Project Animal Farm Sonia Faruqi,2015-07-15 Sonia Faruqi had an Ivy League degree and a job on Wall Street. But when the banking industry collapsed, she found herself on a small organic dairy farm that would change her life for the better, although it didn't seem that way in the beginning. First, she had to come to grips with cows shocked into place, cannibal chickens, and free range turkeys that went nowhere. But there were bright lights as well: happy, frolicking calves on a veal farm, and farmers who cared as much about the animals as their pocketbooks. What started as a two-week volunteer vacation turned into a journey that reached into the darkest recesses of the animal agriculture industry. Surrounded by a colorful cast of characters, Faruqi's quest to discover the truth about modern agribusiness took her around the world. Lively, edgy, and balanced, *Project Animal Farm* sheds light on the international agribusiness, with the ultimate goal of improving the lives of farm animals here at home. Using her finance background to forecast the future of agriculture, Faruqi discusses the changes we need to make—using our forks and our votes.

The 'Second World' in Contemporary British Writing Katrin Berndt, Andrew Wells, 2024-08-12 The thirteen contributions to this collection all explore or exemplify the ongoing British interest in the socialist world before 1990. In autobiography, fiction, film, history, and lexicography, these chapters show how contemporary Britain is engaging with the past project to build socialism in Europe, and what this means for the present and the future of our continent. Contributions come from a wide range of disciplinary and geographical backgrounds, and the volume is further enriched by a short story especially written for this book and by an in-depth interview with the author of a recent popular history of the GDR. Together, these chapters offer a unique perspective into contemporary British writing on the 'second world' and the enduring fascination with the failures of futures past.

Banning the Bomb, Smashing the Patriarchy Ray Acheson, 2021-06-25 Banning the Bomb, Smashing the Patriarchy offers a look inside the antinuclear movement and its recent successful campaign to ban the bomb. From scrappy organizing to winning the Nobel Peace Prize in 2017 and achieving a landmark UN treaty banning nuclear weapons, this book narrates the journey of the International Campaign to Abolish Nuclear Weapons (ICAN) and developments in feminist disarmament activism. Acheson explains the process through which diplomats, activists, and nuclear survivors worked together to elevate the horrific humanitarian and environmental impacts of nuclear weapons, develop new international law categorically prohibiting the bomb, challenge the nuclear orthodoxy, and strengthen norms for disarmament and peace. Told from the perspective of a queer feminist antimilitarist organizer who was involved from the start of the process through to the treaty's adoption, the book utilizes interviews with dozens of participants, as well as critical theoretical perspectives about transnational advocacy networks, discourse change, and intersectional feminist action. It is meant to provide useful insights for anyone trying to make change amidst structures of power and politics.

International Conflict Feminism Vasuki Nesiah, 2024-10-08 Analyzes the impact of International Conflict Feminism's alliance with powerful global institutions In this book, Vasuki Nesiah tells the story of the astonishing uptake of International Conflict Feminism (ICF) in the most powerful institutions of global governance. ICF refers to a repertoire of policy agendas and legal strategies allied with those institutions to focus on women's vulnerabilities, fight impunity for sexual violence, and

promote women's roles in peace-building processes. ICF emerged from feminist networks anchored in the Global North that gained momentum in the aftermath of the Cold War. Although this volume offers a testament to ICF's remarkable success, it also analyzes how this success was intertwined with the defeat of alternative visions and agendas, including a range of dissident and heterodox feminisms that were eclipsed as ICF gained traction. Emerging from Nesiah's dual occupations in academia and international law and policy practice, International Conflict Feminism shows how centrally the ICF agenda has shaped fields such as peace building, international criminal law, transitional justice, and post-conflict economic policy. Each section pauses at different sites in the international governance architecture to analyze the distributive impact of ICF and its allied global policy agendas to examine what is privileged, legitimized, and empowered, and what is subordinated, marginalized, and further excluded. ICF is a project of ideas and passions, legal proposals, and policy orientations. Today, when the most powerful countries of the world are describing their military, economic, and political interventions as a "feminist foreign policy," the task of understanding and assessing the ICF project is especially urgent. Nesiah argues that, rather than obfuscating and denying the power of the ICF agenda, grappling with ICF's power is essential to achieving solidarity with feminisms that don't have a seat at the table, in particular those dissident feminist traditions with priorities and interests that challenge the dominant world order and its injustices and hierarchies.

White Space, Black Hood Sheryll Cashin, 2021-09-14 A 2021 C. Wright Mills Award Finalist Shows how government created "ghettos" and affluent white space and entrenched a system of American residential caste that is the linchpin of US inequality—and issues a call for abolition. The iconic Black hood, like slavery and Jim Crow, is a peculiar American institution animated by the ideology of white supremacy. Politicians and people of all colors propagated "ghetto" myths to justify racist policies that concentrated poverty in the hood and created high-opportunity white spaces. In *White Space, Black Hood*, Sheryll Cashin traces the history of anti-Black residential caste—boundary maintenance, opportunity hoarding, and stereotype-driven surveillance—and unpacks its current legacy so we can begin the work to dismantle the structures and policies that undermine Black lives. Drawing on nearly 2 decades of research in cities including Baltimore, St. Louis, Chicago, New York, and Cleveland, Cashin traces the processes of residential caste as it relates to housing, policing, schools, and transportation. She contends that geography is now central to American caste. Poverty-free havens and poverty-dense hoods would not exist if the state had not designed, constructed, and maintained this physical racial order. Cashin calls for abolition of these state-sanctioned processes. The ultimate goal is to change the lens through which society sees residents of poor Black neighborhoods from presumed thug to presumed citizen, and to transform the relationship of the state with these neighborhoods from punitive to caring. She calls for investment in a new infrastructure of opportunity in poor Black neighborhoods, including richly resourced schools and neighborhood centers, public transit, Peacemaker Fellowships, universal basic incomes, housing choice vouchers for residents, and mandatory inclusive housing elsewhere. Deeply

researched and sharply written, *White Space, Black Hood* is a call to action for repairing what white supremacy still breaks. Includes historical photos, maps, and charts that illuminate the history of residential segregation as an institution and a tactic of racial oppression.

Sheepdog Training and Trials Nij Vyas,2012-10-01 This comprehensive book describes innovative ways of training sheepdogs and addresses a number of subjects that have not been adequately covered in previous publications; such as working with sensitive dogs and dogs lacking in confidence, the 'square movement', and the 'concept of opposites'. Written by an acknowledged expert, *Sheep Dog Training and Trials* discusses in a variety of settings new concepts such as the author's theory of 'passive resistance' and the 'pressure on-off technique'. In addition, the author considers ways of optimizing a dog's health, energy, fitness and peak performance. This fascinating book presents contributions from four world-renowned handlers, including the twice world champion, Aled Owen, which examine the factors that have influenced them and made them successful.

Animal farm George Orwell,2013-05-16 De dieren op een boerderij komen in opstand tegen hun meester de mens en nemen zelf de macht in handen. De varkens, die lang tevoren in het geheim hebben leren lezen en schrijven, werpen zich op als de natuurlijke leiders van de revolutie. Zij staan immers op een hoger intellectueel peil dan de andere dieren. Ze breiden hun voorrechten steeds verder uit en vormen een nieuwe elite, even oppermachtig als de oude heersers. De catastrofale ineenstorting van deze gemeenschap kan ten slotte niet uitblijven. *Animal Farm*, geschreven in 1943, is een klassiek geworden satire op een totalitaire staat en samenleving, die vandaag de dag nog niets aan zeggingskracht heeft verloren.

Vegetarianism: A Guide for the Perplexed Kerry Walters,2012-06-07 The choice of whether or not to consume animals is more than merely a dietary one. It frequently reflects deep ethical commitments or religious convictions that serve as the bedrock of an entire lifestyle. Proponents of vegetarianism frequently infuriate nonvegetarians, who feel that they're being morally condemned because of what they choose to eat. Vegetarians are frequently infuriated by what they consider to be the nonvegetarians' disregard for the environment and animal-suffering. *Vegetarianism: A Guide for the Perplexed* offers a much needed survey of the different arguments offered by ethical vegetarians and their critics. In a rigorous but accessible manner, the author scrutinizes the strengths and weaknesses of arguments in defense of vegetarianism based on compassion, rights, interests, eco-feminism, environmentalism, anthropocentrism, and religion. Authors examined include Peter Singer, Tom Regan, Carol J. Adams, and Kathryn Paxton George. As the global climate crisis worsens, population increases, and fossil fuels disappear, ethical and public policy questions about the ethics of diet will become ever more urgent. This

book is a useful resource for thinking through the questions.

Spies in Congress Frank Miniter, 2018-10-16 When Imran Awan, an IT aide for Congresswoman Debbie Wasserman Schultz (D-FL), was arrested by the FBI as he tried to fly away to Pakistan, the media didn't know what to make of the story. Was this just a bank fraud case or something more? Why was this team of congressional IT administrators paid chief-of-staff-level salaries? Why did they provide fraudulent data to Capitol Police? How had they evaded background checks? As facts emerged, it became frighteningly clear this case was really about a spy ring that operated in the offices of more than 40 members of Congress, all Democrats. By following the digital tracks of this group of IT aides, *Spies in Congress* uncovers a real-life international spy thriller and unearths a shocking reality the U.S. government would rather we didn't know. Much of the media clearly wants to protect the party they favor, and the members of Congress involved don't want to pay a political price. Even the Republican leadership in Congress has been reluctant to hold hearings or to ensure that an ethics investigation take place. We can still insist on an honest ending, but to do that, we need to come to terms with what's in this book.

Knowing Animals Laurence Simmons, 2007-03-31 In recent decades the humanities and social sciences have undergone an 'animal turn', an efflorescence of interdisciplinary scholarship which is fresh and challenging because its practitioners consider humans as animals amongst other animals, while refusing to do so from an exclusively or necessarily biological point of view. *Knowing Animals* showcases original explorations of the 'animal turn' by new and eminent scholars in philosophy, literary criticism, art history and cultural studies. The essays collected here describe a lively bestiary of cultural organisms, whose flesh is (at least partly) conceptual and textual: paper tigers, beast fables, anthropomorphs, humanimals, l'animot. In so doing, they investigate the benefits of knowing animals differently: more closely, less definitively, more carefully, less certainly. Contributors include: Laurence Simmons, Alphonso Lingis, Barbara Creed, Tanja Schwalm, Philip Armstrong, Annie Potts, Allan Smith, Ricardo De Vos, Catharina Landström, Brian Boyd, Helen Tiffin, Ian Wedde.

Southern Strategies Christian B. Keller, 2021-06-30 *Southern Strategies* is the first-ever analysis of Confederate defeat using the lenses of classical strategic and leadership theory. The contributors bring over one hundred years of experience in the field at the junior and senior levels of military leadership and over forty years of teaching in professional military education. Well-aware that the nature of war is immutable and unchanging, they combine their firsthand experience of this truth with solid scholarship to offer new theoretical and historical perspectives about why the South failed in its bid for independence. The contributors identify and analyze the mistakes made by the Confederate political and strategic leadership that handicapped the prospects for independence and placed immense pressure on Confederate military commanders to compensate on the battlefield for what should have been achieved by other instruments of national power. These instruments are the diplomatic, informational (including intelligence and public morale), and economic aspects of a nation's capability to

exert its will internationally. When combined with military power, the acronym DIME emerges, a theoretical tool that offers historians and national security professionals alike a useful method to analyze how a state, such as the Union, the Confederacy, or the modern United States, wielded or currently wields its power at the strategic level. Each essay examines how well rebel strategic leaders employed and integrated these instruments, given that the seceded South possessed enough diplomatic, informational, military, and economic power to theoretically win its independence. The essayists also apply the ends-ways-means model of analysis to each topic to offer readers greater insight into the Confederate leadership's challenges. *Southern Strategies* confirms the reality that the outcome of the American Civil War cannot be boiled down to one or two simple reasons. It offers fresh and theoretically novel interpretations at the strategic level that open new doors for future research and will increase public interest in the big questions surrounding Confederate defeat.

Ten Years After 9/11 - Rethinking the Jihadist Threat Arabinda Acharya, 2013-03-05 Ten years after the 9/11 attacks this book reassesses the effectiveness of the War on Terror, considers how al-Qaeda and other jihadist movements are faring, explores the impact of wider developments in the Islamic world such as the Arab Spring, and discusses whether all this suggests that a new approach to containing international, especially jihadist, terrorism is needed. Among the book's many richly argued conclusions are that the War on Terror and the invasions of Afghanistan and Iraq have brutalised the United States; that the jihadist threat is not one, but rather a wide range of separate, unconnected struggles; and that al-Qaeda's ideology contains the seeds of its own destruction, in that although many Muslims are content to see the United States worsted, they do not approve of al-Qaeda's violence and are not taken in by the jihadists' empty promises of utopia.

Other Rivers Peter Hessler, 2024-07-09 An intimate and revelatory account of two generations of students in China's heartland, by an author who has observed the country's tumultuous changes over the past quarter century More than two decades after teaching English during the early part of China's economic boom, an experience chronicled in his book *River Town*, Peter Hessler returned to Sichuan Province to instruct students from the next generation. At the same time, Hessler and his wife enrolled their twin daughters in a local state-run elementary school, where they were the only Westerners. Over the years, Hessler had kept in close contact with many of the people he had taught in the 1990s. By reconnecting with these individuals—members of China's "Reform generation," now in their forties—while teaching current undergrads, Hessler gained a unique perspective on China's incredible transformation. In 1996, when Hessler arrived in China, almost all of the people in his classroom were first-generation college students. They typically came from large rural families, and their parents, subsistence farmers, could offer little guidance as their children entered a brand-new world. By 2019, when Hessler arrived at Sichuan University, he found a very different China, as well as a new kind of student—an only child whose schooling was the object of intense focus from a much more ambitious cohort of parents. At Sichuan University, many young people had a sense of irony about the regime but mostly navigated its restrictions with equanimity, embracing the

opportunities of China's rise. But the pressures of extreme competition at scale can be grueling, even for much younger children—including Hessler's own daughters, who gave him an intimate view into the experience at their local school. In Peter Hessler's hands, China's education system is the perfect vehicle for examining the country's past, present, and future, and what we can learn from it, for good and ill. At a time when anti-Chinese rhetoric in America has grown blunt and ugly, *Other Rivers* is a tremendous, essential gift, a work of enormous empathy that rejects cheap stereotypes and shows us China from the inside out and the bottom up. As both a window onto China and a mirror onto America, *Other Rivers* is a classic from a master of the form.

Critical Approaches to Teaching the High School Novel Crag Hill, Victor Malo-Juvera, 2018-10-25 This edited collection will turn a critical spotlight on the set of texts that has constituted the high school canon of literature for decades. By employing a set of fresh, vibrant critical lenses—such as youth studies and disabilities studies—that are often unfamiliar to advanced students and scholars of secondary English, this book provides divergent approaches to traditional readings and pedagogical practices surrounding these familiar works. By introducing and applying these interpretive frames to the field of secondary English education, this book demonstrates that there is more to say about these texts, ways to productively problematize them, and to reconfigure how they may be read and used in the classroom.

Cultures at War Tony Day, Maya Hian Ting Liem, 2010 These innovative essays compel us to reevaluate our understanding of the Cold War as a predominantly political and military event. Their consideration of a broad range of cultural forms---from literature and film to glossy magazines and body-building---reminds us that the Cold War's influence on culture and its producers was as varied and complex as the Southeast Asian countries it touched. Lively and insightful, this rich collection is a valuable contribution to both Cold War studies and the modern histories of Southeast Asia.---Richard A. Ruth, Ph.D., Department of History, U.S. Naval Academy; and author of *In Buddha's Company: Thai Soldiers in the Vietnam War* --
