Earthshaker John Benjamin, 2012-10-19 What in the world is going on? Almost overnight our modern world has entered into a period of great change, very suddenly and unexpectedly, with the largest and most violent storms, earthquakes, solar flares, flooding, droughts, severe weather anomalies, and earth changes than the greater majority of us have ever experienced in our lifetimes. The largest drought ever recorded in Americas history struck so quickly in 2012 that it was called a flash drought, encompassing over half of the entire nation. The full extent of the damage that this has caused through crop loss has yet to be realized on the worlds markets, but there will most certainly be food shortages soon, and prices are already beginning to skyrocket worldwide! Water shortages and actual water wars are also beginning to occur. The rest of the entire world is also experiencing these same disastrous events. Gigantic earthquakes are happening worldwide causing untold destruction! So many people have lost their lives or have been displaced by these unexpected tragedies that there is simply no way to account for them all. India had a power outage so great that seven hundred million people were without electricity for weeks, and people worldwide fear that something of this same magnitude may also strike their area in the very near future. What in the world is going on here? This book provides the answer to this question and gives sound advice on what you can do to prepare yourself as well as your family and friends to survive the even more severe earth events that may be set to occur shortly in our modern, rapidly changing world. It is my earnest hope that this book will be a great help and source of strength for you in the uncertain times that lie directly ahead. John Benjamin

Stairway Vol. 1 Matt Hawkins,2018-08-22 When a postgraduate student discovers a way to unlock information hidden deep in our junk DNA, parts of bio-schematics and other pieces of baffling data are found. This discovery triggers the largest scientific initiative since the Manhattan Projects, with teams of scientists working to collect and collate this information. But will they find a stairway to heaven, or will they unleash something that will kill us all? COMPARISON TITLES If you like THINK TANK and TRANSHUMAN, you'll love STAIRWAY!

Introduction to Public Librarianship, Third Edition Kathleen de la Pena McCook,Jenny S. Bossaller,Felton Thomas Jr.,2018-12-18 Put simply, there is no text about public librarianship more rigorous or comprehensive than McCook's survey. Now, the REFORMA Lifetime Achievement Award-winning author has teamed up with noted public library scholar and advocate Bossaller to update and expand her work to incorporate the field's renewed emphasis on outcomes and transformation. This essential tool (Library Journal) remains the definitive handbook on this branch of the profession. It covers every aspect of the public library, from its earliest history through its current incarnation on the cutting edge of the information environment, including statistics, standards, planning, evaluations, and results;legal issues, funding, and politics;organization, administration, and staffing;all aspects of library technology, from structure and infrastructure to websites and makerspaces;adult services, youth services, and children's services;associations, state library agencies, and other professional organizations;global perspectives on public libraries; andadvocacy, outreach, and human rights. Exhaustively researched and expansive in its scope, this benchmark text continues to serve both LIS students and working professionals.

Academies and Free Schools in England Adrian Hilton,2018-08-06 Academies and Free Schools in England argues that there is a high degree of philosophical consensus and historical continuity on the policy of 'academisation' across the main political parties in England. It attempts to make sense of what are all essentially free schools by interviewing the architects of policy and their closest advisors, analysing the extent to which they invoke historical expressions of conservatism and/or liberalism in their articulation of that convergence. The book offers a unique insight into educational policy-making during the Conservative/Liberal-Democrat coalition era (2010-2015), and an in-depth analysis of the nature of liberty as it relates to state education in England. Providing original interview transcripts of the key reformers, and new accounts of a sometimes contentious history, Hilton identifies an elite 'policy community', connected by educational background, moral-religious frameworks, life experiences and shared networks of common ideology. Academies and Free Schools in England will be vital reading to academics and researchers in the field of education and education policy. It will also be of great interest to school governors, business leaders, political philosophers and those involved and interested in free schools.

Books Across Borders Miriam Intrator, 2019-06-19 Books Across Borders: UNESCO and the Politics of Postwar Cultural Reconstruction, 1945-1951 is a history of the emotional, ideological, informational, and technical power and meaning of books and libraries in the aftermath of World War II, examined through the cultural reconstruction activities undertaken by the Libraries Section of the United Nations Educational, Scientific and Cultural Organization (UNESCO). The book focuses on the key actors and on-the-ground work of the Libraries Section in four central areas: empowering libraries around the world to acquire the books they wanted and needed; facilitating expanded global production of quality translations and affordable books; participating in debates over the contested fate of confiscated books and displaced libraries; and formulating notions of cultural rights as human rights. Through examples from France, Poland, and surviving Jewish Europe, this book provides new insight into the complexities and specificities of UNESCO's role in the realm of books, libraries, and networks of information exchange during the early postwar, post-Holocaust, Cold War years.

Samuelson Friedman: The Battle Over the Free Market Nicholas Wapshott, 2021-08-03 A Financial Times Best Economics Book of 2021 From the author of Keynes Hayek, the next great duel in the history of economics. In 1966 two columnists joined Newsweek magazine. Their assignment: debate the world of business and economics. Paul Samuelson was a towering figure in Keynesian economics, which supported the management of the economy along lines prescribed by John Maynard Keynes's General Theory. Milton Friedman, little known at that time outside of conservative academic circles, championed "monetarism" and insisted the Federal Reserve maintain tight control over the amount of money circulating in the economy. In Samuelson Friedman, author and journalist Nicholas Wapshott brings narrative verve and puckish charm to the story of

these two giants of modern economics, their braided lives and colossal intellectual battles. Samuelson, a forbidding technical genius, grew up a child of relative privilege and went on to revolutionize macroeconomics. He wrote the best-selling economics textbook of all time, famously remarking I don't care who writes a nation's laws—or crafts its advanced treatises—if I can write its economics textbooks. His friend and adversary for decades, Milton Friedman, studied the Great Depression and with Anna Schwartz wrote the seminal books *The Great Contraction* and *A Monetary History of the United States*. Like Friedrich Hayek before him, Friedman found fortune writing a treatise, *Capitalism and Freedom*, that yoked free markets and libertarian politics in a potent argument that remains a lodestar for economic conservatives today. In Wapshott's nimble hands, Samuelson and Friedman's decades-long argument over how—or whether—to manage the economy becomes a window onto one of the longest periods of economic turmoil in the United States. As the soaring economy of the 1950s gave way to decades stalked by declining prosperity and stagflation, it was a time when the theory and practice of economics became the preoccupation of politicians and the focus of national debate. It is an argument that continues today.

Gender in an Era of Post-truth Populism Penny Jane Burke, Julia Coffey, Rosalind Gill, Akane Kanai, 2022-03-24 What does it mean to be pedagogical in a post-truth landscape? How might feminist thought and action work to intervene in this environment? *Gender in an Era of Post-truth Populism* draws together leading feminist scholars of gender and education to explore the current significance of the rise of populist policies and discourses and the challenges it poses to the hard-won battles regarding the rights of women, immigrants, and minorities. Offering the first detailed feminist intervention in this space, the collection explores the significance of populism for feminist pedagogies and practices in relation to gender and education. This exploration has significance for broader and urgent questions of our times regarding knowledge, authority, truth, power and harm and considers the potential for feminist interventions in relation to pedagogies and activism to speak back and disrupt populist agendas.

Humanizing Cities Through Car-Free City Development and Transformation Doheim, Rahma M., Farag, Alshimaa Aboelmakarem, Kamel, Ehab, 2020-06-05 The heavy dependency on private cars has shaped the design of cities. While offering fast, comfortable, and convenient commutes, cars have become the most popular method of transportation, but are also a health crisis due to the toxic emissions they release into the atmosphere as well as the high death toll from traffic accidents. For these reasons, there is a need to minimize the use of cars within cities in favor of greener and humanized urban design that would improve the quality of life and reduce the global threat of climate change. *Humanizing Cities Through Car-Free City Development and Transformation* is an essential publication that explores the concepts of car-free cities and city humanization as possible solutions to reduce the deteriorating effect on the environment and the community. The publication discusses the urban initiative to implement pedestrianization and humanization of cities and public spaces to

promote the concept of car-free living. Featuring coverage on a wide range of topics including city humanization, smart mobility, and urban policies, this book is ideally designed for urban planners, environmentalists, government officials, policymakers, architects, transportation authorities, researchers, academicians, and students.

Flat Broke in the Free Market: How Globalization Fleeced Working People Jon Jeter, 2009-05-11 A powerful, accessible, and eye-opening analysis of the global economy. Growing up in an African American working-class family in the Midwest, Jon Jeter watched the jobs undergirding a community disappear. As a journalist for the Washington Post (twice a Pulitzer Prize finalist), he reported on the freemarket reforms of the IMF and the World Bank, which in a single generation created a transnational underclass. Led by the United States, nations around the world stopped making things and starting buying them, imbibing a risky cocktail of deindustrialization, privatization, and anti-inflationary monetary policy. Jeter gives the consequences of abstract economic policies a human face, and shows how our chickens are coming home to roost in the form of the subprime mortgage scandal, the food crisis, and the fraying of traditional social bonds (marriage). From Rio de Janeiro to Shanghai to Soweto to Chicago's South Side and Washington, DC, Jeter shows us how the economic prescriptions of "the Washington Consensus" have only deepened poverty—while countries like Chile and Venezuela have flouted the conventional wisdom and prospered.

Nicotine Psychopharmacology Jack E. Henningfield, Edythe London, Sakire Pogun, 2009-02-01 The fact that tobacco ingestion can affect how people feel and think has been known for millennia, placing the plant among those used spiritually, honorifically, and habitually (Corti 1931; Wilbert 1987). However, the conclusion that nicotine - counted for many of these psychopharmacological effects did not emerge until the nineteenth century (Langley 1905). This was elegantly described by Lewin in 1931 as follows: "The decisive factor in the effects of tobacco, desired or undesired, is nicotine. . . ." (Lewin 1998). The use of nicotine as a pharmacological probe to understand physiological functioning at the dawn of the twentieth century was a landmark in the birth of modern neuropharmacology (Limbird 2004; Halliwell 2007), and led the pioneering researcher John Langley to conclude that there must exist some "receptive substance" to explain the diverse actions of various substances, including nicotine, when applied to muscle tissue (Langley 1905). Research on tobacco and nicotine progressed throughout the twentieth century, but much of this was from a general pharmacological and toxicological rather than a psychopharmacological perspective (Larson et al. 1961). There was some attention to the effects related to addiction, such as euphoria (Johnston 1941), tolerance (Lewin 1931), and withdrawal (Finnegan et al. 1945), but outside of research supported by the tobacco industry, addiction and psychopharmacology were not major foci for research (Slade et al. 1995; Hurt and Robertson 1998; Henningfield et al. 2006; Henningfield and Hartel 1999; Larson et al. 1961).

Handbook of Research on Family Literacy Practices and Home-School Connections Fox, Kathy R., Szech, Laura E., 2022-06-24 Research has shown that families and schools that partner together improve literacy outcomes for their

students. Family literacy includes homework and shared book reading but goes beyond these school-to-home activities to encompass family-generated practices. These literacies include family connections around activities such as cooking, play, religion, social, and community groups. Further study on the importance of the partnership between the home and school is required to implement best practices and provide students with the best possible education. The Handbook of Research on Family Literacy Practices and Home-School Connections seeks to understand the connections made and new information learned during the COVID-19 pandemic surrounding family literacy and shares updated practices and new perspectives on what it means to partner with families and embrace diverse family literacies in this new world. The book also provides teachers' perspectives on how future relationships between the school and home can be shaped through both narrative and research-based chapters. Covering key topics such as parenting, homework, and social distancing, this major reference work is ideal for administrators, school faculty, academicians, scholars, practitioners, instructors, and students.

Religion in the Era of Postsecularism Uchenna Okeja, 2019-08-22 Exploring the viability of new perspectives on secularisation and the idea of postsecularism, this book reflects on their relevance when considered in the context of different societies within and outside the West. The topic of secularisation has been recently reconsidered by prominent theorists, such as Jürgen Habermas, Talal Asad, Charles Taylor, and José Casanova. Offering a comparative critique of postsecularism, the contributors extend the discourse on postsecularism to include non-Western experiences, providing comprehensive perspectives on the role of religion in the public sphere and considering the validity of the concept of postsecularism. Drawn from a variety of disciplines, the contributors articulate a coherent analysis of the role of religion in the public sphere from a perspective that engages in the envisaged dialogue. This insightful book will be important for those researching secularism and postsecularism, especially from a non-Western perspective, and it will also be of interest to scholars working on politics and religion in general, political philosophy, and African studies.

Zodiac Calendars in the Dead Sea Scrolls and Their Reception Helen R. Jacobus, 2014-10-30 The ancient mathematical basis of the Aramaic calendars in the Dead Sea Scrolls is analysed in this investigation. Helen R. Jacobus re-examines an Aramaic zodiac calendar with a thunder divination text (4Q318) and the calendar from the Aramaic Astronomical Book (4Q208 - 4Q209), all from Qumran. Jacobus demonstrates that 4Q318 is an ancestor of the Jewish calendar today and that it helps us to understand 4Q208 - 4Q209. She argues that these calendars were taught in antiquity as angelic knowledge described in 1 Enoch and the Book of Jubilees. The study also encompasses Babylonian, Hellenistic, Byzantine astronomy and astrology, and classical and Jewish writings. Finally, a medieval Hebrew zodiac calendar related to 4Q318 with an astrological text is published here for the first time.

Lost Orthodoxy (Paternal Light - Heart of the Gospel through the Eyes of the Kings of Christian Theology St. Justin Martyr and St. Irenaeus of Lyons) Jonathan Ramachandran, 2018-11-24 The Lost Orthodoxy Book attempts to

Research the Hope of Christ Centered Universalism by comparing Bible Verses to the Exegesis done by St. Justin Martyr and St. Irenaeus of Lyons. It asserts arguments in support of the concept of ages or aeons or olams to come in St. Irenaeus' usage of these related Biblical Words together with St. Justin Martyr's harsh language regarding the punishment of the Wicked which has also been interpreted to refer to some annihilation concept. Hence the usage by these saints either implying ages or end by destruction by their language describing the punishment of the wicked may thus imply an end in reference to the original words found likewise in Holy Scripture too. The sin in the Body and Soul may thus be referred to as eternally destroyed where the damaged soul and spirit may be saved thereafter. In support of such an exegesis, some First Christianity Writings from other early Church leaders and Christian Prophecies such as the Apocalypse of Peter and the Sibylline Oracles are considered where these have a Section Describing God Saving the Wicked post Judgment after a long time as per the prayers of the Saved Christian Righteous for these to be Rescued Finally from the Lake of Fire or Gehenna itself thereby cancelling the Eternal Sentence by His Great Mercy which Triumphs over Judgment and giving these a lower place in another Eternal Life thereafter.

Religious Identity and Cultural Negotiation Jenny McGill, 2016-07-22 Given increasing global migration and the importance of positive cross-cultural relations across national borders, this book offers an interdisciplinary and intercultural exploration of identity formation. It uniquely draws from theology, psychology, and sociology--engaging narrative and identity theories, migration and identity studies, and the theologies of identity and migration--and builds on them in an unprecedented study of international migrants to construct an initial theology of Christian identity in migration. New sociological research describes the social construction of religious, ethnic, and national identities among non-North American evangelical graduates who entered the United States to pursue advanced academic studies from 1983 to 2013. It provides an intercultural account of Christian identity formation in the context of migration, transnationalism, and globalization. It ultimately argues that an integral component of Christian identity-making involves the concept of migration, of movement, toward a transformation.

In Defense of Free Speech in Universities Amy T.Y. Lai, 2023-09-26 In this book, Amy Lai examines the current free speech crisis in Western universities. She studies the origin, history, and importance of freedom of speech in the university setting, and addresses the relevance and pitfalls of political correctness and microaggressions on campuses, where laws on harassment, discrimination, and hate speech are already in place, along with other concepts that have gained currency in the free speech debate, including deplatforming, trigger warning, and safe space. Looking at numerous free speech disputes in the United Kingdom, the United States, and Canada, the book argues for the equal application of the free speech principle to all expressions to facilitate respectful debates. All in all, it affirms that the right to free expression is a natural right essential

to the pursuit of truth, democratic governance, and self-development, and this right is nowhere more important than in the university.
