*The Art of Light on Stage* Yaron Abulafia, 2015-07-16 The Art of Light on Stage is the first history of theatre lighting design to bring the story right up to date. In this extraordinary volume, award-winning designer Yaron Abulafia explores the poetics of light, charting the evolution of lighting design against the background of contemporary performance. The book looks at the material and the conceptual; the technological and the transcendental. Never before has theatre design been so vividly and excitingly illuminated. The book examines the evolution of lighting design in contemporary theatre through an exploration of two fundamental issues: 1. What gave rise to the new directions in lighting design in contemporary theatre? 2. How can these new directions be viewed within the context of lighting design history? The study then focuses on the phenomenological and semiotic aspects of the medium for light - the role of light as a performer, as the medium of visual perception and as a stimulus for imaginative representations - in selected contemporary theatre productions by Robert Wilson, Romeo Castellucci, Heiner Goebbels, Jossi Wieler and David Zinder. This ground-breaking book will be required reading for anyone concerned with the future of performance.

**The Cultural Leadership Handbook** Robert Hewison, John Holden, 2016-03-16 Leadership has never been more important to the cultural industries. The arts, together with museums and heritage sites, play a vital part in keeping economies going, and, more importantly, in making life worth living. People in the sector face a constant challenge to find support for their organizations and to promote the value of culture. Leadership and management skills are needed to meet the mission of creative arts and cultural organizations, and to generate the income that underpins success. The problem is, where can you learn these essential skills? The Cultural Leadership Handbook written by Robert Hewison and John Holden, both prime movers in pioneering cultural leadership programmes, defines the specific challenges in the cultural sector and enables arts leaders to move from 'just' administration to becoming cultural entrepreneurs, turning good ideas into good business. This book is intended for anyone with a professional or academic interest anywhere in the cultural sector, anywhere in the world. It will give you the edge, enabling you to show creative leadership at any level in a cultural organization, regardless of whether your particular interest is the performing arts, museums and art galleries, heritage, publishing, films, broadcasting or new media.
