Las letras de la provincia en la República Rafael Enrique Acevedo Puello,2017-10-01 [Este libro] pertenece al campo de la historia de la educación. Pero conocidas las tradicionales deficiencias que en Colombia muestra ese sector del análisis histórico, habría que advertirle al lector que se trata de algo que va mucho más lejos y en otras direcciones de lo que habitualmente se nos ofrece bajo ese rubro. Y ello porque el objeto analizado, definido de una manera flexible, como lo indica el propio subtítulo, se encuentra en el cruce de varios elementos que no son sencillamente educativos. Por una parte, la presencia determinante de la política en una sociedad posrrevolucionaria (1821-1886) y por otra, el mundo de los letrados (en sus distintas jerarquías) y la cultura intelectual de una época, analizada en una de sus mayores dimensiones, es decir como cultura escolar, observada en su manera particular de hacerse cultura de la sociedad a partir de los bancos escolares. [...] Estamos sin lugar a dudas frente a un buen libro de análisis histórico y es de esperar que en el futuro obras de similar naturaleza sigan apareciendo y sirvan para animar los debates sobre la historia de Colombia, por fuera de cualquier espíritu de partido y sin las presiones desmedidas que la política del día impone al análisis histórico hoy en Colombia. La fisonomía del libro medieval y moderno: entre la funcionalidad, la estética y la información Sánchez Oliveira, Camino,Gamarra Gonzalo, Alberto,2019-11-25 Comprender el libro antiguo difícilmente será posible si atendemos solo a su contenido textual. En los siglos medievales y modernos la fisonomía de los libros tuvo un papel crítico en el modo en que eran producidos y consumidos estos materiales. La elección de una tipografía frente a otra en la composición del texto, la presencia, o no, de ilustraciones (y su mayor o menor relación con el contenido, así como su valor estético), o la elección de un determinado formato, entre otros tantos aspectos, eran muchas veces decisiones meditadas por sus creadores o costeadores, e implicaban revestir al libro con unos valores nuevos que lo diferenciaban. Determinar el alcance y originalidad de estas intervenciones, los propósitos que se hallaban detrás de ellas y sus responsables, así como la compleja relación en la frontera, cada vez más difusa, entre la funcionalidad y el placer estético son temas que merecen ser estudiados en profundidad a través de un enfoque multidisciplinar y atento a las particularidades de cada época y lugar. Muchas de estas cuestiones fueron abordadas y discutidas los días 12, 13 y 14 de septiembre de 2018 en Zaragoza en el III Congreso Internacional sobre el Libro Medieval y Moderno. La participación de más de cuarenta comunicaciones de muy diverso contenido y orientación, firmadas tanto por investigadores consagrados como por jóvenes promesas, supone, en este sentido, una importante contribución a este campo.
