Greatest Blacks Ever Ambassador Elliston Rahming ,Briana Louise Cacuci,2017-06-16 From an article entitled "History's Black Hole" from the January 10, 2016 global edition of the New York Daily News, Arthur Browne opines, "Across every field of endeavor, from the ministry to medicine and from education to entrepreneurship, book merchants balk at memorializing black experience and accomplishments." Essentially, this book is a celebration of black accomplishments—over centuries and across continents—and seeks to fill a portion of that "black hole." Of the roughly 7 billion people who inhabit this planet, some 1.5 billion are classified as white, and blacks account for 1.1 billion. The remaining over 4 billion are somewhere in the middle. Yet, throughout the years, a paucity of written materials have recorded the positive influences and myriad contributions that the great number of black citizens have made toward global peace, progress, prosperity, and pleasure.

Words of the Founding Fathers Steve Coffman,2012-08-02 This collection gathers quotations, passages and documents attributed to America's six essential founders. Topics include liberty, religion, revolution, republican government, the constitution, education, commerce, class, war and peace, and the disenfranchised (slaves, Native Americans and women). Each quotation is sourced and quoted fully enough for the reader to discern its historical and philosophical context.

The Meaning Is in the Dirt Marlette B. Reed, B.Ed., MA,Annette M. Lane, RN, PhD,2019-11-30 From the authors of Making Meaning in Older Age and Older Adults: Understanding and Facilitating Transitions (now in its third edition) Many demands in life can impede meaning-making. The pressures of work, ongoing education, raising a family, caregiving for older relatives—and more—compete for our time to pursue meaning in life. The work of character development, the effort and discipline(s) needed for purposeful living, and learning healthy ways of dealing with adversity can get short-circuited, leaving people with a sense of internal emptiness or quiet desperation. The desire to live a perfect life, one untroubled by "messiness," whether in our homes or in our life choices, can leave us with the nagging question: "What's it all for?" This book offers short and easy-to-read meditations that address making meaning through the metaphor of dirt. With their

decades of working with people facing challenging circumstances, identical twins Marlette and Annette explain why making meaning is important, and they outline practical ways in which adults can find meaning in their lives. Transparent and real, the authors address the challenging circumstances we may think disturb our lives unfairly (but may, in fact, lead to greater richness), as well as discuss the impact in the world of living purposefully. The authors write with insight and warmth as well as personal experience of adversity; they provide persuasive reasoning for the importance of living intentionally and meaningfully in the messiness of life. The meaning really is in the dirt!

A Million Little Miracles Mark Batterson, 2024-11-19 The New York Times bestselling author of *Win the Day* reminds us of the millions of miracles God performs every day and inspires us to live with a clearer sense of identity and purpose. Think you've never experienced a miracle? With all due respect, you have never not. In fact, you are one! There never has been—and there never will be—anyone else like you. That isn't a testament to you. It's a testament to the God who created you. Your fingerprint, eyeprint, and voiceprint are unlike anyone else's. Simply put, you matter to God. Most of us take everyday miracles for granted, including the one that stares back at us in the mirror. It's time to take them for gratitude. Why is that so important? Because whatever you don't turn into praise turns into pride. The miracle of life becomes mundane. We get so wrapped up in our own little world, we end up worshipping a god who looks like us, acts like us, and thinks like us. It's no wonder we've lost our wonder. But there is a way to recapture holy curiosity! In *A Million Little Miracles*, New York Times bestselling author Mark Batterson reveals three miraculous truths that awaken us to carpe wonder for the Creator and His creation: 1. God Is Bigger Than We Think—we can rest in His wisdom and strength 2. God Is Closer Than We Realize—we never have to do life alone 3. God Is Better Than We Imagine—we can reclaim our childlike wonder A million little miracles are waiting to be discovered, including the miracle called you.

This Land, This South Albert E. Cowdrey, 2021-12-14 Here is the story of the long interaction between humans, land, and climate in the American South. It is a tale of exploitation and erosion, of destruction, disease, and defeat, but also of the persistent search for knowledge and wisdom. It is a story whose villains were also its victims and sometimes its heroes. Ancient forces created the southern landscape, but, as Albert E. Cowdrey shows, humankind from the time of earliest habitation has been at work reshaping it. The southern Indians, far from being the natural ecologists of myth, radically transformed their environment by hunting and burning. Such patterns were greatly accelerated by the arrival of Europeans, who viewed the land as a commodity to be exploited for immediate economic benefit. Cowdrey documents not only the long decline but the painfully slow struggle to repair the damage of human folly. The eighteenth century saw widespread though ineffectual efforts to protect game and conserve the soil. In the nineteenth century the first hesitant steps were taken toward scientific flood control, forestry, wildlife protection, and improved medicine. In this century, the New Deal, the explosion in scientific knowledge, and the national environmental movement have spurred more rapid improvements. But the efforts to harness the South's great rivers, to save its wild species, and to avert serious environmental pollution have often had equivocal results. Originally published in 1983 and needed now more than ever, *This Land, This South* was the first book to explore the cumulative impact of humans on the southern landscape and its effect on them. In graceful and at times lyrical prose, Albert Cowdrey brings together a vast array of information. Now revised and updated, this important book should be read by every person concerned with the past, present, or future of the South.

Race and Education in New Orleans Walter Stern, 2018-05-04 Surveying the two centuries that preceded Jim Crow's demise, *Race and Education in New Orleans* traces the course of the city's education system from the colonial period to the start of school desegregation in 1960. This timely historical analysis reveals that public schools in New Orleans both suffered from and maintained the racial stratification that characterized urban areas for much of the twentieth century. Walter C. Stern begins his account with the mid-eighteenth-century kidnapping and enslavement of Marie Justine Simir, who eventually secured her freedom and played a major role in the development of free black education in the Crescent City. As Simir's story and legacy illustrate, schools such as the one she envisioned were central to the black antebellum understanding of race, citizenship, and urban development. Black communities fought tirelessly to gain better access to education, which gave rise to new strategies by white civilians and officials who worked to maintain and strengthen the racial status quo, even as they conceded to demands from the black community for expanded educational opportunities. The friction between black and white New Orleanians continued throughout the nineteenth century and well into the twentieth, when conflicts over land and resources sharply intensified. Stern argues that the post-Reconstruction reorganization of the city into distinct black and white enclaves marked a new phase in the evolution of racial disparity: segregated schools gave

rise to segregated communities, which in turn created structural inequality in housing that impeded desegregation's capacity to promote racial justice. By taking a long view of the interplay between education, race, and urban change, Stern underscores the fluidity of race as a social construct and the extent to which the Jim Crow system evolved through a dynamic though often improvisational process. A vital and accessible history, *Race and Education in New Orleans* provides a comprehensive look at the ways the New Orleans school system shaped the city's racial and urban landscapes.

Chaplaincy: What in "H" Was I Thinking? Susan R. Street-Beavers D.Min., 2015-11-25 For many, the route of coming into and through CPE and the process of self-discovery is mysterious and puzzling, fraught with fear and uncertainty. With amazing clarity and insightful wisdom, Dr. Susan Street-Beavers demystifies the CPE process. You are guided step-by-step with humor, poetry, prayer, scripture, and thought provoking questions through the story of Dr. Susie's journey to wholeness. Whether you are a nurse, social worker, therapist, pastor, elder, leader in your church community, or already a chaplain or just thinking and praying about it, this book offers skills to enhance self-awareness, growth in interpersonal relationships, and the strengthening of your ministry. An absolute must read for seminary students, church leaders and all who might consider participating in Clinical Pastoral Education (CPE) and desire their experience to be a journey of wholeness. -Dr. Frank A. Thomas In this book, Dr. Susie gives the reader a view of her personal journey through the clinical pastoral education (CPE) process. From this book, the reader will learn that many people become chaplains, as a result of going through the CPE process. Whether one becomes a chaplain or serves in another ministry, the self-reflection and growth experienced from the CPE process help make us better people. Dr. Susan Street-Beavers shares that the growth that she experienced caused her to write, *What in h was I thinking?* The h means heaven. The benefits gained by going through the CPE process can help to aid the CPE journeyer in her/his walk with God as we strive to share divinity with those that we are called to serve. -Dr. James A Nooks

The One Year Book of Amazing Stories Robert Petterson, 2018-10-09 ECPA 2020 Christian Book Award Finalist! You wouldn't believe it, but . . . James Earl Jones, the voice of Darth Vader, grew up mute. Michael Jordan was cut from his high school basketball team. Albert Einstein was bullied mercilessly in school. Beethoven's mom almost aborted him. Life takes the strangest sharp turns—and sometimes, U-turns. Robert Petterson—popular speaker, storyteller, and author—has been a student for his entire life of what God is teaching us through those real-life U-turns. In this book, he compiles 365 amazing stories that teach lessons you won't easily forget. Each entry is written in the rest-of-the-story style popularized by Paul Harvey. With *The One Year Book of Amazing Stories*, you'll marvel at how God has used the lives of these ordinary people to change the course of human history.

Your Best Destiny Wintley Phipps, 2015-10-01 When you imagine what it would take for your life to be truly great—for you to become your best, most fulfilled self—do you dream of something more than what you have now? More money . . . more

attention . . . more significance? What you may be missing is the one thing that actually gives your life ultimate value, meaning, and purpose. Your Best Destiny helps you find it through a highly insightful personal assessment tool that will reveal eight keys God has placed deep within you to unlock your true character and help you become who you were born to be. In this rich and encouraging book, Wintley Phipps—pastor, recording artist, and founder of the U.S. Dream Academy, the organization Oprah Winfrey honored with the Oprah Winfrey Angel Network “Use Your Life” Award—shares what he has learned (sometimes the hard way) about what it takes to become “the best me I can be.” Join him as he leads you on a path to change your focus from what you have and do to who you are. Start today on the path to a truly great life, and step into your God-given destiny. (Includes an access code to the Your Best Destiny Personal Assessment Tool to reveal your personal strengths and areas for growth.)

Liberation and the Cosmos Barbara A. Holmes, 2023-02-28 The rich legacy of black critical thought, creative expression, and religious reflection come together in these creatively imagined conversations between the elders about the shape and conditions of Black liberation. Barbara A. Holmes has defined key issues of freedom and identity, hypothesizing a meeting of the ancestors assembled on the other side to discuss them. Imagine a conversation between Barbara Jordan and Thurgood Marshall on what freedom looks like in relation to law and politics. Or, between Tupac Shakur, Nina Simone, and James Baldwin on art, culture, and liberation. Malcolm X and Harriet Tubman discuss freedom and wholeness, while Audre Lorde, Fannie Lou Hamer, and George Washington Carver talk about liberated bodies. These imagined dialogues open up rich reflection and insight and offer a unique vantage point for understanding the luminaries of liberation down through the generations. An important resource for the contemporary task of Black liberation.

Black October the Missing Moment Wilson J. Washington Jr., 2017-01-05 WE (Black Men) were all equal leaders that day of the original Million Man March. It was a significant moment in African American history, a “Missing Moment.” History has shown us time and time again that true change engages momentum when we experience a “defining moment.” As we continue to embrace the “defining moment” changes are destined to occur without much additional effort and progress will be realized. It is at this time we can look back and call the change that occurred as a defining moment, a pivotal moment, “Black October - The Missing Moment”.

about Museums, Culture, and Justice to Explore in Your Classroom Therese Quinn, 2020-01-24 Museums are public resources that can offer rich extensions to classroom educational experiences from tours through botanical gardens to searching for family records in the archives of a local historical society. With clarity and a touch of humor, Quinn presents ideas and examples of ways that teachers can use museums to support student exploration while also teaching for social justice. Topics include disability and welcoming all bodies, celebrating queer people’s lives and histories, settler colonialism and decolonization, fair workplaces, Indigenous knowledge, and much more. This practical resource invites classroom

teachers to rethink how and why they are bringing students to museums and suggests projects for creating rich museum-based learning opportunities across an array of subject areas. Book Features: Links museums, classroom teaching, and social movements for justice. Focuses on the cultural contributions of people of color, women, and other marginalized groups. Organized around probing questions connecting history and contemporary events, museum formats and content, and activities. Includes pull-out themes and resources for further reading.

My Story His Glory Gwen Lewis, 2022-11-03 From the very first page of *My Story His Glory*, readers quickly connect with the colorful characters of this engaging work by first time author, Gwen Lewis. We are quickly introduced to the main character of the story, a little girl born into poverty and inequality. We learn that she grew up during a time when all the social institutions were segregated, and Jim Crow laws prevailed. She is the ninth of ten children born to Ruth and Ab Mason. Demoralized by bigotry and hatred, her parents tried to instill a sense of pride and goodness into their children. Though neither of her parents were formally educated, they championed education as the vehicle to independence and a better way of life for their children. The book reveals intimate details about her impoverished home life in an honest, unpretentious way. Life was sometimes hard, but there were also times of contentment and joy. As we continue to follow her story, we also see ourselves in the struggles she faced when she eagerly left home for college. Choosing to attend the historic Tuskegee Institute located forty miles from where she grew up was a point of great pride for her. We witness the grace and goodness of God and how he never left her alone. It is interesting as well as inspiring to witness the love and compassion of God as he carried her when she didn't even know he was there. Later she would learn to recognize his gentle hand. We laugh at her childhood antics, cry with her as she painfully recalls personal losses, and rejoice with her as she triumphs over her enemies! After reading *My Story His Glory* we walk away inspired, with a desire to know this ever-present God she affectionately calls Father.

My Work Is That of Conservation Mark D. Hersey, 2011-05-01 George Washington Carver (ca. 1864-1943) is at once one of the most familiar and misunderstood figures in American history. In *My Work Is That of Conservation*, Mark D. Hersey reveals the life and work of this fascinating man who is widely--and reductively--known as the African American scientist who developed a wide variety of uses for the peanut. Carver had a truly prolific career dedicated to studying the ways in which people ought to interact with the natural world, yet much of his work has been largely forgotten. Hersey rectifies this by tracing the evolution of Carver's agricultural and environmental thought starting with his childhood in Missouri and Kansas and his education at the Iowa Agricultural College. Carver's environmental vision came into focus when he moved to the Tuskegee Institute in Macon County, Alabama, where his sensibilities and training collided with the denuded agrosystems, deep poverty, and institutional racism of the Black Belt. It was there that Carver realized his most profound agricultural thinking, as his efforts to improve the lot of the area's poorest farmers forced him to adjust his conception of scientific

agriculture. Hersey shows that in the hands of pioneers like Carver, Progressive Era agronomy was actually considerably greener than is often thought today. My Work Is That of Conservation uses Carver's life story to explore aspects of southern environmental history and to place this important scientist within the early conservation movement.
