Before Dr. Mark Stone retired from the Center for Disease Control, his final assignment was to move all samples of viruses and bacteria to a top secret facility in Nashville, TN—a facility strictly off the books to avoid terrorists from stealing potentially deadly diseases. The building was secured, but no one could have foretold of the massive earthquakes, floods, meteors, and tornadoes that rip the planet apart. The vials are broken, mixing and leaking into the heart of Nashville, infecting what few survivors exist. Now that the bacteria have bonded and mutated, they are face with real life zombies. The CDC calls on one of the few surviving men with the knowledge to help them treat and contain the situation but Mark has problems of his own. Can he get his nanotech up and running before the human race is finally erased from the planet, or will he run out of time?

John, 42, is employed by Sam Adams, a retired military and CIA operative who now owns a private security firm in Franklin Park, Illinois. When John is targeted for assassination in a parking garage at O'Hare Airport, he has no time to think. He responds automatically, twenty years of intense training activating muscle memory, and he takes weapons away from the twelve assassins and kills them all in a life-and-death shootout. John survives despite overwhelming odds, a debilitating shoulder wound, and surveillance by persons unknown who hacked into the Chicago Police Department's security camera network. Despite being weak from loss of blood and woozy from the effects of morphine, John and another assassin, code-named Jimmy Carter, travel across country in a desperate attempt to thwart a conspiracy that could destroy the world.

Running Out of Time (B&W Interior) Robert Prah, Jr., 2022-06-15 Running Out of Time: Chasing Red, White, and Blue (B&W Interior) By: Robert Prah, Jr. Originally created for his daughter to detail his run for public office, Running Out of Time: Chasing Red, White, and Blue chronicles this pursuit by Robert Prah, Jr. during a very challenging time in a district that has been historically "blue" forever. It details his personal story of running for the Pennsylvania state legislature and all of the challenges that he faced, especially from previous relationships and social media. It talks about being the "underdog" running against a lifelong Democrat-turned-Republican, where, according to many polls, Prah was favored to win the special election. The author also highlights how several committee members, past candidates and elected officials have changed their political affiliation in recent years. This story is interesting in the sense that Prah ran in three elections (Special Election in March 2020, Primary in June 2020, General in November 2020) all during a global pandemic. It shares the ups and downs of running for office and how the pandemic and social media impacted the outcome of many races in November 2020. The author hopes that readers take away that social media has had an impact on our lives, both positive and negative, and especially in politics and elections. We tend to not look at candidates individually, but rather as a "D" or an "R." We need to do a better job of evaluating candidates and asking questions rather than what we see on social media.

Just Do It Because You Are Running Out of Time! Russell J. Smith, 2011-11-01 One day Russell J. Smith was sitting in his restaurant, having just laid-off two shifts of workers, and with no business coming through the front door. The bills were due and Russell had to come up with a new plan of action that would change his situation and enable him to fulfill his dream of personal success and achievement. *Just do it because you are running out of time!* is the result of Russell's innovative way of reinventing himself. At one point or another, all of us have made promises to ourselves that we would achieve a certain thing. Over time, that dream tends to die, or it sits on a shelf collecting dust. The inspiration embodied in these pages helps the reader to return to the dream and bring it into reality! Focusing on overcoming fear and feelings of failure and inadequacy, this is a book that will transform your life.

Running Out of Control R. Alan Hedley, 2002 * Shows how our attempt to gain control through technology and interconnected systems actually leaves us more open to threat * Uses a concrete systems-theory approach to explain globalization's impact on contemporary society * Presents approaches and strategies to correct the threats of a globalized world Is globalization reducing our ability to guide our futures? Hedley contends that although humankind has historically gained increasing power over its fate, the trajectory of control is now on a downward course. While our globalized systems provide greater scale, access, speed, and efficiency than ever before, we are paradoxically becoming more vulnerable to unseen risks thanks to the massive information and communication infrastructure. This book tells us how to take back control.

Time Is Running Out! Daniel G. Ochoa, Discover the profound truth of our generation's role in Christ's approaching return. Prepare for the ultimate separation and embrace the urgency of following Him. *Time Is Running Out!* presents a

compelling case supported by scripture that the current generation is destined to witness the return of Christ. Despite the urgency and significance of this revelation, many individuals seem indifferent and disinterested in exploring what scripture has to say about these prophetic events. Author Daniel G. Ochoa challenges you to consider your readiness for Christ's return and the possibility of facing him after death. Through a careful examination of biblical passages, he delves into the essence of being a true follower of Christ, raising essential questions: Do we truly understand the implications of following Christ? Are we prepared to make the necessary commitments to align our lives with His teachings? A thought-provoking wake-up call, this study urges you to delve into scriptural evidence, gain a deeper understanding of your role in this pivotal time, and embrace a genuine commitment to follow Christ.

The Causality of Time - Conception Jonnathan Strawthorne, 2018-07-09 Talmido and Si-tatious flee across the landscape of ancient Mesopotamia with tens of thousands of people devoted to their cause – freedom and personal liberty. They settle at the headwaters of the Tigris river and the Sea above Akkad to build a city to rival Ninevah and Babylon. They battle Assyrian and Babylonian army contingents as they struggle to establish their burgeoning society of free men and women. The Elamites lend troops and weapons to assist in their titanic struggle to develop another economic bridge to the interior of Mesopotamia for non-national Chaldean and Kassite traders. Ke-zith-rist, the first to emerge of his race, is running out of time. A traitor is in the midst, and he must be found before the Empire destroys the fleeing rebels. Waiting for the traitor to expose himself Ki-zith-rist patiently bides his time while rescuing a famous particle physicist from certain death. The results cause a wave of destruction the likes the galaxy had never known. Millions of years later he is commissioned, by the Annunaki, to send out autonomous robots to search for habitable worlds and to set up teleportation stargates. Questions arise as to the reason, and Ki-zith-rist formulates a plan of action to usurp his would be masters. Mardupoe, one of the Annunaki, embarks on a campaign to subvert the Primus' and Authorial's stated missions. His cohorts devise a plan to confuse any attempt by the 14th dimension to destroy the prime directives of the Trilateral Perigee. The Primus, entrusted with maintaining order in the 14th dimension as the Originator is away on business in the 33rd, is faced with open rebellion and has to come up with a plan of action to deal with the rebels. Co-opting the Authorial and the Watchers the Primus engages the Trilateral Perigee to thwart the Annunaki and their supporters in their effort to subjugate the known universe under their influence. The Authorial becomes increasingly worried at the decisions contemplated by the Primus and decides to take matters into his hand. With an abundance of alternate universes adjoining the universe of Homo sapiens the Authorial chooses to create a wormhole to connect to an adjacent universe if an unsavory outcome were to befall the creation of Ki-zith-rist and Axhereim.

Called to Create Jordan Raynor, 2017-11-07 We were created by an infinitely creative God to reflect his love and character to the world. One way we do that is by continuing his creative work. In this energizing book, serial entrepreneur and bestselling author Jordan Raynor helps artists, entrepreneurs, writers, and other creatives reimagine our work as service to God and others, addressing such penetrating questions as - Is my work as a creative really as God-honoring as that of a pastor or missionary? - What does it look like to create not to make a name for myself but to glorify God and serve others? - How can I use my work to fulfill Jesus's command to create disciples? - Will what I make today matter in eternity? To answer these questions, Raynor shares compelling stories from an eclectic group of 40+ Christian entrepreneurs, including the founders of TOMS Shoes, Charity: Water, Chick-fil-A, In-N-Out Burger, Guinness, HTC, and Sevenly, as well as nontraditional entrepreneurs such as C. S. Lewis, Johann Sebastian Bach, and J. R. R. Tolkien. Raynor's show rather than tell, story-driven style makes you feel as if you are sitting at the feet of some of the godliest and most successful entrepreneurs of all time. Perfectly poised to reach today's growing creative class, this unique work restores God's position as the first entrepreneur, helping readers see the eternal value in the work they do today.

Ecological Communication and Ecoliteracy Maria Bortoluzzi, Elisabetta Zurru, 2024-05-02 This open access volume is a call for ecological awareness and action through communication. It offers perspectives on how we, as humans, posit ourselves in relation to, and as part of, the environment in both verbal and non-verbal discourse. The contributions investigate a variety of situated communicative practices and how they instantiate and potentially influence our actions. Through the frameworks of ecolinguistics, multimodal studies and ecoliteracy, the book discusses how the environmental crisis is communicated as an urgent global and local issue in a variety of media, texts and events. The contributions present a wide range of case studies (including news articles, institutional websites, artwork installations, promotional texts, signposting, social campaigns and other), and they explore how communicative actions can help meet the challenges of ecologically-oriented change. The focus is on the impact that linguistic and multimodal communication can have on acting in, with and towards the environment seen as living ecosystems, or 'lifescapes'. The chapters offer a reflection on the way we

experience, endorse, reframe and resist value systems in ecological communication, and propose alternative and healthier perspectives to respect and preserve the common and nurturing lifescapes through awareness and action.
