

# What Languages Are Spoken In Burma

**Gilad James, PhD**

*The Languages of the World* Kenneth Katzner, Kirk Miller, 2002-09-11 Third edition of this extremely popular volume - the combined sales of the first and second editions total over 34,000 copies New, larger format for this 3rd edition Coverage of every country in the world, with information on their main languages and speaker numbers Designed for the non-specialist, providing information on the history of each language and an introduction to language families

**Introduction to Myanmar** Gilad James, PhD, Myanmar, also known as Burma, is a country located in Southeast Asia. It borders China, India, Bangladesh, Thailand, and Laos. The country has a diverse population of over 54 million people, comprised of different ethnic and religious backgrounds. Myanmar is known for its beautiful landscapes, rich history, and unique culture. The country's economy is largely based on natural resources such as oil, gas, precious stones, and timber. Despite facing political turmoil over the past several decades, Myanmar is making efforts to transition into a more democratic nation and attract foreign investment. With its unique cultural heritage and natural beauty, Myanmar is becoming an increasingly popular destination for tourists.

**Encyclopedia of Language and Linguistics** ,2005-11-24 The first edition of ELL (1993, Ron Asher, Editor) was hailed as the field's standard reference work for a generation. Now the all-new second edition matches ELL's comprehensiveness and high quality, expanded for a new generation, while being the first encyclopedia to really exploit the multimedia potential of linguistics. \* The most authoritative, up-to-date, comprehensive, and international reference source in its field \* An entirely new work, with new editors, new authors, new topics and newly commissioned articles with a handful of classic articles \* The first Encyclopedia to exploit the multimedia potential of linguistics through the online edition \* Ground-breaking and International in scope and approach \* Alphabetically arranged with extensive cross-referencing \* Available in print and online, priced separately. The online version will include updates as subjects develop ELL2 includes: \* c. 7,500,000 words \* c. 11,000 pages \* c. 3,000 articles \* c. 1,500 figures: 130 halftones and 150 colour \* Supplementary audio, video and text files online \* c. 3,500 glossary definitions \* c. 39,000 references \* Extensive list of commonly used abbreviations \* List of languages of the world (including information on no. of speakers, language family, etc.) \* Approximately 700 biographical entries (now includes contemporary linguists) \* 200 language maps in print and online Also available online via ScienceDirect - featuring extensive browsing, searching, and internal cross-referencing between articles in the work, plus dynamic linking

to journal articles and abstract databases, making navigation flexible and easy. For more information, pricing options and availability visit [www.info.sciencedirect.com](http://www.info.sciencedirect.com). The first Encyclopedia to exploit the multimedia potential of linguistics Ground-breaking in scope - wider than any predecessor An invaluable resource for researchers, academics, students and professionals in the fields of: linguistics, anthropology, education, psychology, language acquisition, language pathology, cognitive science, sociology, the law, the media, medicine & computer science. The most authoritative, up-to-date, comprehensive, and international reference source in its field

Atlas of the World's Languages R.E. Asher, Christopher Moseley, 2018-04-19 Three separate chapters on the languages of the Americas: North America, Meso-America and South America, with key historical maps for America fully updated The only language atlas of this scope available Internationally renowned chapter editors and contributors A key reference for language, linguistics and anthropology departments Special pre-publication price of £325

**The Major Languages of East and South-East Asia** Bernard Comrie, 2022-02-16 Based on Bernard Comrie's much praised *The World's Major Languages*, this is a key guide to an important language family. The areas covered include Chinese, Japanese and Sino-Tibetan languages.

**Language and National Identity in Asia** Andrew Simpson, 2007 *Language and National Identity in Asia* is a comprehensive introduction to the role of language in the construction and development of nations and national identities in Asia. Leading scholars from all over the world investigate the role languages have played and now play in the formation of the national and social identity in countries throughout South, East, and Southeast Asia. They consider the relation of the regions' languages to national, ethnic, and cultural identity, and examine the status of and interactions between majority, official, and minority languages. Illustrated with maps and accessibly written this book will interest all those concerned to understand the dynamics of social change in some of the most important countries in the world. It will appeal to all those studying, researching, or teaching issues in Asian society, language, and politics from a comparative perspective.

*Area Handbook for Burma* John William Henderson, American University (Washington, D.C.). Foreign Area Studies, 1971

**Report on the Administration of Burma** Burma Rights Movement for Action, 1923

*The World's Major Languages* Bernard Comrie, 2018-04-17 *The World's Major Languages* features over 50 of the world's languages and language families. This revised edition includes updated bibliographies for each chapter and up-to-date census figures. The featured languages have been chosen based on the number of speakers, their role as official languages and their cultural and historical importance. Each language is looked at in depth, and the chapters provide information on both grammatical features and on salient features of the language's history and cultural role. *The World's Major Languages* is an accessible and essential reference work for linguists.

One Thousand Languages Peter Austin, 2008 Presents an overview of the living, endangered, and extinct languages of the

world, providing the total number of speakers of the language, its history, and maps of the geographic areas where it is presently spoken or where it was spoken in the past.

**World Languages** Grace Morgan,AI,2025-03-06 World Languages offers a captivating exploration into the diverse realm of linguistics, illuminating how languages evolve, shape cultures, and influence human interaction. It delves into the historical roots of major language families, such as Indo-European and Sino-Tibetan, charting their spread and transformation across continents. The book also examines the intricate structures of diverse languages, revealing how they function as tools for communication and reflections of human civilization. The study of world languages provides unique insights into human cognition, cultural diversity, and historical processes. This book presents a comprehensive view of language, starting with fundamental linguistic concepts, such as phonetics and syntax, before moving into the historical development of language families and the sociocultural impacts of language. Readers will gain an appreciation of the interconnectedness of languages, understanding how they reflect history, culture, and identity. By integrating theoretical linguistics with real-world case studies, World Languages provides a balanced and engaging perspective, making it an invaluable resource for students, educators, and anyone interested in the fascinating world of human communication.

**The Historical Phonology of Tibetan, Burmese, and Chinese** Nathan W. Hill,2019-08-08 An original new perspective on the shared history of Burmese, Chinese, and Tibetan, with a particular focus on their phonological development.

Eyewitness Travel Guides: the most maps, photographs, and illustrations of any guide.

*The Sino-Tibetan Languages* Graham Thurgood, Randy J. LaPolla, 2016-12-08 There are more native speakers of Sino-Tibetan languages than of any other language family in the world. Our records of these languages are among the oldest for any human language, and the amount of active research on them has multiplied in the last few decades. Now in its second edition and fully updated to include new research, *The Sino-Tibetan Languages* includes overview articles on individual languages, with an emphasis on the less commonly described languages, as well as descriptions and comments on the subgroups in which they occur. There are overviews of the whole family on genetic classification and language contact, syntax and morphology, and also on word order typology. There are also more detailed overview articles on the phonology, morphosyntax, and writing system of just the Sinitic side of the family. Supplementing these overviews are articles on Shanghainese, Cantonese and Mandarin dialects. Tibeto-Burman is reviewed by genetic or geographical sub-group, with overview articles on some of the major groups and areas, and there are also detailed descriptions of 41 individual Tibeto-Burman languages, written by world experts in the field. Designed for students and researchers of Asian languages, *The Sino-Tibetan Languages* is a detailed overview of the field. This book is invaluable to language students, experts requiring concise, but thorough, information on related languages, and researchers working in historical, typological and comparative linguistics.

**Report** Commonwealth Shipping Committee, 1909

**Parliamentary Papers** Great Britain. Parliament. House of Commons, 1904

**Sessional Papers** Great Britain. Parliament. House of Commons, 1904

*An Introduction to World Languages* Aishik Dutta, *An Introduction to World Languages* is an erudite exploration of the linguistic tapestry that spans the globe. Drawing upon rigorous historical analysis and detailed comparative methodologies, this book examines the evolution of language families—from the far-reaching Romance languages born of the Roman Empire to the intricate phonetic and grammatical systems of the Germanic, Slavic, and Celtic tongues, as well as the unique narratives of Indo-European outliers. Each chapter presents a scholarly narrative, meticulously tracing the historical trajectories, cultural exchanges, and systematic sound changes that have shaped modern languages. Designed for students and scholars alike, the text interweaves linguistic theory with cultural history, providing insightful analyses of phenomena such as the development of Vulgar Latin into diverse Romance dialects, the influence of external languages on vocabulary and syntax, and the revival movements sustaining minority tongues. Rich with historical context, theoretical frameworks, and illustrative examples, *An Introduction to World Languages* serves not only as an academic resource but also as an engaging invitation to appreciate the dynamic interplay between language, culture, and history.

*Burma: Report* Sir Charles Morgan-Webb, 1912
