**The Tourist Places of the World** Philippe Violier,Benjamin Taunay,2020-02-25 Formerly a largely Western practice, leisure travel is today the most dynamic industry in the world in terms of growth. Developments in transport and communication systems mean tourism is now an integral part of our understanding of the world, and involved in the exponential increase of links between societies and different cultures. The Tourist Places of the World has comprehensive data on the number of international visitors annually. It also includes an original map ? not dictated by country, but by major tourist areas and places. The hierarchy of destinations drawn is highlighted by the different levels of popularity and passenger flows; from the universal places where all societies meet to the still unfrequented places. Beyond the recognition

of global tourism, the challenge is to understand how and why societies can achieve a better life through sustainable development, which encompasses social, economic and environmental dimensions.

**Reinventing Thailand** Pavin Chachavalpongpun,2010 From 2001 to 2006, Prime Minister Thaksin Shinawatra transformed Thailand's international role from one of obscurity into a kind of regional hegemon. Thaksin's diplomatic ambitions were reflected in his myriad of grandiose foreign policy initiatives, designed to locate Thailand at the forefront of regional politics and reinstall the Thai sphere of influence over weaker neighbouring states. He abolished the traditional bending-with-the-wind foreign policy, revamped the Thai Foreign Ministry, and empowered Thai envoys through the CEO Ambassadors programme. But in this process, Thaksin was accused of exploiting foreign policy to enrich his business empire. Thaksin's reinvention of Thailand as an up-and-coming regional power was therefore tainted by conflicts of interest and the absence of ethical principles in the country's foreign policy.
