The Maze Runner James Dashner,2013-12-05 When the doors of the lift crank open, the only thing Thomas remembers is his first name. But he's not alone. He's surrounded by boys who welcome him to the Glade - a walled encampment at the centre of a bizarre and terrible stone maze. Like Thomas, the Gladers don't know why or how they came to be there - or what's happened to the world outside. All they know is that every morning when the walls slide back, they will risk everything - even the Grievers, half-machine, half-animal horror that patrol its corridors, to try and find out.

The Maze Runner Series 5-Book Complete Collection James Dashner,2016-09-27 A must-have gift for every collection—from the die-hard Maze Runner fan to the YA book lover just coming to the series to the binge reader who's catching up before *The Death Cure* movie hits theaters in 2018! Science Fiction Literature through History Gary Westfahl, 2021-07-19 This book provides students and other interested readers with a comprehensive survey of science fiction history and numerous essays addressing major science fiction topics, authors, works, and subgenres written by a distinguished scholar. This encyclopedia deals with written science fiction in all of its forms, not only novels and short stories but also mediums often ignored in other reference books, such as plays, poems, comic books, and graphic novels. Some science fiction films, television programs, and video games are also mentioned, particularly when they are relevant to written texts. Its focus is on science fiction in the English language, though due attention is given to international authors whose works have been frequently translated into English. Since science fiction became a recognized genre and greatly expanded in the 20th century, works published in the 20th and 21st centuries are most frequently discussed, though important earlier works are not neglected. The texts are designed to be helpful to numerous readers, ranging from students first encountering science fiction to experienced scholars in the field.

Writing 21st Century Fiction Donald Maass, 2012-10-16 Capture the minds, hearts, and imaginations of 21st century readers! Whether you're a commercial storyteller or a literary novelist, whether your goal is to write a best-selling novel or captivate readers with a satisfying, beautifully written story, the key to success is the same: high-impact fiction. Writing 21st Century Fiction will help you write a novel for today's readers and market, filled with rich characters, compelling plots, and resonant themes. Author and literary agent Donald Maass shows you how to:

- Create fiction that transcends genre, conjures characters who look and feel more real than real people, and shows readers the work around them in new ways.
- Infuse every page with an electric current of emotional appeal and micro-tension.
- Harness the power of parallels, symbols, metaphors, and more to illuminate your novel in a lasting way.
- Develop a personalized method of writing that works for you.

With an arsenal of thought-provoking prompts and questions, plus plenty of examples from best-selling titles, Writing 21st Century Fiction will strip away your preconceived notions about writing in today's world and give you the essential tools you need to create fiction that will leave both readers and critics in awe.

CPR for Dead or Lifeless Fiction: A Writer's Guide to Deep and Multifaceted Development and Progression of Characters, Plots, and Relationships Karen S. Wiesner, 2020-08-31 Characters: Do your characters have no obvious signs of life, nothing that gives them unique personality, perspective, and passion? Plots: Are plots and conflicts created spur of the moment with no set up, build up, curiosity, or tension? Relationships: Are your characters merely going through the motions with each other? All of these and more are signs of dead or lifeless stories. The three core elements of story--Characters, Plots, and Relationships (CPR)--need to be developed three dimensionally. To truly be living, characters aren't simply existing and going through the motions. They possess fully developed external and internal conflicts. They're interacting in dynamic, realistic,

and believable relationships. They have multidimensional character attributes that give them both vitality and voice. Finally, they're engaged in what makes life worthwhile with definable goals and motivations. This resource teaches writers how to identify dead or lifeless characters, plots, and relationships; establish proper setup; plant the seeds early with in-depth sketches; and pinpoint weak areas in CPR development. The only one-stop, everything-you-need-to-know 9-1-1 for deep, multifaceted Character, Plot, and Relationship development!

Dystopian States of America Matthew B. Hill, 2022-09-13 Dystopian States of America is a crucial resource that studies the impact of dystopian works on American society—including ways in which they reflect our deep and persistent fears about environmental calamities, authoritarian governments, invasive technologies, and human weakness. Dystopian States of America provides students and researchers with an illuminating resource for understanding the impact and relevance of dystopian and apocalyptic works in contemporary American culture. Through its wide survey of dystopian works in numerous forms and genres, the book encourages readers to connect with these works of fiction and understand how the catastrophically grim or disquieting worlds they portray offer insights into our own current situation. In addition to providing more than 150 encyclopedia articles on a large and representative sample of dystopian/apocalyptic narratives in fiction, film, television, and video games (including popular works that often escape critical inquiry), Dystopian States of America features a suite of critical essays on five themes—war, pandemics, totalitarianism, environmental calamity, and technological overreach—that serve as the foundation for most dystopian worlds of the imagination. These offerings complement one another, enabling readers to explore dystopian conceptions of America and the world from multiple perspectives and vantage points.

Quicklet on James Dashner's The Maze Runner Peg Robinson, 2011-12-20 ABOUT THE BOOK “Out there’s the Maze,” Newt whispered, eyes wide as if in a trance. “Everything we do—our whole life, Greenie—revolves around the Maze. Every lovin’ second of every lovin’ day we spend in honor of the Maze, tryin’ to solve somethin’ that’s not shown us it has a bloody solution, ya know? And we want to show ya why it’s not to be messed with. Show ya why them buggin’ wals close shut every night. Show ya why you should never, never find your butt out there.” “All is an illusion” is the core message emanating from James Dashner’s novel, *The Maze Runner*, which hitches a young adult (YA) science-fiction fantasy plot to a premise reminiscent of *The Prisoner* or an old *Twilight Zone* episode. Children trapped in a manipulative experiment, with their memories of their past lives wiped clean, struggle to escape to a seemingly elusive freedom. The *Maze Runner* series is violent, dark, and edgy, with a similar allure to that of *The Hunger Games*. According to IMDb, in their article on *The Maze Runner*, a movie based on the novel is in development, and is scheduled for release in 2013. MEET THE AUTHOR Peg Robinson holds a BA in Religious Studies from the University of California at Santa Barbara, and has partially completed an MA/PhD in Mythological Studies from Pacifica Graduate Institute. She holds a certificate in copy editing from Media

Bistro. Her publishing career started in 1998, on winning a place in Simon and Schuster's Star Trek: Strange New Worlds competition. Her novelette *Tonino and the Incubus* qualified for the 2007 Nebula Awards. She has worked as a content provider, copy writer, informational writer, copy editor, and developmental editor. EXCERPT FROM THE BOOK *Thomas*, a boy of about sixteen, arrives in a mysterious compound in the middle of a Maze. He's without any memories of his prior life, without friends or family. He meets the residents of the Maze—other teenaged boys who, like him, have found themselves in this unexplained place, pitted against deadly foes and struggling to find escape from their prison. Thomas finds himself wishing to become one of the Maze Runners for whom the story is named: the best, fastest, bravest, strongest, and most resourceful of the boys. Maze Runners go out daily to explore the maze, trying to learn its secrets and find a way out. His goals are challenged, though, by rivals within the compound known as the Glade, and by the dangers and difficulties of the world itself.

Science Fiction, Fantasy and Horror Film Sequels, Series and Remakes Kim R. Holston, Tom Winchester, 2018-01-12 Science fiction, fantasy and horror movies have spawned more sequels and remakes than any other film genre. Following Volume I, which covered 400 films made 1931-1995, Volume II analyzes 334 releases from 1996 through 2016. The traditional cinematic monsters are represented--Dracula, Frankenstein, the Wolf Man, a new Mummy. A new wave of popular series inspired by comics and video games, as well as The Lord of the Rings trilogy, could never have been credibly produced without the advances in special effects technology. Audiences follow the exploits of superheroes like Captain America, Iron Man, Spider-Man and Thor, and such heroines as the vampire Selene, zombie killer Alice, dystopian rebels Katniss Everdeen and Imperator Furiosa, and Soviet spy turned American agent Black Widow. The continuing depredations of Jason Voorhees, Freddy Krueger and Michael Myers are described. Pre-1996 movies that have since been remade are included. Entries features cast and credits, detailed synopsis, critics' reviews, and original analysis.

The Maze Runner series (books 1-4) James Dashner, 2013-09-05 The first four books in the pulse-pounding Maze Runner series! When the doors of the lift crank open, the only thing Thomas remembers is his first name. But he's not alone. He's surrounded by boys who welcome him to the Glade - a walled encampment at the centre of a bizarre and terrible stone maze. But the maze is just the beginning ...

Walls Without Cinema Larrie Dudenhoeffer, 2020-11-12 This volume closely examines the near-ubiquitous images of state security walls, domes, and other such defense enclosures flashing across movie screens since 2006, the year of the ratification of George W. Bush's Secure Fence Act. This study shows that many of the films of this era enable us to imaginatively test the effects of these security mechanisms on citizens, immigrants, refugees, and other sovereign states, challenging our commitment to constructing them, maintaining them, staffing them, and subsidizing their enormous overheads. With case studies ranging from *Atomic Blonde* and *Ready Player One* to *Black Panther* and *Elysium*; Walls without

Cinema serves as a timely counterpoint to the xenophobic rhetoric and abusive, carceral security conditions that characterize the Trump administration's management of the Mexico-U.S. border situation.

Young Adult Literature in the Composition Classroom Tamara Girardi, Abigail G. Scheg, 2018-08-27 Young adult literature holds an exceptional place in modern American popular culture. Accessible to readers of all levels, it captures a diverse audience and tends to adapt to the big screen in an exciting way. With its wide readership, YAL sparks interesting discussions inside and outside of the classroom. This collection of new essays examines how YAL has impacted college composition courses, primarily focusing on the first year. Contributors discuss popular YA stories, their educational potential, and possibilities for classroom discussion and exercise.

Diaries of a Depressed Teenager Mia Rayna, 2017-02-27 This book is meant to express the world and its challenges through a young person's eyes. It is meant to highlight what we've lost throughout all we've added to our world and what that means for the young people meant to be the future for every generation.

Imaginative Criminology Lizzie Seal, Maggie O'Neill, 2021-01-20 This distinctive and engaging book proposes an imaginative criminology, focusing on how spaces of transgression are lived, portrayed and imagined. These include spaces of control or confinement, including prison and borders, and spaces of resistance. Examples range from camps where asylum seekers and migrants are confined, to the exploration of deviant identities and the imagined spaces of surveillance and control in young adult fiction. Drawing on oral history, fictive portrayals, walking methodologies, and ethnographic and arts-based research, the book pays attention to issues of gender, sexuality, age, ethnicity, mobility and nationality as they intersect with lived and imagined space.
