Aesthetics of Excess Jillian Hernandez,2020-09-21 Heavy makeup, gaudy jewelry, dramatic hairstyles, and clothes that are considered cheap, fake, too short, too tight, or too masculine: working-class Black and Latina girls and women are often framed as embodying excessive styles that are presumed to indicate sexual deviance. In *Aesthetics of Excess* Jillian Hernandez examines how middle-class discourses of aesthetic value racialize the bodies of women and girls of color. At the same time, their style can be a source of cultural capital when appropriated by the contemporary art scene. Drawing on her community arts work with Black and Latina girls in Miami, Hernandez analyzes the art and self-image of these girls alongside works produced by contemporary artists and pop musicians such as Wangechi Mutu, Kara Walker, and Nicki Minaj. Through these relational readings, Hernandez shows how notions of high and low culture are complicated when women and girls of color engage in cultural production and how they challenge the policing of their bodies and sexualities through artistic authorship.

Black Feminist Thought Patricia Hill Collins,2002-06-01 In spite of the double burden of racial and gender discrimination, African-American women have developed a rich intellectual tradition that is not widely known. In *Black Feminist Thought*, Patricia Hill Collins explores the words and ideas of Black feminist intellectuals as well as those African-American women outside academe. She provides an interpretive framework for the work of such prominent Black feminist thinkers as Angela Davis, bell hooks, Alice Walker, and Audre Lorde. The result is a superbly crafted book that provides the first synthetic overview of Black feminist thought.

Mythologizing Black Women Brittany C. Slatton,2015-11-17 In this book Brittany C. Slatton uses innovative internet research methods to reveal contemporary prejudices about relationship partners. In doing so she thoroughly refutes the popular ideology of a post-racial America. Slatton examines the 'deep frame' of white men found in opinions and emotional reactions to black women and their body types, personalities, behaviours, and styles of speech. Their internet responses to questionnaires shows how they treat as common sense radicalised, gendered, and classed versions of black women. *Mythologizing Black Women* argues that the internet acts as a backstage setting, allowing white men to anonymously express raw feelings about race and sexuality without the fear of reprimand.

Venus in the Dark Janell Hobson,2018-02-01 In this second edition of the remarkable, and now classic, cultural history of black women's beauty, *Venus in the Dark*, Janell Hobson explores the enduring figure of the Hottentot Venus and the history of critical and artistic responses to her by black women in contemporary photography, film, literature, music, and dance. In 1810, Sara Baartman was taken from South Africa to Europe, where she was put on display at circuses, salons, museums, and universities as the Hottentot Venus. The subsequent legacy of representations of black women's

sexuality—from Josephine Baker to Serena Williams to hip-hop and dancehall videos—refer back to her iconic image. Via a new preface, Hobson argues for the continuing influence of Baartman’s legacy, as her image still reverberates through the contemporary marketization of black women’s bodies, from popular music and pornography to advertising. A brand new chapter explores how historical echoes from previous eras map onto highly visible bodies in the twenty-first century. It analyzes fetishistic spectacles of the black booty, with particular emphasis on the role of Beyoncé Knowles in the popularization of the bootylicious body, and the counter-aesthetic the singer has gone on to advance for black women’s bodies and beauty politics. By studying the imagery of the Hottentot Venus, from the nineteenth century to now, readers are invited to confront the racial and sexual objectification and embodied resistance that make up a significant part of black women’s experience.

Sex Work and Language Benedict J.L. Rowlett, Rodrigo Borba, 2025-02-27 This collection brings together established and exciting new voices to shed light on the language of and about sex work, offering an empirically nuanced understanding of commercial sex through language. While there is burgeoning literature on sex work in the social sciences, there has been little work to date centering it from a linguistic perspective. Chapters make the case for language as central to sex work practices and the transactions of intimacy in the negotiation of services, promotional strategies and the performance of desire. Featuring insights from diverse geographic contexts, the chapters critically reflect on different dimensions of language and sex work, including sex work, gender and desire; online sex work; sex work and race; sex worker advocacy; and the language of victimization and exploitation. The volume illuminates the ways in which commercial sex work is negotiated in embodied linguistic interaction and attendant issues of power, identity, gender, race and desire. This book systematizes the body of growing knowledge around language and sex work from an interdisciplinary lens. It is key reading for scholars, policymakers and activists in sociolinguistics and discourse analysis, as well as fields such as anthropology, sociology, criminology and health and social care.

Beauty, Women's Bodies and the Law Jocelynne A. Scutt, 2020-11-17 What makes a woman’s body beautiful? Plastic surgery, cosmetic surgery and non-surgical interventions such as Botox are changing women’s bodies physically and affecting cultural notions and expectations of what it means to be a woman. Yet where does the law stand? Is the renovation of women’s bodies legal? This book explores a range of topics, including: whether shape-changing by surgical and non-surgical means is ‘really’ what women want; the question of legal intervention when operations, injections and other methods go wrong; the impact of consent determinations on whether women can or cannot freely seek changes to their body structure; and the role which culture and social expectations play in women’s decision-making. Taking a legal perspective on the vast range of ‘beauty’ interventions available to women, Scutt discusses women’s perceptions of body and beauty, pressures on women to conform to ‘idealised’ notions of the perfect woman’s body, and outcomes of legal actions including

those taken by individual women who are unhappy with results, as well as those launched against companies trading in products advertised as safe and for women's benefit. *Beauty, Women's Bodies and the Law* will appeal to readers with an interest in women's and gender studies, law, and cultural studies.

The Bloomsbury Handbook of Popular Music Video Analysis Lori A. Burns, Stan Hawkins, 2019-10-17 Music videos promote popular artists in cultural forms that circulate widely across social media networks. With the advent of YouTube in 2005 and the proliferation of handheld technologies and social networking sites, the music video has become available to millions worldwide, and continues to serve as a fertile platform for the debate of issues and themes in popular culture. This volume of essays serves as a foundational handbook for the study and interpretation of the popular music video, with the specific aim of examining the industry contexts, cultural concepts, and aesthetic materials that videos rely upon in order to be both intelligible and meaningful. Easily accessible to viewers in everyday life, music videos offer profound cultural interventions and negotiations while traversing a range of media forms. From a variety of unique perspectives, the contributors to this volume undertake discussions that open up new avenues for exploring the creative changes and developments in music video production. With chapters that address music video authorship, distribution, cultural representations, mediations, aesthetics, and discourses, this study signals a major initiative to provide a deeper understanding of the intersecting and interdisciplinary approaches that are invoked in the analysis of this popular and influential musical form.

AT WITS END JTOYA NELSON, 2017-01-08 J'Toya reached her wits end and did not spare any feelings while expressing her frustration in this book. Societal issues and what she deems as ignorant or immature actions led to her mental earthquake and she hopes that the reader will agree that issues in this book usually irritate the average person. J'Toya is a firm believer that if more people would write or talk about their feelings that it would keep a lot of them off of legal and prescription mind altering drugs and alcohol and lessen the need for psychiatric visits. This book is not for the holier than thou and is not meant to have a negative influence on minors. Warning: The language in this book is harsh and vulgar. Take the ride if you dare and then exhale afterwards.

Today Just Ain't My Day Bernita Putham, 2011-12-07 My book comes from life experiences and the joy of having girls which was, and still is, a challenge as you watch them grow both spiritually and mentally. My home life was grounded. My parents believed in discipline and old-time beatings. Living in warm surroundings with grandparents who were in our lives,

and aunts and uncles who also watched over us when we were younger has taught us that life is, and always will be, about family first. As you read in my book, you will see that every day started out with either a Scripture or just a simple prayer to say Thank you, Lord for bringing me through.

Exploring the Black Venus Figure in Aesthetic Practices, 2019-07-15 Exploring the Black Venus Figure in Aesthetic Practices critically examines a longstanding colonial fascination with the black female body as an object of sexual desire, envy, and anxiety. Since the 2002 repatriation of the remains of Sara Baartman to post-apartheid South Africa, the interest in the figure of Black Venus has skyrocketed, making her a key symbol for the restoration of the racialized female body in feminist, anti-racist and postcolonial terms. Edited by Jorunn Gjerden, Kari Jegerstedt, and Željka Švrljuga, this volume considers Black Venus as a product of art established and potentially refigured through aesthetic practices, following her travels through different periods, geographies and art forms from Baudelaire to Kara Walker, and from the Caribbean to Scandinavia. Contributors: Kjersti Aarstein, Carmen Birkle, Jorunn Svensen Gjerden, Kari Jegerstedt, Ulla Angkjær Jørgensen, Ljubica Matek, Margery Vibe Skagen, Camilla Erichsen Skalle, Željka Švrljuga.

Digital Bodies Jessie Daniels, Karen Gregory, Tressie McMillan Cottom, 2016-11-18 In the early days of the internet, we assumed that digital technologies would allow us to escape embodiment and its accompanying entanglements. Yet now our embodied selves are often targeted for abuse and harassment online. As we move into the Internet of Things, the digital is increasingly on and in our bodies. The pieces in this Byte raise important questions about what it means to bring our embodied selves into contact with digital media technologies. Read alongside one another, the selections here expand our understanding of what it means to live in and through bodies augmented by digital technologies within a deeply unequal social world.

Exploitation Monique Deveaux, Vida Panitch, 2017-01-31 Contemporary theoretical discussions of exploitation are dominated by thinkers in the liberal and Marxian traditions. *Exploitation: From Practice to Theory*, pushes past these traditional and binary explanations, to focus on unjust practises that both depend on and perpetuate inequalities central to exploitation. Using real-world examples, the chapters in this collection address key questions, including, in what ways are exploitation practices globalised, racialized and gendered? How do cases of organ selling, price gouging and commercial gestational surrogacy change our understandings of exploitation? What possible social and economic remedies do these new conceptions prescribe? Case studies in this volume span the globe, dealing with developed and developing countries alike and in a variety of national and transnational contexts.

They are coming of age online in a hypersexualized culture that has normalized extreme behavior, from pornography to the casual exchange of nude photographs; a culture rife with a virulent new strain of sexism; a culture in which teenagers are spending so much time on technology and social media that they are not developing basic communication skills. The dominant force in the lives of girls coming of age in America today is social media: Instagram, Whisper, Vine, Youtube, Kik, Ask.fm, Tinder.
