Seth Rogen Andy Koopmans,2011-10-24 Canadian-born Seth Rogen has an accomplished career. With more than forty acting credits, four produced screenplays, more than a dozen short film and TV show scripts, and sixteen producing credits, Rogen is anything but the slacker character he has played in his most popular and often R-rated films. The author addresses the more controversial aspects of Rogen's movies and explains how the content and comedic style of these productions have sometimes put Rogen at the center of battles over censorship and ratings, as well as stirred controversy among critics, the media, and parental watch groups.

Cursing in America Timothy Jay,1992 Who uses dirty words? And when? How is the bad language we use reflected in the movies, in the courts, and elsewhere? With *Cursing in America*, psychologist Timothy Jay presents the first serious and extensive examination of American profanity from a psycholinguistic-contextual point of view. An amazing amount of factual data gathered through several field studies and numerous laboratory-based experiments reveals the relationship between cursing and language acquisition, anger expression, gender stereotypes and offensiveness. Sexual harassment, censorship, language content of film, obscene phone calls and cursing at public schools are some of the topics which are analyzed and related to the data. Word-by-word tables demonstrate the influence that factors such as frequency of occurrence, degree of offensiveness, and gender and age of the speaker have on obscene language usage in America today.

Horror Films James B. Weaver,Ron Tamborini,2013-11-05 Why do so many of us enjoy being told frightening stories? What are some of the consequences that result from such exposure? In light of the considerable popularity of horror films over the last three decades, these questions have become the focus of growing attention for many scholars. However, research on audience preferences for, and reactions to, horror films has been performed eclectically by investigators from varied theoretical and methodological backgrounds. As a result, the information has not been effectively integrated. This volume was written to address this problem and to position the study of audience responses to frightening fiction as a significant research topic.

Damn! Rob Chirico,2014-12-01 Swearing, cussing, or cursing, out of anger, excitement, or just because, is something most of us do, at least to some degree. Turn on the television or open a magazine, and there it is. Damn! is an insightful and entertaining look at our evolving use of profanity over the last half-century or so, from a time when *Gone with the Wind* came under fire for using the word damn to an age where the f-bomb is dropped in all walks of life. Writer and artist Rob Chirico follows the course of swearing through literature, the media, and music, as well as through our daily lives. From back rooms and barracks to bookshelves and Broadway; and from precedents to presidents, the journey includes such diverse notables as George Carlin, the Simpsons, D. H. Lawrence, Ice T, Barack Obama, Nietzsche, and, of course, Lenny Bruce. If you have ever stopped and wondered WTF has happened to our American tongue, don't get out the bar of soap until you finish Damn!

An Encyclopedia of Swearing Geoffrey Hughes,2015-03-26 This is the only encyclopedia and social history of swearing and foul language in the English-speaking world. It covers the various social dynamics that generate swearing, foul language, and insults in the entire range of the English language. While the emphasis is on American and British English, the different major global varieties, such as Australian, Canadian, South African, and Caribbean English are also covered. A-Z entries cover the full range of swearing and foul language in English, including fascinating details on the history and origins of each term and the social context in which it found expression. Categories include blasphemy, obscenity, profanity, the categorization of women and races, and modal varieties, such as the ritual insults of Renaissance flyting and modern sounding or playing the dozens. Entries cover the historical dimension of the language, from Anglo-Saxon heroic oaths and the surprising power of medieval profanity, to the strict censorship of the Renaissance and the vibrant, modern language of the streets. Social factors, such as stereotyping, xenophobia, and the dynamics of ethnic slurs, as well as age and gender differences in swearing are also addressed, along with the major taboo words and the complex and changing nature of religious, sexual, and racial taboos.

Power of Movies | How They Shape Our Society Dheeraj Sharma,2025-06-28 In last few decades, Bollywood movies are often responsible at typifying an image of India by mocking temples and priests, portrays professors in top institutions as incompetent, showing teachers as buffoons, politicians as wicked, police as merciless, bureaucrats as narrow-minded, judges as unjust, and speaking Hindi language as parochial. Have you ever wondered why Bollywood movie songs and dialogues continue to be in Urdu? Why is the promiscuous woman often given a Christian name, Sikhs reduced to comic relief, and working women shown drinking and smoking? Why have courtroom oaths on the Bhagavad Gita disappeared, and the Indian

flag disappeared from movie backdrops? This book seeks to answer these important questions. The book also compares Bollywood and Hollywood movies, showing how the latter has created a yearning for the American way of life. Films influence public opinion and behaviour. If that weren't true, movies like *Aandhi* (1975), *Kissa Kursi Ka* (1977), and *Black Friday* (2005) wouldn't have faced bans. Cinema shapes society, and Bollywood must recognise its power and the responsibility that comes with it.

Race, Gender, and Film Censorship in Virginia, 1922-1965 Melissa Ooten, 2014-12-18 This book chronicles the history of movie censorship in Virginia from the 1920s to 1960s. At its most basic level, it analyzes the project of state film censorship in Virginia. It uses the contestations surrounding film censorship as a framework for more fully understanding the dominant political, economic, and cultural hierarchies that structured Virginia and much of the New South in the mid-twentieth century and ways in which citizens contested these prevailing structures. This study highlights the centrality of gendered and racialized discourses in the debates over the movies and the broader regulatory power of the state. It particularly emphasizes ways in which issues of race, class, gender, and sexuality framed debates over popular culture in the South. It ties the regulation of racial and sexual boundaries in other areas such as public facilities, schools, public transportation, the voting booth, and residential housing to ways in which censors regulated those same boundaries in popular culture. This book shows how the same racialized and gendered social norms and legal codes that placed audience members in different theater spaces also informed ways in which what they viewed on-screen had been mediated by state officials. Ultimately, this study shows how Virginia's officials attempted to use the project of film censorship as the cultural arm of regulation to further buttress the state's political and economic hierarchies of the time period and the ways in which various citizens and community groups supported and challenged these hierarchies across the censorship board's forty-three-year history.

Blood, Bullets And Bodies Imani M. Tafari-Ama, 2017-06-11 Fifth Edition The true story of Blood, Bullets and Bodies: a critical multimedia exposé about the factors subverting the political will to act in the best interest of the poor, even when explicit just cause exists for such altruistic action to take place... Blood, Bullets and Bodies is a strange and paradoxical story that needs to be read as much as it needs to be told. It is a riveting story of sex, violence, political intrigue and survival by any means necessary. The book is a literary mirror that provides a revealing and frightening reflection for a self-destructing society to see itself profiled in the throes of its own possible demise. Sure to stir controversy, the new book contains a compelling rendition of the historical circumstances that have made crime and violence - bullets, blood and dead bodies - the number one problem in late 20th and early 21st century Jamaica. Despite the historic One Love Peace Concert and the Peace Truce in 1978, young gunmen seem to have gone wild ever since. Using a variety of sophisticated methodological tools including literary sources, oral interviews, ethnographic studies and the lyrics of popular Reggae songs, Imani Tafari-Ama details the influences and implications of this violent social discourse for everyday performances of femininity and masculinity in Kingston's inner-city environment as well as in the wider Jamaican society. Tafari-Ama's stated objective in publishing her thesis as a book is to separate fact from fiction in order to find real and enduring solutions that will reduce the distressing flood of blood, bullets and bodies that is overflowing the streets of Kingston. She hopes that by highlighting some of the facts and exposing much of the fiction about life below the poverty line, her provocative book will be a catalyst in motivating the political and community willpower necessary to find and implement the real-time solutions that she proposes in her suggested Options for Development.

Jail Time Michael Frantz, 2009-03 Jail Time, What you need to know... ...Before you go to federal prison Jail Time was a book I never wanted to write. Federal Prison was a place I never wanted to be. Sometimes things just happen that you really can't explain or even know why they happened. They just do. Life is funny that way- one day you are on top of the world and the next day you're in a bottomless pit-you think. But later you discover that the pit's bottom is even deeper. There are many challenges facing those individuals entering federal prison. These challenges are not easy, but they are controllable. Controllable, if you have the proper knowledge, resources, and motivation. The motivation is to get home to your family as soon as possible. This is where Jail Time can help. Jail Time offers solutions to the problems that men and women facing federal incarceration are confronted with. Jail Time provides a wealth of information to help families get through their ordeal together and get the offender back home in the shortest possible amount of time. Born into an impoverished and broken family in Ohio, Michael Frantz studied diligently and graduated with honors from Denison University in Granville, Ohio. He continued his studies and earned a post graduate degree from Ohio Northern University College of Pharmacy with highest

honors. With little or no money he started his own home medical equipment business in 1980 and grew it in sales to over \$7,000,000 a year. At the height of his business he had six locations in five different Ohio cities. In October of 2002 the FBI raided all six of his stores in what was to become a two year legal and emotional nightmare. They alleged Medicare and tax fraud. In 2004 Mr. Frantz reluctantly accepted a plea agreement and was eventually sentenced in July of 2005 to 51 months in the Federal Prison Camp (FPC) in Miami, Florida. He spent nearly 16 months there. Later he was transferred to the adjacent low security Federal Correctional Institution (FCI). In 2008, he won his appeal and was released from federal prison on July 18, 2008 after serving nearly 36 months in federal confinement. This, as he likes to say, was a life and career changing experience.

Encyclopedia of Media Violence Matthew S. Eastin, 2013-10-01 Does violence on a movie, TV, or computer screen or in a song lyric beget violence in the streets? What about aggression and violence in televised sporting events? What are the known effects of violence in the media on the developing mind of a young child? Do rating systems and warning labels help in the effort to keep overtly violent materials out of the hands of children—or do they act as magnets? Where does violence in the media cross a line from legitimate entertainment and plot development to gratuitousness and even pornography? How do

we define media violence, and just how much is there? How should findings from research studies be translated into public policy? Students are able to explore these questions and more in the Encyclopedia of Media Violence. Entries examine theory, research, and debates as they relate to media violence in a manner that is accessible and jargon-free to help readers better understand questions from varied perspectives.
