Reading the Garden Katie Holmes,Susan K. Martin,Kylie Mirmohamadi,2007-05-28 Whether a small plot in the backyard of an inner-urban home or a capital city's sprawling botanic garden, Australians have long desired a patch of dirt to plough or enjoy. 'Reading the garden' explores our deep affection for gardens and gardening and illuminates their numerous meanings and uses from European settlement to the late twentieth century.--Cover.

The Adelaide Park Lands Patricia Sumerling,2011 Adelaide's Park Lands, the city's greatest asset, have long been home to large events, as well as numberless small, private encounters. Until now, no book has been published to document this wealth of social activity. In *The Adelaide Park Lands*, Patricia Sumerling recounts tales both enchanting and bizarre from the time of earliest European settlement until present days. Where crowds once thronged for a public execution, or to see Blondin, the tightrope walker of Niagara Falls fame, now thousands gather for car races and cultural festivals. Adelaideans play sport in the Park Lands, get married, enjoy picnics, and meet for secret assignations. Many simply seek tranquil retreat in the Park Lands - although, as Patricia Sumerling shows, controversy has been never far away.

Melbourne's Monuments Ronald T. Ridley,1996 A guide to the public statuary of Melbourne, based on two walks around the inner city. Many public monuments are often just accepted as part of the scene, but each statue or memorial has a story to tell whether about the sculptor, or the person or event it commemorates, and all of them represent a small piece of Melbourne history.

Silent Witnesses Simon Cameron,1997 Statues and monuments fill streets and museums all over the world. Every monument tells a tale, not only of its subject, but of the society that erects it. Adelaide's founders cherished the uniqueness of the city's parks and boulevards and filled them with noble statues.

The Festival Cities of Edinburgh and Adelaide Sarah Thomasson, 2022-08-20 The Festival Cities of Edinburgh and Adelaide examines how these cities' world-famous arts events have shaped and been shaped by their long-term interaction with their urban environments. While the Edinburgh International Festival and Adelaide Festival are long-established, prestigious events that champion artistic excellence, they are also accompanied by the two largest open-access fringe festivals in the world. It is this simultaneous staging of multiple events within Edinburgh's Summer Festivals and Adelaide's Mad March that generates the visibility and festive atmosphere popularly associated with both places. Drawing on perspectives from theatre studies and cultural geography, this book interrogates how the Festival City, as a place myth, has developed in the very different local contexts of Edinburgh and Adelaide, and how it is challenged by groups competing for the right to use and define public space. Each chapter examines a recent performative event in which festival debates and controversies spilled out beyond the festival space to activate the public sphere by intersecting with broader concerns and audiences. This book forges an interdisciplinary, comparative framework for festival studies to interrogate how festivals are embedded in the social and political fabric of cities and to assess the cultural impact of the festivalisation phenomenon.

The Digital Literary Sphere Simone Murray, 2018-10-01 How has the Internet changed literary culture? 2nd Place, N. Katherine Hayles Award for Criticism of Electronic Literature by The Electronic Literature Organization Reports of the book's death have been greatly exaggerated. Books are flourishing in the Internet era—widely discussed and reviewed in online readers' forums and publicized through book trailers and author blog tours. But over the past twenty-five years, digital media platforms have undeniably transformed book culture. Since Amazon's founding in 1994, the whole way in which books are created, marketed, publicized, sold, reviewed, showcased, consumed, and commented upon has changed dramatically. The digital literary sphere is no mere appendage to the world of print—it is where literary reputations are made, movements are born, and readers passionately engage with their favorite works and authors. In *The Digital Literary Sphere*, Simone Murray considers the contemporary book world from multiple viewpoints. By examining reader engagement with the online personas of Margaret Atwood, John Green, Gary Shteyngart, David Foster Wallace, Karl Ove Knausgaard, and even Jonathan Franzen, among others, Murray reveals the dynamic interrelationship of print and digital technologies. Drawing on approaches from literary studies, media and cultural studies, book history, cultural policy, and the digital humanities, this book asks: What is the significance of authors communicating directly to readers via social media? How does digital media reframe the "live" author-reader encounter? And does the growing army of reader-reviewers signal an overdue democratizing of literary culture or the atomizing of cultural authority? In exploring these questions, *The Digital Literary Sphere* takes stock of epochal changes in the book industry while probing books' and digital media's complex contemporary coexistence.

Trailblazers Carolyn Collins, Roy Eccleston, 2019-12-11 Australia's first female prime minister. The country's first female judge. The first woman to win the Archibald Prize for portraiture. Australia's first female chief diplomat. The nation's first female winemaker. These women were all trailblazers, but they have something else in common - every one of them was South Australian. And they are just a handful of the 100 remarkable women whose stories are told in this beautiful book, illustrated with hundreds of photographs. Written by historian Carolyn Collins and journalist Roy Eccleston, Trailblazers shines a light on the lives of these extraordinary women whose feats inspired their state, nation and, often enough, the world. Now they can inspire a whole new generation.
