Jeff Goins, bestselling author of The Art of Work If your goal is to explore the world while working, learning & growing, this book is essential reading. Robert Gerrish, Founder of Flying Solo, Author of 'The 1 - Minute Commute', presenter & podcaster. In the new "work from anywhere" economy, today's workforce demands more flexibility, freedom, and financial stability. You only live once... so start living! Cody Coffey, 2009-11 I wrote this book because I feel there is a reason for all that is going on in the world; a cauldron of misery, suffering, anguish, and strife. Everyone is caught up in it and those who feel they are not or feel they have an educated reason and philosophy for what they see, are not seeing the bigger picture. Most people come up with the biggest, most elaborate questions and answers, but most do not tap into another reason or meaning for what life is about and what is transpiring. What if there is a very deeper meaning, deeper purpose besides the basic fundamentals of life that we know of, and our purpose here. What if everything we say, do and think about are just conforming to our own selfish reasons. I am trying to put forth the argument of what the real reasons are. The answers so many accept and try to figure out based on nothing else but the theoretical speculation and trial and error. The most brilliant minds in the world, the most compelling arguments, explanations and theories have played and still play a major role into where we are, where we are going and what we have reduced ourselves to. While many may look to rationalize an incoherent world with rational thought, many are ignoring what could be a devastating calamity taken place right under our noses. Something so subtle that it is less resound then a feather hitting the ground half way around the world, yet would have the impact to wipe out humanity or create hell on earth.

America's Overpopulation Predicament: Blindsiding Future Generations Frosty Wooldridge, 2021-03-02 America's Overpopulation Predicament: Blindsiding Future Generations— The subject of this book will profoundly and adversely affect every man, woman and child on earth by 2050. Most of us have experienced a situation when we or someone we know has some critical knowledge to share that needs immediate action only to be told to wait our turn as other irrelevant topics are given attention. This author asks for his findings to be heard against an ocean of mediocrity as he relates his personal “eye opening” experiences from all over the world with similar emotion, I suspect, as Newton felt when he suddenly understood the force of gravity, or that of Archimedes when he shouted “Eureka” as he suddenly understood the method for measuring precious metal content in an object. Like the seer who catches a glimpse into the future, Wooldridge finds it hard to limit his efforts to the written word. For here we find as compelling a case for massive and immediate action as ever there was one. Here is a subject matter so extraordinary that it should be shouted from every rooftop. The information this book contains is imperative and irrefutable. It destroys the impotent etchings of any clay or gold tablets as a roadmap for humanity. Man or woman, young or old, it will entreat you to look ahead without bias to the stark reality of what is ahead for our nation and our world. Packed with references to support his case, and literally floating above contrary voices like whitecaps on the ocean, Wooldridge advances the case for the salvation of modern civilization. He suggests courses of action that will ultimately

prove to be the only way to prevent humanity from vanishing like dust in the wind. K. R. Hampshire, Researcher and Entrepreneur, Denver, Colorado
