The Alphabet and Sounds of Usa English: Truespel Book 4 Thomas E. Zurinkas,2006-06-01 This book is an in-dept analysis of the letter/sound correspondence of USA English. It combines two databases, one from the Times of London which counts the frequency of words in the newspaper, and the other from the truespel database of phonetic spelling of USA English. Together they combine to count letter and sound correspondence for frequency analysis. Each of the 26 letters of the alphabet is examined and lists are made of a letters most frequent position in words, top ten words containing the letter, and sounds spelled by the letter. Each of the 40 sounds are analyzed similarly. The analysis represents once and for all how the sounds of USA English are spelled as spoken (spoken word dialog being the same as newspaper text) and how often and in what way the letters of the alphabet portray those sounds.

Over 5 years in the making, this English rendition reveals every place the Hebrew Aleph Tav symbol was used as a free standing character symbol believed to express the strength of the covenant in its original meaning. The Aleph/Tav was also believed to be the mark of the divine hand for thousands of years by such famous rabbis as Nahum of Gimzo, Akiva, and R. S. Hirsch as well as the Apostle John who claimed in the book of Revelation that the symbol also incorporated Y'shua haMashiach (Jesus the Messiah) because of His divinity. Also revealed in C-MATS is the use of the Aleph/Tav as it is incorporated into the creation of hundreds of Hebrew words used thousands of times, thus taking our understanding of the scriptures to a whole new level. C-MATS comes in your choice of either Paleo or Modern Hebrew, Large Print 8.5x11 editions and include the New Testament.
