similarities between avatara and incarnation are superficial, and that therefore careful

consideration of epistemologies and ontologies should be undertaken when comparing theologies and soteriologies pertinent to avatara and incarnation.

Nordic Childhoods 1700-1960 Reidar Aasgaard, Marcia Bunge, Merethe Roos, 2017-08-04 This volume strengthens interest and research in the fields of both Childhood Studies and Nordic Studies by exploring conceptions of children and childhood in the Nordic countries (Denmark, Finland, Iceland, Norway, and Sweden). Although some books have been written about the history of childhood in these countries, few are multidisciplinary, focus on this region as a whole, or are available in English. This volume contains essays by scholars from the fields of literature, history, theology, religious studies, intellectual history, cultural studies, Scandinavian studies, education, music, and art history. Contributors study the history of childhood in a wide variety of sources, such as folk and fairy tales, legal codes, religious texts, essays on education, letters, sermons, speeches, hymns, paintings, novels, and school essays written by children themselves. They also examine texts intended specifically for children, including text books, catechisms, newspapers, songbooks, and children's literature. By bringing together scholars from multiple disciplines who raise distinctive questions about childhood and take into account a wide range of sources, the book offers a fresh and substantive contribution to the history of childhood in the Nordic countries between 1700 and 1960. The volume also helps readers trace the historical roots of the internationally recognized practices and policies regarding child welfare within the Nordic countries today and prompts readers from any country to reflect on their own conceptions of and commitments to children.

Songwriting Stephen Citron, 2008-04-01 (Limelight). Songwriting: A Complete Guide to the Craft is both a comprehensive course for beginning and experienced songwriters and a rich source of new ideas, inspiration, and tricks of the trade for those who have already achieved professional standing. This fresh new edition not only contains all of the original volume's cogent advice on how to write the always-popular genres the country song, the ballad, and the love song but has been revised to include: Examples of hard rock, acid, heavy metal, bubblegum, hip-hop, salsa, rap, gangsta, reggae, ska, soul, and many other of today's most recorded styles; Finding a song concept, distilling the hook, choosing a form, adding harmony, and selecting rhythm; An appendix telling how to copyright, computerize, notate, record, and sell your song; Full glossary of musical and songwriting terms, an explanation of rap-speak with a useful section on rhyme for rap songs, many musical examples of well-known songs, and a complete index. Unlike other books, Songwriting emphasizes the art without being arty and technique of creating a song. For the novice, Stephen Citron goes step-by-step through the writing

of a song presupposing no prior knowledge of notation, harmony, rhythmic values, or rhyme. For the more experienced songwriter, Songwriting will serve as a one-stop reference and as an endless source of fresh ideas.

Which Sin to Bear? David Chinitz, 2013-03-07 *Which Sin to Bear?* highlights how Langston Hughes struggled with the tension between genuine artistic meaning and commercial concessions throughout his prolific career.

Flannery at the Grammys Irwin H. Streight, 2024-06-20 A devout Catholic, a visionary—and some say prophetic—writer, Flannery O'Connor (1925–1964) has gained a growing presence in contemporary popular culture. While O'Connor professed that she did not have an ear for music, allusions to her writing appear in the lyrics and narrative form of some of the most celebrated musicians on the contemporary music scene. *Flannery at the Grammys* sounds the extensive influence of this southern author on the art and vision of a suite of American and British singer-songwriters and pop groups. Author Irwin H. Streight invites critical awareness of O'Connor's resonance in the products of popular music culture—in folk, blues, rock, gospel, punk, heavy metal, and indie pop songs by some of the most notable figures in the popular music business. Streight examines O'Connor's influence on the art and vision of multiple Grammy Award winners Bruce Springsteen, Lucinda Williams, R.E.M., and U2, along with celebrated songwriters Nick Cave, PJ Harvey, Sufjan Stevens, Mary Gauthier, Tom Waits, and others. Despite her orthodox religious, and at times controversial, views and limited literary output, O'Connor has left a curiously indelible mark on the careers of the successful musicians discussed in this volume. Still, her acknowledged influence and remarkable presence in contemporary pop and rock songs has not been well noted by pop music critics and/or

literary scholars. Many years in the making, Flannery at the Grammys achieves groundbreaking work in cultural studies and combines in-depth literary and pop music scholarship to engage the informed devotee and the casual reader alike.

Poetry in English and Metal Music Arturo Mora-Rioja,2023-05-05 Many metal songs incorporate poetry into their lyrics using a broad array of techniques, both textual and musical. This book develops a novel adaptation, appropriation, and quotation taxonomy that both expands our knowledge of how poetry is used in metal music and is useful for scholars across adaptation studies broadly. The text follows both a quantitative and a qualitative approach. It identifies 384 metal songs by 224 bands with intertextual ties to 146 poems written by fifty-one different poets, with a special focus on Edgar Allan Poe, John Milton's Paradise Lost and the work of WWI's War Poets. This analysis of transformational mechanisms allows poetry to find an afterlife in the form of metal songs and sheds light on both the adaptation and appropriation process and on the semantic shifts occasioned by the recontextualisation of the poems into the metal music culture. Some musicians reuse - and sometimes amplify - old verses related to politics and religion in our present times; others engage in criticism or simple contradiction. In some cases, the bands turn the abstract feelings evoked by the poems into concrete personal experiences. The most adventurous recraft the original verses by changing the point of view of either the poetic voice or the addressed actors, altering the vocaliser of the narrative or the gender of the protagonists. These mechanisms help metal musicians make the poems their own and adjust them to their artistic needs so that the resulting product is consistent with the expectations of the metal music culture.

Representing the Other in European Media Discourses Jan Chovanec, Katarzyna Molek-Kozakowska, 2017-11-15 This book deals with the construction of the 'other' in European media at a time when the recently expanded EU is facing new political, economic and social challenges. The aim of the book is to document the diverse discursive forms of othering, ranging from differentiation to discrimination, that are directed against various 'other Europeans' in both institutionalized media and such non-elite semi-public contexts as discussion forums and citizen blogs. Drawing on data from British, Polish, French, Czech, Italian, Hungarian, Spanish and Estonian contexts, the individual papers investigate how various social groupings - regions, nations, ethnicities, communities, cultures - are discursively constructed as 'outsiders' rather than 'insiders', as 'them' rather than 'us'. While most of the papers are grounded in linguistics and critical discourse studies, the book will also appeal to numerous other social scientists interested in the interface between language, media and social issues.

Not So Simple Donna Akiba Sullivan Harper, 1996-08-01 The Simple stories, Langston Hughes's satirical pieces featuring Harlem's Jesse B. Semple, have been lauded as Hughes's greatest contribution to American fiction. In Not So Simple, Donna Akiba Sullivan Harper provides the first full historical analysis of the Simple stories. Harper traces the evolution and development of Simple from his 1943 appearance in Hughes's weekly Chicago Defender column through his 1965 farewell in the New York Post. Drawing on correspondence and manuscripts of the stories, Harper explores the

development of the Simple collections, from Simple Speaks His Mind (1950) to Simple's Uncle Sam (1965), providing fresh and provocative perspectives on both Hughes and the characters who populate his stories. Harper discusses the nature of Simple, Harlem's everyman, and the way in which Hughes used his character both to teach fellow Harlem residents about their connection to world events and to give black literature a hero whose day-after-day heroism would exemplify greatness. She explores the psychological, sociological, and literary meanings behind the Simple stories, and suggests ways in which the stories illustrate lessons of American history and political science. She also examines the roles played by women in these humorously ironic fictions. Ultimately, Hughes's attitudes as an author are measured against the views of other prominent African American writers. Demonstrating the richness and complexity of this Langston Hughes character and the Harlem he inhabited. Not So Simple makes an important contribution to the study of American literature.
