**Steven Pike**

**Saving the Reef** Rohan Lloyd, 2022-10-05 While in the past Australians wrestled with what the Reef is, today they are struggling to reconcile what it will be ... To do this, we need to understand the Reef's intertwining human story. The Great Barrier Reef has come to dominate Australian imaginations and global environmental politics. Saving the Reef charts the social history of Australia's most prized yet vulnerable environment, from the relationship between First Nations peoples and colonial settlers, to the Reef's most portentous moment &- the Save the Reef campaign launched in the 1960s. Through this gripping narrative and interwoven contemporary essays, historian Rohan Lloyd reveals how the Reef's continued decline is forcing us to reconsider what &' saving' the Reef really means.

**Tourism Geography** Stephen Wynn Williams, 2002-09-11 This text provides a concise introduction to new and established geographies of tourism. Using worldwide examples it examines the differing economic, environmental and sociological impacts that tourism has on destinations. It looks to the future by considering how planning for tourism can assist in furthering development and sustainable tourism. The fifteen boxed case studies include: \* Heritage tourism in Yorkshire, UK \* 18th and 19th Century development of Brighton, UK \* Theme parks in Japan \* Development of beach resorts in Thailand \* Tourism enclaves in the Dominican Republic \* Sustainable tourism in Australia and the USA \* The impact of tourism on wildlife - the loggerhead turtle \* Water quality and tourism - Rimini, Italy \* Tourism and economic Development in

Tunisia and The Gambia. It also explores the factors that have encouraged the growth of both domestic and international tourism and highlights ways in which patterns of tourism are evolving.

*Coral Reefs of Australia* Sarah M. Hamylton, Pat Hutchings, Ove Hoegh-Guldberg, 2022-11-02 Australia's coral reefs stretch far and wide, covering 50 000 square kilometres from the Indian Ocean in the West to the Pacific Ocean in the East. They have been viewed as a bedrock of coastal livelihoods, as uncharted and perilous nautical hazards, as valuable natural resources, and as unique, natural wonders with secrets waiting to be unlocked. Australia's coral reefs have sustained a global interest as places to visit, and as objects of study, science, protection and conservation. *Coral Reefs of Australia* examines our evolving relationship with coral reefs, and explores their mystery and the fast pace at which they are now changing. Corals are feeling the dramatic impacts of global climate change, having undergone several devastating mass coral bleaching events, dramatic species range shifts and gradual ocean acidification. This comprehensive and engaging book brings together the diverse views of Indigenous Australians, coral reef scientists, managers and politicians to reveal how we interact with coral reefs, focussing on Indigenous culture, coastal livelihoods, exploration, discovery, scientific research and climate change. It will inform and inspire readers to learn more about these intriguing natural phenomena and how we can protect coral reefs for the future. Cultural sensitivity Readers are warned that there may be words, descriptions and terms used in this book that are culturally sensitive, and which might not normally be used in certain public or community contexts. While this information may not reflect current understanding, it is provided by the author in a historical context. This publication may also contain quotations, terms and annotations that reflect the historical attitude of the original author or that of the period in which the item was written, and may be considered inappropriate today. Aboriginal and Torres Strait Islander peoples are advised that this publication may contain the names and images of people who have passed away.

*Tourism, Consumption and Representation* Kevin Meethan, Alison Anderson, Steven Miles, 2006 This book addresses the practices of consumption in tourism, a major theme in the sociology of tourism. To date, most tourism analysis has tended to concentrate on the production of tourist space, and assume that tourism consumption simply mirrors the intentions of the producers. By focussing on a number of relevant sub-themes, such as age, gender, religion and sexual orientation, the chapters within this book critically examine such assumptions in terms of the interplay between the production and consumption of tourist spaces, and how patterns of tourism consumption are negotiated on an individual level.

**Australia in Brief** Australian Government Department of Foreign Affairs and Trade, 2014-10-10 *Australia in Brief* provides an authoritative overview of Australia's history, the land, its people and their way of life. It also looks at Australia's economic, scientific and cultural achievements and its foreign, trade and defence policies.

**Tourism in Turbulent Times** Jeff Wilks, Donna Pendergast, Peter Leggat, 2006-08-11 *Tourism in Turbulent Times* presents an international review of the challenges faced by the world's largest industry and governments around the world to provide safe and enjoyable experiences for visitors. The book draws on the background and expertise of contributors from 11 countries, representing scholars, government officers and industry practitioners. It addresses traditional concerns for tourism (such as crime) as well as emerging challenges posed by the global movement of infectious disease and terrorism. These topics are examined by specialists who share a view that tourism can weather turbulent times through adopting appropriate risk management strategies and continuing to provide quality service for customers. This book differs from other texts on the market by including a large group of tourism industry practitioners as contributors. These writers practice the principles they espouse and have critical insight into the real world issues facing the tourism industry. They are also very committed to finding best practice solutions to the challenges facing their industry. The book will therefore be of particular interest to tourism managers and policy makers since it provides relevant information for the important decisions they need to make. Throwing the net wide to include medicine, law, psychology, sociology, education and hard science means that a wide range of perspectives are available to address global business, insurance, security, and policy questions in this emerging area of tourism. Shocks such as the terrorist attacks of 11 September 2001, SARS and the more recent Asian Tsunami have made the tourism industry very conscious of the need to protect its customers. This book highlights the positive responses made by various sectors of the industry at destination, national and international levels. It also examines

the growing adventure tourism market, characterised by small operators who need good risk management practices to weather adverse global events, as well as run a financially viable small business. Such a wide set of perspectives will be very valuable to both students and tourism professionals.

**Contemporary Tourism** Chris Cooper, C Michael Hall, 2022-11-01 Now in its fifth edition, *Contemporary Tourism: an international approach* presents a new and refreshing approach to the study of tourism, looking at the far reaching effects that the COVID pandemic has had on the industry and how it has been forced to change (or not) subsequently.

**Australian Island Arks** Dorian Moro, Derek Ball, Sally Bryant, 2018-02 Australia is the custodian of a diverse range of continental and oceanic islands. From Heard and Macquarie in the sub-Antarctic, to temperate Lord Howe and Norfolk, to the tropical Cocos (Keeling) Islands and the islands of the Great Barrier Reef, Australia's islands contain some of the nation's most iconic fauna, flora and ecosystems. They are a refuge for over 35% of Australia's threatened species and for many others declining on mainland Australia. They also have significant cultural value, especially for Indigenous communities, and economic value as centres for tourism. *Australian Island Arks* presents a compelling case for restoring and managing islands to conserve our natural heritage. With contributions from island practitioners, researchers and policy-makers, it reviews current island management practices and discusses the need and options for future conservation work. Chapters focus on the management of invasive species, threatened species recovery, conservation planning, Indigenous cultural values and partnerships, tourism enterprises, visitor management, and policy and legislature. Case studies show how island restoration and conservation approaches are working in Australia and what the emerging themes are for the future. *Australian Island Arks* will help island communities, managers, visitors and decision-makers to understand the current status of Australia's islands, their management challenges, and the opportunities that exist to make best use of these iconic landscapes.

*The Oxford Handbook of International Law in Asia and the Pacific* Simon Chesterman, Hisashi Owada, Ben Saul, 2019-09-12 The growing economic and political significance of Asia has exposed a tension in the modern international order. Despite expanding power and influence, Asian states have played a minimal role in creating the norms and institutions of international law; today they are the least likely to be parties to international agreements or to be represented in international organizations. That is changing. There is widespread scholarly and practitioner interest in international law at present in the Asia-Pacific region, as well as developments in the practice of states. The change has been driven by threats as well as opportunities. Transnational issues such as climate change and occasional flashpoints like the territorial disputes of the South China and the East China Seas pose challenges while economic integration and the proliferation of specialized branches of law and dispute settlement mechanisms have also encouraged greater domestic implementation of international norms across Asia. These evolutions join the long-standing interest in parts of Asia (notably South Asia) in post-colonial theory and the history of international law. *The Oxford Handbook of International Law in Asia and the Pacific* brings together

pre-eminent and emerging specialists to analyse the approach to and influence of key states of the region, as well as whether truly 'Asian' trends can be identified and what this might mean for international order.

**Managing Protected Areas** Michael Lockwood, Graeme Worboys, Ashish Kothari, 2012-05-04 This handbook, produced by world renowned experts from the World Conservation Union (IUCN), spans the full terrain of protected area management and is the international benchmark for the field. The book employs dozens of detailed international cases studies, hundreds of concise topical snapshots, maps, tables, illustrations and a colour plate section, as well as evaluation tools, checklists and numerous appendices to cover all aspects of park management from biodiversity to natural heritage to financial management. The book establishes a conceptual underpinning for protected area management, presents guiding principles for the 21st century, reflects recent work on international best practice and provides an assessment of skills required by professionals. As the most authoritative guide ever compiled to the principles and practice of protected area management, this volume is essential for all professionals and students in all countries and contexts.

*Water-Based Tourism, Sport, Leisure, and Recreation Experiences* Gayle Jennings, 2007-04-02 Written by a team of international contributors, from Australia, Europe and the USA, the text uses international case studies and examples to illustrate and highlight discussion. Contributors include: Paul Beedie, De Montfort University, UK; Kay Dimmock, Southern Cross University, Australia; Gary Easthope, University of Tasmania, Australia; Simon Hudson, University of Calgary, Canada; Gayle Jennings, Griffith University, Australia; Lilian Jonas, Jonas Consulting, USA; Les Killion, Central Queensland University, Australia; Gianna Moscardo, James Cook University, Australia; Harold Richins, Sierra Nevada College, USA; Chris Ryan, The University of Waikato, New Zealand.

*International Case Studies on Tourism Destination Management and COVID-19* Simon Hudson, 2022-08-18 International Cases on Tourism Destination Management and COVID-19 provides students, lecturers and practitioners with an essential real-life resource on how different tourism destinations around the world have been impacted by, and responded to, the COVID-19 pandemic. These 34 in-depth case studies from the Americas, the APAC region, Europe, and the Middle East allow a global perspective, and acts as a toolkit than can be used to design a better future for tourism destinations that embraces sustainability and collaboration. For each case study, secondary sources such as media articles, industry and government reports, campaign materials, websites and social media channels have been closely analysed. In addition, interviews have been conducted with destination marketers, government officials, tour operators, professional guides, and hotel managers to provide a holistic view for each destination. Each case study is structured around COVID-19 impacts, responses and outcomes, and includes further reading, video links, and discussion questions to challenge students further in their self-study and to encourage in-class discussions. This is an essential resource for tourism students and lecturers across the curriculum, and a fascinating read for anyone in the business of tourism.

*Destination Marketing* Steven Pike, 2015-12-14 *Destination Marketing* offers the reader an integrated and comprehensive overview of the key challenges and constraints facing destination marketing organisations (DMOs) and how destination marketing can be planned, implemented and evaluated to achieve successful destination competitiveness. This new second edition has been revised and updated to include: new slimline 15-chapter structure new chapters on Destination Competitiveness and Technology new and updated case studies throughout, including emerging markets new content on social media marketing in destination marketing organisations and sustainable destination marketing additional online resources for lecturers and students including PowerPoint slides, quizzes and discussion questions. It is written in an engaging style and applies theory to a range of tourism destinations at the consumer, business, national and international level by using topical examples.

**Protected Area Governance and Management** Graeme L. Worboys, Michael Lockwood, Ashish Kothari, Sue Feary, Ian Pulsford, 2015-04-08 *Protected Area Governance and Management* presents a compendium of original text, case studies and examples from across the world, by drawing on the literature, and on the knowledge and experience of those involved in protected areas. The book synthesises current knowledge and cutting-edge thinking from the diverse branches of practice and learning relevant to protected area governance and management. It is intended as an investment in the skills and competencies of people and consequently, the effective governance and management of protected areas for which they are responsible, now and into the future. The global success of the protected area concept lies in its shared vision to protect natural and cultural heritage for the long term, and organisations such as International Union for the Conservation of Nature are a unifying force in this regard. Nonetheless, protected areas are a socio-political phenomenon and the ways that nations understand, govern and manage them is always open to contest and debate. The book aims to enlighten, educate and above all to challenge readers to think deeply about protected areas—their future and their past, as well as their present. The book has been compiled by 169 authors and deals with all aspects of protected area governance and management. It provides information to support capacity development training of protected area field officers, managers in charge and executive level managers.

**The Encyclopedia of Tourism and Recreation in Marine Environments** Michael Lück, 2008 Marine tourism has become one of the fastest growing areas within the tourism industry. With the increased use of marine environments comes the need for informed planning and sustainable management as well as for the education and training of planners, managers and operators. Combining the disciplines of marine scientists and tourism researchers, this encyclopedia will bring together the terms, concepts and theories related to recreational and tourism activities in marine settings. Entries range from short definitions to medium and long articles.

**Scientific Tourism** Susan Slocum, Carol Kline, Andrew Holden, 2015-05-15 As researchers in emerging economies,

scientists are often the first foreign visitors to stay in remote rural areas and, on occasion, form joint venture ecotourism and community tourism projects or poverty alleviation schemes between local agencies or NGOs, the local community, and their home institution or agency. They therefore can contribute to avenues for the conservation of natural resources and the development of rural communities as well as influencing the future tourism development through its perceived legitimacy and the destination image it promotes. This book for the first time critically reviews tourism debates surrounding this emerging market of scientific and research oriented tourism. It is divided into three inter-related sections. Section 1 sets the stage of the discourse of scientific research in tourism; Section 2 evaluates the key players of scientific tourism looking particularly at the roles of NGOs, government agencies and university academic staff and Section 3 contains case studies documenting the niche of researchers as travelers in a range of geographical locations including Tanzania, Australia, Chile, Peru and Mexico. The title's multidisciplinary approach provides an informed, interesting and stimulating addition to the existing limited literature and raises many issues and associated questions including the role of science tourism in tourism development and expansion, the impacts of scientific and research-based tourism, travel behaviors and motivations of researchers to name but a few. This significant volume will provide the reader with a better understanding of scientists as travelers, their relationship to the tourism industry, and the role they play in community development around tourism sites. It will be valuable reading for students and academics across the fields of Tourism, Geography and Development Studies as well as other social science disciplines.
