Proficiency Through Poetry Stephanie Jeppson,

Poem Central Shirley McPhillips,2023-10-10 In everything we have to understand, poetry can help. Tony Hoagland, *Harper's* , April 2013 In *Poem Central: Word Journeys with Readers and Writers* , Shirley McPhillips helps us better understand the central role poetry can play in our personal lives and in the life of our classrooms. She introduces us to professional poets, teachers, and students---people of different ages and walks of life---who are actively engaged in reading and making poems. Their stories and their work show us the power of poems to illuminate the ordinary, to nurture, inspire and stand alongside us for the journey. *Poem Central* is divided into three main parts;-weaving poetry into our lives and our classrooms, reading poems, and writing poems. McPhillips has structured the book in short sections that are easy to read and dip into. Each section has a specific focus, provides background knowledge, shows poets at work, highlights information on crafting, defines poetic terms, features finished work, includes classroom examples, and lists additional resources. In *Poem Central* -; a place where people and poems meet-;teachers and students will discover how to find their way into a poem, have conversations around poems, and learn fresh and exciting ways to make poems. Readers will enjoy the dozens of poems throughout the book that serve to instruct, to inspire, and to send us on unique word journeys of the mind and heart.

Story Katie Cunningham,2023-10-10 Stories are all around us. From our digital newsfeeds, interactions with one another, to watching a movie or listening to a curated playlist, we see and hear different tales told to us in various ways.In

her book, *Story: Still the Heart of Literacy Learning*, author and teacher Katie Egan Cunningham reminds us that when we bridge reading strategies with the power of story, we can deepen literacy learning and foster authentic engagement with students. Cunningham shows how to create classrooms of caring and inquisitive readers, writers, and storytellers. Inside you'll find: How to build a diverse, multicultural classroom library that reflects all voices through rich, purposeful, and varied texts Numerous examples of multi-genre and multi-modal stories from children's and young adult literature A practical toolkit at the end of each chapter to demonstrate how to make stories come alive in any classroom Throughout the book, Cunningham shares her experiences as a teacher, literacy specialist, and staff developer and how building and talking about stories brings them to life. She honors the importance of teaching strategies to read different kinds of text, to write across genres, and to speak and listen with purpose while reminding us about the importance of story.

Practice with Purpose Debbie Diller,2023-10-10 In her 30 years as an educator, Debbie Diller has closely examined classroom practice, asking Why? What's the purpose? Watching primary students work successfully at literacy work stations, she wondered with teachers, Why don't we have upper-grade students doing this? Could we kick it up a notch? In her new book, Debbie shows teachers of grades three-to-six how to structure their classrooms so that all students can be successful doing meaningful independent work using literacy work stations. *Practice with Purpose* offers guidance on establishing routines for independent reading and response writing, as well as step-by-step instructions on how to set up and manage a variety of hands-on literacy work stations appropriate for intermediate students. The New York Times Parent's Guide to the Best Books for Children Eden Ross Lipson, 2000-11-14 The Classic Guide That Helps You Select the Books the Child You Know Will Love In this third, fully revised and updated edition of *The New York Times Parent's Guide to the Best Books for Children*, the children's book editor of *The New York Times Book Review* personally selects and recommends books for children of every age. The most comprehensive and authoritative book of its kind has been completely updated for the new millennium. It contains hundreds of new entries, many expanded descriptions, and notations of additional companion and related titles -- more than 1,700 in all. The best-loved classics of the twentieth century are included, as well as a thoughtful selection of outstanding titles from the last decade. Six sections are organized according to reading level: Wordless, Picture, Story, Early Reading, Middle Reading, and Young Adult. In addition to a summary of the book, each entry provides the essential bibliographic information you need to find a book in your local library

or bookstore, including title author and/or illustrator hardcover and/or paperback publisher and publication year major awards related titles The unique and most popular feature of the guide is its system of special indexes -- more than sixty in all. They make it easy for parents and grandparents, teachers and librarians, even children themselves, to match the right book to the right child. Browse through the indexes and find titles for every interest and mood: picture books about cats, mice, or dinosaurs for babies; funny books to read aloud to toddlers; series about family life or school or fantasy adventures for a middle-grade child; books on divorce or death; and coming-of-age novels just right for someone starting junior high school. There are also indexes for books about minorities and religion, an age-appropriate reading-level index, and much more. Lavishly decorated with more than three hundred illustrations from representative titles, the guide also features extra-wide margins for notes on which of your children liked which book, at what age, and why. Thus the guide becomes a family reading record as well as an invaluable resource you'll use again and again.

Using Poetry Across the Curriculum Barbara Chatton,2010-01-13 This comprehensive listing and discussion of poetic works supports the standards of all areas of the curriculum, helping librarians and teachers working with kindergarten through middle school students. This second edition of Using Poetry Across the Curriculum: Learning to Love Language offers a comprehensive list of poetry anthologies, poetic picture books, and poetic prose works in a wide variety of subject areas. While it maintains the original edition's focus on ideas and resource lists for integration of poetry into all areas of the curriculum, it is thoroughly revised to cover current issues in education and the wealth of new poetry books available. The book is organized by subject areas commonly taught in elementary and middle schools, and, within these, by the national standards in each area. Numerous examples of poetry and poetic prose that can be used to help students understand and appreciate aspects of the standard are listed. A sampling of units that arise from groups of works, writing and performance ideas, and links across the curriculum is also included. While many teaching ideas and topics provide references to the standards they meet, this title is unique in starting with those standards and making links across them.
