David Edward Walker

Lame Deer, Seeker of Visions Lame Deer, Richard Erdoes, 1994-10 Lame Deer Storyteller, rebel, medicine man, Lame Deer was born almost a century ago on the Rosebud Reservation in South Dakota. A full-blooded Sioux, he was many things in the white man's world -- rodeo clown, painter, prisoner. But, above all, he was a holy man of the Lakota tribe. Seeker of Vision The story he tells is one of harsh youth and reckless manhood, shotgun marriage and divorce, history and folklore as rich today as ever -- and of his fierce struggle to keep pride alive, though living as a stranger in his own ancestral land.

The Great Shift Michael Drake, 2018-09-29 The Great Shift is about the new era of humanity. We have entered the new epoch of humanity's spiritual evolutionary journey into higher consciousness. Our present world is one in which order is arising out of chaos. Everything is changing and seeking equilibrium. The conditions are nothing short of a rebirth. We are quite literally witnesses and participants in the shift from individual to planetary consciousness. We are part of the emerging consciousness, and the signs are everywhere. It is here now, and we all have a part to play in it. This book is a guide to navigating the shift from an old paradigm into a new one. It is deeply rooted in the shamanic and Taoist traditions, which are a fountain of wisdom and knowledge for restoring our relationship with the Earth. Shamanism and Taoism are a way of living in harmony with nature, rather than an adherence to a religious doctrine. By practicing these ways of being, we awaken our soul calling and our connection to nature. They provide a myriad of responses to the spiritual quest of self-discovery. They are ways that embed us in the living web of life, yielding greater awareness and perspective. These practices are easily integrated into contemporary life and provide a means of navigating the turbulent times in which we live.

Ecopoiesis Stephen K. Levine, Alexander Kopytin, 2022-06-21 This book emphasises ecological, nature-assisted expressive and creative arts and art therapies within the context of the current ecological crises. Rich in fresh theoretical perspectives, this timely compendium of theory, research, and practice also provides methods and tools that can help the reader understand and incorporate new eco perspectives into their work. Building on the concept of poiesis as the human creative function, this book seeks to stress the importance of humanity's ecopoietic capacity, creating a more sustainable life for humans. It has been specifically created within the context of this most critical period of human existence, and acts as a forum for innovation based on the values of the environmental movement and its desire to address the extensive sociopsychological impact of the ecological crisis.

Brilliant Imperfection Eli Clare, 2017-01-06 In Brilliant Imperfection Eli Clare uses memoir, history, and critical analysis to explore cure—the deeply held belief that body-minds considered broken need to be fixed. Cure serves many purposes. It saves lives, manipulates lives, and prioritizes some lives over others. It provides comfort, makes profits, justifies violence, and promises resolution to body-mind loss. Clare grapples with this knot of contradictions, maintaining that neither an anti-cure politics nor a pro-cure worldview can account for the messy, complex relationships we have with our body-minds. The stories he tells range widely, stretching from disability stereotypes to weight loss surgery, gender transition to skin lightening creams. At each turn, Clare weaves race, disability, sexuality, class, and gender together, insisting on the nonnegotiable value of body-mind difference. Into this mix, he adds environmental politics, thinking about ecosystem loss and restoration as a way of delving more deeply into cure. Ultimately Brilliant Imperfection reveals cure to be an ideology grounded in the twin notions of normal and natural, slippery and powerful, necessary and damaging all at the same time.

Constructions of Time and History in the Pre-Columbian Andes Edward Swenson, Andrew Roddick, 2018-03-15

Constructions of Time and History in the Pre-Columbian Andes explores archaeological approaches to temporalities, social memory, and constructions of history in the pre-Columbian Andes. The authors examine a range of indigenous temporal experiences and ideologies, including astronomical, cyclical, generational, eschatological, and mythical time. This nuanced, interdisciplinary volume challenges outmoded anthropological theories while building on an emic perspective to gain greater understanding of pre-Columbian Andean cultures. Contributors to the volume rethink the dichotomy of past and present by understanding history as indigenous Andeans perceived it—recognizing the past as a palpable and living presence. We live in history, not apart from it. Within this framework time can be understood as a current rather than as distinct points, moments, periods, or horizons. The Andes offer a rich context by which to evaluate recent philosophical explorations of space and time. Using the varied materializations and ritual emplacements of time in a diverse sampling of landscapes, *Constructions of Time and History in the Pre-Columbian Andes* serves as a critique of archaeology's continued and exclusive dependence on linear chronologies that obscure historically specific temporal practices and beliefs. Contributors: Tamara L. Bray, Zachary J. Chase, María José Culquichicón-Venegas, Terence D'Altroy, Giles Spence Morrow, Matthew Sayre, Francisco Seoane, Darryl Wilkinson

Geographies of Us Sondra Fraleigh, Shannon Rose Riley, 2024-03-13 *Geographies of Us: Ecosomatic Essays and Practice Pages* is the first edited collection in the field of ecosomatics. With a combination of essays and practice pages that provide a variety of scholarly, creative, and experience-based approaches for readers, the book brings together both established and emergent scholars and artists from many diverse backgrounds and covers work rooted in a dozen countries. The essays engage an array of crucial methodologies and critical/theoretical perspectives, including practice-based research in the arts, especially in performance and dance studies, critical theory, ecocriticism, Indigenous knowledges, material feminist critique, quantum field theory, and new phenomenologies. Practice pages are shorter chapters that provide readers a chance to engage creatively with the ideas presented across the collection. This book offers a multidisciplinary perspective that brings together work in performance as research, phenomenology, and dance/movement; this is one of its significant contributions to the area of ecosomatics. The book will be of interest to anyone curious about matters of embodiment, ecology, and the environment, especially artists and students of dance, performance, and somatic movement education who want to learn about ecosomatics and environmental activists who want to learn more about integrating creativity, the arts, and movement into their work.

The Coming Good Society William F. Schulz, Sushma Ramen, 2020-06-09 "Challenge[s] all of us to think deeply about what kind of society we and our children and our children's children will want to live in." (Margaret L. Huang, former Executive Director, Amnesty International USA) A rights revolution is under way. Today the range of nonhuman entities

thought to deserve rights is exploding. Changes in norms and circumstances require the expansion of rights: What new rights, for example, are needed if we understand gender to be nonbinary? Does living in a corrupt state violate our rights? When biotechnology is used to change genetic code, whose rights might be violated? What rights, if any, protect our privacy from the intrusions of sophisticated surveillance techniques? Drawing on their vast experience as human rights advocates, William Schulz and Sushma Raman challenge us to think hard about how rights evolve with changing circumstances, and what rights will look like ten, twenty, or fifty years from now. The Coming Good Society details the many frontiers of rights today and the debates surrounding them. Schulz and Raman equip us with the tools to engage the present and future of rights so that we understand their importance and know where we stand. “Thoughtful and provocative.” —Human Rights Quarterly “[A] trail-blazing map through the new frontiers of rights . . . downright riveting.” —Gloucester Times “An accessible primer for anyone who wishes to understand the current limitations in our notions of rights and the future challenges for which we must prepare.” —Kerry Kennedy, President, Robert F. Kennedy Human Rights “Schulz and Raman outline brilliantly where [human rights] growth may take rights in the generations to come.” —Zeid Ra’ad al-Hussein, former United Nations High Commissioner for Human Rights

The Dakota Sioux Experience at Flandreau and Pipestone Indian Schools Cynthia Leanne Landrum, 2019-03-01
The Dakota Sioux Experience at Flandreau and Pipestone Indian Schools illuminates the relationship between the Dakota Sioux community and the schools and surrounding region, as well as the community’s long-term effort to maintain its role as caretaker of the “sacred citadel” of its people. Cynthia Leanne Landrum explores how Dakota Sioux students at Flandreau Indian School in South Dakota and at Pipestone Indian School in Minnesota generally accepted the idea that they should attend these particular boarding institutions because they saw them as a means to an end and ultimately as community schools. This construct operated within the same philosophical framework in which some Eastern Woodland nations approached a non-Indian education that was simultaneously tied to long-term international alliances between Europeans and First Peoples beginning in the seventeenth and eighteenth centuries. Landrum provides a new perspective from which to consider the Dakota people’s overt acceptance of this non-Native education system and a window into their ongoing evolutionary relationships, with all of the historic overtures and tensions that began the moment alliances were first brokered between the Algonquian Confederations and the European powers.

Forever Young William Crain, 2021-12-13 Celebrate and Rediscover the Restorative Power of Childhood It’s easy to sometimes feel that our lives have become dull and stagnant. Now, in Forever Young, psychologist William Crain invites us to consider how six great individuals were able to call upon the powers of childhood to restore their spirits and nurture their creativity. Explore the remarkable biographies of Henry David Thoreau, Albert Einstein, Charlotte Brontë, Howard Thurman, Jane Goodall and Rachel Carson, and discover how each one revived childhood qualities such as a sense of wonder,

playfulness and a feeling for nature, and in the process overcame personal roadblocks and expanded our understanding of the world. Following these inspiring stories, Crain also offers practical suggestions for how we too can reclaim the spirit and strengths of childhood to help us uncover meaning and purpose in our own lives.

Old Blue's Road James Whiteside, 2015-01-15 In *Old Blue's Road*, historian James Whiteside shares accounts of his motorcycle adventures across the American West. He details the places he has seen, the people he has met, and the personal musings those encounters prompted on his unique journeys of discovery. In 2005, Whiteside bought a Harley Davidson Heritage Softail, christened it "Old Blue," and set off on a series of far-reaching motorcycle adventures. Over six years he traveled more than 15,000 miles. Part travelogue and part historical tour, this book takes the reader along for the ride. Whiteside's travels to the Pacific Northwest, Yellowstone, Dodge City, Santa Fe, Wounded Knee, and many other locales prompt consideration of myriad topics—the ongoing struggle between Indian and mainstream American culture, the meaning of community, the sustainability of the West's hydraulic society, the creation of the national parks system, the Mormon experience in Utah, the internment of Japanese Americans during World War II, and more. Delightfully funny and insightful, *Old Blue's Road* links the colorful history and vibrant present from Whiteside's unique vantage point, recognizing and reflecting on the processes of change that made the West what it is today. The book will interest the general reader and western historian alike, leading to new appreciation for the complex ways in which the American West's past and present come together.

Crows Calling Bruce McConnell, 2025-09-16 "Crows Calling is a parable of wisdom and kindness . . . You would be hard-pressed to find a more touching and emotionally resonant testament to the exquisite world we inhabit." -Paul Hawken, *The New York Times* best-selling author of *Carbon: The Book of Life* Earth's animals are fed up with humanity's mindless damage to our common home. Will a young girl and her family heed their call? Ten-year-old Luz sets out on an overnight camping trip, accompanied by her spiritual mentor. Peering through a canopy of California redwoods, Luz witnesses a council of animals confronting the menace of climate change. Led by a lustrous—and talkative—American Crow named Koro, the animals weigh their options. Some, like Koro, want to collaborate with humans. Others doubt humanity's good intentions. The conversation compels young Luz, innately in tune with the natural world, to fight passionately in its defense. At once a work of fact-based activism and a moving coming-of-age, *Crows Calling* immerses the reader in a richly-drawn family and community who, despite their differences, decide to dedicate their lives to the care of Grandmother Earth. They are not alone. Rather, they are accompanied by a colorful cast of savvy planimals—bears, coyotes, trees, and even chickens—with long memories and ancient ways of healing. However, some damage cannot be undone. Natural disasters, public apathy, and greed threaten everything that Luz and her friends are working for. Can the cross-species alliance find unity and resolve the climate crisis?

The Things That Really Matter Michael Hauskeller, 2022-05-10 While being rooted in the academic discourse, *The Things That Really Matter* comprehensively explores the most fundamental aspects of human life in an accessible, non-technical language, adding fresh perspectives and new arguments and considerations that are designed to stimulate further debate and, in some cases, a deliberate redirection of research interests in the respective areas. It features a series of conversations about the things in our life that we all, in one way or another, wrestle with if we are at all concerned about what kind of world we live in and what our role in it is: things like birth, age, and death, good and evil, the meaning of life, the nature of the self and the role the body plays for our identity, our gendered existence, love and faith, free will, beauty, and our experience of the sacred. Situating abstract ideas in concrete experience, *The Things That Really Matter* encourages the reader to participate in an open-ended dialogue involving a variety of thinkers with different backgrounds and orientations. Lively and accessible, it shows thinking as an open-ended process and a collaborative endeavour that benefits from talking to each other rather than against each other, featuring real conversations, where ideas are explored, tested, changed, and occasionally dropped. It is thinking in motion, personal yet universal.

Kindred Creation Aida Mariam Davis, 2024-12-03 A vital path home. Employing African epistemologies and an embodied African beingness, this book embraces the revelation and miracle of Blackness. Creating a world worthy of our children requires recalling the dignity and distinction of the African way of life. This book is not written for settler consumption. *Kindred Creation* is a call and response to dream and design better worlds rooted in African lifeways: a path to Black freedom, a love letter to Black futures, and a blueprint to intergenerational Black joy and dignity—all (and always) on Black terms. Author, organizer, and designer Aida Mariam Davis explores the historical and ongoing impacts of settler colonialism, making explicit the ways that extraction, oppression, and enslavement serve the goals of empire—not least by severing ancestral connections and disrupting profound and ancient relationships to self, nature, and community. Structured in three parts—Remember, Refuse, and Reclaim—*Kindred Creation* is a philosophical guidebook and a vital invitation to power and reconnection. Davis employs parable, poetry, theory, memory, narrative, and prophecy to help readers: Remember: By unforgetting the unending and cascading violence of settler colonialism and other forms of domination and exploring the ways that African land, language, lifestyle, and labor are stolen, distorted, and repackaged for colonial consumption to extract capital and sever ties to ancestral knowledge, lifeways, and dignity Refuse: By rejecting and interrupting death-making institutions and relationships and choosing kinship and self-determination in the face of settler colonial violence Reclaim: By revealing that freedom is within us—and within reach. Davis shares how the reader can birth new worlds and relationships and offers strategies for reclaiming land, language, lifestyle, and labor. The colonial violence and dispossession of African land, language, and labor is inflicted intentionally—and by design. Reclaiming African lifeways and remembering what was forcibly forgotten must be by creation: a re-membering of our interconnectedness and kinship.

Race, Ethnicity, Gender, and Class Joseph F. Healey, 2011-11-04 Joseph F. Healey's *Race, Ethnicity, Gender, and Class*, Sixth Edition builds upon the bestselling status of the prior editions, praised for the author's writing style and the various effective pedagogical features that ensure students engage with core concepts in a meaningful way. With many updates and revisions, this edition once again uses sociological theory to tell the story of race and other socially constructed inequalities in the United States with consistency and clarity. Chapter-ending current debates based on the writings of prominent scholars spark classroom discussion on important issues, and first-person accounts, "Narrative Portraits," are threaded throughout the text to bring life to a variety of topics.

Coyote's Swing David Edward Walker, 2023-12-01 A Native foster youth brings a completed Pfizer Corporation's PTSD Self-Quiz she found in a U.S. Indian Health Service clinic waiting room to her psychologist, hoping a new diagnosis will allow her to discontinue her current stimulant medication. After advocating on her behalf and that of other Native clients in his care, the psychologist is put on a performance improvement plan by clinic supervisors. Subsequently, a nurse practitioner at the clinic sends a letter to the Secretary of the U.S. Department of Health and Human Services regarding concerns over poor medical care and infection control, only to be transferred out shortly after. *Coyote's Swing* reveals how the U.S. mental health system reframes Native American reactions to oppression and marginalization into mental disorders and mental illness. Contemporary practices of the Indian Health Service echo historical Indian lunacy determinations, false imprisonment in the Hiawatha Asylum for Insane Indians, stigmatizing of Native children kidnapped to federally- and mission-run boarding schools as feeble-minded, sterilizing of Native people evaluated by white psychologists as unfit to reproduce, and long-standing doctrines of impairment and deficiency foreign to Native values of spiritual balance and wellbeing. Immersed in this system and its history for two decades, David Edward Walker develops provocative connections between past and present while using a traditional Yakama tale as a motif. Combining narrative ease and a scholar's eye, he exposes how the white man's Cat continues to push Coyote, Sacred Trickster, on a swing of Western mental health ideology that has threatened Native lives and culture for over 150 years. *Coyote's Swing* combines Walker's firsthand experiences as a consulting psychologist with rare history and sociocultural critique.
